DEMYSTIFYING THE LENDING TEST

The Lending Test evaluates a bank's record of helping to meet the credit needs of its assessment areas

- Home mortgage lending
- Small business/farm lending
- Community development lending
- Consumer lending

Management should provide data for all lending they want considered

- Generally, should include all lending data since last exam through a "cut-off" or "as of" date
- This includes data on optional affiliate and consortia/third party lending
- Other loan data

Loan data should be in a format that is conducive to analysis

- HMDA, Small Business/Small Farm, and Consumer Loan data should be in prescribed formats
- Bank's responsibility to ensure data is accurate
- Supplemental records may be needed to receive full consideration for community development loans

Lending Test Components

- Lending activity
- Assessment area concentration
- Geographic distribution
- Borrower distribution
- Community development lending
- Product innovation and flexible lending practices

Lending Activity

Foundation of the lending test rating

- Market share and market rank primary way to put activity into context
- Contextual information considered, including credit needs and the competitive environment
- Be prepared to discuss anomalies in the data

Assessment Area Concentration

- Compares lending inside assessment area versus outside
- Performed at the state or bank level
- Does not include affiliate lending
- Business strategy and contextual data may affect this performance criteria
- Be prepared to tell "your story" to explain a low in/out ratio

Geographic Distribution

- Considers performance in lending to all geographies in an assessment area, particularly in low- and moderate-income geographies
- Lending distribution is compared to certain demographic information
- Other comparators might also be used
- Lending gap analysis used to identify conspicuous gaps
- Contextual information may affect conclusion
- Management should be prepared to explain any significant disparities

Example: Geographic Distribution Table – HMDA Loans

Geographic Distribution: HOME PURCHASE			HASE	State: ANYSTATE				Evaluation Period: JAN 1, 2004 TO DEC 31, 2006							
MSA/Assessment	Pur	l Home chase cans	E Low-Income Geographies		Moderate- Income Geographies		Middle-Income Geographies		Upper-Income Geographies		Market Share (%) by Geography *				
Area:	#	% of Total**	% Owner Occ Units***	% Bank Loans	% Owner Occ Units***	% Bank Loans	% Owner Occ Units***	% Bank Loans	% Owner Occ Units***	% Bank Loans	Over -all	Low	Mod	Mid	Upp
Large City MSA #1	219	44.88	2.63	3.71	15.30	9.18	44.34	39.81	37.74	47.30	.86	.83	.83	.46	.90
Large City MSA #2 Based on 2006 Peer M	269	55.12	1.19	.75	16.35	16.00	36.63	39.30	45.84	43.95	1.09	0.00	0.81	0.95	1.51

** Home purchase loans originated and purchased in the MA/AA as a percentage of all home loan originated and purchased in the rated area.

***Percentage of Owner Occupied Units is the number of owner occupied units in a particular geography divided by the number of owner occupied housing units in the area based on 2000 Census information.

Focus on performance in low- and moderate-income geographies

Example: Geographic Distribution Table – Small Business Loans

Geographic Distribution: SMALL LOANS TO BUSINESSES State: ANYSTATE						TATE	Evaluation Period: JAN 1, 2004 TO DEC 31, 2006

Based on 2006 Peer Mortgage Data.

** Small loans to businesses originated and purchased in the MA/AA as a percentage of all small loans to businesses originated and purchased in the rated area.

*** Source Data – Dun and Bradstreet (2006).

Focus on performance in low- and moderate-income geographies

Lending Gap Analysis

Best Practices

- Perform self assessment
- Generate tables

- Identify areas of poor performance and take action
- Perform the analysis frequently
- Understand your performance context

Geographic Distribution Exercise - 1

Distribution of Home Purchase Loans By Income Level of the Geography								
Geography	% of Owner	2	006	2	007	Total		
Income Level	Occupied Housing Units	#	%	#	%	#	%	
Low	3%	5	5%	1	1%	6	4%	
Moderate	23%	16	17%	26	33%	42	25%	
Middle	31%	40	44%	30	38%	70	41%	
Upper	43%	31	34%	22	28%	53	31%	
Total	100%	92	100%	79	100%	171	100%	

Borrower Distribution

- Considers distribution among borrowers based on income and business size, especially LMI borrowers & small businesses
- Regulators consider different measurements
- Contextual data may affect conclusion
- Management should be prepared to discuss any disparities

Borrower Profile – Small Business Loans

Table X – Lending Distribution of Commercial Loans Based on Gross Annual Revenues of the Business							
Gross Annual Revenue	Less than \$50,000	\$50,000 to \$99,999	\$100,000 to \$249,999	\$250,000 to \$499,999	\$500,000 to \$999,999	\$1,000,000 and Greater	
Percentage of Businesses by Gross Annual Revenues	11%	11% 25%		13%	8%	12%	
Number of Loans	3	4	2	2	1	6	
Percentage by Number	17%	22%	11%	11%	6%	33%	
Dollar Amount of Loans	\$353,025	\$308,344	\$185,025	\$30,050	\$50,025	\$1,091,154	
Percentage by Dollar Amount	18%	15%	9%	1%	2%	54%	

