ALLIED
GENETIC RESOURCES

Greetings!

Welcome to the first look at Durhams in the Dakotas 2017, our 11th annual bull sale. As I write this we are coming off yet another winter storm and morning of shoveling bunks and pushing snow just to get the cattle fed. In doing so, not only do I sympathize with my peers and customers, but I also marvel at how the bulls have gained, the feedlot cattle have performed, and the cowherd has maintained their body condition. It speaks to their hardiness and inherent value which I believe is a direct reflection of the selection pressure that is placed on these cattle to survive in the harshest of winter conditions and also thrive in a variety of environments. Speaking of selection pressure, a great deal of it was put on this set of bulls. Having calved nearly 400 hd of females in 2016, the yearling bulls represented in this catalog are truly the top cut of a very diverse and deep set of male progeny. In addition, this sale also represents our first group of virgin, full 2 yr. old bulls ever offered. These big, stout bulls were developed on grass last summer, brought to the yard in late October, and are ready to go out and cover a pile of cows in the 2017 breeding season for their new owners.

In each group, herd changing genetics are represented, backed by balanced EPD profiles and breed leading British Maternal Indexes. But what sets a JSF bull apart? Not only do they read well, but they also flat excel in the realm of much desired convenience traits like fleshing ability, soundness, docility, and calving ease. Rigid culling against hard calving, hard doing, bad footed, bad uddered, ill tempered cows has left us with a set of bullmakers that are moderate, easy keeping, fertile, and calm, all the while calving on their own. As a representation of the cow herd, we continue to expand upon our bull sale with a bred female offering. This years group consists of 25 hd, sold in group lots, bred and raised with aforementioned characteristics at the forefront of our minds.

I really appreciate you taking the time to view the sale offering. In addition to this catalog, videos will be posted on our website by January 20th, 2017. If you are able, we welcome your visit to the ranch anytime. We take pride in showing people the cow herd, feedlot, bulls, and commercial bred heifers. If you are unable to attend the sale, let anyone of us or the sale consultants know how we may be of service to you.

Thank you so much and may you have a most prosperous 2017!

DURHAMS FOREVER!

BRED FEMALES

We are proud to make this excellent group of females available on auction. The 2nd calvers bred for our SHXSMXRA composite are a very uniform, solid group, and bred to JSF Red Rocket 89C, our exciting son of COM AS U R Red Rocket and out of our Donor dam TNT Miss W7. The blues are an especially nice group, led off by a pair ready to pay for themselves the first year with their I-67 calves. Reincarnation needs no introduction and his service will only be more valuable after this set of sons sell in February. Of special note are the 3 purebred Angus heifers bred to him with the resulting progeny being Blue roans. And lastly but certainly not least are a couple females examined safe to Bieber Samurai, one of which is a direct daughter of KL Gold Rose 451. They will sell in groups based based on color and calving date.

Yearling photo of JSF Red Rocket 89C after breeding cows for 30 days.

NOTES

TRUCKING

Free delivery in the US and Canada.

DIRECTIONS

From the South: I-29N to the HWY 46 Exit (Kindred) and then 50 miles west.

From the West: 5 miles east and ¼ mile north of the Junctions of ND Hwy's 1 & 46.

From the North: Kathryn Exit off I-94, 20 miles south on County Road 21 (National Scenic Byway).

From the East: I-94 North to the Wilkin County 30/MN 108 Exit north of Fergus Falls, MN. Head west on Wilkin County 30 to US-75 at Wolverton, MN. Go north 1 mile then, west 3 miles to I-29N. Take I-29 north 4 miles to the Hwy 46 Exit (Kindred) and then 50 miles west until you come to the farm along Hwy 46.

GENERAL SALE INFORMATION

We are retaining 1/4 semen interest in all bulls sold.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any

accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and Johne's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Genetic Defect Disclaimer: All cattle are guaranteed free of any known genetic defects unless otherwise noted.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.

THANK YOU FOR YOUR INTEREST IN OUR PROGRAM

ABOUT *the* BULLS...

On March 13, 2016, 93 steers left JSF. The pot load of 72 heavy steers weighed 997 on the truck and headed to Cottonwood Feeders in Stuart, NE to be finished. On July 20, 2016. All 72 steers were killed. They had an ave live weight of 1436 lbs. Ave. Carcass weight of 873 lbs, and most importantly 93% of these steers graded Choice or Prime. Thanks Steven and Randy Weigel of Weigel Cattle Company, Kintyre, ND for their confidence in our program and getting the data back on our steers, proof these cattle can do it all!

