P.O. Box 82 • Windsor, CO 80550

Auction Terms and Conditions

METHOD OF PAYMENT: Terms of sale are cash, cashier's check or bank money order. Personal checks will be accepted only if accompanied by bank Letter of Credit or with prior approval of the sale management. Bidders using Bradeen Auction's online services must make payment arrangements prior to the auction and must register for bidding prior to the auction. Please go to BradeenAuction.hibid.com for details and instructions. Payment must be made in full on auction day.

HEALTH: Interstate health papers will be furnished for each animal. All heifers are Official Calfhood Vaccinates (OCV) and all bulls and heifers have been TB and Brucellosis tested and given injectable wormer. All heifers are certified open and all bulls have a good semen test.

ANNOUNCEMENTS: Announcements made on sale day will take precedence over any printed material in the catalog or any prior advertisements.

GUARANTEE: All animals are guaranteed as represented by owners. The DTBA, Auctioneer and Sale Management act only as agents. Any guarantees are strictly between the consignor and the buyer.

LIABILITIES: DTBA acts only as agent and will assume NO RESPONSIBILITY in the event of injury or death to an animal or of a discrepancy between the buyer and the consignor. The consignor bears all risk of injury or loss for each buffalo until the Auctioneer announces it is sold. Thereafter the buffalo is the property of the buyer and the buyer thereafter bears all risk of injury or loss.

SALE ORDER: Young Guns bulls will sell first in catalog order, followed by the Girlz Going Wild heifers, in catalog order. Order shown in catalog is the order of placing in the class.

LOAD OUT: A paid in full receipt will be required for load out. All animals must be removed from the holding site by 12 noon on Monday, February 4. If animals are not removed by the deadline, a \$100 per head per day fee may be imposed until animals are removed. Online bidders need to make payment and transportation arrangements prior to bidding!! Please be aware that health certificates for many of the animals will expire within a few days of the sale date. Should any further testing be necessary to move your animals, the owner will be solely responsible for costs and arrangements.

Every precaution will be taken for the welfare of the buffalo sold. All persons who attend the sale do so at their risk. The DTBA, Auctioneer and the Show and Sale Committee and workers assume NO RESPONSIBILITY for accidents or losses that may occur.

ONLINE BIDDING IS AVAILABLE FOR THIS AUCTION. VISIT WWW.BRADEENAUCION.HIBID.COM

**ALL LOTS ARE LISTED WITH PHOTOS, VIDEO AND DATA. VIEW LOTS AND REGISTER TO BID.
PLEASE REGISTER EARLY TO ENSURE YOU ARE PREPARED TO BID ON AUCTION DAY!**

-
- ~ Thanks to our host ranch and consignors for continuing to support these classes
 - ~ Thank you to our Girlz Going Wild and Young Guns judges, Brodie Limpert and Cody Kloeckl
 - ~ A big thank you to Kevin Leier for the photographs and video of the auction animals
as well as all the social media content about the classes
 - ~ Thank you to Karen Conley for the catalog and auction photographs of the animals
 - ~ Thank you to Todd Goetz for advertising and catalog cover design

REDMOND BISON PRODUCTS

TRACE MINERAL SEA SALT

Redmond Bison 90

Redmond Bison 90 is a sweetened premium mineral salt with over 60 naturally occurring trace minerals. Bison 90 is also fortified with added selenium (90ppm), copper, manganese, cobalt, iodine and zinc. This mineral salt is free of chemical processing and highly palatable.

GUARANTEED ANALYSIS

	MAX	MIN		MIN
Calcium	0.85%	0.35%	Copper	300 ppm
Phosphorous		0.002%	Iodine	110 ppm
Salt	93.0%	88.0%	Selenium	90 ppm
Magnesium		0.06%	Cobalt	50 ppm
Potassium		0.03%		
Sulfur		0.07%		
Zinc		3500 ppm		
Manganese		2000 ppm		
Iron		600 ppm		

Redmond Bison 418

Redmond Bison 418 is also made from our premium mineral salt and is fortified with lower amounts selenium (30ppm). Bison 418 also has an added mineral package: copper, manganese, cobalt, iodine and zinc.

