DRACULA 2010

By Peter Chimaera

CHAPTER ONE

time was in Transylvania in the future year 2010. Many cars were built and they drove across roads made of not dirt but paved technology. Microchips were built onto cars and phones and buildings. I am in one of that buildings

John Bank was a spy who worked for American and Canadian governments in secret alliance to stop crime. But this time, crime was off the schedule.

"This is crime phone" he introduced himself into a ringing phone "I am John Bank for the secret servicing."

The phone rang "Hello Mr. Bank. I am not Russian spy so you don't have to worry."

John Bank laughed at his joke because it was a good one and KGB does not exist anymore yet

"How are you doing Jack Denver?"

"I am good my old friend my wife has baked brownies for your successful mission that saved me in Russia."

"Thank you wife, Jack. I am a lover of brownies but they are not good to eat all the time without a balanced diet."

"How is going your mission where you have to diffuse bombs?"

John laughed "I am diffusing them now in the office" but it was a joke because John Bank does not share information with Russians even if they are friends. Every year the Soviet Union might come back and then it would be dangerous for us to give away secrets.

John looked inside his watch because he had a computer inside that stores 500 terabytes of bomb data "Jack I have to go because my mission needs me"

"Very goodsBuit where do I send brownies?"

"Put them on the mail of special delivery COD because I can pay for it with my government raise. Good bye friend because I must have an actionful hurry" John spranged out of his boomerang chair and walxed his way into action run.

Lots of time later, John Bank was not on the streets of hong kong because he was hasted onto the downtown of Translovania.

"This city is less advanced" John noticed. "There are only phone booths without internet" John noticed.

just then John noticed that the bomb was in another place he tracked it using watch tracking of bombs using its termabytes.

"you should be careful John Bank" said Mysterious Spy.

"who there? don't waste time"

Mysterious Spy pulled out a gun and it was disguised exactly like a briefcase

"oh Sjoot" John Bank recognized the briefcase "if my calculation is wrong that is not a briefcase"

"Well dome" Mysterious Spy said my name "is Renly Craddock and I am illegal spy for the mystery company"

John had not heard of mystery company so he played along with the trick

"if that it's true you're very far from headquarters."

"Not true, Mr. Bonk foR you see the headquarters is very close by."

"WHat? where is, I demanding?"

Mysterious Spy turned on his suspicious "aga. I understand you tries to trick me using just that question!"

“well if you’re so smart, it’s time for a kick start” and John Bank kicked the ninja for a backflip

There wasn’t time to make him land, so John ran before he could fall down

“we have to find the bomb!” John told a downtown woman as he ran across her “checking transmission **This** is John Bank. where do I find disarming equipment?”

Transmission said “John Bank you need to get out because the bomb is detonate all of the people!”

“No! How many people die from radius?”

“don’t understand, John.”

“why not?”

“because,” president John McCain told him on his radio, “it’s not a radius. We have to evacuate the whole city from its entire diameter!”

AUTHORS NOTE IF PRESIDENT IS BARACK OBAMA CHANGE THIS

John hurried to government to warn them to evacuate

“I am president of Tranlvania” said the government

“msr. president if you don’t evacuate from the doom, the bomb will go off”

“yes we know Mr. Bank and I have it all under contorl!”

the president of Transylvia reaked over and pressed a button on his seated chair

Before all of their eyes, a viewing display became visible

“what are we looking at!”

the president was wearing a black cloak and when he stood up he was wearing. "this is a internet video and it is showing realtime of where the bomb is"

"Great relief" John sighed,,wiping forehead with his eyebrows.

when the president wiped his clock over his shoulders he said "it is all under control Mr. Bank and thank you for America and Canada's assistance for the protection of our nation"

Something seemed suspicious so John Bank went back to hotel room where he could review his case files.

"I'll come "too" said chief Michael.

"You followed me to mission?"

"This is desperate time, Mr. Agent Bank. I help you with *all* your bombs."

Meanwhile the president of Transylvania turned out to be Dracula.

"How was plan?"

talking henchman replied "president Dracula there is 300 more bombs but none of them are in our Transylvania part they are exported to Romania"

"Congratulaxcellent." Dracula seemed.

"we must carry on the plan of the next phase?" that henchman spoke that right away

"I am giving permission for the execution"

Gulped "Yes, President Dracula."

CHAPTER TWO

John Bank opened his briefcase and found evidence and it was evidence proving that he was a traitor

John said "I have to kill you because you traitor!"

So he took out his gun and shot the chief .

This is a sorry bad thing he thought but he realised there was important matter he had to give attention and then he called authorities on his telephoning but he had to hurry.

CHAPTER THREE

when'd John return from mission?He was gleeted by a hudred missionmen.

president of the mission told him "John you haves the making of a great battleship."

"Thanks, gentleman but I coulve not do it without a support"

Just uddenly there was a greatantic explosioner

"OH NO"

"look out"

"be safe quick!" John said with a catastrophe development

the bomb only exploded 13 guys but it was tragic act of terroristing"This have to be connected to my mission. Pull up the mission skim antics."

