ARTS CONCENTRATIONS AT DURHAM SCHOOL OF THE ARTS

ARTS: Music		ARTS: Theatre Arts	ARTS: Dance	ARTS: Visual Arts	ARTS: CTE	ARTS: Writing
Instrumental Music (4 Distinct Areas)	Choral Music	Theatre	Dance	2D and 3D	Commercial and Artistic Technologies	Writing
<p align="center">Band</p> Beginning Band Concert Band *Symphonic Band ** Hn Symphonic Band **Hn Wind Ensemble Jazz Stage Band Jazz Artistry Workshop AP Music Theory	Concert Chorus **Treble Ensemble *Men’s Ensemble **Honors Women’s Ensemble **Honors Chamber Ensemble	Theatre Fundamentals Theatre Ensemble *Acting in Comedies *Theatre Studio **Honors Theatre Studio <hr/> <p align="center">Tech Theatre</p> Theatre Fundamentals Intro to Tech Theatre I Intro to Tech Theatre II *Theatrical Design & Production I *Theatrical Design & Production II	Modern Dance Fundamentals Advanced Modern Dance Fundamentals *Modern Dance Ensemble *Dance Collective ** Honors Dance Collective ** Honors Dance Company Issues in Contemporary Dance	Visual Arts Survey Media and Design Beginning 2D Beginning 3D *Intermediate 2D *Intermediate 3D **Hn Advanced 2D **Hn Advanced 3D * Portfolio Development *AP 2D Studio *AP 3D Studio <hr/> <p align="center">Photography</p> <hr/> Media and Design Photography I *Photography II **Hn Photography III *AP Photography IV	<p align="center">Audio & Video Technology & Film</p> Multimedia & Webpage Design Digital Media **Advanced Digital Media CTE Advanced Study OR CTE Internship OR Scientific Visualization <hr/> <p align="center">Visual Arts Technology</p> Scientific Visualization **Game Art & Design Advanced Game Design CTE Advanced Study OR CTE Internship OR Multimedia & Webpage Design OR Digital Media	Writing Through Literature I Writing Through Literature II *Completer Options 1) Editor of Lit Magazine 2) Self-Publish novel or book of poems 3) Submit senior writing portfolio to Scholastic Art & Writing Awards <hr/> Newspaper Journalism *Completer Options 1) Editor or Co-Editor 2) Portfolio <hr/> Yearbook Journalism *Completer Options 1) Editor or Co-Editor 2) Portfolio
<p align="center">Guitar</p> Intro to Guitar Guitar Fundamentals Guitar Styles *Guitar Ensemble *Advanced Guitar **Hn Advanced Guitar	<p align="center">Piano</p> Piano Lab 1 Piano Lab 2 Piano Lab 3 **Honors Piano Lab 4 **Honors Piano Lab 5 **Honors Piano Lab 6					
<p align="center">Strings</p> String Fundamentals String Tech/Rep *String Orchestra **Hn String Orchestra **Chamber Orchestra						

Students must take at least one arts course each year and must successfully complete at least one Arts Concentration: four credits in a single area, with at least one course at the “completer” level, indicated above by an asterisk (*). Honors level courses are indicated above by a double asterisk ().**

Course Titles may change slightly from the lists given above.

DURHAM SCHOOL OF THE ARTS HIGH SCHOOL REGISTRATION BOOKLET 2014-2015

This booklet includes a list of high school academic courses, descriptions of DSA studio courses, and the course numbers to be placed on the registration form. Based on the information you give us, your prior grades, test scores, and teacher recommendations, we will make every effort to give you the schedule of your choice.

High school students should use this Registration Booklet, the DPS High School Program of Studies, and their four-year plans to choose courses for the upcoming school year. In making your selections, consider how you will meet graduation requirements in the course of study you selected, develop career or college entrance credentials, and advance in your chosen arts pathway.

High School Credits and Requirements for Graduation

The charts at the beginning of this booklet will help you organize your thoughts before selecting your courses.

College entrance requirements generally exceed high school graduation requirements. Many colleges prefer 4 units of math, science, and social studies as well as 2 or more years of a foreign language. Technical colleges, junior colleges, art schools, and conservatories may have different requirements. **Work with your teachers and school counselors to ensure you are taking the appropriate classes.**

English	Mathematics	Science	Social Studies
Eng I – <i>10212X0Y</i>	CC Math I – <i>21032X0Y</i>	Earth/Environmental – <i>35012X0Y</i>	World History – <i>43032X0Y</i>

* At least one of these math courses must be completed in order to be eligible for a NC public university.

Math Notes:

8th grade students in Common Core 1 should have an average of 85 to advance to **Common Core 2**; otherwise take **in Common Core 1** in 9th grade.

8th grade students in in Common Core 2 should have an average of 90 to advance to **in Common Core 3**; otherwise take **in Common Core 2** in 9th grade.

Pre-Calculus is designed for students planning to major in math or a math-related field. It is a prerequisite for both AP Calculus and AP Statistics. **Honors Discrete Math/Stat & Prob** prepares students for college level math courses and/or a major in one of the social sciences. Students may take both honors Pre-Calculus and honors Discrete Math/Stat & Prob. **Advanced Functions and Modeling** is a non-honors 4th year math course that will help to solidify algebraic concepts while applying knowledge to real world situations.

Grade Point Average (GPA) Information

The start of the 9th grade year is the start of a child’s permanent academic record. Every class taken during a student’s high school career will appear on the child’s transcript and will be included in their cumulative grade point average. Grade points are earned as follows:

96-100 = 4.0	91 = 3.38	86 = 2.75	81 = 2.13	76 = 1.50
95 = 3.88	90 = 3.25	85 = 2.63	80 = 2.00	75 = 1.38
94 = 3.75	89 = 3.13	84 = 2.50	79 = 1.88	74 = 1.25
93 = 3.63	88 = 3.00	83 = 2.38	78 = 1.75	73 = 1.13
92 = 3.50	87 = 2.88	82 = 2.25	77 = 1.63	70-72 = 1.0 < 70 = 0.0

Honors courses have one additional quality point added to a passing grade and AP courses receive two additional quality points; this allows for cumulative ‘weighted’ grade point averages to be greater than a 4.0; these weighted GPA’s determine class rank. Un-weighted GPA’s are utilized for such things as eligibility for *National Honor Society*, which, along with demonstrated excellence in character, community and school service, and leadership, requires a minimum of a 3.25 cumulative un-weighted GPA. This means, regardless of the level of courses taken, a student must have an overall average of at least a 90.

Arts Distinction and Honors Arts Diploma Information (Under revision)

High school students may earn arts or honors arts diploma distinctions based on a point system. During 9th-12th grades, students must earn 65 points for an Arts Distinction and 100 points for an Honors Arts Distinction. The number of courses, difficulty of the courses, and the student’s grade in each course will determine the total number of points earned. The chart below explains the point system.