These bulls have been raised by good milking, easy fleshing mothers in pastures along the banks of the Sheyenne River Valley system in North Dakota. Starting just east of Cooperstown, ND and running approximately 80 miles South of there to Lisbon, ND, these bulls grow up having to travel for water, forage, and shade. Only the top 25% are retained as bulls. Once weaned, they are fed for optimum, not maximum gain, in large pens we free choice hay, on a 52 mCal ration. This allows the bulls to express their differences genetically but not get overly fat. Once yearling weights and scan data are recorded, the bulls are gradually backed down to a 42 mCal ration prior to turnout and/or delivery.

LOT 18 :: is a 1/2 Shorthorn, 1/4 Simm, 1/4 RA red freight train. **Suitable for heifers.** He combines acceptable calving ease and performance in a unique genetic package.
LOT 19 :: (1/2 Shorthorn 1/2 SIMM) is slightly younger but his performance dictated him being offered with this group. He is a rip and boasts one of the top 205 day wts in the entire group.
LOT 20 :: (1/2 Shorthorn 1/2 SIMM) is a super stout, performance stacked blaze faced stud with tremendous eye appeal and growth.

FOR THOSE PRODUCERS SEEKING THE ADDED PERFORMANCE OF THE SIMMENTAL INFLUENCE COUPLED WITH THE MATERNAL QUALITIES OF OUR SHORTHORN CATTLE THESE BULLS ARE A GREAT FIT

LOT 30 :: Suitable for heifers. This red bull calving ease son of Goldenrod is one of the best red bulls in the entire offering. His mother has been highly productive, landing heifer calves on the female sale each year.

LOT 31 :: Suitable for heifers. Full brother to last years high selling Outlaw son, JSF Outpost 8C This bull is a lot like him only dark roan and polled.

LOT 32 :: Suitable for heifers. Really nice, easy fleshing, sound, red Gauge son out of a first calf heifer. There are very few bulls that have done as many things right as Gauge has in the Shorthorn breed.

LOT 33 :: Suitable for heifers. The only Shear Force son selling and he is deep sided, solid red meat packer.

LOT 34 :: ShorthornPlus. (7/8 Shorthorn1/8 Red Angus). **Suitable for heifers.** Direct son of one of the most productive cows on the ranch. Take him home, put him to work, and keep every daughter.
LOT 35 :: ShorthornPlus (7/8 Shorthorn1/8 Red Angus). **Suitable for heifers.** Solid red, calving ease, stud by 714 stemming from one of the best cow families here, the Seven Elevens.
LOT 36 :: ShorthornPlus (3/4 Shorthorn1/4 Red Angus). **Suitable for heifers.** Tremendous spread in this bull that has been a standout at all measuring points. Great cowboy bull.
LOT 37 :: ShorthornPlus (7/8 Shorthorn1/8 Angus). **Suitable for heifers.** Full sib to JSF Allied 5A, former sale topper and herd bull for JSF and SBR, this bull is built much the same and has unlimited genetic value as there is very little Answer semen left and his dam, the great 68K donor, is now deceased.

ShorthornPlus. (3/4Shorthorn1/4Angus).
 This bull has an incredible amount of dimension and mass. He is sound, large scrotaled, and high quality. On a set of purebred cows, his progeny will be 7/8, with their resulting progeny attaining 15/16 blood level when mated purebred. The value this bull possesses as an alternative to the Shorthorn gene pool is significant.

These blue tanks garnered a great deal of attention the weekend of the female sale. Our blue bulls made a strong statement to the value of these blue cattle last spring and these guys are their younger brothers.

2 YEAR OLDS

56

57

LOT 56 :: Suitable for heifers.

This Double bred Byland Axis has been a favorite of mine all his days. His heavy structure, big feet and testicle are representative of his pedigree as is his wide muzzle and awesome herd bull head. His mother is proving herself to be highly valuable, with daughters in production and another son in this sale that has a lot of friends as well, 119D. When neighbor and fellow Shorthorn breeder Ryan Galbreath stopped by yesterday, the first 2 bulls he asked about were 121C and his younger brother later in the book, 119D.

LOT 57 :: Suitable for heifers. $\frac{3}{4}$ ShorthornPlus.

This bull is a cowmans dream. Red, soggy, big footed, and nuted, he epitomizes what Shorthorn bulls can do on cows with a touch of Simmental and Red Angus like his dam has.

JSF Reload 32T topped our bull sale 10 years ago. He bred cows at one of the All-time great Shorthorn programs in the US, Byland Polled Shorthorns in OH for 8 years. The Reload daughters there were always some of Byland's best and their scan data was tremendous. It was for that reason that I told Dr. Byers I wanted the bull back when he was done with him. These bulls are much like he was, long spined, exceptionally sound, thick made, rugged, bulls. If you need a trio big bulls, stand in on these rascals that are very nearly ¾ full brothers besides. When you have a set of their daughters for sale, call me.
