SUN-STAR & CROSS OF PERU
## REFLECTIONS ON THE NEW JERUSALEM & GIZA GREAT PYRAMID
Section IV, Part 7, (A)
The Wonder Numbers of Sacred Canon
By Doug Krieger

Nestled in the mysterious reaches of the Peruvian desert in the Palpa Mountains is one of the most precise geometric configurations known to man: The Sun-Star, and its "satellite" – the Sun-Cross. This famed Geoglyph has for centuries remained an obscure earthly reflection of ancient calibration – an astronomical wonderment depicting something far and beyond the immediate reach of human understanding…if the Great Pyramid of Giza, Egypt, is to metrologists the Seventh Wonder of the World (still standing) in the Northern Hemisphere – then the Sun-Star of Peru is the "Eighth" World Wonder whose measurements may claim the Southern Hemisphere.

THE SUN-STAR OF THE PALPA MTS. OF PERU - PICTURE OF THE NEW JERUSALEM & REFLECTION OF GREAT PYRAMID OF GIZA

Its checkerboard indentations – so incredibly precise and measureable (Considered as a *Class 1 Geoglyph – the highest degree of precision in construction resulting in straight lines and evenly spaced and proportional symbol elements – most pronounced of the seven categories) – its octagonal shape and massive square overlays – its "wheel within the wheel" and additional circles both in view and imagined – and its dynamic interior – so enigmatic, peculiar, riveting to the attention of astronomer, mathematician, and especially, geometer – let alone archeologist, cosmologist and numerators throughout the world – bring us to conclude, as the late and dedicated Geoglyph researcher, Maria Reiche, did: These earthly objects echoed heavenly realities…they were designed as astronomical calibrations observed in the celestial realms. (*Tim McGuinness, Ph.D. for NazcaMystery.com).
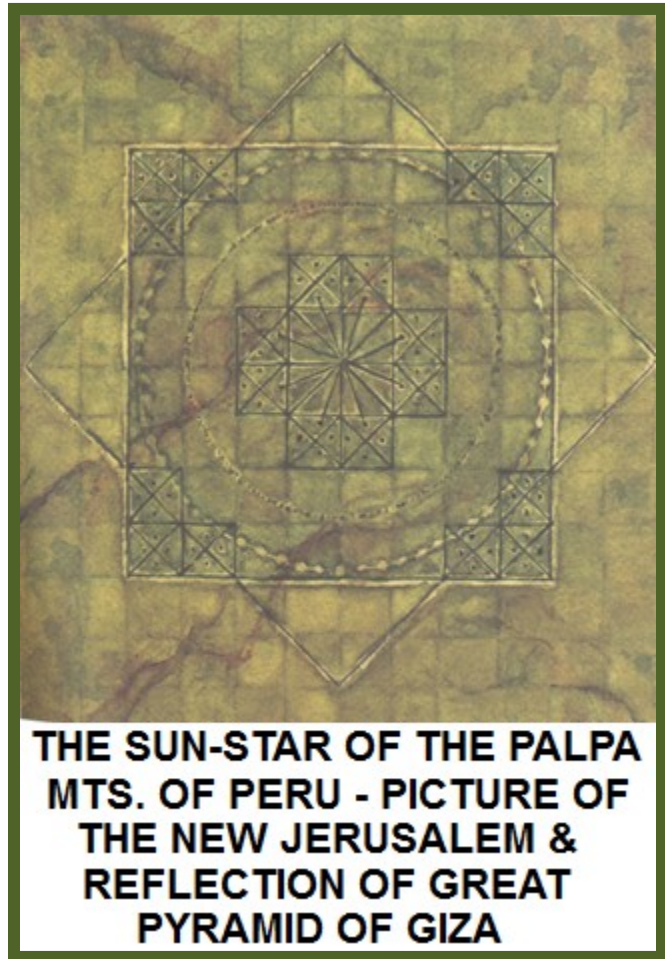

More specifically, these peculiarities of antiquity mirror not only those dimensions of the Great Pyramid of Giza, the Sun and Moon but those of the New Jerusalem!

Maria Reiche (1903-1998)
German-born mathematician
and archaeologist
"Daughter of Peru" - Protector
of the Nazca-Palpa Mountains'
GEOGLYPHS

Who could have envisioned such geometric calculations etched into Earth's most barren plateau to have lasted centuries – some say since 900 BC. Yes, who – but more importantly, why? Why was the design of **this** Geoglyph so indelible – even mesmerizing to the professional eye, elevated to view its magnificence and possible message? Its difference from all other peculiar Palpa-Nazca Geoglyph is striking – the closest glyph to the Museum of Maria Reiche along the costal route of the Pan American Highway some 200 miles south of Lima, Peru is there for a reason.

The ancients who determined its dimensions used metrologies far and beyond our wildest imagination – their precisions astound – use of measuring instruments calculating heavenly movement and beyond…they, we affirm, saw into the prophetic – knew time and space and somehow, some way, were aware of the Dimensions of Paradise – for the Sun-Star's duodecimal (12) imprint is so well integrated into their "system." We are left in utter wonderment that something of this magnitude could not have been left to happenstance. Yes, we conjecture, most certainly, however: Could the designers have known that its reflection magnified the Revelation of the New Jerusalem of John the Beloved, and mirrored the very ratios of the Great Pyramid of Giza? Could it be that the same genius whose architecture has survived as the last Wonder of the World – its Seventh – saw the need for an Eighth – an octagonal Geoglyph to match the octahedron or half octahedron of the Great Pyramid of Giza?

This is not fiction – the Sun-Star/Sun-Cross was chiseled/carved/dug out of the most arid and windless plateau on earth . . . preserving their impress unto the posterity of our time . . . making this most ancient glyph, and the hundreds of others found in the region, a most unique feature of Earth's antiquities:

"The Nazca Lines (Nasca Lines), are a set of zoomorphic, phytomorphic and geometric figures (lines, triangles, trapezoids, circles, spirals, birds, a spider, a monkey, flowers) that appear engraved in the surface of the Nazca desert, a high arid plateau that stretches 37 miles between the towns of Nazca and Palpa on a large flat area of southern Peru. The Nazca Lines are one of the mysteries of the

ancient world. They are the most outstanding group of geoglyphs (drawings on the ground) in the world. Lines and figures appear in an area of over 300 square miles.

"How did the ancient people of the Nazca desert (between 900 BC and 600 AD) achieve such geometrical precision, and what is the meaning of the drawings of giant spiders and birds?

