Celebrating 40 years of bringing science to patients in India.

AstraZeneca is celebrating its four-decade long commitment to India of delivering life-changing medicines to patients through innovative science. The Company today has over 1,400 employees, a unique portfolio of innovative healthcare products and a state-of-the-art manufacturing facility at Bengaluru, India, designed to meet the most stringent international standards, conforming to WHO cGMP (current Good Manufacturing Practices) norms.

AstraZeneca through its flagship programmes – Young Health Programme, Early Action in Diabetes, Healthy Lung and Ganga Godavari Early Cancer Screening Programme – is at the forefront of addressing the unmet needs in Non-Communicable Diseases (NCDs) such as diabetes, heart diseases, asthma & COPD, and cancer. With its focus on growth through innovation, the Company is on track to become a leader in its chosen therapeutic areas by delivering growth, accelerating innovative science and being a great place to work.

Pushing the Boundaries of Science

“ Our science-led strategy and our open and entrepreneurial culture are underpinning a resurgence in innovation that is fuelling sustainable product sales growth and delivering medicines that patients and society value and can access.

Making Science Accessible

As a science-led biopharmaceutical company, we want to be valued and trusted by our stakeholders as a source of great medicines over the long term. We are committed to operating in a way that recognises the interconnection between business growth, the needs of society and the limitations of our planet.

What does making science accessible really mean to us?

- Connecting our business growth to positive impact for the society.
- Setting goals and building on systems that support people around the world towards a healthier future.

- The health of the environment has a huge impact on human wellbeing.
- From climate change to consumption, we are all responsible for reducing our dependence on natural resources.

- Putting our Values at the forefront of our decision-making.
- From sales and marketing to clinical trial transparency and bioethics, it's one way we meet stakeholder expectations.

Access to Healthcare

We are using our science to improve health. Non-communicable diseases (NCDs) account for seven out of ten deaths globally, making them the leading cause of death worldwide. Our access to healthcare strategy in India focusses on three areas - making our medicines available and affordable, supporting sustainable health systems and infrastructure and promoting disease awareness and prevention.

AstraZeneca has launched a number of flagship programmes to increase access to healthcare in India.

Ganga Godavari Early Cancer Screening Programme

Launched in February 2019 on World Cancer Day, AstraZeneca is proud to partner with the Indian Cancer Society and the Charities Aid Foundation India for the Early Cancer Screening and Awareness Programme for women, especially in areas where access to healthcare facilities are constrained. The key components of this programme include specialised cancer screening camps for females in defined population for oral, breast and cervical cancer, create awareness through health education activities in the community and robust follow up process to ensure referral for treatment at cancer hospitals.

The Young Health Programme (YHP)

The YHP India is funded and supported by AstraZeneca Global and was launched in India in 2010. AstraZeneca's contribution to YHP India include employee engagement and disease awareness initiatives among communities. YHP focuses on prevention of NCD's during adolescence by education on risk behaviours such as tobacco use, alcohol abuse and unhealthy eating through on-ground programmes, research and evidence generation and advocacy - empowering young people to make informed choices that protect their health, now and in the future.

350,000

3,000+

Close to 3,000 young people have been trained to be educators in their local communities

15

Health Information Centers are providing preventive and promotive health and counselling services

“It was a great experience. I was so delighted to see the confidence and ability of these young people who had learnt and are able to teach other people on the importance of healthy lifestyle to combat Non-Communicable Diseases. It is hugely encouraging to see the impact and the reach of this programme.”

Narayan K Seshadri

Chairman of the Board, AstraZeneca India, during the Board members' visit to YHP Communities at Delhi

Early Action in Diabetes

AstraZeneca partnered with the Department of Health and Family Welfare, Government of Kerala in 2018 to launch a 360° Metabolic Centre of Excellence that aims to provide comprehensive management of diabetes and associated metabolic conditions.

Healthy Lung India

The Healthy Lung Programme India aims to raise the profile of Asthma & COPD and transform the standard of care of these conditions. This includes capacity building of healthcare professionals, medical infrastructure and policy advocacy to better serve patients. In partnership with Employees State Insurance Corporation (ESIC), Government of India, AstraZeneca launched the first Healthy Lung Centres in ESIC Jamshedpur, Patna and Ranchi with a shared objective of improving the quality of care provided to the beneficiaries of ESIC.

iDREAM Hub

The iDREAM hub in India was established as part of the recent expansion of AstraZeneca's strategic collaborations to address the rising burden of NCDs in the country, building on the foundation of the bilateral innovation partnership between India and Sweden, signed in 2018. It will complement AstraZeneca's strategic partnership with the National Association of Software and Services Companies (NASSCOM), enabling the Company to run an accelerator for health start-ups in collaboration with NASSCOM's Centre of Excellence for Internet of Things, the largest platform for deep technology innovation in India. This iDREAM hub intends to support the thriving start-up culture in India, enabling the Company to mentor exciting new research and create affordable and accessible healthcare solutions.

“As a science-led organisation, AstraZeneca is committed to strengthen innovation in healthcare in India. We are pleased to collaborate with the government, start-up eco-system and industry partners to achieve the shared vision of making meaningful interventions in improving the lives of patients impacted by Non-Communicable diseases in India.”

Leif Johansson

Chairman of the Board, AstraZeneca PLC present at the Unnati Healthcare Day hosted by AstraZeneca, Business Sweden and Atal Innovation Mission- Niti Aayog in February 2019.

National Community Service Week to Mark 40 Years

In a one of a kind initiative to mark AstraZeneca's 40th business anniversary, AstraZeneca, in partnership with Plan International (India chapter), undertook a national scale programme to sensitise school children on NCD related risk behaviour such as tobacco use, alcohol abuse, lack of physical exercise and unhealthy eating. Under this programme, AstraZeneca partnered with over 25 government/community run schools across 12 cities in India. Engaging and fun ways such as street plays, drawing and quiz competitions, debates and counselling were used to convey the message to the children. More than 700 employees of the Company came forward to contribute their time for this programme.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 3

Based on the recommendation of the Nomination and Remuneration Committee, Ms. Weiyong Sarah Wang was appointed as Non-Executive Director on the Board of the Company with effect from March 13, 2019. As an Additional Director, Ms. Wang holds office till the date of the Annual General Meeting and is eligible for being appointed as a Director. Considering her vast experience, her presence on the Board will be of immense value to the Company. The Company has received notice in writing from a member under Section 160 of the Act proposing the appointment of Ms. Wang as a Non-Executive Director of the Company.

Ms. Wang is not related to any Director or Key Managerial Personnel of the Company. None of the Directors, Key Managerial Personnel and their relatives except Ms. Wang and her relatives, are concerned or interested in the above resolution. The Board recommends the Resolution as set out at Item No. 3 of this Notice for the approval of the Members.

Item No. 4

Mr. Narayan K Seshadri was appointed as a Non-Executive Independent Director of the Company by the members at the 35th Annual General Meeting of the Company for a period of 5 years from September 30, 2014 to September 29, 2019.

As per Section 149 of the Companies Act, 2013 ('the Act'), an Independent Director shall hold office for a term of up to 5 consecutive years on the Board of a Company but is eligible for re-appointment on passing a special resolution by the Company for another term of up to 5 consecutive years on the Board of the Company.

Based on recommendation of the Nomination and Remuneration Committee and in terms of the provisions of Sections 149, 150, 152 read with Schedule IV and any other applicable provisions of the Act and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('the Listing Regulations'), Mr. Narayan K Seshadri, being eligible for re-appointment as an Independent Director and offering himself for re-appointment, is proposed to be re-appointed as an Independent Director for second term of 5 consecutive years from September 30, 2019 to September 29, 2024.

The Company has received declaration from Mr. Narayan K Seshadri stating that he meets the criteria of Independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. He has also given his consent to continue to act as Director of the Company, if so appointed by the members. The Company has received notice in writing from a member under Section 160 of the Act proposing the appointment of Mr. Narayan Seshadri an Independent Director of the Company.

The Board considers that his continued association would be of immense benefit to the Company and it is desirable to continue to avail services of Mr. Narayan K Seshadri as an Independent Director. In the opinion of the Board, he fulfils the conditions of independence for re-appointment to the second term of 5 years.

Accordingly, the Board recommends passing of the Special Resolution in relation to re-appointment of Mr. Narayan K Seshadri as an Independent Director for another term of 5 consecutive years with effect September 30, 2019 to September 29, 2024, for the approval by the shareholders of the Company.

Mr. Narayan K Seshadri is not related to any Director or Key Managerial Personnel of the Company. None of the Directors, Key Managerial Personnel and their relatives except Mr. Seshadri and his relatives, are concerned or interested in the above resolution. The Board recommends the Resolution as set out at Item No. 4 of this Notice for the approval of the Members.

Item No. 5

The Board of Directors of the Company, on the recommendation of the Audit Committee, approved the appointment and remuneration of M/s. Rao, Murthy & Associates, Cost Accountants (Firm Registration No. 000065) to conduct the audit of the cost records of the Company for the financial year ending March 31, 2020. In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with Rule 14(a)(ii) of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor is required to be ratified by the Members of the Company. Accordingly, consent of the Members is sought to ratify the remuneration payable to the Cost Auditors.

None of the Directors or Key Managerial Personnel or their relatives, is concerned or interested in this Resolution.

The Board recommends the Resolution set out at Item No. 5 for the approval of the Members.

Business

The Company registered sales of ₹ 6,833 million with a growth of 30% achieving a Net Profit of ₹ 545 million, during the financial year. The current year growth for the Company comes from the focussed therapeutic areas Cardio-Metabolism, Oncology and Respiratory.

The Growth Platform of the Company keeps performing well with innovative molecules like Brilinta, Forxiga, Xigduo, Symbicort, Onglyza, Kombiglyze. The newer launches of innovative molecules like Tagrisso and Lynparza has helped the Company to make an impact on the lives of cancer patients and cater to the unmet need.

