PDQ display with zip tied knives

## Knives

We use stainless 3CR13 high carbon steel for the blade that can be sharpened and re-sharpened with a double tapered edge. Others are usually 2CR13 and have lower carbon steel, which does not stay sharpened as long. Each of our knives are hand sharpened and honed. Our knives have a double edge. Most others do not even have an edge on the blade. The blade on each knife is designed to do the job it was made to do. The same amount of design goes into the handle. Our handles are designed with a textured no slip safety grip that prevents the hand from sliding forward causing injury. The sheaths are made to drain to reduce rusting. The sheath on the bait knife has a belt clip for easier accessibility. Our merchandising techniques of making the knives highly visible, which creates interest plus impulse buying are confirmed by our sales. Bright colors excite and the name is very appropriate "HaloViz".

## New Improved Indestructible Wire!

TITAN TUFF TITANIUM WIRE IS  
DESIGNED TO WITHSTAND THE  
TOUGHEST FIGHTING FISH!

THIS WIRE WON'T KINK.

**Made with brass  
beads for loud fish  
attracting sounds  
& a stainless  
washer for added  
sound & longer  
cork life.**

The sights and sounds of the float splashing in the water attracts predator fish by mimicking a school of gamefish.

Perfect for redfish, trout, snook, striped bass, whaler and most all other bay gamefish.

**ABSOLUTELY  
TOTALLY  
AWESOME!**

The Original  
Halo-graphic™ Design

*Billy Bay*  
by *Betts*

# HALO™ SHAD

**Rigged with hook and weighted**

The Shimmer Shine flashes of the Halo-graphic™ draws the fish to it. The fish “just can’t stand it”.

**There are tons of shad on the market, most are so heavy it is almost impossible to fish with them because they sink too fast. Those lures are on the bottom before you can reel them in. The Halo™ Shad changes all that!**

Ricky, the captain of Speckled Specialist Guide Service, is the man behind the success of the Halo Shad. He is the icon of trout fishing and has probably fished every known lure made from hard baits to jigs and he says the Halo Shad out performs them all. Ricky has a wide range of fishermen on his charters from amateurs to pros. The thing he loves most about the Halo Shad and the thing that got his attention was the success of the amateur fishermen catching as many fish as the guides with very little effort. In other words, it doesn't take a lot of finesse or skill to limit out on trout. Just simply cast and retrieve and it's absolutely, totally awesome!!

# Billy Bay®

## Absolutely the Perfect Sinker™ HALO™ SHRIMP

- The perfect sinker is the best shrimp lure we have made to date.
- Designed to sink slowly in horizontal position to keep the lure in the strike zone longer.
- Rigged with hook and weighted
- Halo-graphic colors to shimmer and shine
- Excellent for cast and sink type fishing

The shrimp lure business will never be the same. It has improved more in the last year than in the past 10 years and we are building product to keep us in the running. Now the shrimp must perform perfectly in regards to correctly sinking for casting or popping cork fishing. That is why we are bringing out a “new series” – “The Perfect Sinker™” which sinks and performs perfectly.

### VIBRATING LEGS!

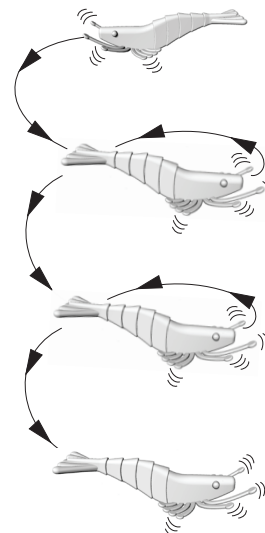

Figure 1. Falling Motion

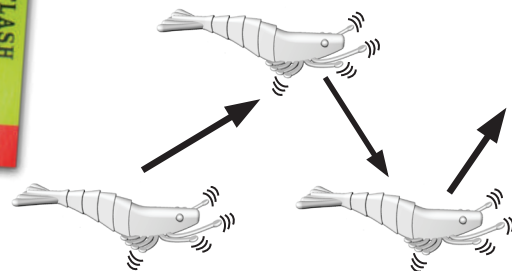

Figure 2. Swimming Motion

The Halo Shrimp Perfect Sinker has been designed, redesigned and tested to be the best performing shrimp lure on the market. As illustrated in Figure 1 the Perfect Sinker is the only shrimp engineered to fall perfectly level in a circular motion until it reaches the bottom, all while the vibrating legs make the shrimp come alive. As illustrated in Figure 2 the Perfect Sinker will stay upright and true during all popular methods of fishing. Whether it is cast and retrieve, popping cork, or quick twitches, the Perfect Sinker out performs all others.
