### ***Disclaimer***

We have made every effort to ensure the accuracy of this directory. However, provider information such as phone numbers may change and providers may be added or deleted. We recommend you verify that your provider participates in Berkshire Health Partners before receiving care, by visiting the BHP website at: [www.bhp.org](http://www.bhp.org). If you do not have internet access please call **610-372-8044**, outside the 610 area code, call: **1-866-257-0445**.

## Welcome to the Berkshire Health Partners Network

---

Welcome to Berkshire Health Partners (BHP). As an eligible member you have access to quality healthcare. This directory will help you get the most from BHP participating providers, answer some of the most frequently asked questions, and list names and locations of our preferred providers, physicians, hospitals, and outpatient facilities, all of which, offer quality care close to home.

We know the people, the facilities and the physicians in the area. We know what procedures should cost and we want to see those dollars spent here at home. We work with the providers on a daily basis, so we understand their concern for your treatment and your return to health.

### About Berkshire Health Partners

BHP was founded in 1986 and is a preferred provider organization (PPO) that is locally based and operated. BHP is a not-for-profit organization, which has a strong local focus on developing and maintaining a platform for providers, employers and payors to develop best practices for access and delivery of quality of care.

As a non-profit PPO, BHP covers Berks, Upper Bucks, Carbon, Northern Lancaster, Lehigh, Montgomery, Northampton, and Schuylkill Counties. Employer groups can access our valuable services through relationships with Third-Party Administrators (TPA), insurance carriers, and insurance brokers. Our services include: medical and case management; a comprehensive network of credentialed physicians, hospitals, and ancillary facilities; wellness and disease management programs; short-term disability case management programs; and Pennsylvania's Preferred Health Network (PPHN), a statewide PPO network.

### Mission Statement

*BHP's mission is to provide our community with cost effective, quality healthcare.*

We strive to be the most successful provider-directed PPO in our service area. Medicus Resource Management, Inc. (Medicus) provides the medical management and administrative support necessary to ensure the long-term success of the provider network and our customers.

### Submission of Claims

When you access a BHP provider, they will send the claims for treatment that you received to the appropriate claims office. At the time of service, you may be responsible for your co-payment, deductible, & coinsurance for covered services. If you use an out-of-network provider, you must pay the provider at the time treatment is rendered and send the claim to the claims address on your card to be reimbursed.

### How to use the BHP Provider Directory

This directory contains the names and locations of participating physicians, hospitals, and ancillary providers. The physician sections are organized by county then specialty. It will be more cost-effective for you to access providers in the BHP network. Additionally, your specific benefit plan may have different levels of coverage based on the providers you choose. Be sure to check with your TPA or Insurance Company to verify the specific benefits available under your plan. **When you schedule an appointment, it is important to identify yourself as a BHP participant. To confirm your physician's participation in the BHP network, please log on to [www.bhp.org](http://www.bhp.org) and perform a provider search.**

## Hospital Abbreviations

Hospital abbreviations are located within the directory below a physician's name and address, if applicable. The abbreviations represent the hospital(s) at which a physician maintains hospital privileges. Please reference the chart below for a crosswalk of abbreviations and hospital names.

<b>CODE</b>	<b>HOSPITAL NAME</b>

<b>SMC-SJ</b>	SCHUYLKILL MEDICAL CENTER – SOUTH JACKSON STREET
<b>STC</b>	ST. CHRISTOPHER'S HOSPITAL FOR CHILDREN

## Frequently Asked Questions

### ***Do I need to choose a Primary Care Physician (PCP) when I join BHP?***

You do not need to select a PCP when you become a member of BHP. However, it is recommended that you establish a relationship with the PCP of your choice who will be available to coordinate all of your health care needs. *\*The exception is if you are enrolled in the Reading School District's Managed Care Option, where you must elect a PCP to coordinate your care.*

### ***Do I need a referral form or approval from my PCP when I want to see a specialist?***

No. You may see the BHP participating specialist of your choice. *\*The exception is if you are enrolled in the Reading School District's Managed Care Option, where you must elect a PCP to coordinate your care.*

### ***What if my physician is not listed in the directory?***

If your physician is not listed in the directory, you may log onto our website at [www.bhp.org](http://www.bhp.org) and check our provider search. If you do not have internet access, please call BHP Provider Relations at (610) 743-6054 or (866) 257-0445. Your physician may have joined BHP since the last printing of the BHP Provider Directory or the last update on the internet. If your physician is not currently participating with BHP, you may recommend physician participation by filling out the Network Enhancement Request Form in this directory on Page VIII.