Type of course	Points per year for an “A”	Points per year for a “B”
Beginning courses (beg)	10 points	6 points
Intermediate courses (int)	16 points	9 points
Advanced courses (adv)	24 points	14 points
Auditioned/Honors/Ind Study courses	30 points	16 points

NC End of Course (EOC’s): Students who were first time freshmen in 2006-2007 or later, must score at least a “3” on the following NC State End of Course tests: *English II, Algebra I, Biology*.

Eligibility for NC Academic Scholars Program: Students must have an un-weighted GPA \geq 3.5, complete all University requirements, complete one CTE class, and complete at least two second-level (or higher) elective classes.

NC Virtual Public High School: Please speak to your school counselor about this opportunity. In order to access these courses, a student must be enrolled at DSA for 7 periods and the course taken must be one NOT offered at DSA. Due to budget restraints, there may be a cost to the student for up to \$500.00 per class. Enrollment takes place through Dianna Poindexter (D125, ext 23542) and an **approval process**.

DURHAM SCHOOL OF THE ARTS REGULAR AND HONORS GENERAL RUBRIC

Where instruction is enhanced, DSA supports combining honors and regular students in the same class. Students participate together in project-based learning and seminars, but apply their knowledge in different ways through homework, research papers, individual assignments, and tests. Generally, honors work extends and expands the Standard Course of Study. Honors students receive one additional quality point for their grade to reflect the increased rigor. Teachers will provide students with detailed rubrics to address course content about regular vs. honors as well as specific assignments.

Advanced Placement Courses

Advanced placement courses are taught at a college level and require excellent organizational skills, strong study habits, the ability to work independently and cooperatively, and a high level of interest and commitment. Students can expect to spend substantial time outside class preparing assignments, reading, and writing papers. Many courses have summer assignments to prepare students for the challenge of their AP course(s). Completion of these assignments is **required** to enroll in August. Students may receive college credit by taking the AP test in May, provided they earn a score deemed high enough to be acceptable to the college/university of choice. AP courses will cover topics included on the AP tests; practice exams will be offered. To enroll in AP Courses, students shall have met the pre-requisites, obtained a teacher recommendation, considered the independence and commitment level required for both success and management of time and activities/obligations, and completed a contract (see “Forms” section of booklet) which acknowledges they will stay in the course the entire year and will take the AP exam in May (application fee of \$87.00).

Students will not be permitted to drop advanced placement courses. We recommend you choose AP courses with care, taking into consideration your teacher’s recommendation, your commitment to the course, your enjoyment of the subject matter, and your willingness to put in the necessary hours.

Students in advanced placement courses will receive 2 additional quality points on their weighted GPA provided they have a passing grade **and** take the advanced placement test given by the College Board at the end of the year.

11- AP English III: This course emphasizes the rhetorical structures of effective writing. American Literature and its relationship to the historical and cultural trends of American society form the literary content of the course.

10/11- AP United States History: This course is equivalent to a two semester college survey course in United States history. It satisfies the US history part 1 and part 2 requirement in one year. Students should be expect to spend considerable time outside of class reading from both an AP approved text and from numerous primary sources. This course will require students to develop analytical and interpretive skills. In class and out of class writing assignments are also emphasized. There will be a summer assignment.

11/12- AP Calculus: This course emphasizes a multi-representational approach to calculus, with concepts, results, and problems expressed geometrically, numerically, analytically, and verbally. Topics include: functions, limits, derivatives and their applications, techniques of integration, the definite integral, and applications of the integral.

11/12- AP Statistics: This course emphasizes the major concepts and tools for collecting, analyzing, and drawing conclusions from data; planning and conducting surveys and experiments, producing models using probability and simulations, and statistical inference.

12- AP English IV: This course emphasizes critical reading and analysis of literature, and writing analytical, expository essays about the literature. The focus will be on British literature including short stories, drama, novels, poetry, and essays.

12- AP Psychology: This course studies the behavior and mental processes of human beings and other animals. Students explore psychological facts, principles, and phenomena of the major sub fields and the methods psychologists use in their science and practice.

12- AP European History: The study of European history since 1450 introduces students to the cultural, political, and social developments that played a fundamental role in shaping the world in which they live. This permits a context for the understanding of the development of contemporary institutions, societies and politics. This class also deals with the evolution of current forms of artistic expression and intellectual discourse.

12- AP Chemistry: This course is an in-depth, second course in chemistry. The curriculum will include Atomic Structure, Bonding, Stoichiometry, Gases, Phase Changes, Thermodynamics, Solutions, Equilibrium, Acids and Bases, Kinetics, Oxidation/Reduction, Electrochemistry, Nuclear Decay, Organic Chemistry and Descriptive Chemistry. The pace of this class is fast with roughly 30 percent devoted to lecture, 40 percent to in-class problem solving and exercises and 30 percent labs. Expect to devote 6-9 hours per week to independent study, review and class preparation.

12- AP Biology: Laboratory investigations, process skills, critical thinking, and problem solving are integral components to this in depth study of the biological sciences. Expect a lot of reading, independent study, research, and a fast pace in this college level class.

12- AP Physics C Mechanics: This course is highly mathematical; in-depth treatment of rectilinear, circular and simple harmonic motion; application of Newton’s laws of motion in one, two and three spatial dimensions; problem solving with differential and integral calculus. Introduction to the construction and solution of differential equations as applied to mechanics. Proficiency in laboratory work, process skills, and problem solving are integral to success in this course. Students must be highly proficient in applying, manipulating and solving sets of algebraic equations. Students will have an opportunity to apply the physics learned in the course to a real-world problem. This course requires on average of 1 hour of dedicated study outside of the classroom per day to become highly successful.

11/12-AP Environmental Science: The goal of the AP Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them.

11/12- AP Spanish V and VI: These courses will be conducted entirely in Spanish. Students will work to expand their vocabulary; deepen their knowledge of grammar; read fiction, history, poetry, and articles; write diaries, essays, and stories; talk extemporaneously on a variety of topics; and listen to tapes, songs, and videos to sharpen comprehension. Level V focuses on language and level VI on literature.

11/12- AP French V: Students will master hearing and speaking skills on topics related to daily life. They will also read short novels, plays, poetry, and newspaper and magazine articles. In their essay writing, they will be expected to demonstrate excellent use of grammar, strong vocabulary, and the ability to write about a variety of topics. They will learn to relate the culture and history of the French speaking community to the literature it has produced. Level V focuses on language

11/12- AP Music Theory: Develop musical skills and knowledge leading to a thorough understanding of music theory and composition.

11/12-AP Art History: AP Art History offers a chronological survey of Western art from the dawn of civilization to the present time. Non-Western art will also be covered. The course gives emphasis on the unique position and role played by the artist and the work of art, its context, and the critic. Special attention is given to our interpretation of a work of art based upon its intended use, audience, and role in a particular society. As a survey course, the material is approached as an introduction to the discipline. Two goals of the course are to encourage the student to pursue further study in college as well as become versed in the visual language of art. Summer assignment is required. Students receive an elective social studies credit upon completion of the class. This is an intensive year-long course in which the student can receive college credit at participating universities. Students receive an elective social studies credit upon completion of the class. This is an intensive year-long course in which the student can receive college credit at participating universities.