Brilinta (Ticagrelor) is approved for treatment in Acute Coronary Syndrome & High Risk Post MI patients and continued to register rapid growth. The existing partnership with Sun Pharma has helped boost the reach of the drug to more patients. This franchise has become the market leader by value share in Oral Anti Platelets as per IQVIA Health. Ticagrelor franchise enjoyed 34% value market share (MAT March 2018) while the Oral Anti-Platelets value market grew by 11%, proving the success of the drug.

Forxiga & Xigduo in the dapagliflozin franchise, as part of the SGLT2 class of drug (Sodium Glucose Cotransporter Inhibitors), also experienced robust growth. The partnerships with Sun Pharma Laboratories Limited and Abott Healthcare Private Limited has helped boosting the sales of the franchise, the efficacy and wide acceptance among physicians and benefiting numerous diabetic patients.

Tagrisso (Osimertinib), is used to treat non-small cell lung cancer carcinomas with specific mutation. Tagrisso is a new standard of care for EGFR positive lung cancer patients and offers superior efficacy and safety in comparison to 1st gen TKIs. Tagrisso has been showing a significant growth in the current year while touching many patient lives and improving their treatment outcomes.

Annexure I to Board's Report

DIVIDEND DISTRIBUTION POLICY

Background

The Securities and Exchange Board of India ('SEBI') has, vide its notification dated July 8, 2016 amended the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('the Listing Regulations') by inserting a new Regulation 43A which mandates the top 500 listed companies based on market capitalisation calculated as on March 31 of every financial year to formulate a Dividend Distribution Policy.

AstraZeneca Pharma India Limited ('the Company') being one of such top 500 listed companies is accordingly required to formulate a Dividend Distribution Policy ('the Policy').

This Policy has been approved by the Board of Directors of the Company ('the Board') at its meeting held on November 11, 2016. The Policy will be applicable from Company's Financial Year 2016-17.

(a) Objective

The objective of the Policy is to reward the Company's shareholders by sharing profits earned by the Company through payment of dividend, after ensuring that adequate funds are retained for sustaining its operations, needed capital expenditure and future growth of the Company.

The Policy is aimed at striking the right balance between the quantum of dividend paid to its shareholders and the amount of profits retained for its business requirements, present and future.

The Company will make dividend payments in line with this Policy.

(b) Types of Dividend

There are two types of dividend that may be paid by the Company to its Shareholders:-

(i) Final Dividend

The Board shall have the power at its meeting to recommend to the Shareholders for their approval at an Annual General Meeting, the declaration of dividend and the quantum of final dividend payable. The Board's recommendation shall be based on the Company's profits arrived at in accordance with the applicable provisions of the Companies Act, 2013 and the Rules made thereunder (Collectively, "the Act"), as per its annual audited financial statement and in line with this Policy. Upon the Shareholders approving at the Annual General Meeting the final dividend recommended by the Board, the Dividend shall be paid to all the Shareholders entitled to receive the same as on the Record Date/Book Closure Date determined by the Board in accordance with the applicable provisions of the Act.

(ii) Interim Dividend

The Board has the power to declare, at its complete discretion, one or more Interim dividends to the

Shareholders during any Financial Year based on the Company's financial position as per its quarterly/half yearly financial statements, in line with this Policy.

The Company shall pay applicable Dividend Distribution Tax on dividends declared and paid.

The Board may at its sole discretion declare a Special dividend under certain circumstances such as extraordinary profits from sale of investments or on the Company attaining a significant milestone in its journey.

(iii) Declaration and Payment of Dividend (including Interim Dividend)

The declaration and payment of Dividend to the Shareholders shall be in accordance with the applicable provisions of the Act and the Rules framed thereunder for the time being and from time to time in force and in line with this Policy.

(c) Factors to be considered when declaring/paying Dividend

The decision regarding dividend pay-out is a crucial one, as it determines the amount of profit to be distributed amongst the Shareholders and the amount of profit to be retained in the Company's business.

The dividend pay-out decision would depend upon the following external and internal factors:-

External Factors

- (a) **State of Indian Economy** – in case of uncertain or recessionary economic and business conditions, the Board will endeavour to retain larger part of profits to build up reserves for the future.
- (b) **Capital Markets** – when the markets are favourable, dividend pay-out can be liberal. However, in case of unfavourable market conditions, the Board may resort to a conservative dividend pay-out in order to conserve cash outflows.
- (c) **Statutory Restrictions** – The Board will keep in view the restrictions imposed by the Act and the Rules made thereunder in force from time to time and any other applicable statutory restrictions, obligations or impositions with regard to declaration of dividend.
- (d) **Corporate Tax** – The rate of Corporate Tax on dividend could be also a determining factor in deciding whether or not to declare dividend and/or its quantum.

Internal Factors

Apart from various external factors above mentioned, the Board will take into account various internal factors when declaring dividend such as the following:-

- (i) Profits earned during the financial year;
- (ii) Present and future capital requirements of the existing businesses;

- (iii) Brand/Business Acquisitions;
- (iv) Expansion/Modernisation of existing businesses;
- (v) Additional investments of the Company;
- (vi) Obligations to creditors;
- (vii) Capital adequacy and liquidity maintenance;
- (viii) Any other factor as deemed fit by the Board.

(d) How retained earnings to be utilised by the Company

The profits earned by the Company may as per the Board's assessment in the light of the above factors, may be retained in business or utilised for projected expansion/diversification, brand/business acquisitions, capital expenditure and for the growth of the business and the balance shall be distributed amongst the Shareholders by way of dividend in line with this Policy.

(e) Types of Capital

The Company has only equity share capital as on date. If in future, the Company issues preference share capital and if dividend is declared by the Board, the preference share capital will have priority to receive dividend in accordance with the terms of its issue before any dividend is paid in respect of equity capital in accordance with the applicable provisions of the Act, and the Articles of Association of the Company.

(f) Disclosure of this Policy

The Company shall disclose this Policy on its website and in its Annual Report.

(g) Amendment

The Board may amend this Policy as and when deemed fit. Any and all provisions of this Policy shall be amended as needed due to business and economic conditions or regulatory changes from time to time.

(h) Review

This Policy shall be reviewed periodically by the Board.

ANNUAL REPORT ON CSR ACTIVITIES

1. A brief outline of the Company's CSR policy, including overview of projects or programmes proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programmes:

The Company launched the 'Early cancer awareness and screening programme for Women' on World Cancer Day in partnership with Indian Cancer Society and Charities Aid Foundation. Under this programme, specialised check-up camps for screenable cancers such as oral, cervical and breast cancer for women in defined population is being organised. In the first phase of the programme, the Company aims to reach over 4,000 direct women beneficiaries from underprivileged sections of the society in identified districts across states such as Karnataka, Tamil Nadu, Kerala and Maharashtra.

During the year, the Company also marked its 40th business anniversary in India through an employee-led community service programme. In partnership with Plan International (India Chapter), employees sensitised school children from underprivileged sections of the society on Non-Communicable Diseases (NCDs) related risk behaviours such as tobacco use, alcohol abuse, lack of physical exercise and unhealthy eating. Through this programme, the Company partnered with over 25 government/ community run schools across cities including Delhi, Mumbai, Kolkata, Chennai, Bengaluru, Lucknow, Jaipur, Pune and Hyderabad. More than 700 employees contributed their time and efforts for this programme and reached out to over 3000 young people.

The Company also continues to make a difference through its signature global community investment initiative, the Young Health Programme (YHP). Founded in partnership with John Hopkins School of Public Health and Plan International, AstraZeneca global had introduced YHP in the year 2010-11 in 5 resettlement colonies in Delhi with an aim to improving the health outcomes of vulnerable youth, aged 10 – 24 by focusing on NCDs related health awareness activities. These activities are delivered through Peer Educators at Health Information Centres established by the programme and through community outreach activities. These are further supported by advocacy efforts with local stakeholders and municipal leaders. The programme has reached 10 communities, over 350,000 youth with health information, 3,500 Peer Educators have been trained and 25 Health Information Centres have been opened in the communities.

YHP India is funded and supported by AstraZeneca Global. The Company's contribution to YHP India includes employee engagement and disease awareness initiatives in the communities.

Management Discussion & Analysis Report

Indian Economy

India is the 7th largest economy in terms of GDP rankings, with a 2018 GDP of USD 2.7 trillion. When adjusted for Purchasing Power, it is ranked third - only behind China, and United States⁽¹⁾. It is currently the fastest growing major economy with a GDP growth of 7.1% for the fiscal year ending March 31, 2019⁽¹⁾. As per current projections, India will continue to remain as the fastest growing major economy in the coming years with a projected real GDP growth averaging at 7.5% a year in fiscal years 2018/19 - 2022/23⁽²⁾.

Increase in private consumption and gross fixed investments will drive growth amidst an improving business environment⁽²⁾. India has gained 23 spots in terms of ease of doing business and is currently ranked 77⁽³⁾. Key structural reforms such as resolution of bankruptcy, GST implementation, bank recapitalisation, and increased digitisation of government to business services have exerted a positive influence and will continue to take shape this year⁽⁴⁾.

Indian Healthcare Environment

The Healthcare sector comprises of healthcare delivery, pharmaceuticals, medical devices, clinical trials, and health insurance segments. The industry is forecasted to grow at 22% annually, and touch \$ 372 bn by 2022⁽⁵⁾.

Notable trends contributing to increasing healthcare expenditure include: rising incomes, growing elderly population, increased disease awareness, and diagnosis rates, the rise of Non-Communicable Diseases (NCDs), increase in diagnostic requirements and hospitalisation due to NCDs, expansion of healthcare services to Tier II and Tier III cities, increasing health insurance coverage, investment in home healthcare, rise in luxury offerings, and services by hospitals, increasing penetration of telemedicine, and overall higher proliferation of technology in healthcare delivery⁽⁵⁾.

Out of pocket expenditure accounts for the major share of healthcare expenditure; around 65% of national healthcare costs are paid directly from the patient's pocket, according to the WHO figures. India ranks 145th among 195 countries in terms of quality and accessibility of healthcare⁽⁷⁾. There remains an immense scope for enhancing the penetration of healthcare services in India, thus presenting ample opportunity for development of the healthcare industry.