"Decades of exploration and study by German-born mathematician Maria Reiche led her to see the Nazca lines as a sophisticated astronomical observatory, created to mark risings and settings of the sun, moon and stars." (Nazca Lines)

Decades, yes, centuries – peering into this **autostereogram** – "designed to create the visual illusion of a three-dimensional (3D) scene from a two-dimensional image in the human brain. In order to perceive 3D shapes in these autostereograms, the brain must overcome the normally automatic coordination between focusing and vergence." (Wikipedia)…yet, we never could make out the incredible features found in the Sun-Star which bespeak the dimensions of Paradise: The New Jerusalem. Theories to their origins abound…guess which one I prefer?

Palpa/Nazca Lines Theories	
Proponent/Scientist or Writer	**Theory**
Erich von Däniken	Aliens/Extraterrestrials
Alan f. Alford	Negroid Slaves of the Tiahuanaco Culture
Robert Bast	In memory of the Great Deluge
Gilbert de Jong	Connected to the Zodiac
Robin Edgar	Expression of Solar Eclipses – Death and Rebirth of the Sun God
Maria Reiche	Astronomical Means of Communication – Solar Calendar and Enigmatic Constellations where none exist in space.
Simone Waisband	Astronomical Calendar
Professor Gerald Hawkins	By computer discovered no astronomical context whatsoever!
Jim Woodmann	Balloon Theory – Made of Peruvian Cotton – flying objects called "Condor" – used black balloons to bury dead kings.
Prof. Anthony Aventi	Expressions of the Water-Cult in the region – used for ceremonial dances
Michael Coe	Ceremonial Places for Rituals by natives.
Siegfried Waxmann	Cultural Atlas of human-history in the Nazca-lines.
Prof. Frederico Kauffmann-Doig	Magic lines originating from the cat-cult in Chavin de Huantar
Georg A. von Breunig – Sport stadion	Used for sprinting to honor special gods for ritual competitions.
Markus Reindel/David Johnson	Water Cult and Dowsing
Wolf-Galicki – Signals from Extraterrestrial Beings	Extraterrestrial Beings
Hermann E. Bossi – The Nazca-Code	Placed there on formation called the GGF or Mandala or Zodiac – same code used in Stonehenge, Avebury and Borobudur and also by Crop Circles
Code of Carl Munck	Code system using same "Ancient Measurements" affirmed by John Michell and predicated on ancient Gematria, including the Bible based on 360 degrees circle/12-in. ft. 60 sec. min. 5280-foot mile…used by ancient Mayans – the Code Matrix System – also used in Great Pyramid of Giza, Stonehenge, Glastonbury

Prof. Helaine Siverman	Simply "Clan Signs"
Prof. Dr. Akon Masons	Signs for Gods in the Sky
Albrecht Kottmann	A system of writing and mathematical accounting – picture writing system of giant and smaller letters.
SOURCE: Nazca Lines Theories -	
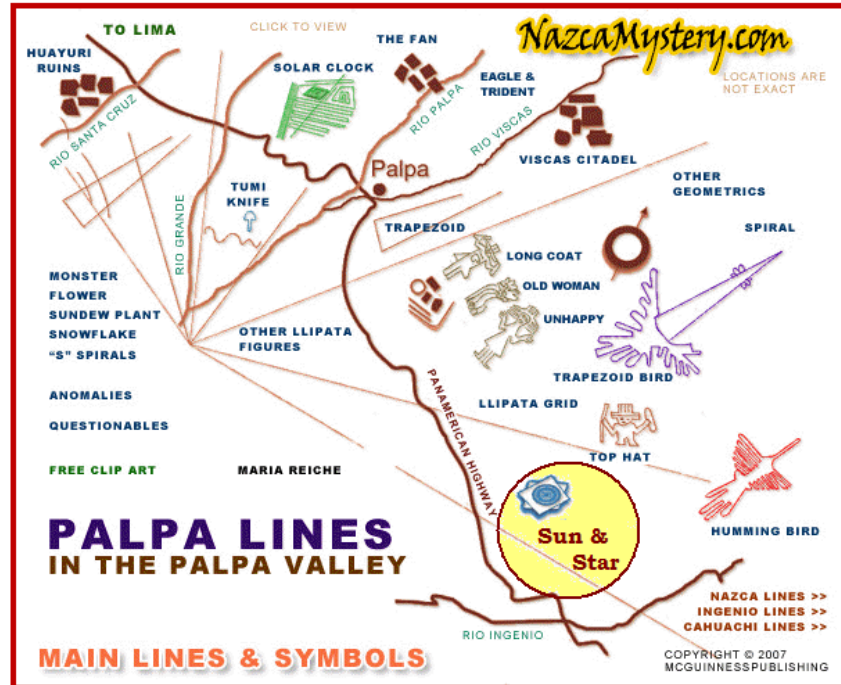

The multiplicity of theories staggers the imagination. T.L. Subash Chandira Bose and Jack Andrews in their "A key to unlock the mystery on a Geometrical Nazca Marking" suggest that the design of the Peruvian Sun-Star conforms to Indian (as in modern India) mysticism and derivations of Hinduism. I find their immediate research and prejudice toward Hindu interpretations somewhat fascinating but, sorely lacking in their technologies in viewing the Sun-Star. This may have altered their perceptions and *ipso facto* their interpretations.

However, one substantive observation which they make is this:

"There is also one more square (actually there are several clearly seen) turned forty-five degree, on one of its sides falls on the line from the right side group of circles at angle forty-five degrees."

They are alluding to the largest of the rhombi which they call the "hidden green square." Furthermore, they noticed that there are a total of 81 holes/dots on the crisscrossed squares from whence additional spiritual conjectures can be ascertained. (I will discuss both these points later – the 45° tilt of the rhombi and the fact of the $80 + 1 = 81$ dots.) The Hindu interpretation of these dots goes something like this:

"The eighty-one dots represent cells in Graha-Yantra in which the numerals one to nine are distributed [in] such a way so that the additions (vertical, horizontal and diagonal) of these numbers[s] will remain as eighty-one.

"According to Shree. Jaganatha Swamji 'The number 81 means the creation of [the] universe as 8 is the letter JA and KA is the letter one which forms the letter JAKA- the universe.   According to Shree, Jaganatha swamiji 'The number 33 which actually represent the divine and celestial energies or devas (Mupathu Mukkodi devar- thirty three cores divinities)'."

