### NOTE

This publication is a supplement to The Australian National University 1979 Faculty Handbook. It replaces the lists of textbooks previously included in the syllabuses for individual units.

The booklist has been based on material provided by departments through the University Co-operative Bookshop. Additions, deletions and changes received up to 16 October 1978 have been included.

A separate *Booklist* for second semester 1979 will be available in April 1979.

As some changes in this *Booklist* are likely after publication, it would be prudent for students to consult the appropriate department before purchasing textbooks.

The University is not bound by errors in, or omissions from, the *Booklist*.