12 – AP Studio Art: This course is not based on a written exam; instead, students submit portfolios for evaluation at the end of the school year. The AP Studio Art Program consist of three portfolios – 2-D Design, 3-D Design, and Drawing – corresponding to the most common college foundation courses.

Arts Involvement/ Expectations – Memorandum of Understanding

As a magnet school of choice for the Durham Public Schools District, it is the expectation of the Durham School of the Arts that one of the primary reasons students choose to attend our school is for our magnet focus, namely the arts. We believe that all students have the desire and ability to learn, and we believe that all students have the capacity to create and to respond to the arts. The depth and breadth of our arts offerings are what make us unique. It is the expectation that every student at DSA will explore the arts with a willingness and openness, ultimately focusing on at least one arts pathway through which they will grow and progress. Every 8th grader participates in a placement assessment with several of our arts teachers. This serves as an opportunity for our students to reflect on their arts experiences and, with the support and advice of teachers, to set appropriate goals for themselves. The “Memorandum of Understanding” for students attending DSA reinforces our purpose and expectations as a school of choice for the arts.

Memorandum of Understanding

Expectations for the School

The Arts Program will support and foster a life-long appreciation for Arts that leads to success in rigorous academic secondary schooling and serves as excellent preparation for college. The Durham School of the Arts will provide students with exposure to a variety of curricula while supporting students academically.

Expectations for the Teacher

Teachers in grades 6-12 will participate in local, regional, and national training in order to effectively incorporate the philosophy, strategies and assessments of a professional learning community, and a multiple intelligence model of learning while addressing the standards, goals, and objectives of the North Carolina Standard Course of Study. Interdisciplinary planning, inquiry, independent research, and exposure to a holistic view of knowledge will further enhance the student's educational experience.

Expectations for the Student/Family

Students of Durham School of the Arts are expected to demonstrate conscientious effort by regularly completing assignments and by participating constructively in lessons, activities, etc. Students must demonstrate a strong commitment to learning, be self-motivated, and have a desire to excel. Students should also be curious, independent thinkers, able writers and have an interest in Arts. Families must actively support each student's participation in our Arts courses by encouraging students to attend performances.

Designated Arts Requirements

- Students entering Durham School of the Arts must express an interest in an artistic venue and be assigned to DSA by the district's lottery process.
- Students at Durham School of the Arts must be willing to work on assigned projects, performances and classroom expectations in addition to regular homework and class work and must maintain adequate progress.
- All rising 9th graders must prepare for and attend an audition / presentation for placement in their high school arts pathway concentration.
- Students in grades 9-12 must choose at least one Arts pathway concentration, take at least one course in that pathway concentration each year of High School, and progress towards a complete course in at least one arts pathway concentration by their senior year in order to meet graduation requirements.

ACCOUNTABILITY: For any student who does not meet these expectations, it may take more than four years of enrollment in High School to graduate from Durham School of the Arts.

Special Note for All Students:

We will do everything we can to accommodate your chosen courses and electives. However, due to final budget approval and possible scheduling conflicts, we may need to modify or eliminate some courses we had hoped to be able to offer. Therefore, we may not be able to place you in all of your top choices so it is important to **prioritize your choices on your registration sheet**. If we are able to accommodate all of your classes, you will not be able to change/drop those classes. We will schedule a date(s) in early August for conflict resolutions—You may ask for changes only if: 1) you were placed in a course you have successfully completed 2) you gave alternatives and were placed in a different course. Staffing and funding decisions are based on your choices, so please **choose carefully and thoughtfully**. Every student must take 7 classes a day unless you are a senior with an approved internship. **Every student must take at least one arts course in their specified pathway concentration each year and complete at least one arts pathway concentration during your high school career.**

DURHAM SCHOOL OF THE ARTS STUDIO CLASS DESCRIPTIONS

DSA designs arts studios to accommodate more than one year of growth. Progression from level to level is determined by teacher recommendation and is based on demonstration of skills, readiness for more challenging curriculum, and ability to work independently. Most studio classes are multi-grade, allowing students to work together on the basis of shared interests and skills. Arts students at all levels will have opportunities to perform or exhibit their work.

VISUAL ART STUDIOS

Visual Arts students should take both 2D and 3D courses as an integral part of their arts education. Arts courses emphasize a balance of craftsmanship, concept, and creativity. Assessment will consider participation, effort, and an evaluation of the student's work products and progress. Each course includes an art history component and will require students to write and to talk about their ideas articulately. \$20 supplies fee required.

Course Name	Level	Prerequisite	Grade	Course Description
Visual Arts Survey <i>54612X0YAS</i>	Beg	None / There is a supply fee of \$20.00 for this class.	11-12	Use a variety of 2D & 3D media: pencil, watercolor, printing, wire, paper mache, clay. Designed for students wanting to "test the art waters" or take an art course while concentrating on another art concentration.
Media and Design II <i>54612X0YM2</i>	Beg	None / There is a supply fee of \$20.00 for this class.	9-10	Develop 2D and 3D design skills using a variety of media such as pencil, pen, paint, clay, wire, wood. While primarily a hands-on course, there is an art history component that explores how artists have made works in other time periods. Visual Arts Concentration starter course.
Beginning 2D <i>54612X0YB2</i>	Beg	Media and Design II (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	9-12	Develop your drawing skills and sharpen your power of observation. You will learn linear perspective and create compositions using a variety of media.
Beginning 3D <i>54612X0YB3</i>	Beg	Media and Design II (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	9-12	Using clay and other 3D media, explore hand-building skills for sculptural expression and functional application.
Intermediate 2D <i>54622X0YI2</i>	Int	Beginning 2D (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	10-12	Develop personal style and work on building skills and drawing technique, concepts, and composition. There is also a focus on drawing the human figure.
Intermediate 3D <i>54622X0YI3</i>	Int	Beginning 3D (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	10-12	Learn to use a potter's wheel and refine hand-building techniques for functional and sculptural works. Emphasis on concept development through sketching and model building.
Advanced 2D Honors <i>54635X0YA2</i>	Adv	Teacher recommendation and Int. 2D (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	11-12	Develop a portfolio of work as you learn to effectively use color and composition principles with watercolor, acrylic, pastels, and other dry and wet media. Homework is a weekly requirement.
Advanced 3D Honors <i>54635X0YA3</i>	Adv	Teacher recommendation and Int. 3D (a grade of 77 or higher) / There is a supply fee of \$20.00 for this class.	11-12	Develop a portfolio of work as you learn to effectively communicate ideas through the additive processes and composition principles. Along with continued use of materials such as clay, wire, paper, cardboard, and other materials; emphasis will be place on woodshop skills and techniques.