The healthcare expenditure in the country is still considered low by global standards. Last published WHO figures mention the total healthcare expenditure in 2015 to be 3.9% of GDP. Public healthcare expenditure during 2017-2018 stood at 1.28% of GDP, significantly lower than the world average of 6%. Nonetheless, National Health Policy (NHP) 2017 envisages raising it to 2.5% by 2025⁽⁶⁾.

Budget allocation towards healthcare in the current fiscal year has increased by 16% from ₹ 54,667 crore in FY 2018-19 to ₹ 63,538 crore in FY 2019-20⁽⁶⁾.

₹ 6400 crore has been allotted towards the Ayushman Bharath Scheme (PMJAY) - the government's flagship health initiative⁽⁶⁾. This represents a sizeable increase of 167% over last year's allocation. 10 lac people have been estimated to have availed free treatment under the scheme thus far⁽⁴⁾. 1.5 lakh sub-centres and primary health centres will be transformed as health and wellness centres by 2022. These centres will be equipped to provide treatment for diabetes, cancer and other illnesses⁽⁶⁾.

The allocation for the National Health Mission (NHM) for 2019-20 was raised to ₹ 32,251 crore from the last budget's allocation of ₹ 30,634 crore⁽⁶⁾.

Other healthcare initiatives which saw an increase in budget allocation include the National AIDs, and STD Control Programme, The National Program for Health Care for the Elderly, The National Program for prevention and control of Cancer, Diabetes⁽⁶⁾.

Indian Pharmaceutical Market (IPM)¹⁰

The USD 18.98 billion (₹ 134,780 crore) Indian Pharmaceutical industry experienced a value growth of 10.5% in FY 2018-19 over FY 2017-18. This is an increase over FY 2017-2018 growth rate of 6.3%.

Domestic Indian companies account for 80% share of IPM and had a value growth of 10.8% in FY 2018-2019, while the MNCs grew at 9.4%; This represents a significant increase in growth rate from 4.3% in FY 2017-18. While the Indian companies registered a volume growth of 3.4% in FY 18-19 against 3.7% in FY 2017-18, the MNCs experienced a 3.1% decline in volumes.

All the therapeutic areas in which AstraZeneca India is actively operating has recorded growth higher than the market. These comprise of the therapeutic areas of Anti-diabetic, Inhaled Respiratory, Cardiovascular, and Oncology, all of which have registered higher growth than the overall market growth of 10.5% for FY 2018-19.

Pharmaceutical Business Environment - Outlook

The Indian pharmaceutical market is forecasted to grow at a CAGR of 10.2% (±3.0%) between 2018-2023, and touch ₹ 225,550 crore by 2023⁽⁶⁾. Increasing incidence and diagnosis of NCDs, initiatives to improve access to healthcare and medicines, a positive outlook of the regulatory environment, and associated new drug launches, expansion of healthcare infrastructure, increased proliferation of e-pharmacies, and increasing health insurance coverage are some of the factors that will drive growth in the sector⁽⁶⁾.

Key factors that could serve as a dampener for growth include continuing downward pressure on prices, and effects of ban on irrational Fixed Dose Combinations (FDCs)⁽⁶⁾. Uncertainties in policies, especially surrounding drug prices such as those mentioned in the junked draft pharma policy continue to pose a risk. However, the recent ruling by the Department of Pharmaceuticals

has exempted new patented drugs in India from price control for a period of five years and has been well received by the industry⁽¹¹⁾.

The Uniform Code of Pharmaceutical Marketing Practices (UCPMP), which currently remains voluntary, but is expected to become mandatory in the near future, will help in instituting a uniform code of ethics governing drug promotional activity, and HCP-industry interactions⁽⁶⁾. This would result in rewriting of the current rules of engagement, which will ultimately favor players who can engage in patient centric, and science driven engagements with HCPs rather than those merely centered around pushing pills.

Growth and Demand Drivers:

1. Increasing incidence and diagnosis of NCDs: India harbours a high NCD burden. After China, India has the largest diabetic population. According to the statistics published by the International Diabetes Foundation (IDF) around 72 million people in the country are afflicted with diabetes. This number is expected to rise to 151 million by 2045. It is estimated that only 50% of the diabetes cases are currently diagnosed⁽⁶⁾. The prevalence of cancer has been increasing rapidly: Close to 1.59 million new cases were reported in 2018, according to the National Cancer Registry Program, up from 1.52 million in 2017 and 1.45 million in 2016. The incidence of new cases of cancer is expected to increase to 1.7 million in 2020. With the increased burden of NCDs, government and the pharmaceutical companies have been implementing well thought measures to improve the diagnosis rate. The NHP 2017 targets a 25% decrease in premature mortality from cardiovascular diseases, cancer, diabetes and chronic respiratory diseases by 2025⁽¹²⁾. Initiatives such as the National Programme for the Prevention and Control of Cancer, Diabetes, Cardiovascular Disease and Stroke (NPCDCS), and India Hypertension Management Initiative have helped in the early screening, diagnosis, and management of NCDs. Pharmaceutical companies too have been active in raising awareness and helping in management of NCDs.
2. Initiatives to improve access to healthcare and medicines: Several initiatives have been implemented by the government to help realize the NHP 2017 goals of increasing healthcare coverage and reducing the burden of healthcare costs on the patient. Ayushman Bharath, the government's flagship healthcare initiative from last year, continued to gain traction. There's been a 167% increase in the budget allocation toward the scheme in the fiscal year ending March 2020, over last year's budget. It comprises of 2 components: the Pradhan Mantri Jan Arogya Yojana (PMJAY) health insurance scheme, a national health protection scheme that promises insurance for around 500 million people for secondary and tertiary care, including pre- and post-hospitalization expenses. Under the second component, 150,000 primary health, community health centres and sub-centres are to be transformed into Health and Wellness Centres (HWCs) by 2022, providing primary care services close to communities. Medical college, and Tertiary care infrastructure is being targeted through the establishment of newer AIIMS. The Jan Aushadi Scheme, and the AMRIT scheme aimed at providing access to low cost medicines, continues to be emphasised and has been gaining traction. An additional 1,000 Jan Aushadi stores are planned to be opened in FY 2019-20⁽⁶⁾. The government has also opened the doors to private players for expansion of AMRIT scheme under a franchise operating model⁽⁶⁾.
3. A positive outlook of the regulatory environment and associated new drug launches⁽⁶⁾: Following a period of slump in new product approvals between 2012 to 2014, the regulatory environment seems to have picked pace. Since 2015, several drugs have been granted waivers, and accelerated approvals for products addressing unmet medical needs, and/or where Indian patients were included in the global clinical trials. According to the CDSCO, 28 new drugs were approved within the first 6 months of 2018, which was higher than the total number of drugs approved in 2016. The new drugs and clinical rules 2019, has certain provisions that facilitates the waiver of clinical trials in India for new drugs. Clinical trial may be waived if it is approved and marketed in any of the preferred countries specified by the Drugs Controller General, and in cases where Indian patients are already included in the global study. However, this is still subject to approval and will be granted on a case-to-case basis.
4. Expansion of healthcare infrastructure⁽⁶⁾: Several key private chains have plans of expansion. Apollo plans to add 765 beds over the next five years, and expand its network in India to 73 hospitals, while Narayana Hrudayalaya, another leading chain, has said it will spend ₹ 5 billion on hospital projects in India and abroad⁽⁶⁾. They are also increasing the reach into smaller cities, and towns by setting up clinic chains comprising of a mix of both completely owned and franchise models. There is also growing foreign investment in the sector: Malaysia's Columbia Asia hospital group, IHH Healthcare, and investors from the Gulf states, including Aster DM Healthcare, are all operating several hospitals in India. IHH Healthcare acquired a 31.1% stake in Fortis Healthcare in November 2018, while Aster DM Healthcare plans to expand its 4,000-bed capacity by a third over the next four years. The growth in medical tourism and integration of private capacity into state run initiatives such as PMJAY will further help in improving the healthcare infrastructure.
5. Increased proliferation of e-pharmacies⁽⁶⁾: While the sector still remains largely unorganised, the organised chains have been growing rapidly over past couple of years. Apollo, the private hospital group, owns India's biggest pharmacy chain, with close to 3,200 pharmacies spread across 400 cities in 20 states and four union territories, as of late 2018. The company is striving to establish a network of 5,000 outlets in the next four to five years. MedPlus has emerged as the second biggest player in the sector, with around 1,500 stores. E-pharmacy is emerging as a new source of competition to existing retail pharmacies in major cities. There have been more than 280 e-pharmacy start-ups. Market leaders include 1mg, PharmEasy, Netmeds, Medlife, Myra, EasyMedico and mChemist. The market leaders have enlarged their footprint rapidly: as of mid-2018, Netmeds delivered to over 850 cities, 1mg to over 800, and PharmEasy to over 700. E-pharmacies currently account for 1% of the retail pharmaceutical market, but have the potential to capture 5-15% of total sales, by some estimates.
6. Increasing health insurance coverage: The biggest impetus is expected to come from the launch of PMJAY's health insurance

scheme (Ayushman Bharath Scheme). The scheme targets coverage of underprivileged households, which is around 40% of the population or 500 million people⁽⁶⁾. As of February 2019, around 10 lakh people were estimated to have benefited from the scheme⁽⁹⁾. In parallel, the private health insurance sector will also continue to grow, helped by economic expansion, tax breaks on private health insurance premiums, and an increase in the range and sophistication of plans offered in the private health insurance market⁽⁶⁾.

Risks/Threats

1. Continuing downward pressure on prices⁽⁶⁾: The National Pharmaceutical Pricing Authority (NPPA) fixed the ceiling prices of 851 scheduled medicines between March 2016 and March 2018, yielding overall savings of around ₹ 26.4 billion. Changes to the National List of Essential Medicines (NLEM) system made in July 2018 will entail more frequent revisions and additions to the NLEM - which would directly act to lower the drug prices. Uncertainty around changes to the pricing system used for determining the annual price increases, and the possible introduction of international reference pricing system for patented products is likely to impact prices negatively. Despite the January 2019 ruling of no price controls for patented products for a period of 5 years, risk of trade margin capping under extraordinary circumstances, as in the case of 42 cancer drugs in February, continues to remain.
2. Effects of ban on irrational Fixed Dose Combinations (FDCs)⁽⁶⁾: Post the ban of 328 FDCs in September 2018, FDCs continue to remain in the spotlight. An additional 80 FDCs were banned by the MOHFW in February 2019 at the advice of the Drugs Technical Advisory Board (DTAB). The prospect of further bans cannot be ruled out.