Nazca Marking with Sixteen rays and Eighty-one dots

Copy right T.L. Subash Chandira Bose 2003
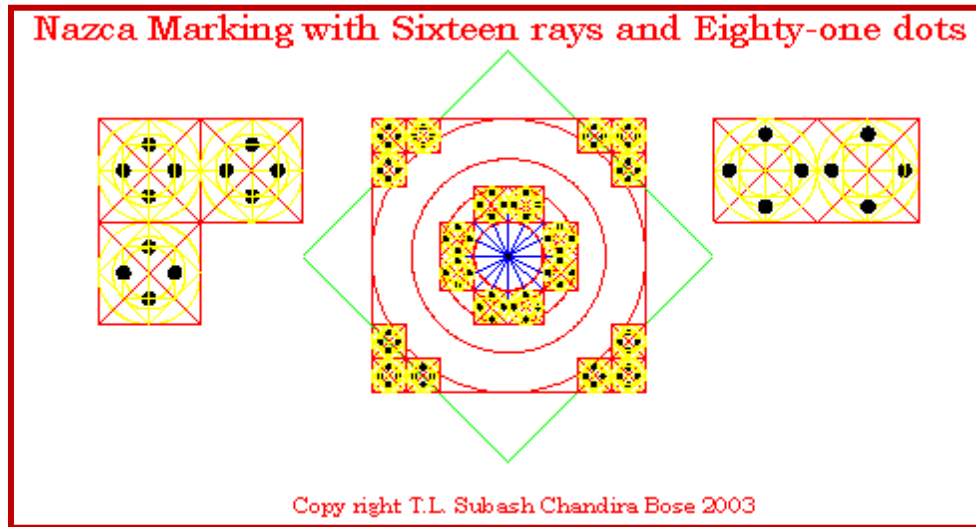

However, I am duly grateful to the Bose/Andrews team for pointing out that the rhombus to which they allude (the largest of the possible six rhombi – green in their graphic above) slices through certain "squares" (some made up of "half-squares" due to the 45° slicing of the rhombus through portions of the 144 squares) which number 72 squares within this largest (green) rhombus (or one-half of all 144 smaller squares is 72 and these 72 squares – some of which are "half squares" or triangles due to the slicing of the largest rhombus) – all of which are included within the largest rhombus (i.e., one-half of 144 = 72) – please see my colored graphic below and you can readily observe that there are a total of 72 or one-half of the 144 squares included in the largest rhombus. As a result of their insight – to which I give full credit (though I duly noted it myself later on prior to reading their interpretation) resulted in this astounding calculation:

SIXTH OR GREAT RHOMBUS

360° = 1 Square (or each square has 360° or two triangles @ 180° = one 360° sq.
72 (smaller squares in the largest rhombus) * 360° (per square) = **25,920°** and
25,920 is a fractal of the 25,920 years of the Great Precessional/Mazzaroth/Zodiac
Also: 72 = 7 + 2 = **9** and **360** = 3 + 6 = 9 and 9 + 9 = "**18**" =
18 = the Standard of the New Jerusalem – likewise: **2592** = "**18**"
Also 25920 * 2 (for 144 squares) = 51,840 = "**18**" = New Jerusalem Standard
9 = the Cardinal Number for the Sun of Righteousness

Several of the drawings done by the Bose/Andrew's team deserve merit in that the "33" dots which are highly suggestive – not of Hindu gods – but of the Son of Man Who gave His Life a ransom for us all at age "33" – let alone how that this "33" is interconnected to the 81 dots – that's a "wow" later on in this mini-series! Sorry, "the divine and celestial energies or devas (Mupathu Mukkodi devar - thirty three cores divinities)" – though a Hindu interest – does not in the sum total of the Sun-Star inter-relate to the overall emphasis seen in its geometric design, a design wholly given over to the New Jerusalem's dimensions and to the celestial consummation of the Bridegroom and His Bride.

Palpa Mountain Sun-Star of Peru
THE NEW JERUSALEM

I am persuaded, notwithstanding, all sorts of spurious interpretations regarding the origins of the Sun-Star and attempts to interpret its mysteries, are, in the main, dubious and most superfluous – missing the point entirely (perhaps their obvious origins are assuredly sourced in "ancient metrologies" – to be sure – for the duodecimal system of measurement (based on "12") is overtly displayed).

The drawing in color (above) and the skeletal drawing (black and white only – two drawings below) highlight the Fourth Square from the center (the so-called 8 x 8 Square) and perhaps the most visible with three each (for a total of 12) crisscrossed squares at its four corners – however, and as you will later see, there is ample room for two additional larger squares beyond the "crisscrossed square" (for a total of 6 "larger squares" creating a 12 by 12 square platform of 144 small "background squares" (i.e., out from the Sun-Star's center – the first square with a diameter, if you would, of two squares (2 by 2); then the next square with a diameter of four squares (4 by 4); then the next square with a diameter of six squares (6 by 6); then the next square – the "crisscrossed square" – with a diameter of eight squares (8 by 8) and then the two additional squares … the fifth square having a diameter of ten squares (10 by 10) and the final "perimeter square" having its diameter of twelve squares (12 by 12) – thus, creating the 144 square "platform" measuring 26.4' by 26.4'* (or 316.8' by 316.8' – 12 squares by 12 squares = 144 squares).
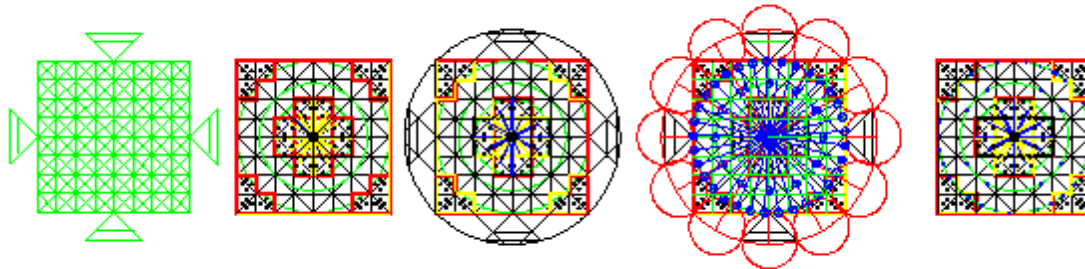

(*John Michell accurately approximates the measurement of the smaller squares at 26.4" from whence: "The dimensions of the whole figure can be calculated from the estimated length of one side of the little squares, 26.4 ft." – *How the World Is Made – The Story of Creation According to Sacred Geometry*, John Michell (1933-2009) with Allan Brown (artist), Inner Traditions, Rochester, Vermont/Toronto, Canada, 2009 (Michell's last work), p, 147.)