Barry Talvers who is John Bank's partner said "The computer is very damaged but I have pulled up information that the president of Transylvania is Dracula!"

"!!!" he sod.

"Gentlemen this is meanwhile while Dracula was "finish his phase he told henchman

CHAPTER FOUR

that he should complete the phase.

"John Bank must never find our altimate weapno."

CHAPTER FOUR

John Bank who was promoted to director for his timely action. John Drove into work in his brand new Cadillac hybrid motorcycle that was powered by a hovercraft.

"It uses no emissions" he told the guard who respected his environment choice.

when he bursted into the briefing room "WHAT IS THE STATUS?"

"director John Bank you have to listen to me we are in any serious problem."

"have we found bombs?"

"WE HAVE FOUND 300 BOMBS"

"this is exasperating! Tell me the details immediately"

"there is no time for chance. you must head directly to Romania."

"GUESS I have an appointment with danger" John said while he slept back his hairy. It was time to put a stop to adventure.

"not so fast, Director John Bank."

"who dares to?" John demanded.

but the answer came from the silent. then he saw that the base was full of dead people

"how did they die?"

his partner Barry Talvers was only survivor "sir it appears to be poison and there must be an inside man"

"who could it be if already shot the chief?"

"I dont kow Mr. Bank but it there is no time to find out..y ou have to stop Drackula."

"okays but how tdo I disarm a 300 bombs at once?"

Barry noded and frowned with his entire face "you can't do it unless you were magic."

"What ares you stopping about? That's is an impossible"

"THAT'S IT magic" an secretary brought in. AND John went digging into arcives where he finding a tim machine.

Barry was shorked "is that a"

John said to tell him "yes it is amarican and cansadian secert that here inside the secret spy service that we have hidden an times machine but you must keep it close to your cards"

"So you can go back to stop the bombs"!

"Negamive my friend became it is stucks and can only go back to one time beccase thats where the portal is used ALSU if we use it it will be used up."

"so we can only use it in the greatest emergency?"

"right so I'll go first" and he entered a whirling portal and enteret whirling into medievel kingdom so he could find the legend of chaos magic which is only thing that can stop so many boms. but the portal closed behing him leaving him standed in a puddle of mug.

"OH no great" and his expensive shoes were made as dirty "How am I to defeat Flacula if I CAN NOT EVEN STAY MY SHOES CLEAN"

CHAPTER FIVE

"excuse me!" John told a man but he guy was shock of John Bank's modedn tuxedo which looked wrong for him so John went onmoving until he came to seeing a breastiful maiden.

"HALLO LADy I am looking for tavern to sleep my weary face"

"you muct look for the green man he has the best tavern of this any city suqare"

"OK"

And so John founds the tavern but inside it was a man who wroe green
"Are you the green man"

"Yes so lam looking for a place to rest" "You can rest here"

So John went to a room where he could sleep and plotted out where he could find the cahos magic and was so nervoused that he in order to hide the technology of his watch from prying eyeballs.

"It would be dangerecks to show face of vision to see such marvels"

Just then a fary looked in his window "Who are you staying here?"

"I am John Bank and I am from America"

A"merica, where is place sounds unknown like it is a great journey."

"It is near here but you have to take a very large boat"

The fair yunderstander him but was puzzle. "I am a fariy who will answers you two questions BUT you must not lie"

"Thart is a nice try burt you are NOT REALLY FAIRY" and it was only optical illusion from machine that come with hims from the future

"Tell me where the chaos magic is!"

"A CHASO MAGIC DOESNT EXIST" said the machine "YOU HAVE WASSTED YUR TIME" and selfdestorked with one greatedened explosive.

"This was cause a distress" and Jhon tired to sleep but he could net sleep with blown up machine in his room.

CHAPTER SIX

Meanwhile a thousands years into a future, Jack Denvers who was Russian friend finds "oh no but where is John Bank?"

He was tarped under rocks where Daracul laughened. "I livet for over ten hundred years to build these bombs and John Bank will never come back to save you because he is trying to fix the bomb plan."

"I have to beliefvv he will do it in time and still help me because I am his Russian friend"

Dacula laughed again and he didnot beliv that John would save him. But just in case.

"Put a guard next to Jack Devers and make sure yuou find out his real name so we can kidnarp his wife"

"We already found it is on his package of cookies" told a henchman Korgo

"That is lied!" Jack craid "We never put real name"

"No but we traked package with our spy in the postal offic so you see you ar doomed"

Jack could say nothing but he was upsetted and they put a guard of veloacriraptors that they took from back in time.

Back in 1010 John downloaded from the blown up machine to see if it had any data that had not been explod. And the answer was combat "YOU MUST FIGHT THE BAR MAN"

"Oh cripes" Jhon gapsed.

The man who had a green came at him and pointed his fists for battel.

"I have to use my training" and John did an uppercut into the green mans big toe.

"GOUCH" But the man attacked him with right away

John felt powerful punch into stomach and was forced to do a backflip.