## Frequently Asked Questions (continued)

---

### ***Can I still access a physician or a hospital, even if they are not participating with BHP?***

You can access any physician or hospital that you choose. It is always your choice to either stay within the network or to seek care from a provider that is not in the network. Remember that your out-of-pocket expenses will be less if the provider or facility is participating with the BHP network. If you decide to access a facility or physician that is not participating with BHP, you should contact your insurance company or third party administrator for your out-of-network covered benefits.

### ***What is BHP's Relationship with my insurance company or third party administrator (TPA)?***

BHP works with your providers and insurance company/TPA to manage the delivery of your health care. Our recommendations are given to you, your providers, and to your insurance company/TPA. Final authority for determining whether a requested procedure and/or admission will be covered is made by your insurance company/TPA. It is always advisable to verify your benefits with your insurance company/TPA before receiving any medical treatment.

### ***What services are covered by BHP?***

Covered services are defined by your benefit plan. Please contact your insurance company/TPA for this information.

### ***How will my physician or other health care provider hospital know I am a BHP member?***

You will receive an identification (ID) card which you should present every time you see a participating provider.

### **Who do I call if...**

#### ***I believe my claim was processed incorrectly or if I have questions about my health plan benefits?***

Call your insurance company/TPA at the telephone number listed on the back of your ID card.

#### ***I have a concern about a network provider and/or want to discuss a problem?***

Call BHP's Provider Relations Department at (610) 743-8054 or (866) 257-0445.

#### ***I need to contact BHP?***

Mailing Address:           Berkshire Health Partners  
50 Commerce Drive  
Wyomissing, PA 19610

Telephone Number:       610-372-8044, or if outside the (610) area code, dial (866) 257-0445

Website:                   <http://bhp.org/contact/>

## Medicus Resource Management

---

As a member of BHP, your Medical Management Program is likely to be administered by Medicus Resource Management. The professional staff at Medicus can assist you in determining whether your treatment plan is medically appropriate. The Medicus program is not intended to diagnose or treat medical conditions, guarantee benefits or validate eligibility. Instead, the medical professionals who answer Medicus inquiries focus on whether hospital stays, proposed surgery, or ambulatory procedures are medically appropriate.

### *What information will Medicus request from me?*

- ❖ Name and identification number of the covered member.
- ❖ Name and date of birth of the patient who is seeking treatment.
- ❖ Name, address, and telephone number of the admitting physician.
- ❖ Name, address, and telephone number of the facility providing the services.
- ❖ The scheduled date of service.

### *How soon should I call Medicus?*

- ❖ Elective Admissions or Procedures: Call at least 5 working days prior to the date when services are scheduled.
- ❖ Emergency Admission: Notify Medicus within 48 hours of the admission.
- ❖ Obstetrical patients: Notify Medicus of your delivery due date after your first visit to the obstetrician.
- ❖ Organ Transplants: Call Medicus to be sure that the services are being provided by a contracted facility.

### *What other services does Medicus provide for me and my family?*

Case Management: Some of the many services offered by the Nurse Case Managers during a severe illness include:

- ❖ Discussions with you and your care givers to review quality options.
- ❖ Assistance with hospital discharge plans and follow-up care.
- ❖ Follow-up with post hospital or home care providers to coordinate your ongoing needs.
- ❖ Assistance with understanding your benefits available through your health insurance carrier.
- ❖ Scheduled telephone contact with you, your family, and caregivers when all services have ended to monitor your continued health.