Business model

The Company is engaged in the business of manufacture, distribution and marketing of pharmaceutical products and co-ordinates clinical trial services with an overseas group company.

During the year under review, total revenue from operations is amounting to ₹ 7,282.9 million out of which sales of pharmaceutical products is ₹ 6,833.1 million (93.8%), income from grant of exclusive distribution rights is ₹ 213.1 million (2.9%) and sale of services to related parties- clinical trials is ₹ 236.2 million (3.2%).

Since all the Company's activities fall within a single business segment, separate segment-wise disclosures are not provided in the financials.

Outlook

In FY 2019-20, AstraZeneca will continue to prioritise investments in its focus areas in-line with its global growth platforms. Accelerating new products remains a key priority and the Company is committed to maintaining timelines of key regulatory milestones to align with the global pipeline, subject to conduct of clinical trials, regulatory approvals and reasonable commercial viability.

All the therapeutic areas in which the Company is currently active has recorded above average market growth during FY 2018-19. These comprise of the therapeutic areas of Anti-diabetic, Inhaled Respiratory, Cardiovascular, and Oncology.

Anti-diabetic therapy valued at ₹ 12,858 crore (FY2018-19) is third largest category of the Indian pharmaceutical market, and at 14.9% growth (FY2018-19) it is amongst the fastest growing therapeutic areas. The Oral Antidiabetic segment (OAD) constitutes 73 % of the total Anti-Diabetic segment and is valued at ₹ 9382 crore⁽¹⁰⁾. AstraZeneca has a strong portfolio of oral antidiabetic products with presence in 2 key drug classes: namely, in SGLT2i inhibitors, and in DPP-4 inhibitors. SGLT2 inhibitors has been the fastest growing class of OAD in recent years and continues to be category leader in terms of growth, with a growth rate of 62.9 % for FY 2018-19⁽¹⁰⁾. It is the third largest class of OAD, accounting for 7% of the OAD market. DPP-4 Inhibitors continues to be the second largest class of OAD, accounting for over 30% of the total OAD market⁽¹⁰⁾.

AstraZeneca's Dapagliflozin franchise has been instrumental in driving the growth of the SGLT2i class. The landmark Declare readout - establishing relevance of Dapagliflozin in achieving beneficial cardiovascular related outcomes should further bolster the franchise, and help drive positive treatment outcomes for the diabetic patients. The Saxagliptin franchise products are well differentiated and enjoy a good acceptance by the medical community. According to the statistics published by the International Diabetes Foundation (IDF) around 72 million people in the country are afflicted with diabetes, which translates to 17% of the world's diabetic patient burden. This number is expected to rise to 151 million by 2045. The company with its strong anti-diabetic offerings would continue to help in alleviating the high burden of illness imposed by the disease.

Brilinta, the Company's innovative Oral Antiplatelet (OAP) drug has emerged as the market leader in terms of value, surpassing Clopidogrel (erstwhile category leader) in sales, and continues to be the fastest growing class of OAP⁽¹⁰⁾. AstraZeneca along with its Ticagrelor partner brands will strive to reach, and benefit maximum eligible patients, and sustain its market leadership.

The Company's respiratory business has presence in two key indications: asthma and COPD. The current respiratory portfolio comprises of inhalers which is growing at upwards of 18% (FY 2018-19)⁽¹⁰⁾. The high current burden of illness coupled with worsening air quality in some of our major cities will only contribute to the increase in prevalence of chronic respiratory diseases. A strong product pipeline in respiratory is expected to drive significant growth in the coming years, subject to successful clinical trials, regulatory approvals and reasonable commercial viability.

Finally, cancer is becoming a major cause of mortality in India. Every year, nearly 1 million new patients are diagnosed with cancer. The Company's current Oncology portfolio is active in the areas of women's cancer, prostate, and lung cancer. The recent launch of Lynparza- the first, and only therapy of its kind, approved in first line maintenance of the pertinent Indication, will further strengthen the Company's Oncology portfolio. Tagrisso, launched in FY 2017-18, continues to set new benchmarks. The Company hopes to tap into the robust global oncology pipeline and expand its offerings in the country subject to successful clinical trials, regulatory approvals and reasonable commercial viability.

The Company will continue to emphasise on high standards of sales and marketing practices and maintain a strong focus on

patient needs and safety. The Company will remain committed to high product quality, which underpins the safety and efficacy of its medicines.

The Company will maintain a strong focus on cost optimisation and controls. The Company is undertaking measures to reduce unproductive discretionary and non-customer facing spends. It also continues to develop simple and more efficient processes to encourage accountability and improve decision-making and communication.

Annexure X to Board's Report

FORM NO. MR-3 SECRETARIAL AUDIT REPORT

For the financial year ended March 31, 2019

Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014

To,
The Members,
ASTRAZENECA PHARMA INDIA LIMITED
(CIN: L24231KA1979PLC003563)

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by AstraZeneca Pharma India Limited (CIN: L24231KA1979PLC003563) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2019 complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by AstraZeneca Pharma India Limited for the financial year ended on March 31, 2019 according to the provisions of:

- (xxiv) Indian Boilers Act, 1923
- (xxv) The Industrial Establishments (National and Festival Holidays) Act, 1963
- (xxvi) The Labour Welfare Fund Act, 1965
- (xxvii) The Karnataka Daily Wage Employees Welfare Act, 2012

(2) Environment Related Acts & Rules:

- (i) The Environment Protection Act, 1986
- (ii) The Water (Prevention & Control of Pollution) Act, 1974
- (iii) The Water (Prevention & Control of Pollution) Cess Act, 1977
- (iv) The Air (Prevention & Control of Pollution) Act, 1981
- (v) The Government Order Under Environment (Protection) Act, 1986
- (vi) Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008.
- (vii) The Karnataka Ground Water (Regulation for Protection of Sources of Drinking Water) Act, 1999

(3) Economic/Commercial Laws & Rules:

- (i) The Competition Act, 2002
- (ii) The Indian Contract Act, 1872
- (iii) The Sales of Goods Act, 1930
- (iv) The Forward Contracts (Regulation) Act, 1952
- (v) The Indian Stamp Act, 1899
- (vi) The Registrations Act, 1908
- (vii) The Transfer of Property Act, 1882

I have also examined compliances with the applicable clauses of Secretarial Standards on Board and General Meetings (SS – 1 and SS – 2) issued by the Institute of Company Secretaries of India.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

Further, I report that with regard to financial and taxation matters, I have relied on the Audit Report, Limited Review Report and the Internal Audit Report provided by the Statutory/Internal Auditor as the case may be.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors which took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such case instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that the Company had passed the resolution for voluntary delisting of the shares from all the Stock Exchanges on June 20, 2014 (date of announcement by the Chairman) through Postal Ballot undertaken vide Notice dated May 5, 2014. The Company has also received in-principle approvals from these Stock Exchanges.

However, stay was granted by the Hon'ble Bombay High Court from implementing the delisting proposal by the Company/Promoter Company till such time the Securities Appellate Tribunal (SAT) hears and disposes off the appeal filed by two shareholders in relation to delisting matter. SAT which heard the Appeal on September 11, 2015 had disposed the same, with the following order:

- (a) Statement made by Counsel for Respondent No. 2 (i.e. AstraZeneca Pharma India Limited) and Respondent No. 5 (i.e. AstraZeneca Pharmaceuticals AB, Sweden) that they shall not proceed with the delisting of equity shares of Respondent No.2 till completion of investigation and passing order by SEBI on merits is accepted by SAT.
- (b) Securities and Exchange Board of India (SEBI) shall complete the investigation within a period of six months from September 11, 2015 and pass appropriate order on merits after hearing the parties including the Appellants, as expeditiously as possible.
- (c) If the order to be passed by SEBI on merits is adverse to the Appellants, then the said order shall not be given effect to, from the date of passing the said order till it is communicated to the Appellants and four weeks thereafter.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/ Joint Ventures/ Suppliers/ Contractors/ NGOs/ Others?

The Company's Code of Ethics sets out the commitments and ethical standards expected of everyone who works at AstraZeneca, while the Global Expectations of Third Parties Handbook document outlines the ethical standards for external partners. The Company wants to be valued for the medicines it provides and trusted for the way it works. Human rights, safety and health, environmental protection and business ethics are core to the Company's approach to sustainability. To that extent AstraZeneca requires all members of the AstraZeneca group and their directors, officers and employees to observe high standards of integrity and honesty, and to act with care, diligence and fairness in all its business activities. The Company works only with Third Parties whose ethical standards are consistent with its own.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?

Stakeholder complaints, if any, are investigated in terms of Whistle Blowing Policy as approved by the Board. AstraZeneca is committed to appropriate review of inquiries raised in good faith through available reporting channels. During the financial year, 5 significant complaints were investigated of which 2 were closed consequently and 3 are under review as per the Whistle Blowing Policy as approved by the Board.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company manufactures and packs at its state-of-the-art facility at Bengaluru, India, products which have been developed taking environmental aspects into perspective.

The products are: Betaloc, Imdur, Forxiga, Crestor and Seloken.

2. Does the Company have procedures in place for sustainable sourcing (including transportation)? (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof.

The Company has a standard operating procedure for the selection of its suppliers for sourcing of materials. There is a system for assessing critical and major suppliers through risk management process for Quality, Compliance and EHS.

3. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? (a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company follows a strict sourcing code of conduct with respect to the compliance and quality. The Company procures goods and services from local vendors in the vicinity of the manufacturing location in compliance to the code.

4. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof.

The Company has a mechanism to recycle or dispose materials including waste in a responsible manner. All our non-hazardous waste is recycled (around 20% of total waste generated). Ash from our Agro husk boiler is disposed for re-usage (composting, brick making and road laying). Hazardous waste from our processing areas and market returns are disposed / incinerated through a pollution control board authorised recycler.