Please note there is ample room for two additional concentric circles (as well) beyond the confines of the crisscrossed larger square (the 8 x 8 square) – for a total of 6 concentric circles (all within the six aforementioned squares), as well as a total of 6 total rhombi). My "skeletal drawing" is juxtaposed under the Bose/Andrews team drawings depicting these 18 objects in their symmetries – i.e., six "larger squares" + six concentric circles whose diameters equal the diameters of these six larger squares + six rhombi from the center out (all square rhombi) making the Sun-Star octagonal – 8 pointed star – and these objects as 6 + 6 + 6 = 18 (if you would – "transforming" the 666 – "the number of a man" into the New Jerusalem's Standard of Measurement: 18 – via, in the main, a vast matrix of triangulations – three-sided objects, connoting the Triune God at work upon Man toward ultimate transformation/transfiguration into the Holy City, New Jerusalem.
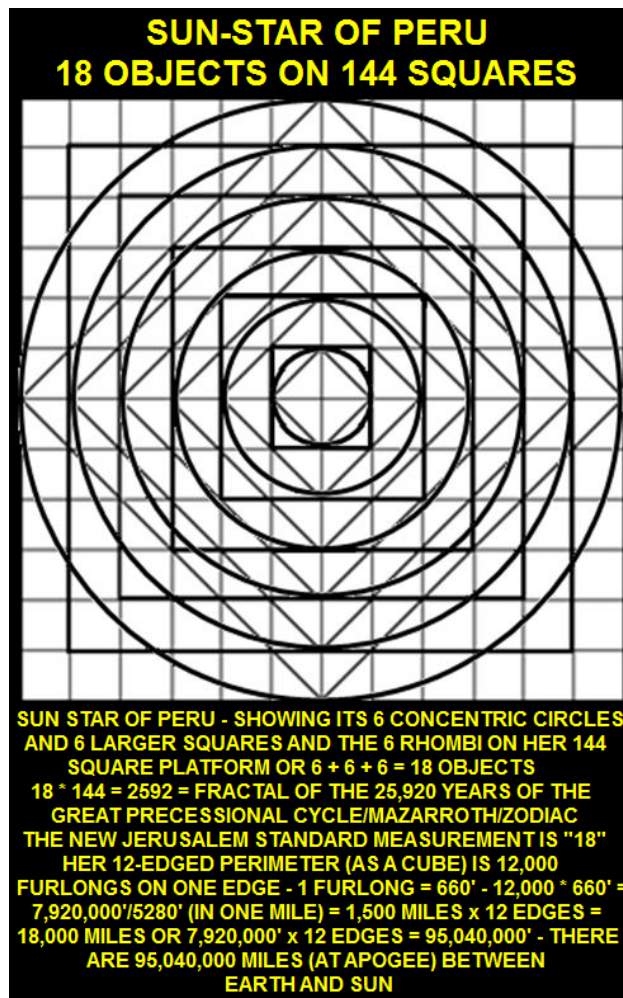

One thing is most certain – the so-called "Sun-Star Group" is the most precise of all the Geoglyph in the world – if not the most precise. Its extraordinary high degree of precision is remarkable in that when circular symbols are used (where continuous lines are not utilized), these circular designs are done with such a high degree of symmetry – suggesting as NazcaMystery.com does: "Far better use of mathematics, meticulous and precise planning, measurements, and organization of the design and construction…one of the most precise ever found."

The Key Symbol and Nazca Markings with 12 and 33 dots

SUN-STAR OF PERU
18 OBJECTS ON 144 SQUARES

SUN STAR OF PERU - SHOWING ITS 6 CONCENTRIC CIRCLES
AND 6 LARGER SQUARES AND THE 6 RHOMBI ON HER 144
SQUARE PLATFORM OR 6 + 6 + 6 = 18 OBJECTS
18 * 144 = 2592 = FRACTAL OF THE 25,920 YEARS OF THE
GREAT PRECESSIONAL CYCLE/MAZARROTH/ZODIAC
THE NEW JERUSALEM STANDARD MEASUREMENT IS "18"
HER 12-EDGED PERIMETER (AS A CUBE) IS 12,000
FURLONGS ON ONE EDGE - 1 FURLONG = 660' - 12,000 * 660' =
7,920,000'/5280' (IN ONE MILE) = 1,500 MILES x 12 EDGES =
18,000 MILES OR 7,920,000' x 12 EDGES = 95,040,000' - THERE
ARE 95,040,000 MILES (AT APOGEE) BETWEEN
EARTH AND SUN

You will notice that the Bose/Andrews platform is confined to the 8 by 8 (64) square (i.e., the "crisscrossed-at-the-corners square") – they have not envisioned the two larger square perimeters beyond wherein the largest rhombus acts as the backdrop of the 8 x 8 square, making the Sun-Star octagonal in design – the rhombus makes it possible to place additional larger squares and circles (2 full 26.4' x 26.4' squares beyond the 8 x 8 square) which reach to the extremities/points of the largest rhombus which is clearly seen "behind" the "crisscrossed 8x8 square." All circles therein formed are within six squares.

Bose/Andrews Sun-Star
Rendering
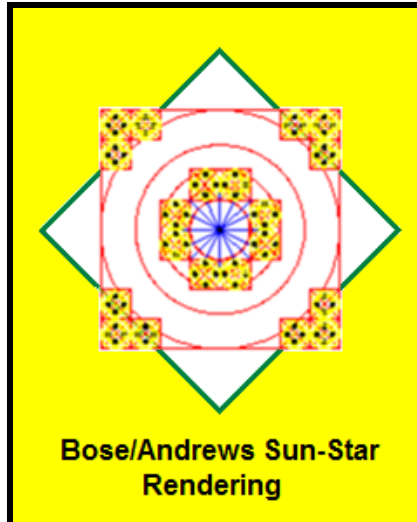

Who Done it?

Resolving the mystery of the purpose of the Sun-Star at the close of this age – after so long a time (even Maria Reiche suggests beyond 1000 BC) – is the formidable challenge; yet, a challenge we affirm will be surmounted as we delve into the intricacies of this priceless antiquity etched upon the surface of the Earth. We're not saying "who done it" but we're saying its geometry clearly reveals a marvelous picture of heavenly realities – whoever did it!

