1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 19.2.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide

Promotions

This section of the dashboard displays promotional messages of any bank offerings applicable to the user. (Note: Promotions data needs to be supplied to the OBDX)

[Home](#)

5. Start Investing

This module allows the user to start investments using their CASA balances.

This module includes following transactions:

- Open Investments Account
- Risk Profiling

5.1 Open Investments Account

Investment Accounts are the placeholders for mutual fund investments of a bank customer. They are internal to the bank and unlike current & savings accounts have no real significance outside the bank. Opening of the investment account is a mandatory for user to start transacting in mutual funds in OBDX. Currently OBDX supports opening of investment accounts in "Single" holding mode only.

The investment account involves transaction of financial assets, mutual funds etc.

Following are the steps involved as part of opening of investment account:

- Personal details of the user
- Contact details of the user
- Specifying the nominations for mutual fund investments made through the investment account.
- Specifying the Foreign Account Tax Compliance Act (FATCA) related details
- Additional Details

Note: The maximum number of investment accounts a user can open is configurable. If user tries to open investment account beyond the maximum allowed limit he will get a message "You already have the maximum number of investment account allowed. Please visit our branch or talk to your relationship manager for further queries." on the Open Investment Account screen.

Pre-Requisites

- Transaction access is provided to the Retail User.

How to reach here:

Dashboard > Toggle Menu > Wealth Management > Start Investing > Open Investments Account

Open Investments Account

The screenshot displays the 'Open Investment Accounts' page on the Futura Bank website. At the top, there is a navigation bar with 'ATM/Branch' and 'English' options. The main header includes the Futura Bank logo and a user greeting: 'Welcome, KESHAV KULKARNI' with a last login time of '16 Jan 05:03 PM'. The page title is 'Open Investment Accounts'. The central content area features an illustration of a person interacting with a computer screen displaying financial data. Below the illustration, a message states: 'You already have maximum number of investment accounts allowed - 3. Please visit our branch or talk to your Relationship Manager for further queries.' A prominent red button labeled 'Open an investment account' is positioned below this message. To the right, a 'Start Investing...' section contains text explaining that investing is a wise decision and that the bank's wealth management offering includes mutual funds that can be bought or sold online. At the bottom left, there is a 'Back to Dashboard' link, and at the bottom center, a copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

To open an investment account:

1. In the **Open Investments Account** screen, click **Open an investment account**. The **Open Investments Account - Personal Details** screen appears.

Personal Details

In this section, the basic personal details that includes full name, date of birth, gender, Tax ID etc. Name, Date of Birth details are fetched from bank host and pre-populated, while remaining information is to be entered by the user.

5.2 Risk Profiling

Banks/ investment advisers have a practice of doing a “Risk Profile” of the prospective investor. A risk profile is an evaluation of an investor's attitude and ability to take risks. Risk profiling involves the assessment of investor psychological level with the volatility of capital markets. A risk profile is important to determine which asset should be allocated to an investor's portfolio.

A risk profiling involves the series of questionnaire and based on the answers assign a risk profile to the investor. The tolerance to risk is reflected in the “Asset Allocation” that the bank recommends to the investor. Aggressive investors who have high tolerance to equity usually have a high percentage of Equity in their allocation, conservative investors tend to have more of debt. The MF portfolio that the investor invests has to match his/ her asset allocation, which is based on risk profile.

Note: The risk profile questionnaire, recommended asset allocation will be fetched from mutual fund processor. OBDX will display the questionnaire, capture the answers and pass them on to the mutual fund processor. Further, the computation of risk profile based on user provided answers will happen at mutual fund processors and will be communicated to OBDX which will display it to the user.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Risk Profile Assessment
- Edit Risk Profile

How to reach here:

6. Place Orders

This module allows the investor/ retail user to place orders related to their investments. Investor can purchase mutual funds, redeem mutual funds, switch between two different schemes and can view the statuses of their orders.

This module includes following transactions:

- Purchase Mutual funds
- Redeem Mutual funds
- Switch Mutual funds
- Order Status

6.1 Purchase Mutual Funds

Mutual Funds (MFs) are investment instruments fund collects money from investors and invests the money on their behalf. It is one of the top investment choices for retail investors that allows the investors to view and manage the professionally managed portfolios of instruments like equity shares, bonds, insurance etc. Some mutual funds are also traded in stock exchanges - these are called Exchange Traded Funds (ETFs). Mutual Funds are managed by a fund manager. The investor share of investment is called as "Units" that represents the ownership of the investor in the scheme.