GUARANTEED ANALYSIS

BISON

— LOVE —

REDMOND MINERALS

At Redmond Agriculture, we understand that when your animals feel good, you feel good. That's why we offer Bison 90 and Bison 418; two premium products that can help you get back to what you love about raising animals instead of worrying about their health.

Refined vs Unrefined

Most agriculture salts are refined—the minerals naturally found in the salt were leached out or removed, leaving more than 98% sodium chloride.

7% Matters

Redmond's salt is unrefined. It's gathered from an ancient sea salt deposit and packaged with all 60+ minerals intact. Our ratio is 93% sodium chloride and 7% trace minerals.

Improves Vitality

Redmond's salt minerals and salinity levels are nearly identical to the proportions you'd find in the blood of healthy livestock. It's mother nature's formula for ideal animal health.

Fortified with More

Our unrefined sea salt is the foundation of our bison products. Then, we add extra levels of high quality minerals to the mix: selenium, copper, manganese, cobalt, iodine and zinc.

2019 CONSIGNORS

777 Ranch

Mimi Hillenbrand, Owner; Moritz Espy, Manager • PO Box 8303, Rapid City, SD • (605) 430-7471

Our vision and goal for the 777 Ranch bison herd is to preserve and maintain the integrity of bison as a species. We let this vision guide us in our selection of our herd by letting nature take its course, as much as possible, and letting bison be bison. Our herd is run as a single herd to maximize and promote strong family groups. Our management is based on the Holistic Management Principles setup by Allen Savory. We use a planned grazing strategy which allows us to know where, when, and what the animals graze from conception to when we sell our animals. We are strictly a grass-fed operation. We do not feed our herd supplemental feed in the winter. We could achieve better gains on our yearlings if we ran them ahead of the herd on the freshest grass, but we believe that the lessons learned in the family unit are more important and that the gains made while competing against mature animals are valuable life lessons.

Bison Spirit Ranch

Trevor & Jodie Gompf • Box 149, Oak Lake, Manitoba, Canada • (204) 855-2707

Bison Spirit Ranch is owned and operated by Trevor and Jodie Gompf of Oak Lake, Manitoba, Canada. We expect our bison to have good conformation combined with excellent weight gains on grass in the summer and supplemented feed in the winter. We are very proud to have won the Canadian Bison Bull Draft three out of the four years along with five other top five placings. These wins have made Diesel the herd sire with the most consistent top gaining bulls in the four years of the Canadian Bison Bull Draft. Please check out these sons of Diesel being offered at auction in the Young Guns Yearling Bull Challenge. Bison Spirit Ranch would also like to thank Heartland Bison Ranch and the Dakota Territory Buffalo Association for putting on such a great competition and allowing us to be part of it!

Cammack Buffalo Ranch

John, Melanie, Lane & Mike Cammack • 16800 Old Stoneville Road, Stoneville, SD • (605) 985-5289

The Cammack Buffalo Ranch is operating in the 5th generation and is located in Stoneville South Dakota. John manages the ranch with his Uncle Lane. His Dad, Mike, lives in Alaska acting as the not-so-silent partner. John and Melanie's four kids work alongside as they learn how to take over in the future. We bought our first 30 buffalo in 1999 and have slowly built our herd to 420 cows. Doing so by buying the top genetics that we can find that fit our program. One of the great cow herds that we purchased was the Colorado Bison Company's complete herd dispersal. We have purchased bulls from around the country searching out top performance animals to continue to build a strong and functional herd. We love to improve our herd as we go through a strict culling program while allowing the buffalo to do their thing on the rolling western South Dakota prairie. We have our own performance tests we do on the ranch to help with the culling process. Please see our web site for more information www.cammackbuffaloranch.com or email John at bowhunter4life@goldenwest.net.