I've "GOT YOU" said the bar man and he did a backflip.

John used the backflip to make him to fall over and he fell on bar which broke all the ale

"OH NO I OUT OF BUSINESS"

John felt badf and said "I will help you build bugness once againk but I must find tehr magic for it for save my people of America. WILL YOU HELP ME"

"It seem I must join forces by the way may name is Nathen Norris"

So they setted out at first light and came wandering apou a robbers.

"Give us our money you have"

John only had American and Candian money so he said he did not have so tehy shootted arrows at the green man.

"You batter not would hurtted him!"

Nathen said "No it is okay they missed" but before the sentence was finished Nathen jumper kicked over Johns head and double kicked both their heads together and there was only one robber left.

Robber triesed to run away bit Nathen picked uptheri bows and fired a warning shot into the robbers money.

"Oh PROBELM" as the moneys all fell onto the ground like many coins

John and Nathen laughs and now maney couldt go to the umfortumal.

But the umnconsius robbers woek up "where is our leader"

He "has left you and now you have to tell us where to find the chaos magic"

"If we don't tell you anything!"

"OK" So they left the robberies tied up so the authorities could justice them uply.

They had no other clues so John followed a hunch.

"Aha" There is a headquarters, Nathan said with his face looking at it.

"This must be where Dracula will make the bombs. It is very for future."

"Then it is time for the end of me Sorry I am have to go old friend" said Nathone

"That is all K, Nathan Norris But what will you business?"

"That is not to worry, I will making a lot of money for reward of the robber thieves" John Banks said goodbye and your great grandchildren will one day have an action star.

John went into the headquarters but it was guarded by too many vampires. So John Bank thinking quickly.

"You have opened the window and melting us" said the vampires and a hundred of them turned to dust.

There were only 15 left but still too many for Karate. John Bank had to use clever tactics. One vampire growled at his plan and jumped so John cleared him out the door into the sunlight.

"Mistake!" he cried and burstled into ash like a great flaming because vampires cannot sunlight and they don't go sparkly like in that twilight movie.

John broke off a piece of wood from the door and threw it through a vampire but he caught it.

"That is my only weapon" John kicked a vampire and he accidented into it, getting staked.

"If I only had a crossbow THAT'S IT" and John used his laser watch to shoot at a wooden table so it exploded and shot pieces of wood everywhere, sticking in almost all the vampires only two were left. So he took the stake out of one to use it.

"Stop him before he kills the vampires" said vampire girl who did backflip but John Bank did a backflip to catch up with her and staked her in the heart before she could backflip.

Only one was remained so John did a spin kick into his eye to blind him then cut its head off with a European battleaxe.

He searched the headquarters but couldn't find Dracula because he must be out. But he found the bombs and wrecked them into the lake.

CHAPTER SEVEN

1000 years later Dracula was just ready to do his plan but said "Are you ready to pay the consequences Jack Denvers?"

"No!" And Jack kicked him.

"Your kick is too late I WILL DETONATE THE BOMBS WAIT WHERE ARE THEY?"

AUTHOR NOTE | INCREASED FONT SIZE BECAUSE DRACULA
SHOUTED LOUDER BUT IT WAS ALREADY CAPITALIZED

"The bombs disappeared" Dracula said "This can only be a time paradox"

John Bank came in because he cryogenically froze himself for 1000 years in the lab.

Dracula was mad so he got on a motorcycle to escape. and John chased him on his motorcycle but because of environment choice it drove slower so John had to drive smart.

After doing a swerve, John drove faster until Dracula had to do a swerve then he was closer so Dracula pressed button that exploded shurikeninja star shots all over John's everything but his motorcycle had a shield that protected it all except John's leg was cut. John Bank could not heal the injury while motorcycling so he had to make hasty decision and backflipped his motorcycle to crash forwards into Dracula's motorcycle and did a backflip off of it to land on the grass while the vehicles crashed.

John was wounded and Dracula came over him with big sword.

"Any last words, Mr. Bank?"

"Yeah because it is my victory speech of America and Canada." John said but it was a trick to make Dracula turn his head and John shot

him with his security gun licensed to him by the American and Canadian government.

"HALP that hurt my neck" and Driencula fell backwards onto the hill that made him roll backwards.

So John could fire another shot but he needed holy water or a stake so to kill the bad guy who was vampire leader because of justice.

He shot a stop sign so it came out and then John stabled Dracuta with the sign in the exact heart.

"Blaaaaaaaaaaaaaa YOU CANNOT WIN FOREVER" Deckula mashed. "I WILL GET A REVENGE ON YOU GOVBERMENT" and then he fell into a dead body because of John's victory

"Now I just needs to examine the evidence."

CHAPTER EIGHT

An lot of hours later....

"John Bank you have killed the president of Translavia and the chief so you have broke so many rules of the goverment we have no choice but to be fired."

But John Bank didn't care because he saved the world and stopped the bombs and he would still be friends with Jack Denvers who was really called a secret Russian name. Who his name? It is on mysterious so you will have to imagine. John Bank now works at a writer of action spy magazines but he cannot tell the truth because it confimential.