The investor make the purchase of Mutual fund units, or shares, based on the fund's current market value of the fund's investment portfolio which is termed as net asset value (NAV) per share/ NAVPS. A fund's NAV is derived by dividing the total value of the securities in the portfolio by the total amount of shares outstanding.

The investor (retail user) can purchase single or multiple mutual funds in one go and can place orders to be executed same day or at any future date. Further customer can place one time lump sum order or a recurring order called Systematic Investment. The investor can buy mutual funds from their existing schemes as well as invest on new schemes. The OBDX allows the user (investor) to view the list of recommended funds and top purchase funds so that he can take a decision of buying the funds.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Purchase Funds - New
- Purchase Funds - Existing

How to reach here:

Dashboard >Toggle Menu > Wealth Management > Place Orders > Purchase Mutual Funds

6.1.1 Purchase Funds - New

This option allows the retail investor/ user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type for buying one or more mutual fund schemes. In SIP the dates of investment and frequencies are pre-decided by the fund house therefore an SIP is a one-time instruction to the fund house to place recurring orders. SI on the other hand is a feature provided by the bank to mimic the SIP but with dates & frequency chosen by the investor. Here the order is not a one-time instruction/order but multiple orders placed one time by investor.

To purchase the new mutual funds:

1. Navigate to the **Purchase Mutual Funds** option. The **Select Fund** screen appears.
2. In the **Search for new mutual fund to purchase or pick one of your existing funds** field, select the **New** option.

Purchase Mutual Funds - Select Fund

The screenshot displays the 'Select Fund' screen in the Futura Bank app. The interface includes a search bar, a progress indicator with steps 1 and 2, and a form for selecting a fund. The 'New' option is selected under 'Purchase Type'. Below the form, there is a list of recommended funds with their details and return percentages.

 9. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
OR
Click the **Back to Wealth Overview** link to navigate to the **Wealth Management Overview** screen.
 10. The **Verification** screen appears if the transaction is configured for Two Factor Authentication. The user has to pass the 2factor authentication, before he can proceed. 2 factor authentication (OTP/ Security question/ Soft Token) will be as per the setup done by system administrator.
 11. The success message along with the host reference number and status of the order appears.
Click **Go to Dashboard**, to navigate to the dashboard.
OR
Click the **Redeem Fund** link, if you want to redeem another fund.
OR
Click the **Back to Wealth Overview** link to navigate to the **Wealth Management Overview** screen.
OR
Click the **Switch** link, to access the Switch Mutual Funds screen.

6.3 Switch Mutual Funds

Switching of funds means moving the money from an investment scheme to another investment scheme. Investor can switch between two different schemes i.e. money is taken out of fund A (a sell order) and invested in fund B (a purchase order). This way a switch, order results in two transactions a purchase & a sale. Fund A & Fund B in the above example could be from the same fund house or from different fund houses.

Switch Mutual Funds screen allows the user to switch out the funds either at one time, systematic order plan or Purchase + systematic order plan methods.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Switch Funds - One Time
- Switch Funds - STP
- Switch Funds - PSTP

How to reach here:

Dashboard > Toggle Menu > Wealth Management > Switch Mutual Funds > Switch Out

6.3.1 Switch Funds - One Time

This option allows the retail investor/ user to place the one time lump sum switch order. The user can specify whether the order is for Now i.e. same business day or for later that is a future date. The user can also select the option to switch by Units/ All Units or Amount and can specify the units or amount to be switch in.

To switch the mutual funds:

Click the **Purchase Fund** link, if you want to purchase the fund.
OR
Click the **Switch Another Fund** link, if you want to switch another fund.
OR
Click the **Redeem Fund** link, if you want to redeem another fund.
OR
Click the **Wealth Dashboard** link to navigate to the **Wealth Management Dashboard** screen.

6.3.2 Switch Funds - STP (Systematic Transfer Plan)

This option allows the retail investor/ user to place a systematic transfer plan (STP) for the switch order. In Systematic Transfer Plan, investor places a onetime instruction to switch funds - a specified some of money is switched from source scheme to destination scheme at a set interval. Typically in financial plans money in debt funds is switched into an equity fund regularly to mimic an SIP.

In STP the user needs to specify the source and destination schemes belonging to the same fund house, source and destination folios (can ask for a new folio for destination scheme), start date of switches, no. of installments & frequency, end date of switches to be derived by the system and displayed and Amount/ units to be switched per installment.