Cold Creek Buffalo Company

Boyd & Allison Meyer • PO Box 82, Windsor, CO • (970) 396-2249

The origins of animals at Cold Creek Buffalo, founded in 2002, came from reputable herds from around North America. Tatonka Ranch, Wolverine Bison, Le Grande Ranch, Slim Buttes and Red Canyon are where the seed stock animals came from that have built Cold Creek into a premier breeding stock producer.

Cold Creek Buffalo DNA tests their breeding herd to identify superior genetics from both their cows and herd bulls. These genetics are then evaluated through their performance tested program to ensure the best traits are carried forward. Boyd is an avid supporter of the DTBA performance tested classes which allows producers to gauge their breeding programs against other top ranches in the United States and promote the importance of offering top quality breeding stock to producers.

Custer State Park

Chad Kremer, Herd Manager • 13329 US Hwy. 16A, Custer, SD • (605) 255-4515

Custer State Park has been producing quality buffalo since 1914. We have the longest running annual buffalo production in the world since 1966. Our buffalo are given standard vaccinations as calves, after that they are naturally raised without any vaccinations unless needed. Foundation of the Custer State Park herd is from the Scotty Phillip/Fred Dupree herd with genetic additions including the Wind Cave National Park herd. Custer State Park has been and continues to be, the foundation source for numerous private herds over the last 50 years! Animals are naturally range raised, supplemental mineral. Our Young Gun entries earned 3rd place in 2009 and 2011.

Diamond Tail Ranch

Mike, Jackson & Jeremy Duncan, Owners; Scott Butcher, Mgr. • 20579 NCR 103, Jelm, WY • (970) 435-5775

Diamond Tail Ranch first purchased bison in 1986. In addition to its cow-calf operation, the ranch has its own 1,000-head feedlot on the ranch. It has consigned both live and market animals to the GTSS for more than a decade. Some of its historical placings include: Gold in 2001, 2003, 2005, 2006, and 2010 and Silver in 2000 and 2011. In addition, GTSS champions include 2004 Reserve Grand Champion Bull, 2005 Grand Champion Female, 2006 Reserve Grand Champion Female. In 2013, Diamond Tail took Gold and Fourth in the Bull Market class. At the 2006 Western Bison Association show, the ranch won Gold for a Yearling Bull, and in 2004, it won Gold and Reserve Grand Champion with a Yearling Heifer, as well as Silver for a Yearling Bull.

2019 CONSIGNORS

Heartland Bison Ranch

LeeAllen & Rebecca Leier/Kevin & Anne Leier • 4525 Highway 3 S, Rugby, ND • (701) 542-3325

Heartland Bison Ranch, established in 1996, is a cow calf operation run by LeeAllen and Kevin near Rugby, ND. Both LeeAllen and Kevin strive to produce animals with consistent strong weaning weights and all around solid gaining ability in both grass and grain scenarios. Heartland Bison uses a select set of cut weights and target numbers to help determine which animals are “eaters” and which are “breeders” because the difference is important in order to maintain a high quality herd. Our bull battery consists of bulls from Slim Buttes, Cammack Buffalo, Jumpoff Buffalo, Heartland Bison, Sheyenne River Bison and Silver Creek Bison. These sires have given us a mix of genetics that continue to serve our focus as we move into the future.

LeeAllen and Kevin are strong supporters of the performance classes as they once again have stepped up to host the Girlz in 2018-2019, making it their 4th straight year in a row. Additionally, they took on the Young Guns class this year as well. The ability to have some of the top ranches in the nation bring their animals to a neutral location and be raised under the same conditions is an unbelievable opportunity to gauge the quality and adaptability of these animals. It is this opportunity that is a major driver in Heartland Bison Ranch helping to continue to bring these animals to town.

