ABOUT THE RANKINGS

Data for HOTELS' 325 is gathered through an online survey completed by hotel company contacts. Individuals are asked to report the number of guestrooms and hotels in operation systemwide as of December 31, 2013. Companies that do not respond are subject to an estimate through public records, previous years' data, industry sources and independent research.

In some cases, rooms and hotels are counted more than once because HOTELS chooses to separately report data from owner-operators, managers and franchisors on the same list. Thus, a single property that is owned by one party, managed by another and branded by a third would be counted three times. Furthermore, this ranking omits companies that exclusively or overwhelmingly own hotels; only companies that also manage or franchise hotels are included. That is why REITs and private equity companies are excluded.

Noteworthy changes:

- Emerging Chinese companies such as 99-Inn Management Co., Shandong Inzone Grace Inns and Shijiazhuang Guoda Hotel Management Co. are included on the list this year.
- Among the consortia, Keytel has been merged with Hotusa Hotels, while InnDependent Boutique Collection Hotel has been added.
- Among companies discovered or rediscovered: Princess Hotels & Resorts (130), Redefine BDL Hotel Group (215), CSM Lodging Services (238).
- Big dropper: Swiss-Belhotel International, from rank 100 to 213.
