Coloring & Activity Books

An awesome introduction to robotics and other engineering specialties, this new addition to the Moonbeam Award-winning series explores scientific concepts in a fun and informative way

Ages 8 and Up

My First Book About Engineering

Patricia J. Wynne, Donald M. Silver

For thousands of years, engineers have solved problems by designing and building new things. This informative, fun-to-color book introduces kids ages 8-12 to the many different worlds of engineering. Realistic illustrations and easy-to-understand captions explain how civil engineers build a bridge, how structural engineers erect a skyscraper, how genetic engineers alter DNA, what environmental engineers do to protect our planets, and how robotics and aerospace engineers attach a mini-helicopter to a Mars robot explorer. It's the perfect book for the next generation of STEM students. 48pp. 8 1/4 x 10 7/8.

Children's Science Book

Author Profile

An accomplished science and nature illustrator, Patricia J. Wynne is the recipient of the 2008 Theodor Seuss Geisel Honor and has won awards from Parenting Magazine, the John Burroughs Association, and the National Science Teachers Association. She has created dozens of Dover coloring, activity, and sticker books, and co-authored the award-winning science series with Donald M. Silver. Patricia's artwork has appeared in museums, galleries, magazines, newspapers, and more than 100 books for both children and adults.

Trained as a research scientist, Donald M. Silver has written more than 80 books for students of all ages and for teachers. He has won numerous awards, including the Children's Science Writing Award in Physics and Astronomy from the American Institute of Physicists. He and Patricia J. Wynne have co-authored many popular Dover titles on science and nature, including their series on outer space, the body, the brain, physics, and more.