Then End!

Teh
Psiobnic
Cowboy

Teh Psyonic Cowboy rode into twon to find that his wholle town was a ghoest town.

"Whered id everyone go?" He psychiced his horse. But the horse did not know. So he rode into the saloon where he took off his horse and walked in without his horse because it wouln not fit into the dooroway.

The room was a wooden salloon that was ver rustic for the year in the ditant future.

"Bartender, be identify!"

"Shut off you ghobsly uglies," shooted the bratender who was hiding below a table.

"No I won't, it is only me and I am not a ghoost."

The barender did not want to come out of hide so the cowbor used psychit to dinscover him.

"How did you fina me?" said the bartender as the cowboy found the table off of him.

"It is my mystery and bow I fight ghosts?"

"Okay but cause of ghosts is not a straight for "

AUTHNORS NOTE: I DIDN'T THINK OF A WAY TO END IT BUT I THINKS THEY WERE ALL GHOSTS BECAUSE ALIENS ABDUCTED EVERYONES LUNGS BECAUSE THEY COULDN'T BREATHE OXYGEN.

COMPUTER VIRUS

CHAPTER ONE

Jerry Henbecker was it on the Internet

"I am using computer" he wisely.

He was using that to chat with girlfriend of his 2 years and to study for computer science.

He wanted to be a IT because his father was Jim Henbecker who was a cop that deals with crime problems but Jerry wanted to do the same but only with computer crime like viruses.

"But dont worry" he chatted with fingers on the keyboard "I do not have handcuffs"

Girlfriend Shiela Gibson did not find the joke funny but she had to go "brb later tonight at our date at 800pm" she logged him.

He studied more but before the date he noticed a activity. "There are less viruses on the Internet-I have to have find out why if I want to be a computer detective"

So he worked on it for a while before he's late for date at nearly nine onclocks.

"He always stand me up" his girlfred rankled. But "When do you show up here?"

He said "Sorry I am late of what time it is."

"Well you will be late to breaking up if you cannot change your anyway I have to go because I am too upsettled." And she throwing into taxi?

"Great grief I messed it up," Jerry stapped his frohead.

But the day was not done of disasters for that because he was get mugged trying to gohome.

"You must give me wallets"

Jerry's wallet "But I don't have money"

So the two muggers said "OK" but they had to beat him up.

Jerry learned how to cop move and punched the mugger in the left head. Mugger 2 "Hey" and grappled Jerr'ys colorbone so Jerry elbowed them in thec shoulder.

"That is just enough hurt for me to escaped" Jerry exasped at him but the first mugger graped him and broke his arm. Jerry ran home and got a cast at the hospital the next day. So far it was not a lucky week.C

CHAPTER TWO

Two next Thursday Jerry had a text but because of his busy he did not get a very high test in was only got a B.

"You swill have to shape up" said Professor Gorkchevel

So Jerry went home to study but also watched news and it was about how scientist Robert Carlmo was discovering his new invention but then he got interruption phone ring.

"Hello I am sorry about" it was Shiela call about his broken arm "but I am still mad that you are always late on time"

"You won't be late this time" Jerry said and taked her to Medieval Times for the special occasion.

He picked her up at seven sharply o'clock and they will gets to 7:15 before traffic made impossible.

"What a grief" Jerry macked his head with his undriving hand. "This times it not at my fault."

Sheila said from passanger's seat away "I know but we will have to get partient."

Thurns out it was that an explosion.

"We will have" to Jerry got out of the car and so did Sheila but their car got trapped inside the car when the explosion came closer.

Jerry's only choice was to make the door open so he used her to come out his door which was not stuck and they jumped out of the way before we were going to blow up.

He and Sheila did a rolled off the bridge befas the explosion came and they roll fell of overpass onto windshield of lower car like a huge smashing.

Motorlist shouted out of his car and shouted "You bracked my windsheel! How outrageous!"

Jerry was not well is arm already broken so he was pained to not speak effective.

"There was explosion" Sheill said exsasperfully and wiping an sweat off her bro.

"It must be Dr. Carlmo's new invention;itcan turn computer program into other machine."

"I am not understanding" she criped.

"Somone made a computer virus for cars to explosion."

So they got right out of there to tell the police but no one believed them they walked in.

"Police station" a woman cop wescribed.

"We need to report a computer virus"

"Okayswbut what time of computer virus?"

Jerry banked his right fist in the cast "Its not computer virus no mores- It's in cars and one was explode!"

The cops said "OK we'll look into that" but Jerry sowed that they didnat belive for him so he worked out.

"What do we do now?" Jerry buckled himself

"We should not get involved"

"No time for that anymore" Jerry gowled.

CHAPTER THREE

Jerry spoke with his father Jim "So that is what happened, we could have brought dead"

"I beleve you because you are my child but Im retired and I cant make the other polices understand of this virus so I will have to help you other way"

"Thanks for the guidance you are good father"

So Jim gave him some equipment to "Okay goodbye"

Jerry would always remember his father even if he died in a terrible accident later on.