Portfolio Development Honors <i>54175X0YPD</i>	Adv	Teacher recommendation / Adv2D or Adv3D (a grade of 90 or higher) and student proposal required. / There is a supply fee of \$20.00 for this class.	12	Create a portfolio that represents your work as an emerging artist. You will document your senior course work and formally present it to both school and post-secondary Arts representatives. Seniors will also present their work at DSA's Senior Thesis Exhibition. An emphasis will be placed on student-directed projects. This is an honors level course. This course will align with the AP curriculum but without submission of the final portfolio. A summer assignment will be required.
AP 2D Studio <i>54537X0Y</i>	Adv	Placement assessment Adv2D (a grade of 90 or higher) and teacher recommendation./ There is a supply fee of \$20.00 for this class.	11-12	This course will follow the AP curriculum that includes three categories: breadth, quality and concentration. All projects are designed to provide a college-level experience. All students will be required to assemble and submit a portfolio as the "exam." Work outside of class time will be required, including a summer assignment.
AP 3D Studio <i>54547X0Y</i>	Adv	Placement assessment, Adv3D (a grade of 90 or higher) and teacher recommendation. There is a supply fee of \$20.00 for this class.	11-12	This course will follow the AP curriculum that includes three categories: breadth, quality and concentration. All projects are designed to provide a college-level experience. All students will be required to assemble and submit a portfolio as the "exam." Work outside of class time will be required, including a summer assignment.
AP Studio Art/Drawing <i>54527X0YSD</i>	Adv	Teacher recommendation required.	12	Students in this class will pursue drawing, painting, printmaking and other art processes to develop 29 works of art which demonstrate strong emphasis on markmaking, strength of drawing from life, developing line quality of value range, and compositions which stress drawing abilities as their consistent underlying structure. An on-going investigation varied of media (breadth), a concentrated focus during the second semester on a subject important to each student, and quality work are included and required for a May 2013 submission for judging through AP College Board. The rigorous standards require students to work throughout the entire 2 period class. Summer assignment required.
AP Art History <i>54487X0Y</i>	Adv		11-12	Students receive an elective social studies credit upon completion of the class. This is an intensive year-long course in which the student can receive college credit at participating universities. AP Art History offers a chronological survey of Western art from the dawn of civilization to the present time. Non-Western art will also be covered. The course gives emphasis on the unique position and role played by the artist and the work of art, its context, and the critic. Special attention is given to our interpretation of a work of art based upon its intended use, audience, and role in a particular society. As a survey course, the material is approached as an introduction to the discipline. Two goals of the course are to encourage the student to pursue further study in college as well as become versed in the visual language of art. Summer assignment is required.

PHOTOGRAPHY STUDIOS

*A foundation in the basic skills and concepts of visual arts (Media & Design) is required to begin the Photography sequence.
There is a supply fee of \$50.00 in this class.*

Course name	Level	Prerequisite	Grade	Course Description
Photo I <i>54612X0YPI</i>	Beg	Media & Design II (a grade of 77 or higher)	9-12	Using Point and Shoot digital cameras students will concentrate on learning design and composition for a semester. Once basic mastery of these principles is established, the students will move on to using digital SLR's to exercise further image control over their assignments. As they work, students will also learn about PhotoShop using guided lessons to help them manipulate their images effectively.

Photo II 54622X0YP2	Int	Photo I (a grade of 77 or higher)	10-12	Students will use digital cameras and studio lighting to make more interpretive images that tell stories. With Photo Illustration as their goal, students will also have the opportunity to write their own assignments to customize the curriculum to their interests.
Photo III Honors 54635X0YP3	Adv	Photo II (a grade of 77 or higher), and teacher rec.	11-12	This honors level course is intended for students who want to major or minor in photography in college. It is an intensive year of photography assignments designed to explore storytelling and practical issues associated with presenting photography. Students will focus on portfolio building, cut mats and study photographic history.
Photo IV AP 54527X0Y	Adv	Photo III (a grade of 90 or higher) and teacher rec	11-12	This course gives students the freedom to design their own assignments. Based on a portfolio review young photographers plumb their strengths and weaknesses to discover what they truly need to focus on to make their collection of work its very best. Assignments range from creating color that can only be seen by the camera to working in 3-D with translucent images. Students must prepare to submit a proposal that includes a brief biography, their short and long term goals for the year and a list of 18, well considered, assignment ideas.

***AP Studio Art can be selected by students with teacher approval and audition. Students interested in pursuing this option should work with their teachers during the registration process.**

BAND STUDIOS

Students must provide their own instruments and/or equipment. For assistance in acquiring an instrument, contact one of the directors. Students new to the program should plan to attend an information session; check the DSA monthly calendar on the website for the date and time Band students are required to practice and are strongly encouraged to take private lessons.

Beginning Band 52552X0YBB	Beg	None	9-12	Beginning Band is designed for first year band students regardless of grade. The class is comprised of mostly sixth and seventh grade students who wish to begin their band experience and students who wish to learn a second instrument. The focus of this class is to develop basic music literacy, technical skills, and care and maintenance of woodwind and brass instruments. Students who take this class are required to practice and are strongly encouraged to take private lessons. Let one of the band directors know which instrument you wish to study (Flute, Clarinet, Cornet/Trumpet, or Trombone) or if you are not certain which instrument you wish to play, contact one of our band directors for assistance in selecting the best instrument for you.
Beginning Percussion 52552X0YBP	Beg	Successful completion of sixth grade music class and be able to demonstrate basic music literacy.	9	This second year band class is focused on introducing fundamental skills on a variety of percussion instruments, in addition to percussion terminology, notation and rhythmic perception training. Students who take this class are required to practice and are strongly encouraged to take private lessons. You must have a band director recommendation on your registration form along with the course number.
Concert Band 52552X0YCB	Int	Successful completion of a beginning band class; recommendation of current music teacher and complete the audition process.	9-12	This class is designed to advance students from beginning band classes and Level Two Band expanding technical and ensemble skills including extended range major scales, more complex rhythmic content and expanded concert repertoire. Students who take this class are required to practice and are strongly encouraged to take private lessons.
Percussion Ensemble 52552X0YPI	Int	Successful completion of Beginning Percussion	9-10	This class explores traditional chamber music for percussion and uses this literature to further skill development. The students in this class will also perform as percussionist for Concert Band and Level Two Band. Class sizes are small. Students who take this class are required to practice and are strongly encouraged to take private lessons.
Symphonic Band 52552X0YSB	Int	A minimum of two year's successful participation in band and meets audition requirements	9-12	The Symphonic Band is designed for intermediate/advanced level band students. The focus of the class is to further develop technical and musical skills in regard to tone quality, sight-reading skills, scale development and more complex rhythms. Students who take this class are required to practice and are strongly encouraged to take private lessons. This class explores a variety of band repertoire and gives four to five concerts a year.
Symphonic	Prof	A minimum of two	9-12	The Symphonic Band is designed for proficient level band students.