Principle 3: Businesses should promote the well-being of all employees

1. Please indicate:

Sl. No.	Particulars	Details
1	Total number of employees	1,452
2	Total number of employees hired on temporary/ contractual/ casual basis.	302

Sl. No.	Category	No of Complaints filed during the Financial Year	No of Complaints pending at the end of the Financial Year
1	Child labour/ forced labour/ involuntary labour	0	0
2	Sexual harassment	3	1
3	Discriminatory employment	0	0

8. What percentage of your under mentioned employees were given safety and skill up-gradation training in the last year?

- (a) Permanent Employees
- (b) Permanent Women Employees
- (c) Casual/ Temporary/ Contractual Employees
- (d) Employees with Disabilities

100% of employees are covered for Skill Upgradation Intervention aligned to their skill needs and AstraZeneca Talent & Development Framework. Also 100% of all our employees are imparted safety training at the time they join the Company. Procedural Safety trainings are imparted at scheduled intervals based on employee roles. The Company makes no

discrimination while imparting training to women employees. No discrimination while imparting training to employees with disabilities. All our contractual employees are imparted with safety trainings and other skill based training basis their role and field of work.

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised.

1. Has the Company mapped its internal and external stakeholders? Yes/No

Yes

2. Out of the above, has the Company identified the disadvantaged, vulnerable & marginalised stakeholders.

Yes

3. Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders

Our Responsible Business priorities and commitments are aligned to and support delivery of our business strategy and ensure we add sustainable value for our stakeholders. Our Responsible Business framework is the vehicle for managing commitments that are agreed across the Group, taking account of external stakeholder insights and internal reputational risk assessment. The framework encompasses a number of areas of our business and while we monitor performance in each of them, we have identified areas of special focus. These include access to healthcare, environmental protection and ethics and transparency where we believe that we have both the capability and the responsibility to implement standards that accelerate our business strategy while delivering wider benefits to society. Our key programmes in India include:

- (a) **The Young Health Programme:** Founded in partnership with John Hopkins School of Public Health and Plan International, AstraZeneca introduced its global community initiative 'the Young Health Programme' (YHP) in the year 2010-11 in 5 marginalised communities in Delhi. YHP focuses on prevention of NCD's during adolescence by risk behaviours such as tobacco use, alcohol abuse and unhealthy eating through on-ground programmes, research and evidence generation and advocacy. In 2015, we expanded the programme to 5 additional marginalised communities in North West Delhi. YHP has directly impacted more than 350,000 young people and has influenced community members, including health professionals, educators and policy makers. Close to 3,000 young people have been trained to be educators in their local communities. 15 Health Information Centres are providing preventive and promotive health and counselling services and special health clinics for adolescents have been initiated across these project communities.

YHP was recognized as a 'Corporate CSR – Best Practice' at the National Human Resources Development (NHRD) Conference held in Bengaluru in 2016.

YHP India is funded and supported by AstraZeneca global. The Company's contribution to YHP India include

employee engagement and disease awareness initiatives in the communities.

- (b) **Early Cancer Screening Programme for Women in partnership with Indian Cancer Society & Charities Aid Foundation India:** The objective of this programme is to conduct specialised check-up of cancer for females in defined population and create awareness and early screening of screenable cancer such as oral, cervical and breast cancer in women.

The beneficiaries for the project will be under-privileged population with family income less than ₹ 5 lakhs (USD 8,000) per year residing in slums and resettlement areas in urban population and workers in Industries and other organizations. In the first phase of the programme, the Company aims to reach 4,000 direct women beneficiaries.

- (c) **Health education among school children with focus on NCD prevention:** In partnership with Plan International (India Chapter), the Company undertook a programme to sensitise school children from underprivileged sections of the society on NCD related risk behaviour such as tobacco use, alcohol abuse, lack of physical exercise and unhealthy eating. Under this programme, the Company partnered with over 25 government/ community run schools across cities such Delhi, Mumbai, Kolkata, Chennai, Bengaluru, Lucknow, Jaipur, Pune and Hyderabad. Engaging and fun ways such as street plays, drawing and quiz competitions, debates and counselling were used to convey the message to the children. More than 700 employees of the Company came forward to contribute their time for this programme.

Principle 5: Businesses should respect and promote human rights

1. **Does the policy of the Company on human rights cover only the Company or extend to the Group/ Joint Ventures/ Suppliers/ Contractors/ NGOs/ Others?**

AstraZeneca's Code of Conduct supports the principles set out in the UN Declaration of Human Rights and our policies detail our high standards of employment practice. These include respecting diversity and as a minimum, complying with national legal requirements regarding wages and working hours. We also support the International Labour Organisation's standards regarding child labour and minimum age.

The Company remains committed to respect and protect human rights. The Company's Code of conduct and the human resource practices cover most of these aspects. The Company does not hire child labour, forced labour or involuntary labour. The Company never discriminates between its employees.

2. **How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?**

Stakeholder complaints, if any, are investigated in terms of Whistle Blowing Policy as approved by the Board. AstraZeneca is committed to appropriate review of inquiries raised in good faith through available reporting channels. During the financial year, 5 significant complaints were investigated of which 2 instances (i.e. 40%) were resolved

and 3 are under review as per the Whistle Blowing Policy approved by the Board.

Principle 6: Business should respect, protect, and make efforts to restore the environment

1. **Does the policy related to Principle 6 cover only the Company or extends to the Group/ Joint Ventures/ Suppliers/ Contractors/ NGOs/ others**

The Company has a well-defined Safety, Health & Environmental Policy. The Company has been engaging and involving every stakeholder across company in creating a unique culture in Safety Health & Environment.

2. **Does the Company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc ? Y/N. If yes, please give hyperlink for webpage etc.**

The Company continues to invest substantially towards sustainability and continuously improving standards of environment, occupation health and safety. A robust Safety Health and Environment policy is in place which is encouraging our employees to be more cautious in pre-empting potential threats.

Our long term SHE strategy / commitments include:

- Energy: we are sourcing 70% of our energy needs through Solar Power
- Carbon: limit our extended operational footprint
- Waste: work towards a reduction against identified baselines
- Water: work towards reduction in usage of water in all operations
- Ensure effective environmental management of our products from pre-launch through to product end-of-life.

Webpage link:

<https://www.astrazeneca.com/sustainability/environmental-sustainability.html>

3. **Does the Company identify and assess potential environmental risks? Y/N**

The Company aims to integrate environmental considerations into a medicine's complete lifecycle – from R&D, through manufacturing, marketing, use and ultimately disposal. Backed by our global SHE Policy which requires us to prevent, or otherwise minimise the risk of any harmful effects to the environment caused by our activities or products, we work continually to improve the environmental sustainability of our business activities. Environmental risk summaries for the Active Pharmaceutical products can be found in the below web page at: https://www.astrazeneca.com/content/dam/az/PDF/Environmental_risk_data_relating_to_our_medicines.pdf

4. **Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof. Also, if Yes, whether any environmental compliance report is filed?**

Agro Husk boiler is in use within our facility. The boiler uses agriculture waste as fuel for steam generation, thus minimising the use of fossil fuels.

5. Has the Company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

The Company is committed to achieve all the norms within the limits for emission and discharge of air and water, as may be laid down by the regulators. The Company complies with pollution and environmental laws.

Conservation of Energy:

(i) the steps taken or impact on conservation of energy:

The Company's Tablet Facility was the first pharma facility in India to be accredited with Gold Standard Rating under LEED (Leadership in Energy and Environmental Design) certification. The facility uses vapour absorption chiller, efficient water fixtures and an extensive energy modelling done with 33.67% reduction in power consumption. All the HVAC operations is controlled by the building management system which enables the facility to be energy efficient.

(ii) the steps taken by the Company for utilising alternate sources of energy:

The Company is using renewable energy concepts like Solar power for factory energy requirement, usage of agro husk boilers for steam generation, rainwater harvesting, condensate water recovery system, recycled materials for construction, usage of transparent roofing in engineering stores and other areas to conserve lighting load.

(iii) The capital investment on energy conservation equipment:

The Company's investment into the existing Tablet Facility includes investments made on energy conservation equipment and systems. Usage of power saving LED fixtures for lighting in our production facility, Central warehouse facility and street lighting. Usage of motion sensors for office and some production areas to conserve lighting load.

6. Are the Emissions/Waste generated by the Company within the permissible limits given by CPCB / SPCB for the financial year being reported?

Yes, and the same are monitored by both internal and approved external agencies and reports are submitted to local statutory body.

7. Number of show cause/ legal notices received from CPCB / SPCB which are pending (i.e. not resolved to satisfaction) as on end of financial year.

There is no show- cause notice pending at the end of the financial year.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

1. Is your Company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Yes, the Company is a member of the following trade, chamber and association:

- a) Organisation of Pharmaceutical Producers of India
- b) Karnataka Drug Manufacturing Association

c) Indian Society of Clinical Research

d) UK India Trade Investment Council

e) Business Sweden – The Swedish Trade & Invest Council

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

AstraZeneca is a member of various industry and trade groups. These groups represent the biopharmaceutical industry with governments and other stakeholders, defending and supporting public policies that are consistent with AstraZeneca's health care principles. While AstraZeneca may not always share the specific views of the industry and trade groups to which we belong, we continue to value our memberships in these organisations as they work to gain consensus on policy issues, when possible, amongst members to present a broader industry perspective.

Principle 8: Businesses should support inclusive growth and equitable development

1. Does the Company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

Non-communicable diseases (NCDs) such as diabetes, cancer, heart diseases and respiratory diseases are the leading causes of death globally and are among the top public health challenges globally and in India. WHO estimates that NCDs now account for 60% of the disease burden and are being diagnosed with increasing frequency. Further, India is experiencing rapid demographic and epidemiological transition with NCDs causing significant disability, morbidity and mortality both in urban and rural populations and across all socio-economic strata. Every year, roughly 5.8 million Indians die from heart and lung diseases, stroke, cancer and diabetes. In other words, 1 in 4 Indians risks dying from an NCD before they reach the age of 70s(WHO). The share of NCDs in morbidity and mortality will continue to increase (WHO, IDF, IMS Market Prognosis 2010-14, GLOBOCAN 2012), thereby presenting the need for early prevention, detection, control and management of NCDs.