Heim Ranch

Alex & Cassie Heim • 26727 266th St., Wood, SD • (605) 770-6190

Heim Ranch is located just outside of the big city of Wood, SD. Thunder Creek runs through the center of the ranch, making it over 10,000 acres of bison paradise. Alex and Cassie Heim continue to grow their bison cow/calf operation running 400 mother cows.

McFarland Ranch

Steve, Roxann, Ashley & Paden McFarland • 15807 Ellingson Road, Hettinger, ND • (605) 564-4672

McFarland Ranch / Horse Creek Bison is a fourth generation bison and cattle operation located in northern Perkins County, SD. Great Grandpa Frank McFarland started our herd with four heifers and one bull calf back in 1954. Today, we run close to 100 head in conjunction with Rafter K Bar, Larry and Renee Carr, of Prairie City, SD.

Our animals are on a complete health program, they are fed free choice mineral, pasture grazed and supplemented with grass hay when needed. Some of our genetics include herd bulls from Larry & Dixie Byrd, bred heifers and bulls purchased at the Black Hills Buffalo Classic, and some of our own home raised bred heifers and bulls. One of the bulls we are currently using is from Cold Creek Buffalo Company. We have received the Grand Champion Heifer award in 1999 and the Grand Champion Bull & Grand Champion Heifer awards in 2007, over the years, we have placed with 3 Golds, 2 Silvers and 6 Bronze on our show animals in various classes, Most recently taking home 2nd place in the Girlz Gone Wild Class in 2018. Contact Steve or Paden for private treaty sales and hunts.

Mosquito Park Enterprises

Rod & Lynnette Sather • PO Box 26, Vivian, SD • (605) 280-0921

Mosquito Park Enterprises is located in central South Dakota, near Vivian. We manage two separate herds of about 140 total animals on approximately 2300 acres. Our goals include restoring our pastures and improving wildlife habitat for native species.

Our health program consists of Anthrax, Mycoplasma, Virashield 6 + VL5, Vision 7, Triangle 4 and injectable wormer.

We currently run two herds, geographically separated. One herd is run on 14 paddocks and the other herd is currently on 17 paddocks with plans to increase to 25 in which we rotationally graze. Our team utilizes low-stress livestock handling techniques when handling and moving animals taking animal welfare seriously. Cows are pregnancy checked and vaccinated each fall/winter. Calves are weaned at the same time, top end calves are turned back out with the cows to grow. We strive to produce the best animals from ranch raised cows, DTBA Girlz Gone Wild, ranch raised bulls, DTBA Young Guns, and Yellowstone genetics

Our animals are range cake trained and are provided a custom mineral mix throughout the year.

Rafter K Bar

Larry & Renee Carr • 16184 US Highway 20, Prairie City, SD • (605) 381-7605

The family-owned ranch was purchased by my father, Keith L. Carr, from the Carlsons in the mid-70s. The ranch was home to pigs, sheep, horses and later, Angus and Highlander cattle. We eventually made the switch to buffalo on the ranch and have never looked back!

All the animals on our ranch are raised on grass in the summer and quality prairie hay in the winter, with good mineral supplementation and annual vaccinations. Our herd has genetics from some of the top producers in the industry, including bulls from Cold Creek Buffalo Company, Red Canyon Ranch and Horse Creek Bison. We have purchased top quality, award-winning females from the Black Hills Buffalo Classic for many years. Our ranch has been the recipient of several conservation and tree belt awards. We believe in being good stewards for the land and our animals.

Silver Creek Bison

Nolan & Nicole Miller • Box 355, Binscarth, Manitoba, Canada • (204) 532-2350

Silver Creek Bison, located at Binscarth, Manitoba, Canada was established in 1988. We have grown to a herd consisting of approximately 400 breeding cows, in seven separate groups. Breeding stock is selected on gain, confirmation, and most importantly, to preserve the natural healthy integrity of the species. Silver Creek is excited and honored to participate in this prestigious program, the DTBA Young Guns. Thank you to all involved for your hard work.