Band Honors 52585X0SB		years successful participation in band, meets audition requirements and director approval		The focus of the class is to further develop technical and musical skills in regard to tone quality, sight-reading skills, scale development and more complex rhythms. Students who take class are required to practice and are strongly encouraged to take private lessons. This class explores a variety of band repertoire and gives four to five concerts a year. This class receives honors credit. Honors requirements will be presented in the course syllabus.
Wind Ensemble Honors 52575YWE	Adv	Student Audition and teacher recommendation.	9-12	The instrumental music program at the honors level is intended to provide an engaging means of musical, emotional, personal, and social expression. Through the study and analysis of music history, vocabulary, and symbols, this advanced level course exposes students to various musical styles, periods, and cultures and their respective composers. Students in this course have extra requirements on top of their normal Wind Ensemble course expectations. Students at this level will attend eight concerts, write 4 critiques of those concerts, compose an original 16 bar composition, arrange 16 bars of a solo, produce two written reports, perform major and minor scales, perform grade IV - VI music literature, perform a solo in a public venue and provide other services to the band program. These extra requirements are done on a time-line each quarter. Honors-level Wind Ensemble students should ultimately develop their skills and knowledge base so as to become not only musicians, but also independent learners in their own right. They are also required to audition for All District Band and participate at the District Solo and Ensemble Festival.
Jazz Stage Band 52982X0YJS	Int	Successful completion of beginning music class, enrollment in a large concert ensemble for the 11-12 school year and teacher recommendation.	9-12	This class is recommended for students that have two or more years of successful participation in band or guitar class. It is not intended to replace participation in a concert band or guitar class, but should supplement those studies for the music student that is interested in this art form. This class introduces students to idiomatically unique aspects of jazz including blues scale form and swing articulation.
Jazz Artistry Workshop Honors 52585X0YJ	Adv	All major scales memorized and teacher recommendation. We strongly recommend that students considering this class have at least one year of experience in Jazz Stage Band and complete the audition process.	10-12	Jazz is America's own true indigenous art form. In 1987 the U.S. congress passed a resolution declaring jazz "a rare and valuable national treasure". This course is designed to study jazz music historically and theoretically through analysis and performance.
Advanced Placement Music Theory 52157X0Y	Adv	Teacher recommendation, enrollment in a large concert ensemble for the same school year. Application required	11-12	This course is designated to develop musical skills that will lead to a thorough understanding of music composition and music theory. Students are prepared for and required to take the AP Music Theory exam at the end of the spring semester. Students planning to major in music at the college level are encouraged to take this course. This class is open to juniors and seniors who are thinking of music as a career choice.

CHORAL MUSIC STUDIOS

High School Chorus students are required to purchase a performance uniform for their after school concerts. The uniform consists of a mandatory gown for women priced at \$70.00-\$75.00 and a mandatory tuxedo priced at \$105.00-\$110.00 for men. Students must provide their own shoes and these shoes must be approved by Mrs. Davis and Mr. Grier.

Course Name	Level	Prerequisite	Grade	Course Description
Concert Chorus 52162X0YCC	Beg	Arts Placement Assessment or Entrance Audition	9-12	Concert Chorus is DSA's entry-level vocal music course. This group is open to all high school men and women, regardless of prior singing experience. This class will teach vocal technique, music theory fundamentals, and explore a variety of choral music repertoire. There will be four evening concerts throughout the year in addition to rehearsals and other events after school on select dates.
Men's Ensemble 52172X0YME	Int	Audition with Mrs. Davis and Mr. Grier/Arts Placement Assessment	10-12	Men's Ensemble is open to male students who have successfully completed an audition. This class will continue to build on vocal concepts and music theory, while exploring more complicated and varied repertoire. There will be four evening concerts throughout the year in

				addition to outside of class events.
Treble Ensemble <i>52172X0YTE</i>	Int	Audition with Mrs. Davis and Mr. Grier/Arts Placement Assessment	10-12	Treble Ensemble is open to female students who have successfully completed an audition. This class will continue to build on vocal concepts and music theory, while exploring more complicated and varied repertoire. There will be four evening concerts throughout the year in addition to outside of class events.
Women's Ensemble <i>52185X0YCE</i>	Prof	Audition with Mrs. Davis and Mr. Grier/Arts Placement Assessment	11-12	Women's Ensemble is dedicated to the excellence of superb vocal technique and sophisticated musicianship. Students will gain a detailed understanding of the human voice, choral repertoire, music theory and performance art in its relation to diverse experiences. Students in this course will perform in at least four school chorus concerts a year in addition to appearances at numerous community events and functions. Students receiving Honors credit for Women's Ensemble will complete three tiers of additional study that include a more in-depth exploration of music reading and analysis, the participation in advanced performance opportunities outside of the class period, and engagement in community and state-wide arts performances as a critical and thoughtful audience member.
Chamber Ensemble <i>52195X0YCE</i>	Adv	Audition with Mrs. Davis and Mr. Grier/Arts Placement Assessment	11-12	Chamber Ensemble is dedicated to the excellence of superb vocal technique and sophisticated musicianship. Students will gain a detailed understanding of the human voice, choral repertoire, music theory and performance art in its relation to diverse experiences. Students in this course will perform in at least four school chorus concerts a year in addition to appearances at numerous community events and functions. Students receiving Honors credit for Chamber Ensemble will complete three tiers of additional study that include a more in-depth exploration of music reading and analysis, the participation in advanced performance opportunities outside of the class period, and engagement in community and state-wide arts performances as a critical and thoughtful audience member.
<i>See Band for AP Music Theory Course</i>				

GUITAR STUDIOS

*Students must furnish their own classical (nylon string) guitar. Music Book purchases required
At approximately \$15 to \$20 each. Students are required to practice outside of class.*

Course Name	Level	Prerequisite and Notes	Grade	Course Description
Introduction to Guitar <i>52162X0YIG</i>	Beg	Students are required to purchase textbooks that range from \$12.00 to \$20.00. Students must provide their own guitar. To enroll in this class students must have successfully completed a music class and have the ability to read music.	9	Learn the basic skills of classical guitar playing: basic chords, note reading, melodic playing, accompaniment playing, finger-style technique, care and maintenance of the instrument. Practice outside of class is required.
Guitar Fundamentals <i>52172X0YGF</i>	Int	Must have successfully passed Intro to Guitar. Students are required to purchase textbook that range from \$15.00 to \$20.00. Students must provide their own guitar. See instructor if you have other guitar experience for a recommendation.	9-12	This class is open to students that demonstrate musical ability beyond the intro level. Students will learn the fundamentals of playing guitar as a melodic instrument as well as an accompaniment instrument in an ensemble. Students will mostly work on finger-style technique, but strumming and using a pick will also be introduced.