The Company is uniquely positioned in India to address the rising burden of NCDs through its scientific expertise in the areas of diabetes, cardiovascular diseases, cancer and respiratory disorders. As part of the Company's business strategy in India, the Company is also committed to bring innovative solutions to address the gaps in the healthcare system and strengthen healthcare capabilities required for addressing the growing burden of NCDs in India. This strategy aligns well with the government's health agenda as outlined in the National Health Policy 2017. The Company has undertaken programmes to address the issues of NCDs in India especially targeted at the underprivileged sections of the society, where access to healthcare is a concern. The details of these programmes are provided at point no. 3 of Principle 4 in this report.

2. Are the programmes/ projects undertaken through in-house team/ own foundation/ external NGO/ government structures/ any other organization?

Yes. The Young Health Programme is being implemented by Plan International (India Chapter) (NGO) in partnership with local partners: Nav Srishti and Dr. A.V. Baliga Memorial Trust.

The Early Cancer Screening Initiative is being implemented in partnership with Indian Cancer Society and Charities Aid Foundation India.

3. Have you done any impact assessment of your initiative?

Base-line, Mid-line and Final Evaluations are conducted by external, independent consultants. Plan India, their partners and Plan UK, have developed a detailed monitoring, evaluation and learning framework to set out when and how the output and outcome indicators were monitored.

YHP India has ensured high quality implementation, importantly by ensuring youth engagement in activities at all stages during the programme cycle. It is evident that the core strategies of Peer Education, establishing and running Health Information Centres, using young people to develop IEC materials and mass awareness campaigns has meant the YHP has been embedded into the project communities.

Each strategy has worked well in increasing the programme reach and bringing about change in knowledge, attitude and practice indicators. The successful initiative to advocate for Adolescent Friendly Health Services (AFHS) at the primary health centres has helped in increasing the uptake of health services by young people. The Health Information Centres have developed as a relevant community-based resource centre and referral point for young people.

The YHP India has also been a catalyst to improve the government's flagship programme on adolescent health Rashtriya Kishor Swasthye Karyakram by leveraging support from the YHP Peer Educators. This will also strengthen the sustainability and legacy of the YHP India.

The Early Cancer Screening Programme is currently in its early phases and evaluations are under progress.

4. What is your Company's direct contribution to community development projects - Amount in ₹ and the details of the projects

The contribution made is as follows:

- Early Cancer Screening Programme for women: ₹ 3.89 million
- Health education among school children with focus on NCD prevention: ₹ 1.62 million
- Young Health Programme in India is a globally funded programme.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community?

Yes.

- YHP implementing partners have taken ownership of running 8 of the 15 Health Information Centres through their institutional resources.
- YHP organised several interface meetings with government officials (Delhi Jal Board, Municipal Corporation of Delhi, health department, malaria department, Delhi police, education department) and community stakeholders (community leaders, parents) to facilitate open communication, and mutually resolve the issues pertaining to health such as provision of services for young people.
- The Peer Educators, who are the ambassadors of the YHP, are recognised for their continuous and untiring contribution and support. Many are motivated and ambitious to continue to reach out to their peers and community.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year

As of March 31, 2019, 5 significant complaints were investigated of which 2 were closed consequently and 3 (i.e. 60%) are under review as per the Whistle Blowing Policy as approved by the Board.

2. Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes/ No/ N.A./ Remarks

The product labelling is to be approved by the regulatory authorities of the country where the product is to be sold. The Company mentions all the product approved information as per the applicable country drug rules.

3. Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last 5 years and pending as on end of financial year. If so, provide details thereof.

There is no pending case as on March 31, 2019.

4. Did your Company carry out any consumer survey/ consumer satisfaction trends?

The Company does carry out periodical survey on the clinical efficacy and experience of the physicians (customers) for its innovative drug launches. The Company undertakes the feedbacks received from the customers seriously and is driven by the perceptive customer value manifested in these customer surveys.

AstraZeneca Pharma India Limited

Independent Auditor's Report

To the members of AstraZeneca Pharma India Limited

Report on the audit of the financial statements

Opinion

1. We have audited the accompanying financial statements of AstraZeneca Pharma India Limited ("the Company"), which comprise the balance sheet as at March 31, 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

Appropriateness of Provisions recognised and contingent liabilities disclosed in respect of certain direct and indirect tax matters

(Refer to the note 18 – "Provisions", note 19- "Current tax liabilities" and note 30(b) – "Contingent liabilities" to the financial statements).

There are certain direct and indirect tax cases pending against the Company mainly on transfer pricing adjustments relating to arms' length pricing and other disallowances and service tax matters such as service tax demand on expenditure in foreign currency and disallowance of input tax credit.

As at March 31, 2019, the Company has tax demands aggregating ₹ 319.4 million of which ₹ 65.4 million has been provided for and ₹ 254.0 million has been disclosed as contingent liabilities, both of which are significant to the financial statements. The Company has filed appeals with the various appellate authorities against such demands.

Management judgement is involved in evaluation of the likelihood of ultimate outcome of the tax disputes and the probable amount of the liability supported by advice obtained from external tax consultants, where applicable, and is hence determined to be a key audit matter.

How our audit addressed the key audit matter

Our procedures included the following:

- Understood, evaluated and tested the design and operating effectiveness of controls in respect of identifying tax exposures, its accounting and disclosures thereof.
- Obtained a listing of the various tax cases and, read the correspondence with tax authorities and the advice received by the management, where relevant, from its external tax consultant.
- Evaluated the objectivity, competence and capabilities of the management's external tax consultant.
- Along with auditors' tax experts:
 - a. Gained an understanding of the current status of tax assessments through our discussion with management and determined impact, if any, based on recent rulings and latest developments in tax laws.
 - b. Evaluated provisions for uncertain tax exposures based on case history and other available evidence to challenge the valuation and completeness of the provisions recognised by the Management.
 - c. Examined the confirmation obtained from the Company's internal legal counsel to confirm our understanding of outstanding cases.
 - d. Evaluated the adequacy of disclosures made in the financial statements.

Based on the above procedures, we found the judgements made by the Management in recognising provisions and in disclosing contingent liabilities in respect of the aforesaid tax matters, to be reasonable.

Other Information

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis Report, Board's Report including Annexures to Board's Report, Business Responsibility Report and Report on Corporate Governance, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

6. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and

AstraZeneca Pharma India Limited

whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of

Changes in Equity and Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

- d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer notes 18, 19 and 30(b) to the financial statements;
 - ii. The Company has long-term contracts for which there were no material foreseeable losses. The Company did not have any derivative contracts as at March 31, 2019.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2019.

Annexure A to Independent Auditors' Report

Referred to in paragraph 14(f) of the Independent Auditors' Report of even date to the members of AstraZeneca Pharma India Limited on the financial statements as of and for the year ended March 31, 2019

Report on the Internal Financial Controls with reference to financial statements under Section 143(3)(i) of the Act

1. We have audited the internal financial controls with reference to financial statements of AstraZeneca Pharma India Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditors' Report

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of AstraZeneca Pharma India Limited on the financial statements as of and for the year ended March 31, 2019

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and material discrepancies have been noticed on such verification, which have not been properly dealt with in the books of account.
- (c) The title deeds of immovable properties, as disclosed in Note 3 on fixed assets to the financial statements, are held in the name of the Company.
- ii. The physical verification of inventory (excluding inventory lying with third parties) have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and including management's assessment in respect of provident fund as referred to in note 44 to the Financial Statements and the records of the Company examined by us, in our opinion, the Company is regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, income tax, duty of customs, goods and service tax, and other material statutory dues, as applicable with the appropriate authorities.
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of sales-tax, duty of excise and value added tax which have not been deposited on account of any dispute. The particulars of dues of income tax, service tax and duty of customs as at March 31, 2019 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Gross Amount (₹)	Amount paid under protest (₹)	Net Amount (₹)	Period to which the amount relates	Forum where the dispute is pending

Accounting policies have been applied consistently to all periods presented in these financial statements. All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets/inputs for processing and their realisation of cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current / non-current classification of assets and liabilities.

Amounts included in the financial statements are reported in millions of Indian rupees except share and per share data, as per the requirement of Schedule III, unless otherwise stated. The sign '0.0' in the financial statements indicates that the amounts involved are below ₹ one lac and the sign '-' indicates that amounts are nil.

(c) New and amended standards adopted

- (i) Ind AS 115, *Revenue from contracts with customers* (Refer notes 2.11, 21 and 41)

- (ii) Appendix B, Foreign Currency Transactions and Advance Consideration to Ind AS 21, *The Effects of changes in Foreign Exchange Rates*.*

- (iii) Amendment to Ind AS 12, *Income Taxes**

* There has been no impact on adoption of these amendments on the financial statements.

(d) Standard issued but not yet effective

- (a) On March 30, 2019, Ministry of Corporate Affairs has notified *Ind AS 116, Leases*. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of Profit and Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019.

The standard permits two possible methods of transition:

- (i) Full retrospective – Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors,
- (ii) Modified retrospective – Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

The Company will adopt this standard from the financial year beginning April 1, 2019, using the modified retrospective approach.

The Company is evaluating the impact of Ind AS 116 on the financial statements.

- b) Ind AS 12 Appendix C, *Uncertainty over Income Tax Treatments*: On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, *Uncertainty over Income Tax Treatments* which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

The standard permits two possible methods of transition -

- i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and
- ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019.

The Company will adopt the standard on April 1, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. April 1, 2019 without adjusting comparatives.

There are no other amendments which have been notified, that are likely to have any material impact on the financial statements of the Company.

2.2. Critical judgements and estimates

The preparation of financial statements in conformity with Ind AS requires that the management make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future years. In particular, information about areas of significant estimation uncertainty and critical judgments in applying accounting policies that have a significant effect on the amounts recognised in the financial statements are included below:

- a) **Defined benefit plans and compensated absences:**
Measurement of obligation towards defined benefit plans and compensated absences are determined based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. Significant assumptions include determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, defined benefit obligations and compensated absences are sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Refer note 33.
- b) **Expected credit losses on financial assets:**
The impairment provisions on financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting inputs to be used in the impairment calculation, based on the Company's past history, customers' creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period. Refer note 36.

