285A.303 Findings; purpose. (1) The Legislative Assembly finds that:

(a) Local government is experiencing increasing difficulty in obtaining necessary financing for eligible community development projects, such as public works projects, causing project delays and significant increased costs to property owners and municipalities.

(b) The improvement, expansion and new construction of eligible community development projects contributes to orderly economic growth by providing the framework necessary to attract industry to this state and to promote increased employment opportunities and other community improvements which are for the benefit of the people of Oregon.

(c) It is important, therefore, that state agencies authorized to distribute state or federal funds for such improvements be able to provide programs and allocate moneys that will provide the greatest impetus to community development opportunities in Oregon.

(2) Since municipalities in this state often suffer from a lack of available financing for eligible community development projects, it is the purpose of ORS 285A.300 to 285A.312 to provide financial assistance to municipalities in order that they may develop and construct community development projects and may construct, improve and repair facilities necessary for orderly community development. [Formerly 285.683]

(1) Any port organized under the laws of this state, any municipal corporation in this state or any dock commission of any city of this state may apply to the United States for permission and may establish, operate and maintain foreign trade zones within or without their boundaries.

(2) A private for-profit corporation may also establish, operate and maintain a foreign trade zone in this state when the corporation is:

(a) Incorporated and organized under the laws of this state for the purpose of establishing, operating and maintaining a foreign trade zone; and

(b) Authorized to establish, operate and maintain a foreign trade zone under a special Act of the Legislative Assembly that specifically names and grants such authority to the corporation. [Formerly 307.850]

285A.328 Specific corporation authorized to maintain foreign trade zone. Klamath International Trade & Transportation Services (KITTS), an Oregon corporation, is authorized by ORS 285A.325 and 285A.328 to establish, operate and maintain a foreign trade zone in this state. [1997 c.499 s.2]

ASSISTANCE TO SMALL BUSINESSES

285A.340 Legislative findings; declaration of policy. (1) The Legislative Assembly finds that:

(a) Small businesses have been the major contributors to the increase in traded sector jobs in Oregon.

(b) Small businesses continue to be a major source of employment opportunities for Oregon and that this state ought to encourage the success and growth of small businesses as a means of providing economic opportunities and jobs for Oregonians.

(c) Oregon's women and minority-owned businesses are underrepresented in the business community.

(d) Those small businesses which have at least one employee and which compete in markets for which national or international competition exists have the greatest potential for benefiting the economy of this state.

(e) Access to appropriate business assistance services, rather than the cost of obtaining such services, is a factor limiting the expansion of many small businesses in this state.

(f) Small businesses that receive services from state-supported business assistance programs ought to pay part of the costs of those services because payment of fees by participating businesses assures that the beneficiaries of program services bear a part of the costs of providing the services, that businesses which do not value the services are discouraged from using them and that programs that provide services for which there is great demand obtain additional resources from program revenues.

(g) Community-based lending programs are particularly well suited to meeting the needs of small businesses that are unable to obtain from private financial institutions the capital that is necessary for expansion.

(h) An effective partnership between state and local economic development programs is essential to promoting the development of small businesses in this state.

(2) The Legislative Assembly therefore declares that it is the policy of this state and the purpose of ORS 285A.340 to 285A.349, 285B.074, 285B.159 and 285B.162:

(a) To assist the development of small businesses, with special emphasis on increasing the percentage of businesses owned by women and members of minority groups;

(b) To encourage competition among publicly supported small business service providers in order to supply the most effective, highest quality services to the greatest number of businesses;

(c) To foster cooperation among state agencies, state-supported organizations and private sector entities that provide services to small businesses in order to best meet the needs of small business clients;

(d) To encourage and support the formation of private sector organizations, including trade associations, organizations formed to meet the needs of traded sector industries and similar groups, to serve the needs of the small businesses in this state and, to the maximum extent feasible, to coordinate the small business programs of this state and of such private sector organizations; and

(e) To provide support for organizations that encourage and assist the development and expansion of small businesses in Oregon. [Formerly 285.121; 1999 c.509 s.16]

Note: 285A.340 to 285A.349 were enacted into law by the Legislative Assembly but were not added to or made a part of ORS chapter 285A by legislative action. See Preface to Oregon Revised Statutes for further explanation.

(a) The rural communities of Oregon need assistance in assessing their economic opportunities, planning for long-term economic development and participating effectively in state economic development programs;

(b) Strong community leaders are essential to the ability of a rural community to identify economic opportunities and problems, build a consensus on community development issues and coordinate the development and implementation of plans to address those issues;

(c) Rural areas of Oregon, more than the urban areas of this state, suffer from significantly higher levels of unemployment, lower average wages and high levels of worker displacement due to advances in technology and natural resource supply shortages;

(d) These distressed rural communities in particular need strong, visionary leadership to guide them through the economic changes of the next decade, which may be a period of growing global competition, severe natural resource shortages and declining employment in rural areas;

(e) Rural areas have limited resources with which to acquire the technical assistance and leadership necessary to adequately respond to economic change; and

- (d) Resolve problems that may arise in communities as they work to implement their strategic development plans.

(2) The program of leadership training carried on under ORS 285A.483 to 285A.495 shall develop the skills of individuals enrolled in the program by:

The department shall coordinate programs under ORS 285A.483 to 285A.495 with other programs including, but not limited to, federal programs, the regional investment program established under ORS 285B.230 to 285B.269, the special public works program established under ORS 285B.464 and 285B.410 to 285B.479, state workforce and job training programs, programs offered by the Oregon State University Extension Service and leadership training programs offered by local chambers of commerce.