Ancient Phoenicians with Hebrew partners from the time of Hiram, King of Tyre (for Solomon's Temple was constructed around 970-964 BC), may have journeyed to this site in search of gold and silver in massive 200' vessels (which date back four millennium BC) or the antediluvian sons of Seth may have journeyed here prior to the "breaking up of the deep" – both being familiar with these markings and measurements . . . but, again, we join the hosts who conjecture to whom belong these inscriptions? – Whereas, the question abides: Who will join us in declaring their wonderment?

Yes, "focusing and vergence" into this geometric *autostereogram* has occurred…consider and see for yourself if you cannot make out her features….for immediately, the dimensions of the 12 x 12 miniature squares whose dimensions are easily calculated at 26.4' by 26.4' are the precise "fractal" dimensions of the heavenly City, New Jerusalem, found in Revelation 21:16-17:

With this brevity behind us – may we, once again, highlight some (surely not all) of the profound meaning of these redundancies – the "Number sets which constitute the New Jerusalem Matrix" – which time and again draw attention to their divine purpose which lies within our grasp – i.e., these calculations and numeric marvels are meant to be understood – apprehended – by humankind for our admonition and instruction; to wit:

Divine Number Sets – But a Few

3 (the Triune God); 6 (man, created on the sixth day); 7 (perfection); 8 (new beginning, life, resurrection; 9 (the "Ninth Ray" – the Sun of Righteousness); 12 (the dominant duodecimal of the New Jerusalem); 15 (the edge of the New Jerusalem's 1,500 miles); 18 (the New Jerusalem Standard of Measurement found in its 12-edged cubed 18,000 miles); 24 (divine governance as in the 12 + 12 = 24 elders of the New Jerusalem); 27 (Messiah Revealed as in the 27 text of Christian Sacred Texts – i.e., the New Testament); 30 (Messiah's age at the commencement of ministry; (33) Messiah "cut off" at age 33; 36 (the Eternal God as in a 360 degree circle – without beginning or ending); 45 (Second Coming of Messiah as in the 45 days between 1,290 days of desolation and 1,335 days of blessing – Daniel 12:11-12).

Also: 49 (the Work of the Spirit 7 * 7 = 49 and Zechariah 4); 51 (full revelation of God/Messiah in Sacred Text – Hebrew (24) and Christian (27) = 24 + 27 = 51); 52 (weeks in a year); 54 (as in 5040 = Plato's Optimal Number of Societal Harmony or ultimate peace and justice under Messiah for humankind); 62 (as in 62 weeks – Messiah "cut off" – Daniel 9:26); 63 – ultimately 6 * 3 = 18 and 6 + 3 = 9; 66 (length of a furlong as in 660'); 69 (the sixty-nine weeks of Daniel's prophecy; 70 (the seventy weeks of Daniel's prophecy); 72 (the Name of God); 75 (the 75 days of found in Daniel 12 – 30 days of desolation + 45 days of blessing = 75 = the Sun of Righteousness 'Arising'"); 77 (perfection of perfection); 81 (8 + 1 = 9 = Sun of Righteousness as 8 (new beginning) and as 1 = Divinity); 99 (as in the Full Manifestation of the Sun of Righteousness)– and as time perhaps we will perhaps highlight others like 144, 216, 432, 528, 756, 792, 864, 954, 1080, 3960, etc.

However, the "Messianic" calculations are more pronounced in the Palpa Sun-Star – for since the 27 Sacred Texts of Christian Scripture wholly identify the full revelation of the Messiah – i.e., the "27" repeatedly bestows His impress upon the Sun-Star in that each and every miniature of the 144 (1 + 4 + 4 = 9) squares brings to light that, though it be small, yet its measurements reflect the New Jerusalem.

Introduction to Sun-Star Metrologies:

After awhile, in that the abundance of "proofs" to these divine dimensions is so incredibly redundant, the skeptical – as well as brethren well-meaning – will fondly express their innate disgust with these configurations and determine that they are simply "there" and however you wish to interpret them is simply left to one's own fancy and prejudice – "You can make anything somehow relate to what you want it to relate to… you can prove anything you wish by numbers" – the so-called critic is wont to "objectively pontificate" – since they are so well-aware of these matters of astronomy and the occult, let alone religious inquiry and the like –

therefore, their "objectivity" is, unsurprisingly, rife with bogus intellectual drivel having little or no substance…examining these facts and deciphering their accountability would be the preferred approach – rather than sticking one's nose in the air and wishing these absolutes had no meaning whatsoever … that way we could simply be done with it and move on to the more understandable things of life – thereby confirming their own ignorance and lack of inquiry in the first place!

The believer, on the other hand, finds disgust in apparent compromise by well-meaning brethren (me) who are "fooling around" with the "doctrine of demons" when they should be about the gospel's prime message – and worse, to find credibility of spiritual merit with anything having to do with the Sacred Geometry community is "ganz verboten" – a surefire way of catching spiritual leprosy if there ever were one!

Sorry – I am dumbfounded by this sort of intellectually obscene expression of proprietary wisdom having little to do with the objective facts of the matter and their immensely spiritual ramifications having to do with the very purposes of God Almighty.

Saying that perhaps "faith" must somehow take hold of us and that such "proofs" are purely coincidental or prejudicial and worthless surmisings – at best, stupefying happenstance – which ultimately succumbs to "pure faith" (whatever that is), is naught but a refusal to allow the Universal Mind that put all of this together to dwell in "unapproachable ambiguity" and suggest that by claiming the "high ground" of so-called "faith" makes the Designer and ultimate Geometer without reason and scientific scruples or both of us, the human and divine.

No – a thousand times NO – reason, understanding and wisdom do not obviate faith – they confirm it … unless, of course, one wishes to dwell in their own ivory tower of intellectual wisdom achieved by their much learning and leave us with our childish faith – since, to them, God is beyond comprehension in any event, so why bother – after all, evolution and a host of other "disciplines" just "are" – don't try to make "sense" of the facts – and so, the moronic twits who reason in these matters, like thousands of lemmings, march to the sea, fully assured of their own safety and gravitational certainty – confirmed that the Purposes of God were never meant for the creature to comprehend – dare you go any further to probe the inane depth of such a foolish statement and then claim that "faith" is your only recourse?