Borrower Profile – HMDA Loans

Table X - Distribution of HMDA Loans by Borrower Income								
Borrower Income	% of Aggregate	% of		2003	200	04	Total	
Level	Lending (% of #)	Families	#	%	#	%	#	%
Low	9%	25%	19	21%	18	23%	37	22%
Moderate	16%	18%	24	26%	14	18%	38	22%
Middle	17%	17%	22	24%	20	25%	42	25%
Upper	42%	40%	21	23%	21	26%	42	25%
NA	17%	NA	6	6%	6	8%	12	7%
Total	100%	100%	92	100%	79	100%	171	100%

Borrower Profile Exercise 1

Table X – Distribution of Consumer Loans By Borrower Income Level								
Borrower	% of	2006		2	007	Total		
Income Level	Households	#	%	#	%	#	%	
Low	6%	12	7%	25	19%	37	12%	
Moderate	25%	42	26%	61	46%	103	35%	
Middle	36%	72	44%	43	32%	115	39%	
Upper	33%	39	23%	4	3%	43	14%	
Total	100%	165	100%	133	100%	298	100%	

Borrower Profile Exercise 2

Gross Annual Revenue (000s)	Area Businesses (D&B)	Bank Loans %
< \$100	44%	22%
\$100 to \$249	35%	18%
\$250 to \$499	12%	20%
\$500 to \$999	5%	21%
≥ \$1,000	4%	19%

Responsiveness

Measures Bank's responsiveness to lowincome areas and borrowers, and to very small businesses

- Reviewed similar to Geographic and Borrower elements
- Multiple measures typically used
- Contextual data may affect conclusions
- Management should be prepared to discuss any disparities

Community Development

 Measures the Bank's responsiveness and leadership in community development lending
 Number and amount

Complexity and innovativeness

A community development loan must have a primary purpose of community development
 An understanding of community development is critical, and this is an evolving area

Community Development

Affordable housing

- Community services targeted to LMI residents
- Activities that promote economic development by financing small businesses or farms
- Activities that revitalize or stabilize LMI geographies

Community Development

For non-OTS institutions, revitalizing or stabilizing LMI geographies has been expanded to include:

Revitalizing designated disaster areas

 "Distressed or underserved" middleincome nonmetropolitan areas

Designated Disaster Area

- Areas designated by the federal government(for example, major disaster declarations by FEMA)
- Eligible for 36 months following the date of designation
- Refer to FEMA website (http://www.fema.gov) for disaster designations

Distressed or Underserved Area

- Includes middle-income tracts in nonmetropolitan areas
- "Nonmetropolitan" means outside an MSA
- The agencies will publish a list of covered tracts
- Refer to FFIEC website (<u>http://www.ffiec.gov</u>) for listing

Criteria

Distressed

- Unemployment rate of at least 1.5 times the national average
- Poverty rate of 20% or more
- Population loss of 10% or more between the previous and most recent decennial census
- Net migration loss of 5% or more over the five-year period preceding the most recent census.
- * A community is considered distressed if it meets one or more of the above criteria

Underserved

- Small population
- Distant from a population center
- Identified by USDA Urban Influence Codes 7, 10, 11, or 12

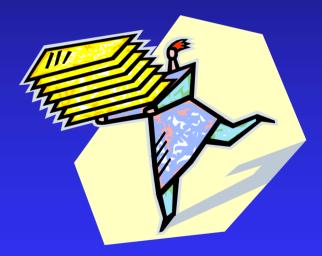

Document Your Activities

 Make sure you document the elements that qualify the loan(s) under the regulation
 Community development primary

purpose

Area benefited

♦ Impact

Be prepared to explain why it's a community development loan

- Management should be prepared to explain how a loan meets community development purposes
- Time invested in making these loans and tracking the activity helps distinguish an institution's level of performance
- Contextual data again is reviewed in evaluating performance

Product Innovation

Looks at the number and complexity of various specialized loan programs the institution offers

 Be prepared to provide number and \$ amount of lending under such programs

Common Issues/Problems

For Bankers

- Data collection
- Community development lending opportunities
- Resource constraints

For Examiners

- Activities not sufficiently documented
- Data integrity
- Data dump w/o analysis

Illegal lending practices

- CRA evaluation adversely affected by discriminatory or other illegal lending practices
- Applies to the bank and its affiliates
- Regulators will consider extent of evidence, bank policies and procedures, and any corrective action taken
- Includes
 - ♦ ECOA
 - ♦ FHA
 - ♦ FTC Act
 - RESPA
 - ♦ TILA
