

APPLIED SCIENCE, BAS

Banner Code: UN-BAS-APLS

Administration

- Janette Kenner Muir, Academic Director and Associate Provost for Academic Initiatives and Services
- Marcy R. L. Glover, Curriculum Coordinator
- Krystal Dains, Coordinator, Volgenau School of Engineering concentrations
- Jane Walker, Coordinator, School of Conflict Analysis and Resolution concentration

The Bachelor of Applied Science (BAS) is an undergraduate liberal arts degree program for adult learners. It is designed primarily to deepen student knowledge in an academic area and foster critical thinking, analytic reasoning, and an ability to synthesize information.

The BAS articulates well with specialized Applied Associate Science (AAS) degree programs, providing a streamlined path to completion of traditional academic requirements leading to the baccalaureate degree. It meets students' professional and personal goals while developing a depth of knowledge and proficiency of skill that translates well to the workplace. However, it is not organized in the same way as a traditional baccalaureate degree. Students planning graduate study should consult with an academic advisor prior to undertaking this degree program.

Admissions & Policies

Admissions

As a prerequisite to enrollment in the BAS, students must have received an Associate of Applied Science (AAS) degree from an accredited two-year institution in an approved area of specialization. Students should review specific Admissions details on the program's website. (<http://bas.gmu.edu>)

Policies

For policies governing all undergraduate degrees, see AP5 Undergraduate Policies (<http://catalog.gmu.edu/policies/academic/undergraduate-policies/>).

Program Requirements

BAS students must fulfill all requirements for bachelor's degrees including Mason Core (<http://catalog.gmu.edu/mason-core/>) requirements, to include 45 credits of upper-level coursework. All Mason Core (<http://catalog.gmu.edu/mason-core/>) requirements must be met with either George Mason courses or transferrable equivalents.

The minimum credit requirement for a bachelor's degree is 120 credits; however, while there is some variation between concentration areas, fulfilling all Mason Core (<http://catalog.gmu.edu/mason-core/>) requirements and an academic concentration is likely to require most BAS students to complete at least 63-66 credits at George Mason, which may lead to over 120 credits of coursework in order to receive the degree.

Admitted BAS students will be academically advised by the appropriate BAS Program concentration advisor to plan their course of study including completion of the Mason Core (<http://catalog.gmu.edu/mason-core/>), the BAS concentration, and any remaining requirements. See [t](http://bas.gmu.edu) (<http://bas.gmu.edu>)he website (<http://bas.gmu.edu>) for more information.

The degree plan outlined is based on a student who transfers in a minimum of 30 credits from a completed AAS degree. Some of these credits may count only towards the elective requirement within the BAS degree.

Specific concentrations may have additional policies indicated in the Requirements tab.

Requirements

Degree Requirements

Total credits: 120-126

Concentrations are intended to provide focus for the BAS curriculum in an area relevant to the student's AAS degree while allowing for the breadth of study associated with a liberal arts baccalaureate degree. Please note that determination of current transfer work for these concentrations may impact course requirements.

In addition to satisfying all Mason Core (<http://catalog.gmu.edu/mason-core/>) requirements, students must satisfy the requirements for one of the eight concentrations.

Concentrations

- Concentration in Applied Conflict Analysis and Resolution (ACAR)
- Concentration in Cyber Security (CYBS)
- Concentration in Cloud Computing (CCG)
- Concentration in Data Analytics (DNIC)
- Concentration in Health, Wellness and Social Services (HWSS)
- Concentration in Human Development and Family Science (HDFS)
- Concentration in Legal Studies (LGLS)
- Concentration in Managerial Leadership (MGL)
- Concentration in Technology and Innovation (TCNV)

Concentration in Applied Conflict Analysis and Resolution (ACAR)

This concentration is in collaboration with the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution (<http://catalog.gmu.edu/colleges-schools/peace-conflict-resolution/>).