Guitar Styles 52172X0YGS	Int	Must have successfully passed Guitar Fundamentals. Students are required to purchase textbooks that range from \$15.00 to \$20.00. Students must provide their own guitar. If you have not had Guitar Fundamentals see the instructor for a recommendation.	9-12	Expand your guitar repertory and refine your technique to include reading music in the upper positions, more complex rhythms, major and minor scales, and improvisation.
Guitar Ensemble 52185X0YGE	Adv	Guitar Styles. : Students must provide their own guitar. Teacher recommendation required	9-12	You will develop a personal portfolio of solos and ensemble pieces as you learn about music of different styles and eras.
Advanced Guitar 52185X0YAG	Adv	Teacher Recommendation. Students must provide their own guitar.	9-12	Students will continue to develop and refine personal portfolios of solos and ensemble pieces; students should be committed to performing beyond required school performances.
See Band for AP Music Theory Course				

PIANO STUDIOS

*Piano students study in DSA's electronic piano lab. Concert Attendance: All High School Piano students are required to attend a certain amount of piano recitals and concerts, and write critiques of them if required. **Please note, students will be responsible for purchasing their own individual piano book for \$12 to \$15 and any individual solo piano literature they wish to keep.***

Course Name	Level	Prerequisite	Grade	Course Description
Piano Lab 1 52162X0YPI	Beg	Basic piano skills and ability to read music.	9-12	This course is designed for 9th grade students who have had prior successful musical experience in piano in middle school. The class focuses attention on piano literature, technique and music theory. Focus is placed on more advanced theory: key signatures, circle of fifths, triads and seventh chords and inversions, and ear training. Focus is placed on careful, clean pedaling, developing fluency, articulation, sight-reading, balance between melody and harmony and accurate interpretation of expression marks. Students play scales of three octaves in sixteenth notes at mm 90, and four octave arpeggios. Literature by composers such as Kabalevsky, Bartok, Kuhlau, Clementi and others is studied and performed. Artistic interpretation is stressed. Sight-reading level two materials and forty-five minutes daily of outside practice is expected.
Piano Lab 2 52172X0YP2	Int	Successful completion of Piano Lab 1; recommendation of current music teacher and complete the audition process.	9-12	Students work on various pieces by Beethoven, Mozart, Schumann, Scarlatti, Chopin and other masters. At this level all instruction and repertoire are individualized with the teacher helping them select their pieces. They are expected to perform at a public school recital at least once a year. All performances are memorized. Scales and arpeggios are four octaves each. Sight-reading level two materials and forty-five minutes daily of outside practice

				is expected.
Piano Lab 3 52185X0YP3	Prof	Successful completion of Piano Lab 2; recommendation of current music teacher and complete the audition process.	10-12	Students continue to develop their knowledge of piano literature by learning various sonatas, Chopin preludes, waltzes and mazurkas, works by Beethoven, Mozart, Schumann, Scarlatti and other masters. At this level all instruction and repertoire are individualized, and students have a hand in choosing their pieces. They are expected to perform at a public school recital at least once each semester. All performances are memorized. Scales and arpeggios are four octaves each. Sight-reading level three materials and one hour daily of outside practice is expected.
Piano Lab 4 Honors 52195X0YP4	Prof	Successful completion of Piano Lab 3; recommendation of current music teacher and complete the audition process.	10-12	This course is rigorous and requires advanced technical and interpretive skills. Students must play pieces in key signatures containing numerous flats and sharps, complex rhythms, unusual meters, and subtle dynamics. Repertoire represents different styles, cultures and musical periods. They must also be able to play major and minor scales at 100-140 mm and all major, minor, diminished 7th, dominant 7th and augmented arpeggios. They are expected to perform a minimum of two times a semester, and prepare a paper on one or more composers. Students at honors levels three and four may also accompany other instrumentalists or singers, choral ensembles, play in chamber music ensembles, play in the pit orchestra for one of the yearly musicals or play in one of the jazz bands. Sight-reading level four materials and one and a half hours daily of outside practice is expected.
Piano Lab 5 Honors 52195X0YP5	Adv	Successful completion of Piano Lab 4; recommendation of current music teacher and complete the audition process.	11-12	This course is rigorous and requires advanced technical and interpretive skills. Students continue to play pieces in key signatures containing numerous flats and sharps, complex rhythms, unusual meters, and subtle dynamics. Repertoire represents different styles, cultures and musical periods. Students learn to play in a number of styles including blues, rock, Broadway, Gospel, rag-time and jazz. The skills that are acquired are playing by ear, “comping”, writing dictation, reading a chord chart, reading a lead sheet, sight-reading popular sheet music and improvising in various styles. Students learn 7th, 9th 11th and 13th chords in all keys, chord inversions, blues, jazz and modal scales. Students at honors level four may also accompany other instrumentalists or singers, choral ensembles, play in chamber music ensembles, play in the pit orchestra for one of the yearly musicals or play in one of the jazz bands. These students are also expected to perform a minimum of two times a semester, and prepare a paper on one or more composers. Sight-reading level four materials and one and a half hours daily of outside practice is expected.
Piano Lab 6 Honors 52195X0YIS	Adv	Teacher approval only	12	This course is rigorous, requires advanced technical and interpretive skills and is designed for individual musicians who are very self directed and can complete assignments on their own. Students at this advanced level learn a complete recital repertoire involving pieces of great length and difficulty such as Liszt etudes, Barber and Chopin sonatas and full concertos. Most students at this level enter (and often win) local, state and national competitions. Besides performing a recital, these students perform often at DSA (minimum of twice a semester) and also for outside concert venues. Students at this level may also accompany other instrumentalists or singers, choral ensembles, play in chamber music ensembles, play in the

pit orchestra for one of the yearly musicals or play in one of the jazz bands. Sight-reading level five materials and two hours daily of outside practice is expected.

See Band for AP Music Theory Course

STRING STUDIOS

Students must provide their own instrument. For assistance in acquiring an instrument, please contact the strings director at Boyd.Gibson@dpsnc.net or call 560-3926, ext23435. DSA loans a limited number of instruments on the basis of financial need.

Course Name	Level	Prerequisite	Grade	Course Description
String Fundamentals 52162X0YSF	Beg	None	9-12	Learn the basics of string playing including proper posture, finger patterns, bowing, good sound production, note reading, and rhythm.
String Technique & Repertory 52162X0YST	Beg	Teacher recommendation	9-12	Learn a variety of music literature, study music theory, and develop your skills with bowing, shifting, and vibrato.
String Orchestra 52172X0YSO	Int	Audition and Teacher recommendation	9-12	This ensemble class will work on a variety of music literature from baroque to modern. Students will have extensive performing opportunities.
Honors String Orchestra 52185X0YSO	Adv	Audition and Teacher recommendation	11-12	Students must be enrolled in String Orchestra to participate in Honors String Orchestra III/IV. In addition to the regular class requirements, students may be required to log additional practice time outside of class, complete auditions for local and state level competitions, perform additional solo literature, perform on DSA quarterly recitals, observe and critique professional live performances, and research and report on composers and compositions.
Chamber Orchestra 52425X0YCO	Adv	Audition and Teacher recommendation	9-12	This ensemble class is designed for the string student that has mastered standard technique and has acquired reading and playing skills that enable him or her to practice to a large extent on their own and will come to class prepared to rehearse the music for a highly polished performance.