And, "horrors devour" (a play on words - French for *hors d'oeuvres*), isn't "faith" nothing more than a system of manipulation – a means whereby religion controls people? But of course, and certainly the objectivity of science has no hidden agenda whereby its "clergy" of brainiacs have no intention, not only to do the very same, but have so much pleasure in doing so! After all – we've got to keep them

government grants flowing into our "research" – deprecating or at least wholly separating science from religion is a safe bet to keep the barbarian hoards of religious bigotry from playing with our funding…yes, whoever thought that one up is truly found among the brainiacs!

I wish you well – but for them who affirm that the Almighty has given us a multitude of gifts, as well as a brain, including and foremost His Word, and confirmed them throughout His Earth in a host of, in this case, antiquities – then follow me…we're having too much fun in this discovery!

THE MYSTERY OF THE 144-SQUARE PLATFORM/LARGE PERIMETER SQUARES, RHOMBI/TRIANGLES AND THE CIRCLES

We have observed in our deliberations that there are 6 circles, 6 larger squares (in this section we will discuss) and there are 6 rhombi "allowed in the Sun-Star" – or 6 + 6 + 6 = "**18**!" This is a rather obvious but heretofore unseen geometric reality of the Sun-Star and most noteworthy.

Likewise, we have discovered that **18** x **144** = **2592** and that this 2592 is a fractal of the 25,920 years of the Great Precessional or the Mazzaroth/Zodiac mentioned in Job 28:32. That the designers of the Peruvian Sun-Star had the Zodiac/Mazzaroth in view when they designed it, we are left only to surmise…it would appear that they did – but, go ahead, criticize this conjecture if you would; however, it is not beyond the pale of human reason.

We will now discuss the six large squares (**with a review/intro. of the 144 squares**) – their length, area, numbers in each square, their cubic measurements and the "cubed 12-edge" measurements and their inter-relatedness.

Also – since the six large squares are made up of 144 squares, we instantly recognize that the 144 triangles created by the six rhombi insofar as "objects" concern (i.e., squares vs. triangles) are comparable/exact in number of objects and that 144 + 144 = 288 and 2 + 8 + 8 = "18" and that together they constitute the "18" New Jerusalem Standard of Measurement.

THE SMALLEST SQUARE – ONE OF THE 144 SQUARES
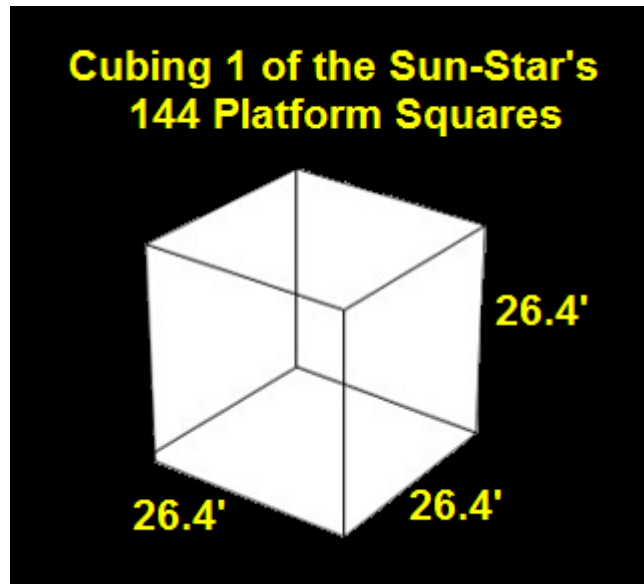

Linear Measurements in Feet and Inches
We must first calculate each smaller square of the 144
Total smaller squares: 144
Each Smaller Square of the 144's in length/height/width = 26.4' (one edge)
26.4' = 2 + 6 + 4 = "**12**" – The "Duodecimal System" dominates
"12" is one of the Two Cardinal Numbers of the New Jerusalem (7 the other)
In Inches: 26.4' * 12" = 316.8" = 3 + 1 + 6 + 8 = "**18**"
Perimeter of a small 144 square = 26.4' x 4 = 105.6' = 1 + 5 + 6 = **12**
In Inches: 105.6' * 12" = 1,267.2" = **18** New Jerusalem Standard
Cubing one of the 144 squares
Perimeter of 12 Edges of one Small Cube/Square in Feet/Inches
105.6' (4 edges) * 3 (12 edges) = 316.8' = 3 + 1 + 6 + 8 = **18** New Jerusalem
Please Note: 3168 is a fractal of the four-square perimeter of the New Jerusalem
as in…12,000 furlongs * 660' (one furlong) = 7,920,000' * 4 = 31,680,000' or
3168
In Inches: 316.8' * 12" = 3,801.6" = 3 + 8 + 1 + 6 = **18** New Jerusalem

Area of one Small Cube/Square
One Face: 26.4' * 26.4' = 696.96 sq. feet = 6 + 9 + 6 + 9 + 6 = **36** Eternal God
696.96 sq. feet * 144 (sq. in. in 1 sq. ft.) = 10,362.24 sq. in. = **18** New Jerusalem
Six-Faced Cube: 696.96 sq. feet * 6 (faces – full sm. Sq. area)= 4,181.76 sq. feet =
4 + 1 + 8 + 1 + 7 + 6 = **27** = Messiah Revealed in 27 Sacred Christian Text
In Inches: 4,181.76 sq. ft. * 144 sq. in. = 602,173.44 sq. in. (6 faces) =
27 Messiah Revealed

Volume/Capacity/Cubic Measurement of 1 of the 144 Squares
26.4' x 26.4' x 26.4' = 18,399.744 Cubic Feet in One of 144 Squares
1 + 8 + 3 + 9 + 9 + 7 + 4 + 4 = **45** = Second Coming of Messiah
(12x12x12=1,728 cubic inches in 1 cubic foot)
18,399.744 Cubic Feet * 1,728 Cu. In. = 31,742,917.632 Cubic Inches
3 + 1 + 7 + 4 + 2 + 9 + 1 + 7 + 6 + 3 + 2 = **45** Second Coming of Messiah

Conclusion:
1 of 144 Squares Whose Edge is 26.4'….
12, 18, 27, 36, 45 Dominates Each and Every one of the 144 Squares
The Dominance of "12" and the 18 of the New Jerusalem as well as
Messiah Revealed (27) and His Coming Again (45) with the
Eternal God (36) over All – indeed…