### *How can I reach Medicus?*

Mailing Address: Medicus Resource Management  
50 Commerce Drive  
Wyomissing, PA 19610

Telephone number: (610) 372-8417 or (800) 647-2500  
Monday through Friday 8:00 am- 5:00pm eastern time  
\* You may leave a message after hours and your call will be returned on the next business day. If you feel you are having an emergency, seek treatment immediately and contact Medicus the next business day.

Fax number: (610) 371-0310

### *For what services do I need to call Medicus?*

Please contact your insurance company/TPA as pre-certification requirements vary by plan.

## Berkshire Health Partners Network Enhancement Request Form

---

Since its inception in 1986, Berkshire Health Partners (BHP) has prided itself in offering a comprehensive network of physicians and services that you can choose for your healthcare needs. If any of the healthcare professionals accessed by you or your family are not listed in the BHP Provider Directory, please contact us.

**Please Note: Our participating providers are committed to providing high quality and affordable medical care to our members. Our providers must meet strict credentialing criteria in order to become part of the BHP network. While we cannot guarantee their participation, we will review each suggestion and contact those providers who meet the criteria for network membership.**

If there is a provider you would like us to contact, please complete the information below. Mail this form directly to *Berkshire Health Partners, 50 Commerce Drive, Wyomissing, PA 19610* or fax to *(610) 372-3036*. If you would like BHP to notify you when the provider becomes part of our network, please include your full address and/or phone number. Thank you for your referral.

If you need additional copies of this form, or if you have any questions, please call BHP at *(610)743-6054*.

## Glossary of Provider Specialties

---

**Allergy & Immunology:** Diagnosis and treatment of conditions such as asthma, hay fever, food, and drug sensitivities.

**Anatomical/Clinical Pathology:** The branch of medicine dealing with laboratory methods to study the cause and course of disease for diagnosis and treatment.

**Audiology:** A specialty focusing on hearing disorders through identification and evaluation of hearing loss and the rehabilitation of persons with hearing loss.

**Autism Spectrum Disorders (ASD):** A spectrum of psychological conditions characterized by widespread abnormalities of social interactions and communication, as well as severely restricted interests and highly repetitive behavior. The three main forms of ASD are Autism, Aspergers syndrome, and Pervasive Developmental Disorder Not Otherwise Specified (PDD-NOS), sometimes called atypical autism.

**Cardiothoracic Surgery:** Surgical procedures for heart and lung disorders.

**Cardiovascular Disease:** Diagnosis and treatment of diseases of the heart, lungs and blood vessels.

**Child and Adolescent Psychiatry:** The medical science that deals with the origin, diagnosis, prevention, and treatment of mental disorders in children.

**Chiropractic Medicine:** A science of applied neurophysiologic diagnosis based on the theory that health and disease are life processes related to the function of the nervous system.

**Colon & Rectal Surgery:** A specialty focusing on the medical and surgical treatment of diseases affecting the intestinal system.

**Critical Care Medicine:** Multispecialty health care provided to critically ill patients.

**Cytopathology:** The study of the cellular changes in disease.

**Dermatology:** Evaluation and care of acne and other local or generalized skin problems, including skin cancer diagnosis and management.

**Dermatopathology:** A dermatopathologist has the expertise to diagnose and monitor diseases of the skin.

**Emergency Medicine:** Diagnosis and treatment of sudden, unexpected medical or surgical problems by a team of physicians and nurses on a 24-hour basis.

**Endocrinology, Diabetes, and Metabolism:** Treatment of hormonal problems, such as those related to menopause, infertility, growth abnormalities and diabetes. Also includes treatment of glands such as the thyroid, pituitary, adrenal and pancreas.

**Family Practice:** The primary care specialty concerned with first contact care and continuing responsibility for overall health maintenance in all age groups.

**Gastroenterology:** Treatment of disorders of the digestive system, including illnesses related to the esophagus, stomach, liver, gall bladder, pancreas, intestines, and colon.

**General Surgery:** Deals with diseases, injuries and deformities requiring manual and/or instrumental operations. Procedures are performed in a day surgery unit for some procedures as well as a complete operating room service for more complex problems.