Code	Title	Credits
Core Requirement		
BAS 300	Building Professional Competencies	3
CONF 101	Conflict and Our World (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
CONF 301	Research and Inquiry in Conflict Resolution	3
CONF 302	Culture, Identity, and Conflict	3
Select one of the following		3

CONF 320	Interpersonal Conflict Analysis and Resolution	
CONF 330	Community, Group, and Organizational Conflict Analysis and Resolution	
CONF 340	Global Conflict Analysis and Resolution (Mason Core) (http://catalog.gmu.edu/mason-core/)	

Applied Coursework

CONF 300	Conflict Resolution Techniques and Practice	3
Choose three credits of Skills Coursework from:		
CONF 325	Dialogue and Difference	
CONF 370	Internship Field Experience	
CONF 385	International Field Experience	
CONF 398	Special Topics in Advanced Techniques and Practices	
CONF 425	Mediating Conflict	
or foreign language completed at the 202 level.		
CONF 490	RS: Integration (Mason Core) (http://catalog.gmu.edu/mason-core/)	3

Electives

In consultation with their advisor, students are required to take 18 credits of concentration coursework; at least 9 credits must be from the CONF department. The concentration list can be found in the catalog or on our website.

Total Credits 42

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Cyber Security (CYBS)

This concentration is in collaboration with the Volgenau School of Engineering (<http://catalog.gmu.edu/colleges-schools/engineering/>) and is only available to students who graduate with an AAS degree in Cyber Security from a partner school. Full admissions requirements can be viewed on the program website (<http://bas.gmu.edu>).

Students must have a C or better in any course that satisfies a prerequisite for an IT course. To graduate with the BAS with a Cyber Security concentration, students must have a C or better in their core, concentration, and technical focus courses.

Code	Title	Credits
Core Requirements		
BAS 300	Building Professional Competencies	3
BAS 490	Introduction to Research Methods	3
BAS 491	Applied Sciences Capstone (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
Concentration Requirements		
IT 104	Introduction to Computing	3
IT 105	IT Architecture Fundamentals	3
IT 223	Information Security Fundamentals	3
IT 304	IT in the Global Economy	3

IT 343	IT Project Management (Fulfills writing intensive requirement)	3
IT 353	Information Defense Technologies	3
IT 357	Computer Crime, Forensics, and Auditing	3
IT 429	Security Accreditation of Information Systems	3

IT Cyber Security

Specific courses must be taken at the community college to fulfill this requirement (15 credits met via transfer). Students should consult with their advisor.

IT Elective Transfer Courses

Specific courses must be taken at the community college to fulfill this requirement (15 credits met via transfer). Students should consult with an advisor.

Technical Focus

Select 15 credit hours of required IT, MBUS, MIS, or other approved coursework from the following. Courses not listed here may be selected in consultation with the advisor. Not all Technical Focus courses listed here are offered online. Students pursuing CYBS online should meet with their advisor to select courses that are offered online. Note: Enrolled undergraduate students who are not declared in a School of Business major are limited to 9 credits of MIS courses.

IT 369	Data and Application Security	
IT 442	Cloud Infrastructure	
IT 451	Cloud Services Management	
IT 462	Applied Cyber Threat Analysis	
IT 481	Cloud Security	
IT 499	Special Topics in Information Technology	
MBUS 300	Accounting in a Global Economy	
MBUS 301	Managing People and Organizations in a Global Economy	
MBUS 303	Marketing in a Global Economy	
MBUS 304	Entrepreneurship: Starting and Managing a New Enterprise	
MBUS 305	Introduction to International Business (Mason Core) (http://catalog.gmu.edu/mason-core/)	
MBUS 306	Managing Projects and Operations	
MBUS 308	Corporate Finance and Investments in a Global Economy	
MIS 303	Introduction to Business Information Systems	
MIS 310	Database Management Systems	
MIS 320	Networks and Security	
MIS 330	Systems Analysis and Design	
MIS 341	Cloud Computing Essentials	
MIS 441	Cloud System Management	
HAP 318	Introduction to IT Methods for Healthcare	
HAP 360	Introduction to Health Information Systems	
COMM 320	Business and Professional Communication	
CRIM 310	Introduction to the Intelligence Community	
CRIM 312	Intelligence Analysis Techniques	

CRIM 350	Counterintelligence	
Total Credits		78

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Cloud Computing (CCG)

This concentration is in collaboration with the School of Business (<http://catalog.gmu.edu/colleges-schools/business/>) and the Volgenau School of Engineering (<http://catalog.gmu.edu/colleges-schools/engineering/>) and is only available to students who graduate with an AAS degree in a related field from a partner school. Full admissions requirements can be viewed on the program website (<http://bas.gmu.edu>).