See Band for AP Music Theory Course

DANCE STUDIOS

*Modern dance is the primary focus of DSA's dance program. Students take daily studio classes that include technique, composition, improvisation, performance, dance history, dance criticism, and functional anatomy. Dance concerts throughout the year give students opportunities to perform both faculty and student choreography. After 6th grade, all students are placed by faculty recommendation to maximize their physical and artistic development. Students are advanced within the program when they have mastered skills outlined in the NC Essential Standards, thereby demonstrating potential to work successfully at the next level. **The goal of DSA Dance is to foster each student's creativity and to provide opportunities for all students to develop advanced technical skills in modern dance. Appropriate dancewear is required daily in all classes. Students will dance in bare feet. Students in all dance classes are required to perform at least once a semester in evening concerts. All black dancewear is required for these performances. Students in Collective and Company will be required to purchase a leotard for approximately \$25.***

Course Name	Level	Prerequisite	Grade	Course Description
Modern Dance Fundamentals 51252X0YDF	Beg	Teacher recommendation	8-10	Students will use appropriate behaviors and etiquette while observing, creating and performing dance. Students will work collaboratively to generate abstracted movement and create short dance sequences. Students will use whole body movements, strength, flexibility, endurance and proper alignment to execute technical skills. Students will explain elements of movement and choreographic structures and identify how other arts disciplines are integrated into dance creation and performance.
Advanced Modern Dance Fundamentals 51252X0YAD	Beg-Int	Teacher recommendation	8-12	Students will use appropriate behaviors and etiquette in class and begin to integrate the use of clarity, concentration, focus and projection into their daily practice. Students will work collaboratively and individually to create dances that use simple choreographic forms and musical forms for organizational structure. Students will execute technical skills with a greater attention to the elements of time, space, weight and flow. Students will explain the elements of dance and choreographic forms in a variety of significant dances. Students will use dance to explore

				concepts in other disciplines.
Modern Dance Ensemble 51262X0YDE	Int	Teacher recommendation	9-12	Students will consistently use appropriate behaviors and etiquette as dancers, performers, choreographers and observers. Students will use performance values of clarity, concentration, focus and projection while dancing. Students will create dances that use a variety of forms and generate aesthetic criteria for evaluating dance. Students will use anatomical concepts to improve their technical skills and compare movement qualities. Students will explain choreographers' visions and intent in the creative process.
Dance Collective 51262X0YD	Int/Proficient	Teacher recommendation	9-12	Students will consistently use and distinguish appropriate behaviors and etiquette for self and others in a variety of dance roles. Students will use and monitor performance values of clarity, concentration focus and projection while dancing. Students will create dances that use a variety of forms and generate aesthetic criteria for evaluating dance. Students will understand how body organization and articulation of movement supports the development of dance technique. Students will explain choreographers' visions and intent in the creative process.
Honors Dance Collective 51275X0YDC	Proficient -Honors credit	Application, Teacher recommendation	9-12	Students will distinguish appropriate behaviors and etiquette for self and others in a variety of dance roles. Students will use a defined creative process to plan, create, revise and present dance. Students will monitor the use of performance values while dancing alone and with others. Students will understand how body organization and articulation of movement supports the development of dance technique. Students will analyze how major movement ideas, elements and structures are developed to create meaning. Students will understand the role of dance in history and interpret a variety of dances.
Honors Dance Company 51285YDC	Adv -Honors credit	Audition, Application, Teacher recommendation	10-12	Students will monitor appropriate behaviors and etiquette at all times to maintain a productive and supportive environment. Students will create dances using appropriate movement choices and structures to fulfill choreographic intent and meet aesthetic criteria. Students will generate innovative solutions to movement problems in their own choreography and the choreography of others. Students will use dynamic alignment, articulation and aesthetic criteria to refine technical skills. Students will critique dance in terms of multiple aesthetic and cultural criteria. Students will differentiate the dance styles of significant 20 th and 21 st century choreographers. Students will identify skills and qualities leading to success in the dance field and use these skills to develop a personal portfolio.
Issues in Contemporary Dance 51252X0YCD	Adv	Student proposal, Teacher recommendation	12	Students will work independently on identified areas of interest in dance history and theory, cultural perspectives, technology for dance, and/or compositional tools. This class is designed to be both movement and research based. Students will build digital portfolios that may include choreography, dance for the camera, original sound scores and site-specific projects, to name a few.

THEATRE STUDIOS

Students pursuing a theatre pathway are expected to be involved in school productions, both as audience members and as behind/ in front of the scenes participants.

Course Name	Level	Prerequisite	Grade	Course Description
Theatre Fundamentals 53612X0YTF	Beg	Audition Placement/Arts Assessment. There is a \$15.00 materials fee for this course.	9-10	(Theater Pathway Starter Course) An exploratory class in performance and technical theatre for students who are beginning a theatre concentration or interested in all aspects of theatre arts. Students will read plays and perform as well as explore working behind-the-scenes, such as set design and consuming required to bring a play from the page to the stage.
Theatre Ensemble 53612X0YTE	Beg	Audition Placement/Arts Assessment. Students MUST have taken Middle School Studio Theater.	9-12	This beginning high school class is designed for students who are pursuing a concentration in theatre performance. Through closer examination of how actors prepare and perform, students will develop further skills in voice and diction, character development, script analysis, and independent play reading.
Acting in Comedies	Int	Theatre Ensemble / Teacher Recommendation	10-12	In this intermediate acting class, students learn acting skills focused on quick thinking, timing, and teamwork. They study and perform on a

53622X0YAC				variety of plays and scripts from stage and screen. Students are expected to participate in main stage auditions and produce class shows of improvised, scripted, and new work. Students will maintain a portfolio of their work and related activities.
Theatre Studio I 53622X0YTS	Int	Theatre Ensemble / Teacher Recommendation	10-12	In this course, students explore their continued development as actors, directors, and playwrights. Students who enroll in the class demonstrate commitment and excellence to the DSA theatre program and seek to grow as an artist and as a person. Topics include monologue and scene performance, specialty workshops, college information and auditions. Students are expected to collaborate with their classmates in ambitious, student-selected performances and participate in mainstage auditions and class performances at DSA. Students will maintain a portfolio of their work and related activities.
Theatre Studio Honors I 53645X0YTS	Prof	Acting in Comedies or High School Theatre Studio I or II; Audition	11-12	This audition-only course is designed with the most dedicated of theatre artists in mind. Students who wish to pursue professional study in acting, directing, and playwriting as well as those seeking the utmost challenge as performers and individuals are challenged to take a leadership role within High School Theatre Studio. Students are expected to participate in main stage auditions and to develop a professional quality audition repertoire. Students will maintain a portfolio of their work and related activities.
Theatre Studio II 53622X0YS2	Prof	Theatre Ensemble; Teacher recommendation	11-12	Students explore their continued development as actors, directors, and playwrights. Students who enroll in the class demonstrate commitment and excellence to the DSA theatre program and seek to grow as an artist and as a person. Topics include monologue and scene performance, specialty workshops, college information and auditions. Students are expected to collaborate with their classmates in ambitious, student-selected performances and participate in main stage auditions and class performances at DSA. Students will maintain a portfolio of their work and related activities.
Theatre Studio Honors II 53635X0YS2	Adv	Acting in Comedies or High School Theatre Studio I or II; Audition	11-12	This audition-only course is designed with the most dedicated of theatre artists in mind. Students who wish to pursue professional study in acting, directing, and playwriting as well as those seeking the utmost challenge as performers and individuals are challenged to take a leadership role within High School Theatre Studio. Students are expected to participate in main stage auditions and to develop a professional quality audition repertoire. Students will maintain a portfolio of their work and related activities.