To switch the mutual funds:

12. From the **Installments** list, select the STP installments.
13. Repeat steps 9 to 13 of **Switch Out Funds - One Time** section

6.3.3 Switch Funds – PSTP (Purchase – Systematic Transfer Plan)

This option allows the retail investor/ user to place a purchase - systematic transfer plan for the switch order. In Purchase- Systematic Transfer Plan or PSTP, investor purchases a debt (usually) fund and also gives instructions switch the debt fund purchased into an equity fund. PSTPs are variations offered by banks/ investment advisers and hence fund houses treat them as two different orders – Purchase order and a switch order

In PSTP the user can place a purchase order for a fund and simultaneously place a switch order with the fund being purchased as the source fund and a different fund being the destination fund.

To switch the mutual funds:

Switch Funds - PSTP

The screenshot shows the 'Switch Out' form in the Futura Bank interface. The form is titled 'Switch Out' and has two tabs: 'Fund Details' (active) and 'Order Details'. The 'Fund Details' section includes the following information:

- Investment Account:** Bruce Wayne-xxxxxxxxxxxx0023-SINGLE
- Risk Profile:** Moderate
- Switch Type:** Onetime, STP, **PSTP** (selected)
- Initial Purchase Scheme:** New (selected), Existing
- Fund House:** HDFC Mutual Fund CC1
- Fund Category:** Equity
- Scheme Name:** HDFC Growth Fund Growth
- Current Unit Price:** -₹50.00
- Scheme Suitability:** No
- Folio:** 267366619
- Pay From:** xxxxxxxxxxxx9662
- Balance:** \$57,384.73
- Amount:** \$1,000.00
- Min. Amount:** \$500.00
- Cut Off Period:** Time : 3:37 PM, Date : 27 Jul 2018

At the bottom of the form, there are two buttons: 'Purchase' (in red) and 'Cancel' (in grey). Below the form, there is a link 'Back to Wealth Overview' and a copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. 6.4 Order Status

Order status screen allows a retail user to search and view mutual funds orders in various statuses. The user can view the pending execution order across investment accounts and also can edit and delete the mutual fund orders that are not yet executed.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Mutual Funds orders
- Delete Mutual Funds orders

How to reach here:

Dashboard > Toggle Menu > Wealth Management > Place Orders > Redeem Mutual Funds

6.4.1 Orders Status - Search

Using this option, a retail user can search and view details of the mutual fund orders. Default search is available with Investment account and From Date and To Date, whereas user can be searched by provided other details also.

Orders Status

The screenshot shows the 'Order Status' search interface on the Futura Bank website. The page header includes 'My Dashboard', 'ATM/Branch', and 'English' dropdown menus. The main content area is titled 'Order Status' and contains a search form with the following fields:

- Investment Account:** A dropdown menu with the value 'xxxxxxxxxx0023'.
- Scheme Name:** A dropdown menu with the value 'Select'.
- Reference Number:** A text input field.
- Fund House:** A dropdown menu with the value 'Select'.
- Order Type:** A dropdown menu with the value 'Select'.
- From Date:** A date picker showing '30 Oct 2018'.
- To Date:** A date picker showing '30 Oct 2018'.

At the bottom of the search form, there are three buttons: 'Search' (red), 'Cancel' (dark grey), and 'Clear' (light blue). Below the search form, there is a link 'Back to Wealth Overview'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

8. Reports

Using this option, retail users can generate various investment related reports. Application provides an option to provide the search parameters and download the reports.

Reports module includes following reports:

- Capital Gains Report
- Dividend History report
- Transaction Report

8.1 Capital Gains Report

The profits or losses that an investor gets when he/she sells Mutual Fund units are called “Capital Gains/ Losses”. There are two types of capital gains – short term & long term. For example, In India gains /losses any equity investment sold within 12 months of purchase are treated as short-term gains/ losses. If the gap between purchase and sale is more than 12 months it's called Long term capital gains/ losses. Short term gains tax rates tend to be higher compared to long-term capital gains taxes.

The retail user/ investor holding the mutual funds can download the Capital Gain report for the mutual funds that the user had transacted in for the current and past financial years.

The user can search the transactions and download the report.

Pre-Requisites

- Transaction access is provided to the Retail User.

Features Supported In Application

The module supports the following features:

- Search Transactions and Download the report

How to reach here:

Dashboard > Toggle Menu > Wealth Management > Reports > Capital Gains Report

Capital Gains Report

The screenshot shows the 'Capital Gain Reports' search interface in the Futura Bank portal. At the top right, there are links for 'ATM/Branch' and 'English'. The user is logged in as 'KESHAV KULKARNI' with the last login on '16 Jan 05:05 PM'. The search form contains the following fields:

- Investment Account:** Bruce Wayne-xxxxxxxxxx0023-SINGLE
- Financial Year:** 2017-2018