To graduate with the BAS with a Cloud Computing concentration, students must have a C or better in their core and concentration courses.

Code	Title	Credits
Core Requirements		
BAS 300	Building Professional Competencies	3
BAS 490	Introduction to Research Methods	3
BAS 491	Applied Sciences Capstone (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
Total Credits		9

Additional Concentration Requirements

In order to complete the Cloud Computing Concentration, students complete one of the two following areas:

Code	Title	Credits
Cloud Technology		
MATH 108	Introductory Calculus with Business Applications (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
or MATH 113	Analytic Geometry and Calculus I (Mason Core) (http://catalog.gmu.edu/mason-core/)	
IT 102	Discrete Structures	3
or MATH 125	Discrete Mathematics I (Mason Core) (http://catalog.gmu.edu/mason-core/)	
IT 104	Introduction to Computing	3
IT 105	IT Architecture Fundamentals	3
IT 106	Introduction to IT Problem Solving Using Computer Programming	3
or IT 109	Introduction to Computer Programming	
IT 300	Modern Telecommunications	3
IT 341	Data Communications and Network Principles	3
IT 343	IT Project Management	3
IT 442	Cloud Infrastructure	3
IT 451	Cloud Services Management	3
IT 461	Application Development in Cloud	3

IT 481	Cloud Security	3
Total Credits		36

Code	Title	Credits
Cloud System Management		
MIS 303	Introduction to Business Information Systems	3
MIS 310	Database Management Systems	3
MIS 330	Systems Analysis and Design	3
MIS 341	Cloud Computing Essentials	3
MIS 441	Cloud System Management	3
Applied Coursework		
Students pursuing Cloud System Management must select 15 credit hours of upper-level coursework from the following. Courses not listed here may be selected in consultation with the advisor.		15
MBUS 300	Accounting in a Global Economy	
MBUS 301	Managing People and Organizations in a Global Economy	
MBUS 303	Marketing in a Global Economy	
MBUS 304	Entrepreneurship: Starting and Managing a New Enterprise	
MBUS 305	Introduction to International Business (Mason Core) (http://catalog.gmu.edu/mason-core/)	
MBUS 306	Managing Projects and Operations	
MBUS 308	Corporate Finance and Investments in a Global Economy	
MIS 320	Networks and Security	
MIS 410	Advanced Database Systems	
MIS 415	Information Systems Audit and Control	
MIS 420	Information Security and Assurance	
MIS 430	Data Warehousing	
MIS 431	Data Mining for Business Applications	
MIS 432	Advanced Data Mining	
MIS 433	Programming for Analytics	
Total Credits		30

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Data Analytics (DNIC)

This concentration is in collaboration with the Volgenau School of Engineering (<http://catalog.gmu.edu/colleges-schools/engineering/>). Full admissions requirements can be viewed on the program website (<http://bas.gmu.edu>).

Students must have a C or better in any course that satisfies a prerequisite for an IT course. To graduate with the BAS with a Data

Analytics concentration, students must have a C or better in their core, concentration, and applied coursework courses.

Code	Title	Credits

STAT 465	Nonparametric Statistics and Categorical Data Analysis	
STAT 474	Introduction to Survey Sampling	
SYST 469	Human Computer Interaction	

Concentration in Health, Wellness and Social Services (HWSS)

This concentration is in collaboration with the College of Health and Human Services (<http://catalog.gmu.edu/colleges-schools/health-human-services/>).

To enroll in this concentration, students must have an AAS in one of the following areas:

- Health Information Management
- Hospitality Management, Nutrition Management specialization
- Nursing
- Physical Therapist Assistant
- Respiratory Therapy

Code	Title	Credits
Core Requirements		
BAS 300	Building Professional Competencies	3
SOCW 200	Introduction to Social Work (Mason Core) (http://catalog.gmu.edu/mason-core/)	3

NURS 434	Vulnerable Populations	3
BAS 490	Introduction to Research Methods	3
BAS 491	Applied Sciences Capstone (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
Total Credits		18

Additional Concentration Requirements

To complete the Health, Wellness and Social Services concentration, students must complete one of the two following areas:

Code	Title	Credits
Health Care Administration		
HAP 301	Health Care Delivery in the United States	3
HAP 360	Introduction to Health Information Systems	3
HAP 442	Introduction to Health Care Politics and Policy	3
SOCW 380	Changing Social Policies and Systems	3
Total Credits		12

Code	Title	Credits
Physical and Mental Health Care Delivery		
HAP 301	Health Care Delivery in the United States	3
NUTR 295	Introduction to Nutrition (Mason Core) (http://catalog.gmu.edu/mason-core/)	3
Select one from the following:		3
GCH 360	Health and Environment	
HHS 432	Healthy Aging	
SOCW 375	Human Behavior and the Family Life Course (Mason Core) (http://catalog.gmu.edu/mason-core/)	
SOCW 435	Introduction to Gerontology	
SOCW 483	Selected Topics in Social Work Intervention	
Total Credits		9

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that

a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Human Development and Family Science (HDFS)

This concentration is in collaboration with the College of Humanities and Social Sciences (<http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/>) and the College of Education and Human Development (<http://catalog.gmu.edu/colleges-schools/education-human-development/>).

Code	Title	Credits

¹ All courses for this concentration are available in an online format with most offered as asynchronous delivery.

² The Information Sciences and Technology department offers 1-credit, self-paced, online review courses; ending with an in-class final exam. Students who register for a 1-credit course and successfully pass will receive credit (not a waiver) for the corresponding 3-credit course. Students who are not successful must take the respective course at Mason to meet their degree requirements.

Review courses are available as follows:

- for IT 213 Multimedia and Web Design: IT 193 Review of Multimedia and Web Design
- for IT 214 Database Fundamentals: IT 194 Review of Database Fundamentals

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Accelerated Master's

Applied Science, BAS (Cyber Security Concentration)/Applied Information Technology, Accelerated MS

Overview

Highly-qualified students in the Applied Science, BAS, Cyber Security Concentration have the option of obtaining an accelerated Applied Information Technology, MS (<http://catalog.gmu.edu/colleges-schools/engineering/information-sciences-technology/applied-information-technology-ms/>).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (<http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7>). For policies governing all graduate degrees, see AP.6 Graduate Policies (<http://catalog.gmu.edu/policies/academic/graduate-policies/>).

Admission Requirements

Students in the Applied Science, BAS, Cyber Security Concentration program may apply to this option if they have earned 60 undergraduate credits with an overall GPA of at least 3.30. They may begin taking graduate-level courses once they have earned 75 undergraduate credits. Criteria for admission are identical to criteria for admission to the Applied Information Technology, MS program.

Accelerated Option Requirements

Students must complete all credits that satisfy requirements for the BAS and MS programs, with up to 12 credits overlapping from the following courses:

Code	Title	Credits
AIT 512	Algorithms and Data Structures Essentials	3
or AIT 580	Analytics: Big Data to Information	
AIT 524	Database Management Systems	3
AIT 542	Fundamentals of Computing Platforms	3
AIT 660	Cyber Security Fundamentals ¹	3
AIT 664	Information: Representation, Processing and Visualization	3

¹ This course is only applicable to the CYBR and ITMG concentrations in the MSAIT. Students planning to pursue CBHS or DAIN should select a different course.

Note: When selecting between AIT 512 and AIT 580, students should select the course that aligns with the MSAIT concentration they intend to pursue.

Degree Conferral

Students must apply the semester before they expect to complete the BAS requirements to have the BAS degree conferred. In addition, at the beginning of the student's final undergraduate semester, students must complete a Bachelor's/Accelerated Master's Transition form that is submitted to the Office of the University Registrar and the VSE Graduate Admissions Office. At the completion of MS requirements, a master's degree is conferred.

Applied Science, BAS (Cyber Security Concentration)/Digital Forensics, Accelerated MS

Overview

Highly-qualified students in the Applied Science, BAS, Cyber Security Concentration have the option of obtaining an accelerated Digital Forensics, MS (<http://catalog.gmu.edu/colleges-schools/engineering/electrical-computer/digital-forensics-ms/>).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (<http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7>). For policies governing all graduate degrees, see AP.6 Graduate Policies (<http://catalog.gmu.edu/policies/academic/graduate-policies/>).