"Mr. Henbecker you are late for an important class" that professor demangled.

"Sorry professor I was kept up" Jerry is stumbling with his cast but did not want to use it excuse.

"Very well but you have a lot of work to computer" and Jerry got straight to class.

But while working he got a decision.

"That why the viruses gone! Somebody took the viruses off the Internet and put them in car" and he told Sheila on cell phone that what he said.

"What means that?"

"What means is this! Any kind of technology is a threatened."

They hears an alarming beep.

"What sound, I do not have call waiting?"

"No," Jerry alarmed her "Somebaddy is tracing this call MAYBE VIRUS IS IN PHONE"

So they threw their cell phones and they blowed up.

"Mr. Henbecker you appear cell phone has exploded!" Professor.

"Yes I am okay but I got away. You have to be careful because they can put a virus in phones."

"That is hard to beliej but I saw it with my own eyeball"

"Now that the cyber crimanals know I am on the crime everyone is in danger" so Jerry logged off the computer and fled feet to where Sheila was in her apartment parking lot.

"Shelly it is marbelous luck to find you."

"Jerry, frightened!"

"It is okay do not use technology until this is all blowed over."

"How will we get there?"

"We must get to Robert Carlmo and tell him his invention is being used for terrified, but we cannot tax taxi just in cage."

"What if we're too far to walk?" Sheila wondered dustfully.

"We will need a bicycle or horse."

"Thats it!" Sheila remarfed. "There are horse carriage rides in the downtown establishment."

So they walzed and ran at times until they found downtown just in time for a power outage.

"Remarkable" a downtown man had a mustach.

They arrived at the scene and it started to rain like that part in V for Vandanna but except there were no lights on.

"What I wondered happened?" asked a coach who he was on the horse carriage.

Jerry clambered in. "It could be a technological disaster so it is a good thing you have a horse."

"Where can I take you fine folks" the coach smiled brightly.

"We need to take my one way trip to San Francisco" Jerry said and pulled out a gun "so let's make it express."

"Where did you get those guns?" surprised Sheila.

"When your father is a cop you can unlock a lot of problems."

CHAPTER FOUR

They got to Dr. Carlmo's labquarters really later so late it was sun coming up apparently.

The powers was out in San Fancisco also but the lab was operating at full complacency.

"This seems like an oddnomaly" Jerry wondered with head scratch.

He preceded into the lobby "Excuse me sir we will have to check your guns"

"Yes sir my gun is right here" and Jerry put it on the table and teh security guard signed "Do you have appontment"

"No but I has panicing news about Dr. Carlmo's invention being used to explode things that he needs to knowledge ASAPilly"

"I under stand I will patch you righth throat."

So Jerry and Sheila walked through a hallway into the door but a guard had to swipe a metalled card because the door was high technology that could not possible in small California town.

"I am not used to" jerry remarkled. Sheila agreed she was intimidated.

They went in and Dr. Carlmo had a really lab coat that was working hard on the science.

"Dr. Carlmo! You are brillant scientist!"

"Tghank you you are very kind but what can I do for you I am very boosy."

"I have to fortunately inform you that your invention is being used for evil porpuses."

Robert Carlmo turned around and said "You better stay here where its safe in my holding chamber"

And big metal cage formed around them with a technology of fast metal claws.

"How is this help!? Demand you!"

"No, it is I who made the cars explode because someone want to expose my creation but then you talked to the police and now I have to stop you"

"What crap!"

Robert Carlmo shouted "No it is a genius! Before I for make this invention I was only a English professor and nobody respect that my job! Now everyone can see what I can do because my newest addication is a program that makes it turn computer virus into human virus!" He tooked out a sarinje and said "Here is deadly virus that make people so sick they die from it and only I have the vaccinate!"

So suddenly there was a earthquake and the doctor Calrmo drop the siring and it land in his leg "OH NO I INFECTED WITH MY OWN VIRUS"

Jerry said "Here is the antivirus" and shot him in the head deadly.

Sheila crazied. "They security took your gun!"

"That was fakes gun I kept the real one hidden just in have to."

So they wents home and had a relaxing vacation.

"It is good thing we do not have to be scared of technology" Sheila said

"Okay but why is your cell phone ringing?"

AUTHORS NOTE: WHY DOES IT CELL PHONE RING? LEFT UP TO YOUR IMAGINTIERING!

The Psionic Cowboy fights a Space Station

CHAPTER ONE

Four AM. Roger turned over in his sleep and turned off of the radio clock it was playing song he didn't like but it was time to get up so he went off to work.

"Morning Roger" said receptionist Gloria. She was like to speak to Roger but Roger was too busy all the time to ask her out so he said good morning and went straight to the bus.

He was engineer at the MR1 Space Station on orbit around Earth in the year 25000 and it was having a hot day.

When he arrived meanwhile on Earth there was lesson to be made.

"You cannot steal a woman's purse" said psionic cowboy.