- c) **Recoverability of deferred tax assets:** The Company has unutilised MAT credit under the Income Tax Act, 1961. Consequently, the Company has been discharging its income tax liability as per MAT provisions under Section 115JB of the Income Tax Act, 1961. Based on expectation of future taxable profits under the normal provisions of the Income Tax Act, 1961, the Company has recognised deferred tax assets on MAT credit. Refer note 7.
- d) **Direct and Indirect Taxes - Provisions and contingent liabilities:** The Company has disputed claims under direct and indirect tax laws. Management discloses amounts claimed by the tax authorities as either contingent liabilities or recognizes them as provisions, based on subject matter under dispute, management's experience with disputes of a similar nature and advice from tax experts. Recognition and disclosure of such disputed claims may vary subsequently. Refer notes 18, 19 and 30.

2.3. Property, plant and equipment

Freehold land is carried at historical cost and not depreciated at the balance sheet date.

All other items of Property, plant and equipment are stated at historical cost less depreciation, and impairment loss, if any. Historical cost comprises the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Subsequent costs are included in an asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

An item of Property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Statement of Profit and Loss within 'Other income' or 'Other expenses'.

The cost of Property, plant and equipment which are not ready for their intended use, are presented as capital work-in-progress.

Depreciation is calculated using the straight-line method, from the date of capitalisation, to allocate the cost of Property, plant and equipment, net of their residual values, over the estimated useful lives of the assets. The estimates of useful lives have been determined based on a technical evaluation by management's expert, which are different from those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The estimates of useful lives of property, plant and equipment are as follows:

Class of asset	Useful life in years
Buildings	6 to 20
Roads and culverts	10
Plant and machinery	5 to 10
Vehicles	5
Office equipment	2 to 10
Furniture and fixtures	10

2.4. Intangible assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. License for use and application of know-how and trademark are being amortised using the straight-line method over its useful life of 60 months, from the date it was available for use.

2.5. Impairment of assets

Assessment is done at each balance sheet date as to whether there is any indication that a non-financial asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset or Cash Generating Unit (CGU) is made. Recoverable amount is higher of an asset's or CGU's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, the recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent from those of other assets or groups of assets. The smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a CGU. An asset or CGU whose carrying value exceeds its recoverable amount is considered impaired and is written down to its recoverable amount. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

2.6. Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements are presented in Indian Rupee (₹) which is functional and presentation currency of the Company.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of transaction. Foreign exchange gains and losses arising from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss.

2.7. Segment Reporting

The Company is engaged in the manufacture, trading and sale of pharmaceutical products and also provides clinical trial services to an overseas group company. For internal reporting purposes management has organised the Company into a single reportable segment i.e. Healthcare segment.

2.8. Inventories

Inventories are stated at the lower of cost or net realisable value. The cost of finished goods, traded goods and work-in-progress comprises cost of raw materials, direct labour, other direct costs and related production overheads (in case of manufactured finished goods and work-in-progress). Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products. Cost of all categories of inventories have been determined using the moving weighted average cost method.

2.9. Employee Benefits

(a) Defined contribution plans

Provident Fund: Provident fund contributions for non-management staff are made to the regulatory authorities as per prescribed rules and regulations. The Company has no further obligations beyond the contributions made. Such benefits are classified as defined contribution plans. Such contributions to the Provident Fund Scheme are recognised in Statement of Profit and Loss when due.

Superannuation: The Company makes contributions for qualifying management employees to a Superannuation scheme, a defined contribution plan, based on a specified percentage of eligible employees' salary. The Company's obligation to the scheme is restricted to contributions made to the scheme, which are recognised in the Statement of Profit and Loss when due.

(b) Defined benefit plans

Provident Fund: In respect of management staff, the Company makes contributions to a trust administered by the Company. Company's contributions to the trust are recognised as plan assets. Trust invests in designated investments permitted by Law. The minimum rate at which the annual interest on contributions is payable to the beneficiaries by the trust is administered by the Government. The Company is obligated to make good the shortfall in statutory rate prescribed by

AstraZeneca Pharma India Limited

Notes to the Financial Statements

the Government and rate of interest declared by the trust. The Company also has an obligation to fund any shortfall in the fair value of plan assets as compared with the defined benefit obligation.

The Company's obligation is actuarially determined at the end of every year using the projected unit credit method. Remeasurement gains and losses are recognised in the period in which they occur, directly in other comprehensive income (OCI). They are included in the retained earnings in the statement of changes in equity and in the balance sheet.

Gratuity: The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan"). The Gratuity Plan provides for lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's last drawn salary and tenure of employment with the Company. The Company makes contributions towards gratuity into an approved gratuity fund administered by an external fund manager. The contributions made to the trust are recognised as plan assets. The net defined benefit obligation, if any, recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value of plan assets.

The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year. Remeasurement gains and losses including those arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income (OCI). They are included in the retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised during the same period in the Statement of Profit and Loss as past service cost.

(c) Other long-term employee benefits

Compensated Absences: The employees of the Company are entitled to other long-term benefit in the form of compensated absences as per the policy of the Company. Employees are entitled to accumulate leave balance up to the upper limit as per the Company's policy which can be carried forward up to retirement/resignation. Leave encashment for a certain category of employees gets triggered on an annual basis, if the accumulated leave balance exceeds the threshold as defined in the Company's policy. At the time of retirement, death while in employment or on termination of employment, leave encashment vests equivalent to amount payable for number of days of accumulated leave balance as per the Company policy as applicable. Liability for such benefits is provided on the basis of actuarial valuation at the Balance Sheet date, carried out by an independent actuary using projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

The obligation for compensated absences are presented under current liabilities in the balance sheet as the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Long-term service awards : The employees of the Company are entitled to long term service awards as per the policy of the Company. Liability for such benefits is provided on the basis of actuarial valuation at the Balance Sheet date, carried out by an independent actuary using projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

(d) Other short-term employee benefits

Other short-term employee benefits are expected to be paid in exchange for the services rendered by employees and are recognised in the year during which the employee rendered the services. These benefits are in the form of performance incentives and compensated absences.

(e) Other benefits

Termination Benefits: Termination benefits, in the nature of voluntary retirement benefits or those arising from restructuring, are recognised in the Statement of Profit and Loss when the Company has a present obligation as a result of past event, when a reliable estimate can be made of the amount of the obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Termination benefits generally include post-retirement healthcare benefits provided to qualifying employees till the contractual retirement age. Such benefits falling due more than 12 months after the end of the reporting period are discounted to present value. The expected costs of the healthcare benefits are determined based on an actuarial valuation using the Projected Unit Credit (PUC) method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit and Loss in the period in which they arise.

2.10. Employee share-based payments

Stock-based compensation cost is measured at fair value at the date when the grant is made to qualifying employees by AstraZeneca Plc, United Kingdom ('Ultimate holding company') using modified binomial model.

Expense arising from equity-settled share-based payment transactions are recognised over the vesting period as employee benefits expense with a corresponding credit to employee share compensation reserve. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

The stock-based compensation cost is recharged to the Company upon exercise, which is adjusted against employee share compensation reserve.

2.11. Revenue from operations

Revenue is recognised when the control of goods has been transferred to the customer and it is certain that future economic benefits will flow to the entity and specific criteria have been met for each of the activities as described below.

Effective April 1, 2018 the Company adopted Ind AS 115, Revenue from Contracts with Customers using the modified retrospective approach. In accordance with the modified retrospective approach, the comparative's have not been retrospectively adjusted.

Sale of products: Revenue from sale of products is recognised when the control of the goods has been transferred to the buyer as per the terms of the contract, which coincides with the delivery or despatch of goods. Revenue is recognised net of trade discounts, volume discounts and Goods and Services Tax (GST) in the Statement of Profit and Loss. Revenue in the comparative period is inclusive of excise duty until introduction of GST, effective 1 July 2017, in which excise duty has been subsumed.

Sale of services: The Company derives its service income from clinical trials provided to an overseas group company. The income from clinical trials is based on a 'cost plus' model as agreed with the said group company. As per the agreement, costs incurred internally are charged with a mark-up and those incurred externally are charged at actual. Revenue from services is recognised when the service is performed in accordance with the terms of the arrangement with the group company.

Income from grant of exclusive distribution rights: The Company recognises income from grant of exclusive distribution rights in the Statement of Profit or Loss at a point in time when the control has been transferred to the customer and the Company has satisfied its performance obligations in relation to transfer of such rights to the customer.

Income from sale of products on behalf of third parties is recognised at an amount representing net margins earned on such sales as per the contractual terms agreed with such third parties.

2.12. Other Income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of financial asset. Interest income is included under the head 'Other income' in the Statement of Profit and Loss.

2.13. Operating leases

As a lessee:

Leases in which significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor:

Lease income where the Company is a lessor in an operating lease arrangement is recognised as income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases.

The respective leased assets are included in the Balance Sheet based on their nature.

2.14. Earnings per share

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average numbers of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares, if any.

2.15. Current and Deferred tax

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences except when they arise from initial recognition of goodwill. Deferred income tax is also not recognised if it arises from initial recognition of an asset or liability in a transaction other than business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the

AstraZeneca Pharma India Limited

Notes to the Financial Statements

extent that it is probable that future taxable amounts will be available against which such deductible temporary differences, unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable amounts will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable amounts will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred tax relating to items recognised outside the profit or loss are recognised either in other comprehensive income or in equity, in correlation with the underlying transaction.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax asset on Minimum Alternate Tax (MAT) credit is recognised only when it is probable that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the deferred tax asset relating to MAT credit is written down to the extent there is no longer a convincing evidence that the Company will pay normal income tax during the specified period. Similarly, the deferred tax asset relating to MAT credit is adjusted upwards if the previously unrecognised MAT credit is considered recoverable due to higher anticipated future taxable profit.