2019 CONSIGNORS

Strategy Bison

Dave & Liz Schroth • PO Box 1634, Cheyenne, WY • (605) 390-5851

Strategy Bison has been involved with the bison industry for the last 13 years, buying our first animals 6 years ago. Strategy Bison works to identify excellent performance traits in our animals to continue to produce strong, efficient, and well balanced bison that perform at a high level. Strategy Bison won the Girlz Gone Wild Performance Tested Heifer Class in 2016, and again in 2017 as well as having the third place bull in the Young Guns Performance Tested Class and were named DTBA Producer of the Year which is a testament to our established program.

Tatanka Hills

Kevin & Joan Stormo • 19123 US Highway 81, Lake Norden, SD • (605) 785-3727

We started raising bison in 1988 with animals from Custer and Doc Ken Throlson. Many of our breed bulls are purchased from GTSS and DTBA sales. We have won DTBA Producer of the Year as well as many other awards over the years at both the GTSS and DTBA. Tatanka Hills most recent awards are the 2016 Silver trophy yearling bull at the GTSS and first place Young Guns Yearling bull at the 2016 and 2017 DTBA Young Guns Yearling Breeding Bull Challenge. We continue to strive to produce top quality animals.

ABOUT OUR HOST RANCH

LeeAllen and Rebecca Leier, along with their eight children, started Heartland Bison Ranch in 1996 on a quarter of land south of Rugby ND. Their first ten bison calves hit the ground in the spring of 1997. The summer of 1998, Lee and Rebecca made the move to purchase 700+ acres in southern Pierce County and growth continued with the herd reaching over 100 stock cows. With a large continuous piece of land, it was time to put down roots and with a whole family effort, the Leiers established a new homestead and ranch headquarters for Heartland Bison Ranch.

The original cows brought to the ranch were out of three different bloodlines. M-line, Custer, and Durham. These animals were the original seed stock for the herd. Today, we have used those animals and an excellent selection of bulls to raise stock cows that have the traits and genetics we continue to strive for.

Today, Lee and Rebecca, along with their son Kevin and his wife Anne, continue to expand the ranch for the next generation.

***Proud to be the Host Ranch for the 2018-2019
Young Guns and Girlz Going Wild Challenges!***

"From the Heart of America, the Legend Continues"

Kevin & Anne Leier • 4525 Highway 35 • Rugby, ND • Lee & Rebecca Leier

Young Guns Yearling Breeding Bull Challenge

Girls Going Wild Yearling Heifer Challenge

The heifers and bulls began arriving at Heartland Bison Ranch the first week in April of 2018. By the middle of April, all animals had arrived at the ranch and the groups spent the remainder of the time acclimating to their new surrounding and in their new groups. During this period, the heifers had access to clean water, fresh quality prairie hay and range cake two times per week. The bulls had access to a self-feeder with six tons of ration to help them regain weight lost during transport. They also had clean water access and fresh prairie hay. The animals spent approximately four weeks together in this phase before being worked for turn out.

On May 19, both the heifers and bulls were worked for turn out on grass. At that point, both groups were weighed and given a Dectomax, Mycoplasma, and Once PMH nasal vaccine. Our ranch received significant moisture through June and the animals really benefited from the abundant grass. On July 5, we received our last significant rainfall for the remainder of the summer. The animals were still on ample grass and receiving a small amount of range cake, two pounds per head per week to keep them trained to the truck. With range conditions changing quickly, we made the decision in mid-August to bring in the bulls on August 25 and collect their weights for ADG on grass at exactly 100 days. At this time, they also received a Dectomax injectable wormer. We would also point out that the bulls did not receive any type of pellet or feed supplement while on grass except for access to Redmond 418 Bison Mineral.

Once on feed, the bulls had access to three self-feeders and two large hay feeders throughout their feed test. The bison ration used was 14.1% protein and the prairie hay was sourced from the same field. The pen that these bulls spent time in was built this summer specifically for the Young Guns group and we believe the bulls benefited from the clean ground and ample space.