**Geriatric Medicine:** The branch of medicine concerned with the problems of aging. Included are all aspects of aging, including physiological, pathological, psychological, economic, and sociological problems.

**Gynecological Oncology:** The diagnosis, management and treatment of cancers of the female reproductive organs such as ovarian cancer, cervical cancer, and uterine cancer.

**Gynecology:** The care and management of disorders and diseases of the female genitals and reproductive system.

**Hematology:** Diagnosis and treatment of cancer and blood disorders, including anemia, leukemia, Hodgkin's disease, and others.

**Hematology/Oncology:** A specialty focusing on knowledge of hematology (blood disorders), and oncology (cancerous diseases).

**Hepatology:** A specialty focusing on the treatment of diseases of the liver.

**Hyperbaric Medicine/Hyperbaric Oxygen Therapy:** Hyperbaric medicine, also known as hyperbaric oxygen therapy (HBOT), is the medical use of oxygen at a level higher than atmospheric pressure to help wounds, especially infected wounds, heal more quickly.

**Infectious Disease:** Diagnosis and treatment of viral, bacterial, and fungal diseases. Infectious disease specialists are experts in preventive medicine and conditions associated with travel.

**Internal Medicine:** Deals with the diagnosis and medical therapy of disease of the internal organ systems and the non-surgical management of disease. The general internist looks at the patient as a whole as opposed to the specialist who looks at single organ systems.

**Interventional Cardiology:** The practice of cardiology involving catheter-based interventions to treat diseases related to coronary artery disease, valvular disease, or electrical dysfunctions.

**Licensed Therapists and Counselors:** Psychological counseling services provided to individuals, families, and groups.

**Maternal & Fetal Medicine:** A subspecialty in obstetrics and gynecology focusing on the consultation and treatment of patients with complications in pregnancy.

**Medical Oncology:** The diagnosis and treatment of all types of cancer and other benign and malignant tumors.

**Neonatal-Perinatal Medicine:** Diagnosis and treatment of disorders of newborn infants.

**Nephrology:** Non-surgical treatment of kidney diseases and high blood pressure, fluid retention and electrolyte imbalance.

**Neurology:** Medical care of disorders of the brain, spinal cord and nerves. Treatment of strokes, seizures, dizziness, headaches, and other problems.

**Neuropsychology:** Use of neurology and psychology to study the relationship between the functioning of the brain and cognitive processes or behavior to evaluate the central nervous system function and diagnose specific disorders.

**Obstetrics & Gynecology:** Care for women through their pregnancy, delivery and post-delivery period. Treatment of disorders and diseases of the female genitals and the female reproductive system.

**Occupational Medicine:** Provides employers, insurance companies and case managers with services focusing on employee health care cost containment and work place health and safety regulatory compliance.

**Occupational Therapy:** The branch of the medical field that focuses on helping individuals with mental or physical illness or disabilities to achieve the highest level of functioning and wellness possible in their daily lives.

**Ophthalmology:** Science of the anatomy, physiology, diseases and treatment of the eye. Includes treatment for cataract removal and lens implantation. Also, retinal surgery and reconstructive plastic surgery of the eye.

**Optometry:** The specialization in the examination, diagnosis, treatment and management of disease and disorders of the visual system, the eye, and associated structures, as well as the diagnosis of related systemic conditions.

**Oral & Maxillofacial Surgery:** Deals with surgical procedures involving the oral cavity, particularly the teeth and jaws.

**Orthopaedic Surgery:** Treatment for skeletal abnormalities, including injuries or diseases of the bones, joints, spine, and muscles. Arthroscopy and hip and knee replacements are included.

**Otolaryngology:** A specialty focusing on the diagnosis and treatment of disorders and injuries of the ear, nose and throat.

**Pain Management/Pain Medicine:** Multidisciplinary approach to the management of both acute and chronic pain, including neuro-diagnostic, psychological, and rehabilitative services.

**Palliative Care:** The medical specialty focused on relief of the pain, stress and other debilitating symptoms of serious illness.