2.16. Provisions and Contingent Liabilities

Provisions: Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the obligation at the Balance sheet date.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.17. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

2.18. Financial Instruments

Financial assets and liabilities are recognised when the company becomes a party to the contract that gives rise to financial assets and liabilities. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a) Financial Assets :

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in Statement of Profit and Loss.

De-recognition of financial asset and financial liabilities

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised when the obligation specified in the contract is discharged or cancelled or expires.

Impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected credit losses for all trade receivables using a provision matrix approach as permitted by Ind AS 109. For all other financial assets, expected

AstraZeneca Pharma India Limited

Notes to the Financial Statements

credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

b) Financial Liabilities :

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short maturity of these instruments.

2.19. Trade and other payables

The amounts represent liabilities for goods and services provided prior to the end of financial year. The amounts are unsecured and are usually paid within the credit period given by the vendors. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.20. Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.21. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of reporting period.

2.22. Trade receivables

Trade receivables are initially recognised at their transaction price (fair value) and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.23. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interests. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset to its highest and best use or by selling it to another market participant that would use the asset to its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair-value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarised in note 34 to the financial statements.

Notes:

- The discount rate is based on the prevailing market yield on Government securities as at the balance sheet date for the estimated term of obligations.
- The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.
- IALM represents Indian Assured Lives Mortality.

i) Actuarial risk and sensitivity

These plans typically expose the Company to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on Government bonds. If the plan assets underperform this yield, this will create a deficit. The Company maintains plan asset for Gratuity through insurance company and for Provident fund is managed through trust.
Interest risk	A decrease in the bond interest rate will increase the plan liability.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The Company ensures that the investment positions are managed within the asset-liability matching framework that has been developed to achieve long-term investments that are in line with the obligations under employee benefit plans. Within this framework, the Company's asset-liability matching objective is to match assets to the defined benefit obligations by investing in plan asset managed by an insurance company and through the Provident Fund trust.

A sensitivity analysis for significant assumptions:

Particulars	Gratuity		Provident Fund	
	As at March 31, 2019	As at March 31, 2018	As at March 31, 2019	As at March 31, 2018
Impact on defined benefit obligation				
Discount rate				
1% Increase	(24.8)	(24.5)	(16.4)	(2.1)
1% Decrease	27.6	27.6	31.8	13.2
Salary increase rate				
1% Increase	21.4	22.6	-	-
1% Decrease	(20.2)	(21.1)	-	-
Interest Rate Guarantee				
1% Increase	-	-	25.5	48.4
1% Decrease	-	-	(16.4)	(25.4)

Sensitivities due to mortality and withdrawals are not material and hence impact of change is not disclosed.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

34. Employees Restricted Stock Plan

The Ultimate Holding Company, AstraZeneca Plc. United Kingdom (AZUK), listed on London Stock Exchange had introduced a Long-Term Incentive Stock Compensation Plan in the form of Restricted Stock Units (RSUs) to attract and retain the employees. As per the plan, the awards are granted to qualifying management employees of the Company. One restricted stock unit represents one AZUK share. When the stock units vests after three years, restricted stock units are automatically exchanged for the same number of AZUK shares. Moreover, the RSUs do not expire. There is no performance criteria. After the vesting period, the employees are free to either hold or sell the shares.

The expense recognised for employee services received during the year is shown in the following table:

Particulars	For the year ended March 31, 2019	For the year ended March 31, 2018
Expense arising from equity-settled share-based payment transactions (Refer note 26)	9.5	8.6

Movements during the year

The following table illustrates the number and Weighted Average Fair Value (WAFV) of, and movements in RSUs during the year:

35. Financial instruments- accounting classification and fair value measurement

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Financial instruments by category and hierarchy

Particulars	As at March 31, 2019		
	Amortised cost	FVTPL	FVTOCI
Financial assets			
Loans	36.7	-	-
Trade receivables	797.5	-	-
Cash and cash equivalents	1,732.4	-	-

Financial liabilities			
Trade payables	1,272.0	-	-
Other financial liabilities	318.5	-	-
	1,590.5	-	-

The management assessed that carrying amount of cash and cash equivalents, trade receivables, trade payables and other current financial liabilities approximate their fair values largely due to the short-term maturities of these instruments.

For financial assets that are measured at fair value, the carrying amounts are equal to the fair values.

36. Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors review and agree on policies for managing each of these risks, which are summarised below.

i. Market risk

Foreign Currency Exposure

Foreign currency risk is the risk that the future cash flows of a financial asset or a financial liability will fluctuate because of changes in foreign exchange rates. The operations of the Company are carried out mainly in India. However, the Company exports services to foreign customers and receives certain services from foreign vendors which are denominated in USD, GBP, EUR. Hence the Company is currently exposed to the currency risk arising from fluctuations in the exchange rates between the above currencies and Indian rupee. The Company does not enter into any forward contracts considering the total exposure is not material to the operations of the Company. Foreign currency exposure which was not hedged, are as follows:

AstraZeneca Pharma India Limited

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonable possible change in USD exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	Change in exchange rate	As at March 31, 2019		As at March 31, 2018	
		Effect on profit before tax	Effect on equity	Effect on profit before tax	Effect on equity
USD					
Increase	5%	2.7	1.7	4.5	3.0
Decrease	-5%	(2.7)	(1.7)	(4.5)	(3.0)

The Company is not subject to any other market risk.

ii. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities primarily with respect to trade receivables, including balances with banks and other financial assets.

a. Trade Receivables

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on credit rating scorecard and individual credit limits are defined in accordance with this assessment. To manage this, the company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of account receivable.

An impairment analysis is performed at each reporting date on an individual basis for third party receivables. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables, refer Note 10.

The ageing analysis of the receivables (gross of provision) has been considered from the date the invoice.

	Gross carrying amount	Expected loss rate	Expected credit loss
As at March 31, 2019			
Upto 6 months	820.1	0%-33%	24.3

Opening balance	33.4	48.2
Impairment recognised	34.5	5.9
Impairment reversal	-	(20.7)
Closing balance (Refer note 10)	67.9	33.4

b. Cash and Bank balances, other financial assets

Credit risk from balances with banks and other financial assets is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counter parties and within the limits assigned.

Company follows a conservative philosophy and shall aim to invest surplus rupee funds in India only in time deposits with well-known and highly rated banks. The duration of such time deposits will not exceed 365 days other the margin money deposits.

The following table summarizes the change in the loss allowances for other financial assets:

Particulars	As at March 31, 2019	As at March 31, 2018
Allowance for impairment		
Opening balance	9.3	14.8
Impairment (reversal)/ recognised	-	(5.5)
Closing balance	9.3	9.3

iii. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. The Company maintains flexibility in funding by maintaining appropriate level of funds in bank and liquid deposits. Financial liabilities includes trade payables and other financial liabilities, the amount is repayable generally in a period of 3 months to 1 year.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	On demand	Less than 1 year	Total

Diabetes	38.5%
Oncology	14.8%
Respiratory	1.5%
	100.0%

- (ii) During the year ended March 31, 2019, the Company does not have any contract liability and hence no disclosure has been made with respect to the movement of contract liability.
- (iii) Performance obligations and remaining performance obligations
Performance obligations of the Company to deliver goods are required to be satisfied within a period of 12 months or less. Accordingly, management has elected to use the practical expedient provided in Ind AS 115 and has not disclosed the transaction price of unsatisfied performance obligations as at the year end.

Sale of services:

In respect of clinical services, the Company is entitled to charge the customer an amount that corresponds directly with the value to the customer of the entity's performance completed to date, measured based on the actual costs incurred by the Company in providing clinical services. Considering the nature of the arrangement, management has used the practical expedient in Ind AS 115 and has not disclosed the transaction price of unsatisfied performance obligations in respect of clinical trial services as at the year end.

The impact on account of adoption of Ind AS 115 as compared with Ind AS 18 on the Balance Sheet as at March 31, 2019 and Statement of Profit and Loss for the year ended March 31, 2019 is not considered to be material.

42. Voluntary Delisting

As previously disclosed, by way of a letter dated 1 March 2014, AstraZeneca Pharmaceuticals AB, the promoter of the Company had proposed a voluntary delisting of the Company's equity shares from the National Stock Exchange and the Bombay Stock Exchange. Such proposed delisting is subject to an on-going inquiry with SEBI and that inquiry has not yet been resolved. In any event, based on the passage of time, any potential future proposal for voluntary delisting of the Company would need to be conducted de novo.

43. Grant of Exclusive Distribution Rights

During the current year, the Company has entered into a distribution agreement (the 'agreement') with a customer for specified products ("Products"). Pursuant to this agreement, an upfront fee of ₹ 213.1 has been received from the customer towards marketing and promotion already carried out by the Company in order to create market presence for the products. Management has determined that such marketing and promotion is a distinct service provided to the customer. The said upfront fee meets the point in time recognition criteria as per Ind AS 115 and is recognised separately from the sale of products envisaged in the agreement.

The Company has an agreement with an overseas group company to receive reimbursement of certain costs incurred for the marketing and promotion for launch of new products, net of any upfront fee received by the Company from its customers. During the year, the Company has incurred an aggregate expense of ₹ 161.4 towards marketing and promotion of new products and has accounted such expense under appropriate headings in the Statement of Profit and Loss. The aforesaid upfront fees received from the customer exceeds the aggregate expense incurred towards marketing and promotion of new products during the year and hence such expenses have not been billed to the group company.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

44. Provident Fund - Supreme Court Judgement

The Company is in the process of evaluating the impact of the recent Supreme Court (“SC”) judgement dated 28 February 2019 in the case of Regional Provident Fund Commissioner (II) West Bengal v/s Vivekananda Vidyamandir and Others, in relation to exclusion of certain allowances from the definition of “basic wages” of the relevant employees for the purposes of determining contribution to Provident Fund (“PF”) under the Employees’ Provident Fund & Miscellaneous Provisions Act, 1952. There are interpretation issues relating to the said SC judgement. In the assessment of the management, the aforesaid matter is not likely to have a significant impact and accordingly, no provision has been made in the financial statements.

45. Previous year’s figures have been regrouped/ reclassified wherever necessary, to conform with the current year classification.