While the bulls progressed through their feed test, the heifers continued grazing on the range until they were brought in on November 3. They were weighed to determine their ADG on grass at 166 days and given a Dectomax injectable wormer. The heifers were then sent out to a small 15-acre pasture where they had access to a self-feeder and bale grazed until the sale work up. The total time heifers had access to a feed ration was 60 days. The comments we got from the ultrasound technician were that these heifers are very lean and the fat cover they do have is consistent across the board for the group.

The bulls were brought in on December 3 to weigh in for the ADG feed test portion of the competition. The feed test was calculated at exactly 100 days and total gain was based on the 200 days of total test time between grass and feed. After weighing in the bulls, they returned to their same location with feed and hay access until the sale work up.

Both the bulls and heifers were brought through the chute on January 2 for their sale weigh-in, vet testing and checkup and ribeye ultrasound. The final run through took place on January 5 and all sale animals were again given a Detomax injectable as well as a Mycoplasma vaccination.

Overall, we believe that animals available at this sale represent one of the top groups of breeding stock in North America this sale season. We would like to thank each consignor for putting their trust in our operation and we look forward to a strong sale for these animals on February 2!

"Auctioneers of the Great American Bison"

*Available nationwide for state & regional
association auctions, private herd production
or liquidation auctions and online auctions.*

About the Dakota Territory Buffalo Assn.

- The DTBA was established in 1996 and is based in Rapid City, SD.
- The DTBA has nearly 200 members representing 14 states, including South Dakota, North Dakota, Colorado, Minnesota, Nebraska, Wyoming, Wisconsin, Texas, Indiana, South Carolina, Oklahoma, New Mexico, Kansas and California.
- South Dakota is the largest buffalo producing state in the US, with more buffalo than the next two biggest states combined. North Dakota, Montana, and Nebraska are the next largest producing states.
- The DTBA is a member of the National Bison Association, based in Denver, Colorado. The association also shares membership with our sister association, the North Dakota Buffalo Association and is a lifetime member of the Montana Bison Association.
- The DTBA hosted the 2007 International Bison Conference in Rapid City, SD and to date that was one of the most successful IBC events anywhere.
- The DTBA was the first group to develop a carcass contest based on real market conditions. Additionally, the group was the first, and is still the only, group that conducts a carcass contest for heifers.
- Custer State Park has a herd of approximately 1300 buffalo and is an active member of the association and partners with the group on many projects.
- DTBA also works with the InterTribal Buffalo Council, other state and regional buffalo groups, the National Bison Association, the Canadian Bison Association and partners on projects with other like-minded organizations.
- The DTBA Black Hills Buffalo Classic Show and Sale, featuring the group's Young Guns Yearling Breeding Bull Challenge and the Girlz Gone Wild Two Year Old Bred Heifer Challenge, is currently one of the most successful live buffalo auctions in the country. In 2015, the sale had the highest selling bull and the highest average in the country on yearling breeding bulls and the second highest average in the country on two year old bred heifers and tied for the highest selling two year old bred heifer in the country. The Girlz Gone Wild program is the only one of its kind in the country.
- The DTBA Winter Conference is always the last weekend of the Black Hills Stock Show and Rodeo, which will be celebrating its 61st year in 2019. With an estimated attendance of 331,000, this is the second largest event in the state of South Dakota, with only the Sturgis Motorcycle Rally boasting more attendees.

SOCIAL CLUB
HAYWARD VALLEY HOUSE
BlackHillsRetreats.com

The Hayward Valley House is a vacation rental in the southern Black Hills of South Dakota. Located five miles east of Keystone, or nine miles west of Hermosa on Highway 40, in the historical village of Hayward, it is located just minutes away from Custer State Park.

If you are experiencing too much buffalo or not enough bison, a few days at the Hayward House will clear the clouds. The house features three bedrooms, three bathrooms, two foldouts, two large living rooms, a large kitchen, social club and rehab center!

For more information, contact
Blackhillsretreats.com or call (605) 391-1872.