Admission Requirements

Students in the Applied Science, BAS, Cyber Security Concentration (<https://catalog.gmu.edu/colleges-schools/interdisciplinary-programs-courses/applied-science-bas/#cybs>) program may apply for this option if they have earned 60 undergraduate credits with an overall GPA of at least 3.25. Criteria for admission are identical to criteria for admission to the Digital Forensics, MS (<http://catalog.gmu.edu/colleges-schools/engineering/electrical-computer/digital-forensics-ms/>) program.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Option Requirements

Students must complete all credits that satisfy requirements for the BAS and MS programs, with up to 12 credits overlapping from the following courses:

Code	Title	Credits
DFOR 510	Digital Forensics Analysis	3
DFOR 660	Network Forensics	3
DFOR 661	Digital Media Forensics	3
DFOR 663	Operations of Intrusion Detection for Forensics	3
DFOR 664	Incident Response Forensics	3

Degree Conferral

Students must apply the semester before they expect to complete the BAS requirements to have the BAS degree conferred. In addition, at the beginning of the student's final undergraduate semester, students must complete a Bachelor's/Accelerated Master's Transition form that is submitted to the Office of the University Registrar and the VSE Graduate Admissions Office. At the completion of MS requirements, a master's degree is conferred.

Applied Science, BAS (Data Analytics Concentration)/Applied Information Technology, Accelerated MS

Overview

Highly-qualified students in the Applied Science, BAS, Data Analytics Concentration have the option of obtaining an accelerated Applied Information Technology, MS (<http://catalog.gmu.edu/colleges-schools/>).

engineering/information-sciences-technology/applied-information-technology-ms/).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (<http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7>). For policies governing all graduate degrees, see AP.6 Graduate Policies (<http://catalog.gmu.edu/policies/academic/graduate-policies/>).

Admission Requirements

Students in the Applied Science, BAS Data Analytics concentration may apply to this option if they have earned 60 undergraduate credits with an overall GPA of at least 3.30. Students may begin taking the master's level courses once they have earned 75 undergraduate credits.

Accelerated Option Requirements

Students must complete all credits that satisfy requirements for the BAS and MS programs. Students may select up to 12 credits to overlap from the following options. Students should consult with both the BAS and MSAIT advisors.

Code	Title	Credits
AIT 512	Algorithms and Data Structures Essentials ¹	3
or AIT 580	Analytics: Big Data to Information	
AIT 524	Database Management Systems	3
AIT 542	Fundamentals of Computing Platforms	3
AIT 664	Information: Representation, Processing and Visualization	3

¹ When selecting between AIT 512 and AIT 580, students should select the course that aligns with the MSAIT concentration they intend to pursue.

Applied Science, BAS (Data Analytics Concentration)/Data Analytics Engineering, Accelerated MS

Overview

Highly-qualified students in the Applied Science, BAS, Data Analytics Concentration have the option of obtaining an accelerated Data Analytics Engineering, MS. (<http://catalog.gmu.edu/colleges-schools/engineering/data-analytics-engineering-ms/#text>)

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (<http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7>). For policies governing all graduate degrees, see AP.6 Graduate Policies (<http://catalog.gmu.edu/policies/academic/graduate-policies/>).

Admission Requirements

Students in the Applied Science, BAS Data Analytics concentration may apply to this option if they have earned 60 undergraduate credits with an overall GPA of at least 3.30. Students may begin taking the master's level courses once they have earned 75 undergraduate credits.

Accelerated Option Requirements

Students must complete all credits that satisfy requirements for the BAS and MS programs. The following six credits may overlap:

Code	Title	Credits
AIT 580	Analytics: Big Data to Information	3
CS 504	Principles of Data Management and Mining	3
or CS 584	Theory and Applications of Data Mining	
OR 531	Analytics and Decision Analysis	3
or OR 541	Operations Research: Deterministic Models	
STAT 515	Applied Statistics and Visualization for Analytics	3
or STAT 554	Applied Statistics I	

In addition to the six credits above, students may select up to 6 additional credits to overlap. These credits must be selected in consultation with both the BAS and DAEN advisors. Credits selected will depend on which DAEN concentration the student intends to pursue.