TECHNICAL THEATRE STUDIOS design and build sets, create a lighting plot, and operate lighting and sound equipment

Course Name	Level	Prerequisite	Grade	Course Description
Theatre Fundamentals 53612X0YTF	Beg	Audition Placement/Arts Assessment. There is a \$15.00 materials fee for this course.	9-10	(Theater Pathway Starter Course) An exploratory class in performance and technical theatre for students who are beginning a theatre concentration or interested in all aspects of theatre arts. Students will read plays and perform as well as explore working behind-the-scenes, such as set design and consuming required to bring a play from the page to the stage.
Introduction to Technical Theatre I 53612X0YIT	Beg	Theatre Fundamentals / Safety, dress code, out of class crew requirements. Students will be required to provide work gloves, safety glasses, and a 25' measuring tape.	9-12	Introduces theatre students to the production of theatre: stage safety, stages and rigging, lighting, costume, sound, makeup, publicity, productions staff, and crews. The work is a lab learning experience and all of the work is hands-on. Students apply practical knowledge by participating as a design assistant and/or crew member for mainstage and class performances at DSA.
Introduction to Technical Theatre II 53622X0YTT	Int	Intro to Technical Theatre I / Safety, dress code, out of class crew requirements. Students will be required to provide work gloves, safety glasses, and a 25' measuring tape.	10-12	Introduces theatre students to the production of theatre: stage safety, stages and rigging, lighting, costume, sound, makeup, publicity, productions staff, and crews. The work is a lab learning experience and all of the work is hands-on. Students apply practical knowledge by participating as a design assistant and/or crew member for main stage and class performances at DSA.

Theatrical Design & Production I 53635X0YTD	Prof	Intro to Technical Theatre I / Safety, dress code, out of class crew requirements. Students will be required to provide work gloves, safety glasses, and a 25' measuring tape.	10-12	An advanced course for those theatre students who wish to continue study of production and take on the added responsibility of serving as designers and crew chiefs for main stage and class performances at DSA. CAREER AND TECHNICAL EDUCATION COMMERCIAL AND ARTISTIC PATHWAYS

**Students work with 21st century equipment and software in well-equipped labs and do not require the use of computers or Internet access outside of school though it is very helpful if they have access to the Internet.*

Special Note: All students in a Commercial and Artistic Technologies Concentration, must have 4 eligible CTE credits including a completer. Students who are NOT in the Commercial and Artistic Technologies Concentration, may choose to take any course, or sequence of courses as electives but must meet the course pre-requirements.

Career Course Name	Level	Prerequisite	Grade	Course Description
Multimedia & Webpage Design BW102X0Y	Beg	Audition required for concentration	9-12	This course focuses on desktop publishing, graphic image design, computer animation, multimedia production, and webpage design. Communication skills and critical thinking are reinforced through software applications and work-based learning strategies.
Digital Media IA312X0Y	Int	Multimedia & Webpage Design OR Scientific Visualization (GAD concentrators only)	10-12	This course provides a broad based foundation in the development of multimedia productions. An emphasis is placed on fundamental concepts of audio and video design, non-linear editing, and product development and design. Students become familiar with Adobe Master Collection Suite including Photoshop, Illustrator, Soundbooth, Premiere, Flash and Dreamweaver.
Advanced Digital Media IA322X0Y	Int	Digital Media	11-12	This course provides students with more advanced knowledge in the interactive media industry. Emphasis is placed on advanced graphics, animation, audio and video editing techniques including both linear and non-linear methods. Students will create an electronic, web-based portfolio of their work as a culminating project.
Scientific Visualization I TS212X0Y	Beg	Audition required for concentration.	9 -12	Students learn the basics of digital graphics and animation tools. They examine and utilize a variety of techniques as they focus on 2D and 3D visualizations within and outside the game industry. Students will utilize industry standard applications to learn graphics techniques.
Game Art and Design TS312X0Y	Int	Scientific and Technical Visualization I Students are expected to purchase reading book.	10-12	Students are introduced to techniques used in the game industry. Focus will be on principles used for developing good game design including mathematical and physical concepts as related to the game environment. Emphasis is placed on areas relating to art, history, ethics, plot development, storyboarding, 2D visual theory and interactive play technologies. Students will develop physical and digital games using hands-on experiences and a variety of software.
Advanced Game Design	Prof	Game Art and Design	11-12	This course is a continuation in the study of game design and interactivity. Emphasis is placed on visual design, evaluating,

<i>TS322X0YG2</i>		Students are required to purchase a book		scripting and networking protocols including legal issues and 3D visual theory. Advanced topics include the use of audio and visual effects, rendering, modeling and animation techniques. Students will compile a game portfolio of work completed throughout the year.
CTE Advanced Study <i>CS952X0Y</i>	Adv	Completion of 3 CTE concentration classes & teacher approval	12	Students select and pursue a topic of interest using knowledge and skills gained from previous technical and academic courses. Emphasis is placed on having the students select, direct, and evaluate their own study while using complex technological tools.
CTE Internship <i>CS975X0Y</i>	Adv	Completion of 3 CTE concentration classes & CDC approval	12	An internship is a student work-based experience within their chosen CTE concentration area. Internships allow students to observe and participate in daily operations, develop direct contact with job personnel, ask questions about particular careers, and perform certain job tasks. Students must make arrangements with the organization they intend to intern and meet with the Career Development Coordinator during their junior year.

WRITING

Course Name	Level	Prerequisite	Grade	Course Description
Writing through Literature I <i>10272X0YWL</i>	1-Beg 2-Int 3-Adv	This is starter course for the Writing Pathway. Application approval by Ms. Van Dis. Non-pathway students must have at least an 80 average in previous year's English/Language Arts class.	9-12	Explore great literature and find your own literary voice! In this class, students will develop skills in reading, writing, and commenting on works in a variety of genres: memoir, short story, poetry, and creative non-fiction. Revision is a major component of the writing process; students must be willing to revise their work.
Writing through Literature II <i>10272X0YW2</i>	Adv	Application approval by Ms Van Dis AND successful completion of WTL I.	10-12	Develop your literary voice and find your own literary canon. Students will read increasingly complex texts and will build on an already existing body of work, focusing on craft and technique. Student work will be evaluated in weekly workshops; all students must be willing to share and revise their work. An ability to work independently and a willingness to submit work to writing contests is also required.
Writing through Literature II Honors <i>10275X0YW2</i>	Adv	Application approval by Ms Van Dis AND successful completion of WTL I.	10-12	Develop your literary voice and find your own literary canon. Students will read increasingly complex texts and will build on an already existing body of work, focusing on craft and technique. Student work will be evaluated in weekly workshops; all students must be willing to share and revise their work. An ability to work independently and a willingness to submit work to writing contests is also required. Students in this course must complete a summer assignment.
