My Journey With Numerology

Why Numerology?

I remember always being fascinated by numerology from a young age. As the years went by, every time I saw an article in a magazine (or in later years) a blog post, I would make a beeline for it. I knew I was a '1' but didn't appreciate the magnitude of the impact that this had, and continues to have, on my life.

On the 8th March 2017 (International Women's Day), I attended an event and Richard Abbot of The Hermitage Development Centre, was the guest speaker. He spoke for a few hours 'top line' about numerology, its impact on the world, on Brexit, on Trump taking residency in the White House and the subsequent fall outs – all which related to numerology. He said to forget International Women's Day as it's International Women's Millennium! as we are now in '2000's'. Over the years I have done a lot of 'work' on me and studied different modalities, some resonating more than others. Every single word that Richard said that evening created light bulb moments for me. Fast forward a couple of years I have since read his books, attended his course at the London College of Physic Studies and embarked on a 1-2-1 mentorship programme with him.

With any such modality like this, there is the tendency to go 'down a rabbit hole'. We don't want to do this! We want to keep everything 'top line'.

With numerology, the main 3 things we look at are:

1. Your Life path number – taken from the date you were born – as you cannot change this!
2. The personal year you are in
3. The letter of your first name

Why do I connect with it so much and how has it helped me in my life and business?

I am working with the energy of the number 1. In full, I am a 19 10 1. I have lived in 23 houses across 14 countries and had 13 relationships – I am 45. Society says – this is not OK. Society says – this is flaky. Society does not support this. So consequently, I have always felt my life was a little disjointed related to other people's life experience. However, 19 10 1 does understand this.

As society says live, in a semi-detached two up, two down with 2.4 children. No judgement but this is not for me! – 19 10 1 says independence – be solo, be a lone ranger. Society says work for the man – 19 10 1 says work for yourself – be self-employed!

Society says family is important and it is everything. 19 10 1 says embrace family your way (if at all). Society says you need a loving relationship to feel complete. 19 10 1 says you can have a loving relationship if you want one, however you do not need one (some of the other numbers do need more connection with others) – again, no judgement – just the way it is.

If we equate this to the Tarot –

- * **19** says – **I am the sun.** The heat, the lightworker, the healer. The holistic piece.
- * **10** says – **I am the wheel of fortune.** Stopping and starting, new beginnings, starting over.
- * **1** says – **I am the magician,** My comfort zone is huge, I can do this and this and this AND the magic happens outside the comfort zone.

Hence my light bulb moments.

Understanding and connecting to my 19 10 1-ness (which is a journey) and has been pivotal to my connection with numerology – really appreciating that my 'LIFE PATH' number is just that! Very much part of my life, my life story and life experience.

What Is Numerology?

- Numbers are energy – Nothing exists in physicality without numbers.
- Number are cosmic, deep, inherent and fundamental of form.
- Maths deals with quantity – numbers are everywhere. Numerology deals with
- quality – numbers are everything.

Numerology is about sensing the energy of the numbers – part information and part intuition. When we know the number, we can connect with the main issue and feel our way out from here, sensing where people are on the spectrum of the number.

- Numerology is a method by which we recognise our divinity and connection.
- Numerology helps us on a practical basis in daily situations.
- Numerology is a route to self-knowledge and self-understanding.

What Is Numerology Not?

- Numerology is not about accumulating lots of info about a number. We tune into the broad energy of a number and the rest of the information will follow.
- Numerology is not a method of defining people in a fixed or limited way or solely a way of predicting the future.
- Numerology does not work well by automated computer readings – e.g.: an online numerology report – as there is an intuitive element to it.

My focus with numerology is how it can help you in your business, over the next few pages you are going to learn how to calculate your life path number, and how this assists you in your life and business.

How To Calculate Your Life Path Number

'Your life path number relates to how you operate in your life and business'

Your life path number is THE single most important number in numerology. It is found in your birth date. It is the path to follow that accords with your essential nature. It is your initiation into what you came to do and become – **Your Destiny!**

To calculate your life path, we take your date of birth, I have used my date of birth, **04/04/1973** as an example.

Birth day e.g.:	04
Birth month e.g.:	04
Birth year e.g.:	1973
Total =	1981

The numbers in this number are then added individually

So =	$1+9+8+1 = 19$
	$1+9 = 10$
	$1+0 = 1$

So, my life path number is 1 – I am working with the energy of the number 1.

Please take care when calculating your number. When you get to 11 or 22 do not reduce these to 2 or 4 as 11 and 22 are master numbers. Therefore, we use the calculation as above and not just adding in a row.

When boundaries are not established, 9's can get into problems.

The vibration of the 9 is to be loving and caring, giving and loving, however if they are disappointed in their life, they can in turn become selfish and tough. This is not a good look for a 9 so life can get worse, as the last thing 9 should do is to give up on people.

How can Numerology help YOU in your business and assist with attracting clients and growing your business?

Since I have embarked on my journey with numerology I 'get' myself. I understand why what society says is different to what I am experiencing. It has literally given me permission to be myself because everyone else is taken!

I have a lot of '1' energy in my chart. My life path number is a 1, the first initial of my first name is a 1, there is a lot of frequency of 1 in my name and I am in a personal year 1. That is a lot of 1! And that is a lot of Fire.

What happens to fire if it is not built on strong foundations? It burns out. I do have a habit of doing this, so the emphasis when we have this understanding needs to be related to balance.

I help heart-centred entrepreneurs attract clients and grow their business through relationship marketing as people do business with you if they like, know and trust you. However, numerology helps you like, know and trust yourself! AND Numerology helps you like, know and trust other people.

Numerology has helped me so much understand my path, so I am offering '**Your Brilliance in Numbers Sessions**' showing you how understanding your life path number, the meaning and expression of your name and which personal year you are in – can help empower you to do the right thing at the right time in your business journey.

Janey Lee Grace reviews her Numerology session....

"The most profound bit of the session with Jo was her explanation of which personal year I am in currently, we work in 9 year cycles and I am in a '9' year, and that is essentially a 'completion' year, where it's good to consolidate, declutter and make room for the new energy of the '1' year which will be coming after my next birthday.

Suddenly I felt a weight lift off my shoulders as I have had a couple of business projects that I have been trying to get off the ground that have just not happened, I thought I was definitely in line for a big contract and I got a big fat 'NO'. I had been feeling very rejected and a bit disillusioned, but suddenly Jo's revelation that I am in a year where it's not a good idea to start a new business or kick into a brand new, big project, I now feel perhaps it was meant to be. That knowledge has shifted my thinking and I'm now able to focus on getting rid of what I no longer need, to release in preparation for next year when hopefully my projects will fly.

It's well worth a session with Jo, numerology gives a fantastic insight, suddenly you 'get' who you are, and why things are happening, (or not) and rather than trying to work against it, you can work with your own personal 'essence' and make your plans accordingly."