"OK" said the thief and he went home.

"Thanks for intervening me" said the very woman.

But the psionic cowboy tipped his hat and kept what moving because he had other adventure to solve to.

"Wait cowboy" and she caught up with him

"What is you? Get it over with."

"No I want to come with you and have the time."

"But I'm dangerous work man and you could get injured." By the time they could stop the arguing they had arrived at desert casino where the drug gang was hiding.

"This is where drug dealers go so you should stay hidden"

"OK" she said and then when he went in

"Psionic Cowboy! Get him!" A crime lord bossed at him.

"I told you to wait outside"

"I have ray gun" so she blapsted at the criminals and shot one. Thenother one shot at her but psionic cowboy created one energy shield that melted the bullet.

"It is hard enough to me protect of myself without another person screwing along." Cowboy said and he flung the crime boss out the window with his psychic blast.

"We have no boss" the criminils said and they runned but lady shot them as they run out.

"You dont have to shoot them they are running away"

"Thats okay its set for stun and police will get them"

"You are very smart woman but police do not come here they are scared of gangers."

"Then we should get out of here"

"Thats what I trying to tell you" Cowboy angered and lepered out of the casino before security gave them a hard time. But there was still a criminals left.

"I will fight him" said the biggest puncher who he was so big that Cowboy could not fling out him.

"Looks like it can't be a celebration yet."

"PUNCH PUNCH" the man punched Cowboy in the solarp lexis.

"Oof man" The Cowboy ducked down but then did uppercut and hit the fighter in the nose with pisonic energy around his kunckles.

The man felled down with a mighty collapse and gave them time to catch a breath of fresh ear.

"What should we go to?"

"I don't kown this is your mess"

Mysterious voice said "Then maybe we can clean it up"

Cowboy used his psychic but couldn't figure out who talking. "Who did there!?"

"I am Murphy from the government and I have a offer for you that will fix everything"

The woman from earlier said "Okay but I will come too"

"That is okay but it will imperative that you both at once." Murphy stranggened his tie.

Cowboy struggled on his hat. "What is the emergency that you want me to work for you or the govornment so soon?"

"It is about MR1 space station will be under attack soon."

"How would you know sure?" Cowboy was looked at him.

"You are not the only spychic. cowboy anow you have to come with me so we can save the humans." So they did.

Millions later, they were at the strabase and it was so in the space that they were very above the Erath.

Government Murphy put his head on the door and said "Scientist Henerick are you in there?" but he read the scientists mind and saw that nobody was home.

"It's okay. The coats is clear."

Cowboy and the woman ladled in to the place where there was no sign.

It was advanced lab with technology of the advanced robotics all over their eyes.

"What is interesting technology!"

"Indeed" Government Murphy chopped in. "But I must radio in" So he radio.

"He tells me it is too late. The Scientist Roger has build a robot AI but we might have to stop it because it will self-aware itself."

"Why does the government want to stop it?"

"There will only be time to explain when it is too late. Come on."

So they went to security.

"Security man, did you see Roger has escaped!"

"No I did not"

Four hours later Roger talks to a roobot and says "How are you feeling?"

But the robot said "Humans are trying to inferior!"

"Oh no robot you are too dangerous" now "thanks to I goofed." He predicamented.

CHAPTER 2

"Here's the mission men" said General Workinov. "The space station is taken over by the killer robots that are programmed to hurt humans but there are other robots that are good and want to help us so we have to help them save us. I'll go first."

He machinegunned the robots so many bullets that he ran out of the whole nine yards.

"I am out of magazines" he reported. But the bullets were invincible to the robots who were not damaged at all.

"Men we need a plan"

"We will use rocket launchers"

Okay. "No its no use we will just waste rockets the robots are invulnerable armoured and are pure killing machines."

Murphy turned to the psionic cowboy and said "You have to use what you can."

"But my psychic powers don't work on robots, only people." But he tried to make a psionic lance that he shot from his forehead. It did not hurt the robots like he figured.

"Where are the scientist?"

"I am I worked on a project with Roger I am his secretary. The robots only weakness is the power supply. But it that is inside their laser guns so you must shoot when they are lasers."

"That I will have to attack those" Cowboy said and he went to a robot and said "If you can shoot me go ahead you metal"

"Target identified it is inferior human" and it tried to shoot him but he created a psionic shield to interrupt its laser gun and the blasts went bouncing off and created a big safety.

"Now that I can see your laser" I will shoot it, he pulled out bow and arrow and shot the arrow that hit the power supply and the robot shutted down.

"You cant use bullets, the target is too small" he hurried them so they all made bows and fired but could only hit them while they were shooting so they needed a plan to keep the robots shooting and not get died so they got a plan

The sions cowboy created a sheild around a whole lot of them and he blocked laser blasts but it became hard because there were so many. The cowboy made another psionic lance but it did not hurt the robots.

After they shot a whole bunch of arrows they destroyed a lot of robots but there was still one left and it was the biggest one.

"HAHA CRUSH HUMANS"

"He is laughing at us. He must be advanced AI. He knows our wekness."

