Product Catalogue

Clutch Actuation | Gearshift Systems | Stabilizing Rods | Cables

Valid from 2016
2nd edition

Innovations **not** imitations

When your vehicle left the factory it was made with 100% original parts. Continuing to buy original parts will ensure driving safety and a high repurchase value, while extending the life of your vehicle.

Extended lifetime

Guaranteed higher quality on materials

Field tested on original vehicles

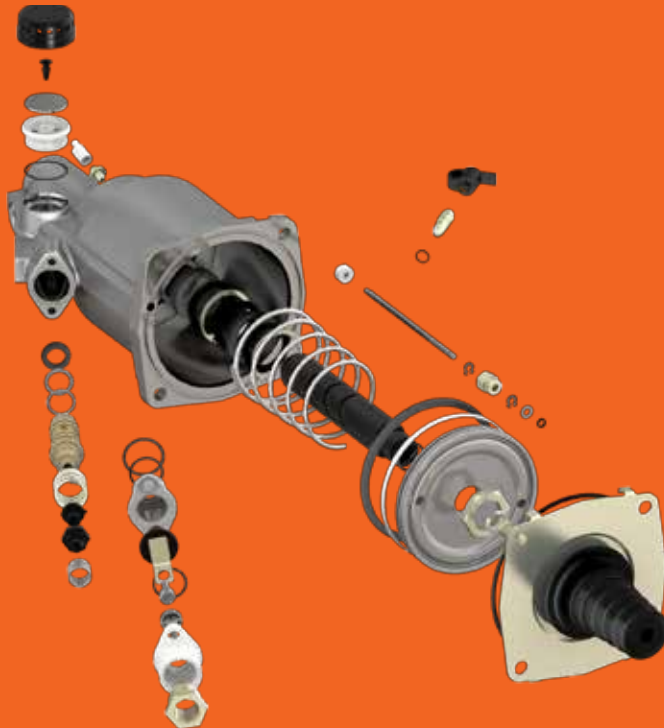

Approved by the original vehicle manufacturer

Eliminated risk of vehicle damages

Designed for your vehicle

Compatibility between old and new parts

Tested products before leaving the factory

Clutch Servo

Kongsberg Automotive has produced clutch servos since 1975. Today, we are a market leader with a wide range of solutions in the clutch servo product family. Our solutions are being used by customers in all corners of the world, on vehicle platforms ranging from light to heavy weight.

Features & Benefits:

- ▷ Low weight
- ▷ High wear resistance, for good durability
- ▷ Superb corrosion resistance properties
- ▷ Visual wear indicator for easy clutch wear detection

Hydraulic Gear Shift

Kongsberg Automotive released the first Hydraulic Gear Shift system in 1996. Since then it has been installed in more than 500.000 vehicles. HGS system from Kongsberg Automotive provides comfortable and precise shifting and eliminates transmission noise and vibration.

Features & Benefits:

- ▷ Low mass forces
- ▷ Excellent damping of vibrations
- ▷ High resistance against hard conditions for example high/low temperature and dirt
- ▷ Possible to tilt cabin with gear lever and full function

Gear Shift Cables

Kongsberg Automotive has produced the Silverline shift cables since 2007 and they are tested up to 12.000.000 shift cycles. The cables are used in serial production for major European truck manufacturers.

Features & Benefits:

- ▷ High efficiency
- ▷ Low breakaway force
- ▷ Low lost motion
- ▷ No slip-stick effect

V-stay

Kongsberg Automotive delivers efficient v-stays and reaction rods that reduce component size and weight, provide a considerable range of angular motion, and handle ever-increasing loads. The v-stays and reaction rods are tailor-made to suit the specific application of each truck.

Features & Benefits:

- ▷ Long lifetime
- ▷ Handle high loads because of strong connection to axle
- ▷ High-strength structures that withstands high forces
- ▷ State-of-the-art production processes

The consequence of using the wrong fluid on the hydraulic gear shifter is that both the o-ring and the lip-seal gets soft and swells. Below we have tested lip-seals belonging to GLA 626321AM that uses Break Fluid and GLA 630388AM that uses Mineral Oil.

Original

Tested

The Lip-seal made for Brake Fluid is exposed to Mineral Oil, Pentosin.

The seal gets soft and swells to nearly double size.

Important to use separat equipment for filling.

Recomended break fluids: DOT3, DOT4 & DOT5

The Lip-seal made for Mineral Oil is exposed to Break Fluid, DOT4.

The seal gets soft and swells just a fraction, but enough to create leakage.

Important to use separat equipment for filling.

Recomended Mineral Oil: Pentosin

Original

Tested

Please pay attention to the labelling that indicates type of fluid, both on the box and on the product.

Kongsberg Automotive

Kongsberg Automotive provides world class products to the global vehicle industry. Our products enhance the driving experience, making it safer, more comfortable and sustainable.

With revenues of close to EUR 1.0 billion and approximately 10.000 employees in 19 countries, Kongsberg Automotive is truly a global supplier. The company is headquartered in Kongsberg, Norway and has 32 production facilities worldwide. The product portfolio includes seat comfort systems, driver and motion control systems, fluid assemblies, and industrial driver interface products developed for global vehicle manufacturers.