Diagonals of the Smallest 26.4' x 26.4' Square
37.224' = **18** = New Jerusalem Standard of Measurement
In Inches: 37.224' * 12 = 446.688" = **36** = the Eternal God and
1 + 8 = **9** and 3 + 6 = **9** = Sun of Righteousness
"Crisscrossed Diagonals" (typical of the Sun-Star) = 37.224' * 2 = 74,448' = **27** =
Messiah Revealed or 2 + 7 = **9** Sun of Righteousness
In Inches: 74,448' * 12 = 893.376" = **36** = the Eternal God
3 + 6 = **9** = Sun of Righteousness
27 + 36 = **63** = 6 + 3 = 9 = Sun of Righteousness
Cubed-Three Dimensional Crisscrossing (4 each diagonals)
74,448' * 2 = 148,896' = **36** = Eternal God or 3 + 6 = **9** = Sun of Righteousness
In Inches: 148,896' * 12 = 1,786,752" = **36** = Eternal God or 3 + 6 = **9** = Sun of
Righteousness

Again, below we capture in "skeleton form" all "18" of the 6 Circles, 6 Larger
Squares and 6 Rhombi and the "144 square platform" of the Sun-Star:

SUN-STAR OF PERU
18 OBJECTS ON 144 SQUARES

SUN STAR OF PERU - SHOWING ITS 6 CONCENTRIC CIRCLES AND 6 LARGER SQUARES AND THE 6 RHOMBI ON HER 144 SQUARE PLATFORM OR 6 + 6 + 6 = 18 OBJECTS
18 * 144 = 2592 = FRACTAL OF THE 25,920 YEARS OF THE GREAT PRECESSIONAL CYCLE/MAZARROTH/ZODIAC
THE NEW JERUSALEM STANDARD MEASUREMENT IS "18"
HER 12-EDGED PERIMETER (AS A CUBE) IS 12,000 FURLONGS ON ONE EDGE - 1 FURLONG = 660' - 12,000 * 660' = 7,920,000'/5280' (IN ONE MILE) = 1,500 MILES x 12 EDGES = 18,000 MILES OR 7,920,000' x 12 EDGES = 95,040,000' - THERE ARE 95,040,000 MILES (AT APOGEE) BETWEEN EARTH AND SUN

As one can readily observe – the intricacies of the Palpa Sun-star when "expanded to its logical geometric extensions" – i.e., upon a platform of 144 squares, each with dimensions of 26.4' x 26.4' and 12 x 12 such square blocks on each side of the platform – the initial and observable circles (some say two, others three and some say even four) and the initial and observable rhombi (again, some say two, some say three, etc.) and the observable "larger squares" – especially, the 'crisscrossed ones" (again, some say two, some three and some four perimeter type "larger squares") – along with commensurate triangles and a multiplicity of polygons – makes the Peruvian Sun-Star a kaleidoscope of fascinating objects all wrapped into one stunning geometric configuration – utterly superb in its "design potential" both "as it" and its logical geometric extrapolations.

I would most definitely challenge the artist – and certainly the national Peruvian artists to take paint brush in hand and "have at it" – the people of the world – but assuredly Peru – should make this a most exquisite piece of art in every way!
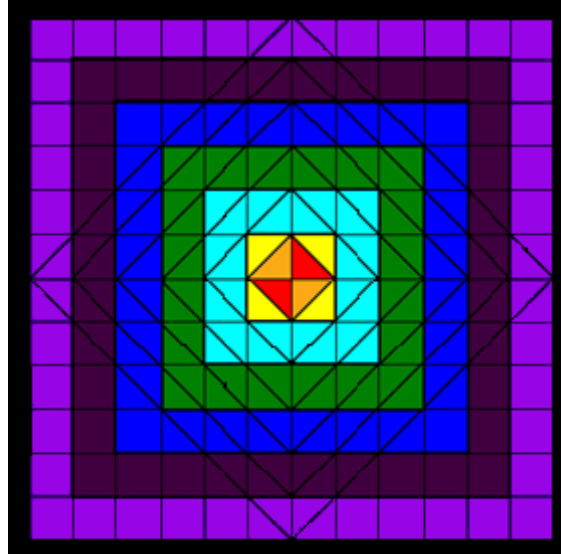

SQUARE #1 – THE PERIMETER SQUARE
Largest of the Six Squares in Measurements - Violet
(Note: some Redundancies in this Square's Description/Calculations – we will
commence, however, from the "outside working to within" on the Larger Squares)
Overall Length/Width/Height per Lg. Edge: 12 (smaller squares) * 26.4' (each) =
316.8' (one edge of the Largest of the 6 Larger Squares)
316.8' = 3 + 1 + 6 + 8 = **18** New Jerusalem Standard
In Inches: 316.8' * 12" = 3,801.6" = 18 = New Jerusalem Standard
NOTE: 16 Triangles are created upon the Largest Rhombus (4 at each tip point)
…as the Rhombus moves across the Sixth and Largest of the Squares
16 * 180° = 2,880° = 18 = New Jerusalem Standard of Measurement
2 + 8 + 8 = 18

PERIMETER/LINEAR MEASUREMENTS
44 Small Squares make up the Largest Square Perimeter (Violet Color)
12 Small Squares on each edge of the Largest Square
12 * 44 = **528**
5 + 2 + 8 = **15** = The One Edge (1,500 miles) of the New Jerusalem
528 is a fractal of 5,280 feet in one mile
316.8' * 4 Edges/4-Square of the Largest of the 6 Large Squares = 1,267.2'
1 + 2 + 6 + 7 + 2 = **18** = Standard of the New Jerusalem
In Inches: 1,267.2' * 12" = 15,206.4 = **18** New Jerusalem Standard
Cubed Perimeter
1,267.2' * 3 (12 Edges) = 3,801.6' = **18**
3 + 8 + 1 + 6 = 18 New Jerusalem Standard of Measurement
In Inches/Cubed (12 Edges) = 3,801.6' * 12" = 45,619.2" = **27**
4 + 5 + 6 + 1 + 9 + 2 = 27 = Messiah Revealed in the New Jerusalem
18 + 27 = 45 = 45 Days of Blessedness – Daniel 12 – unto the 1,335th Day
45 = "Sun of Righteousness Arising" – Second Coming & 4 + 5 = 9 Sun of R.