"Cover the weaknesses" and they jumped into cover when the big robot gatling shooted at them.

"Where is the power supply"

"We don't know." They all said.

I know said that woman and she fired her ray gun at his legs because it was like a big spider robot and after she blasted all of them the robot fell and then the gun was trapped under it body so it couldn't shoot neithewise. Then they all set the gun to full power and the robot brain exploded so big that they felt the heat from where they were all the way over there.

The cowboy astonished at her. "I guess you'we not so useless"

She laughed "No I am tougher than you are you jack"

So they went to have date but it didn't go so well.

Jim's Mystery

CHAPTER ONE

IT IS HAPPY?

Jim Macrage was at a wedding which was his wedding.

"I do," said Jim's fiance Dorathy who was wearing a big dress.

"OK" said the minister and he married them and they kissed to have the audience applaud.

"It is so beautiful," said Grandma but just then a out of control smashed into the chruch.

"What a ruined!" Jim they exclaimed. The wreck ruined the big moment.

The minister looked inside the car's viewing and discovered a reveal.

"There is no driver!"

So the mystery was that it was remote controlled or that the guy jumped out of the driver side door before the actual smashing.

A guest man who was a mechanic. So they got him to look at the cars.

"I don't see any evidence." He

so pretty soon when Jim got back from honeymoon he get a called from that police.

"This is Officer Victorix but I can't talk over the phone."

Jim and Dorathy met Officer Victorix only Dorathy was out doing errands.

"We don't know what made the car crash."

Jim okay "then maybe car was haunted."

"Could be the past owner was died in a forest fire but I cannot tell you how it happened because its classified."

Jim was unnervedly shocked because he was forest ranger and he worked with a lot of forest fires.

"That is all of my time." Officer Victorix lefted.

"Thank you for your information," and Jim went back to playing X-Box 360.

Three years later Jim fell down the stairs at his security job and when he did in the hospital he said "I thought it would be safer." but it was not a funny joke.

"How did you fall down the stars?" Darothy required.

"I do not know it felt like I pushed."

"You must find out who pushed."

"But my report was that building would be empty." He shockled at her mindly. "What it could be ghost?"

"Nonsense," she screamed quietly. "I don't believe one ghost at all."

But Jim saw pattern and wanted to see why ghosts want to harm him.

In an afternoon when Dorothy went all the way to work Jim consulted a psychic but it was not a good psychic and she was scamming at him.

"I tell you all about it for \$5000"

Jim broke a gasp, "\$5000!? What a train wreck"

"But that is why I tell you who pushed you."

"Aha I did not tell you I was pushed. You are scamming me."

So he punched her in the middle of the hair and waked out.

"It's a good thing I saw through the plan." He remarked to his great muscles.

"Look out mister" she said, it was a little girl "Theres a ghost on you head."

So Jim ducked and big ghost flipped off and went into a swirling.

"How did you know?"

"I have power to find ghosts" said girl "it must be important that you find me."

"That sounds so possible?" Jim scratched his elbow.

"My ghost power tells me about you have were at a fire in 1998."

"Yes it was terrible and someone die because I broke my leg and could not save the Mister Brockernson."

"Then it is not too life to save him from eternal angry."

So they drove to the forest where it was dark at night and the mist was so misty it hurt Jim's eyes out.

"Do not look at the mist"

"OK" Jim packed.

They arrived at the old forest where the fire was so many time along.

The little girl was past her bedtime.

"You have to tell the ghost what is your truth"

"Okay Mr. Bronkenson I am sorry that I did not save you from the fire but my leg was broke and it made me so slow" he upsetted "so it's okay to forgive me" and he drove the little girl hom.

"Where were you not at home?" her parents asked.

"Its okay maam I am forest ranger and she was safe the whole time"

"Okay"

So Jim went home to have happy life.

CHAPTER TWO

NO

"Hi honey I was out last night taking care of ghosts."

"I told you not to interfere with that balderdash."

"Yes but I took a little girl to the forest and it turns out I am haunted by the ghost of a forest fire."

"Oh not good"

"But it okay now so we can enjoy ourselves."

But suddenly it was over and the ghost possessed Dorothy.

"Grrr you kill me"

"Great crap!"

The ghosted Dorothy shambled.

"No Mr. Bronkerson I explained that I did not."

"I am evil ghost and will never stop torment."

"That is why you pushed," Jim told him and shot Dorothy with his gun happily.

So the ghost was dead for life.

"What happened?" Dorothy gaped.

"I killed the ghost in you so I hope you are very okay."

"Yeah I am fine"

THE END

YOU ARE THE CRIME DETECTIVE

Criminal detective Inspector Johnsman was on his case to solve a mystery but it was tough crime.

"Someone has stolen the International Museum!" He said. "Can you help me?"

The job is up to you. "I cannot solve the case all by my hands."

So he investigates a witness.

The witness is Mrs. Raphalsius and she saw the whole thing goes down.