**Pediatric Cardiology:** Evaluating the structural and functional assessment of the heart and blood vessels of infants, children and adolescents.

**Pediatric Endocrinology:** Care to infants, children and adolescents who have diseases that result from an abnormality in the endocrine glands (glands which secrete hormones).

**Pediatric Gastroenterology:** Diagnosis and treatment of diseases of the digestive systems of infants, children and adolescents.

**Pediatric Neurology:** A specialty focusing on the diagnosis and treatment of disorders of the nervous system in children.

**Pediatric Ophthalmology:** Is a subspecialty of ophthalmology concerned with eye diseases, visual development, and vision care in children.

**Pediatric Pulmonology:** Diagnosis and treatment of pneumonia, bronchitis, emphysema, asthma, and other disorders of the lung and chest cavity in children from birth through adolescence.

**Pediatric Surgery:** A surgeon with expertise in the management of surgical conditions in premature and newborn infants, children and adolescents.

**Pediatrics:** A specialty focusing on maintaining health and providing medical care for children from birth through adolescence.

**Pediatrics/Developmental:** Evaluation of children with physical and mental developmental issues such as Attention Deficit Disorder and autism.

**Physical Medicine & Rehabilitation:** Diagnosis and treatment of disorders of nerves, bones, and muscles using a conservative approach emphasizing physical modalities. EMG and nerve conduction studies done.

**Physical Therapy:** Services provided to develop, maintain, and restore maximum movement and functional ability throughout the life span. Physical therapy includes provision of services in circumstances where movement and function are threatened by the process of ageing or that of injury or disease.

**Plastic Surgery:** Reconstructive and cosmetic surgery for patients with deformities, burns, injuries, or diseases and for aesthetic purposes.

**Podiatry:** A specialty focusing on the diagnosis and treatment of disorders and injury of the feet.

**Psychiatry:** Diagnosis, treatment, and prevention of mental and emotional illnesses by a physician. Therapeutic and rehabilitative outpatient and inpatient services.

**Psychology:** The science concerned with mental processes and behavior.

**Public Health & General Preventative Medicine:** A focus on promoting health, preventing disease, and managing the health of communities and defined populations. These practitioners combine population-based public health skills with knowledge of primary, secondary, and tertiary prevention-oriented clinical practice in a wide variety of settings.

**Pulmonary Disease:** Diagnosis and treatment of pneumonia, bronchitis, emphysema, asthma, and other disorders of the lung and chest cavity.

**Radiation Oncology:** Offers radiation therapy services on an outpatient and inpatient basis for the treatment of cancer.

**Radiology:** A specialty focusing on the use of radiation and other radioactive substances to diagnose and treat disease.

**Reproductive Endocrinology:** The subspecialty in obstetrics and gynecology capable of managing complex problems relating to reproductive endocrinology and infertility.

**Rheumatology:** Diagnosis and treatment of inflammatory diseases and conditions of the joints such as arthritis.

**Trauma Center:** A hospital equipped to provide comprehensive emergency medical services to patients suffering traumatic lifethreatening injuries.

**Sleep Medicine:** Diagnosis and treatment of patients with disorders of sleep and daytime alertness, and the effect of the sleep process upon other medical disorders.

**Speech Therapy:** The evaluation and application of principles, methods, and procedures of measurement, prediction, non-medical diagnosis, testing, counseling, consultation, rehabilitation, and instruction related to the development of disorders in speech, voice, and/or groups of children.

**Sports Medicine:** The application of medical knowledge and science to the physiological and pathological aspects of all persons who indulge in sports and athletics.

**Surgical Oncology:** The study of cancer using surgery, usually to remove cancerous tumors and tissue.

**Urogynecology:** Specialty focusing on the diagnosis, management and treatment of urinary incontinence in women.

**Urology:** Medical and surgical management of urinary and uro-genital problems, including infections, obstructions, stones, tumors, and problems related to sexual dysfunction.

**Vascular Surgery:** Surgical treatment of blood vessels.

**Wound Care:** The specialized treatment of non-healing wounds.