"I was here picking up my kids from the museum and the museum was gone lucky for my kids are okay."

"Did you hear anything suspiciously?"

"Yes I heard a drilling sound it was come from the museum the night before"

Inspector Johnsman wants to know if she is telling the truth? What do you think?

"Aha," you say. "But if you pick up your kids you should not have your kids they are missing"

"Oh no you're right I guess I did not think of it. But my kids are fine."

Johnsman asks her with a detective fist "Did you see museum or not"

"No but my sister did she is watching the kids now and they are shacken up."

Do we talk to her sister or not?

You say "yes."

So you go to sister's house. "Her name is Margaret" your chief calls you on the CB.

But on the way there a car crashes into you from the side and knocks you over almost. Luckily Jonsman has special training it is like martial art for cars and he rolls over the car with special flip.

"We have to shoot the criminals" he says as the crooks came out.

The bad guys fired at you and hit you in the chest. You try to take out your gun but it is too hard.

Detection Johnsman takes out his service gun and fires 12 rounds of 9mm ammo at the bad guys and some of them hit for lethal takedown. The other bad guy keeps firing but we need to keep one of them alive so Johnsman tackles him with.

"I will talk he says" says the bad guy. He is bald.

So you take him to the station but looks like you have to sit this one out because you have been badly shot. Johnsman must now solve the crime of the attempted homicide.

Intective Johnsman invistigates the clues. They take him to a bandoned factory.

"I should avenge my great partner."

The factory does not have a crane big enough to transprop a entire museul but it might have more clues. The bad guys shoot at the detective but he fires back four times with his twelve gauge shotgun and hits one of them seriously.

The second bad guy is only hurted but there are twenty more.

"We have machinegun" they say.

"Good idea" and they set up a machinegun but detective's vest is bulletproof so the bullets do not harm unless they shoot it his head.

"Shoot it his head" but in the time that they set up the machinegun the detective reloaded his shotgun and fired at shooting the machinegun in half.

"Damns crap!" One of them all say.

So them bad guys surrender to be arrested. It is valiant victory for the side of justice and Detective Johnsman shoot the boss in the head to teach lesson to the others. so they will turn away from crime.

"That is harsh lesson you have gone too far.," Chief said to him at the hearing but Inspector Johnsman cannot be stop now so close to solving the detective.

He fires with shotgun six more times at the head crime boss but the head crime boss dodged.

"How did you steal the museum?"

"It is so simple that you are stupid."

"WHAT IS YOUR MEANING BY THAT? Explain fast!"

"We did not steal the museum. We did the easier thing."

"How do you explain it to me?"

"You have to follow the facts. First we tunneled under and builded an big hole. Then we stole things in the museum that we wanted and then we dropped the museum inside the hole and buried it with concrete. It is underground all along."

"Return that you stole, they are valuable belongings!"

"Never" and the bad guy throws a incendiary grenade so it will blow up with fire blast and Johnsman has to does tuck and roll to escape from shooting at him while the grenade blows up a box.

"Return fire" Johnsman orders at the Chief and the Chief shoots his HK MP5 submachine gun at short controlled bursts. The two guys fire at the bad guy and miss some more but one bullet hits him. The boss fires and shoots the Chief in the chest. The Chief fires again and they get the bad guy in his head but it only creases his jawbone so there is still more shooting. Johnsman fires again and misses.

"Bad time is over" the boss says and he sets the whole base to self-destruct.

"SELF DESTRUCT WILL ACTOVATE IN TWO MINUTES" says a computer voice that sounds like a girls voice.

"How does he do that?"

"The whole place is rigged"

So Detective Johnsman takes out a flamethrower and sets all the crates on fire. "There is no where to hide now"

"Shoot up!" The bad guy screams. "I will have no choice but to be arrested"

"No more shooting prisoner" Chief warns Johnsman.

"Okay this time it will do it by the book."

"You hasn't arrested me for the last time. I will escape from you. My name is Paul Mansen and I am a resourceful crime boss."

"Don't forgot that the place will explode" so they get out of there.

You heal up and are back on the action in a few weeks. Johnsman was investigated but Chief and you put in a good word because of his brave that he doesn't get fired but he does not get the big promotion either.

"Sometimes you do bad things when you're a cop but you have to corret those mistakes to be a hero." You tell the other cops and they all understand the speech and it is the speech you tell to the new recruits at the police academny every year.

The Chief tells you you did a good job rookie and will have a long careeb as a police offimer.

THANK YOU SO MUCH FOR READING MY
BOOK I MADE MY OTHER BOOK AND
SOME PEOPLE BOUGHT IT SO IT IS A BIG
THANK YOU FOR MY.

THIS ONE IS MADE FREE TO DOWNLOAD
BECAUSE I WANT TO GIVE MY
SOMETHING BACK TO THE INTERNET
THAT HELPED ME TO SO THANKS AGAIN
IF YOU READ THE WHOLE THING

A handwritten signature in black ink that reads "Peter Chimaera". The script is cursive and fluid, with the first letter 'P' being particularly large and stylized.