AREA
(Note: All Small Squares within the Largest of the Six Squares Constitute
Participation in the Largest Square – i.e. Largest Square has 144 Small Squares
316.8' * 316.8' = 100,362.24 sq. feet = **18** New Jerusalem Standard (one face)
Cubed: 18 * 6 Faces of a Cube = 108 = "**18**" New Jerusalem Standard
100,362.24 sq. feet * 144 sq. inches (144 sq. in. in 1 sq. ft.) =
14,452,162.56 sq. inches (one face) = **36** = the Eternal God
36 * 6 (six faces of a cube) = **216** = The Name of God (six faces of a cube)
216 is a fractal of the Moon's Diameter of 2160 Miles
216 is a fractal of the Grand Precessional's $1/12^{th}$ or 2,160 years = 1/12
216 is a fractal of the 21,600 Circumference of Nautical Earth in Miles
2 + 1 + 6 = **9** = the "Ninth Ray*" or the Sun of Righteousness
100,362.24 sq. ft. * 6 (cubed faces) = 602,173.26 sq. ft. (6 faces largest square)
6 + 2 + 1 + 7 + 3 + 2 + 6 = **27** = Messiah Revealed
602,173.26 sq. ft. * 144 (sq. inches in sq. ft.) = 86,712,949.44 sq. inches
8 + 6 + 7 + 1 + 2 + 9 + 4 + 9 + 4 + 4 = **54** = Optimal Number of Harmony
5 + 4 = **9** = Ninth Ray or Sun of Righteousness
*The NINTH RAY highlights the "9" of the Sun of Righteousness – the phrase
was popularized by the Edgar Rice Burroughs Novel/Film John Carter – the "rays"
are connected to the sun – they are colorful…

VOLUME/CAPACITY
Measures Entire Volume of Cubed 144 Small Squares within the Largest Square
316.8' * 316.8' * 316.8' = 31,794,757.632 Cubic Feet
3 + 1 + 7 + 9 + 4 + 7 + 5 + 7 + 6 + 3 + 2 = 54
54 = Optimal Number of Harmony
5 + 4 = **9** = Ninth Ray or Sun of Righteousness
1,728 sq. inches in one sq. ft.
31,794,757.632 cubic feet * 1,728 sq. inches = 54,941,341,188.096 cu. ins.
5 + 4 + 9 + 4 + 1 + 3 + 4 + 1 + 1 + 8 + 8 + 9 + 6 = **63**
6 + 3 = **9** = Sun of Righteousness – "Fullness of the Sun Star"
6 * 3 = **18** – "Fullness of the New Jerusalem"
18 + 9 = **27** – "Fullness of Messiah Revealed"

DIAGONAL MEASUREMENT
The 12 x 12 (perimeter square) is 12ea. 37.224' diagonals per each small 26.4' sq.
37.224' * 12 (one diagonal through entire Sun-Star) = 446.688' = **36** = Eternal God
3 + 6 = **9** = Sun of Righteousness
In Inches: 446.688' * 12 = 5,360.256" = **27** = Messiah Revealed
"Crisscrossing of the Diagonals" = 446.688' * 2 = 893.376' = **36** = Eternal God
Cubing of the Diagonals = 446.688' * 4 = 1,786.752' = **36** = Eternal God
36 + 36 + 36 = 108 = **18** = New Jerusalem and all = "**9**" Sun of Righteousness
In Inches: 5,360.256" * 2 =410,720.512" = **18** = New Jerusalem Std. of Measure.

Cubed Diagonals in Largest Perimeter Square = 10,720.512" * 2 = 21,441.024" = **18** = New Jerusalem Standard of Measurement – 1 + 8 = **9** = Sun of Righteousness

Conclusion:
9 = Ninth Ray/Sun of Righteousness…15 = One Edge of the New Jerusalem
18 = Standard of the New Jerusalem…27 = Messiah Revealed
36 = the Eternal God…54 = Harmony of Humankind
144 = Wall of the New Jerusalem
63 = 6*3 = 18 and 6+3 = 9
216 = the Name of God…528 = One Mile and "18" New Jerusalem
The "Exterior Square" – the Sun-Star's Largest, exudes the Spiritual Dimension's
of the New Jerusalem

OTHER INFORMATION THE 144 SQUARES/LARGEST SQUARE

LARGE SQUARE MADE FROM THE 144 SMALL SQUARES (12 x 12 SQUARES) PERIMETER

Palpa Sun-Star: 12 x 12 Miniature Squares = 144 * 6 (faces of a cube) = **864**
New Jerusalem 12,000 furlongs (one edge) or 12 = 12 x 12 = **144** * 6 faces of a cube = 864 (dropping the zero in 12,~~000~~)
Sun's Diameter = 864,~~000~~ miles
The Wall of the New Jerusalem Measures: 144 Cubits ([Revelation 21:17](#))
Palpa Sun-Star: 26.4 feet * 12" = 316.8 inches (one small square)
Palpa Sun-Star: 26.4 feet * 12 squares/edges = 316.8 feet
Note: 3 + 1 + 6 + 8 = **18** = New Jerusalem Standard of Measurement
Palpa Sun-Star: 316.8 feet (one edge) x 4 = 1,267.2 feet * 3 (cubed) = 3,801.6 feet
1,267.2' and 3,801.6' = "**18**" (each) = New Jerusalem Standard of Measurement
1,267.2' = 1 + 2 + 6 + 7 + 2 = **18** and 3,801.6 = 3 + 8 + 1 + 6 = **18**
New Jerusalem = 12,000 furlongs * 660' (per furlong) = 7,920,000 ft.
7,920,000 ft. * 12 edges of a cube = 95,040,000 feet (Fractal of Distance Earth to Sun at Apogee – 792 = "**18**" and 954 = "**18**")
95,040,000 feet/5,280' (one miles) = 18,000 miles or "**18**" is New Jerusalem
Perimeter of Measurement – the Supreme Measure of Paradise
3168 - 792 – 954 – 528 – 18 = all number sets = "**9**" = Sun of Righteousness
For all equal to 18 which in turn equals to 9 or 1 + 8 = 9

**THE LARGEST SQUARE or SIXTH SQUARE
(Using the 144 Small Squares or 12 x 12)**

316.8 ft. (12 Edge Perimeter/Largest Sq. of each 26.4' x 26.4' sq. cubed)
i.e., 26.4' * 12 (edges of a small cube) = 316.8 ft. (one cubed small sq. block)
316.8 ft. x 144 squares * 144 = 45,619.2' (one layer only)

Note: One Flat Surface – one layer of small sq. cubes
12 layers = 45,619.2' * 12 = 547,430.4 Linear Feet or 1728 Cubed Sm. Blocks
45,619.2' = **27** & 547,430.4' = **27**
27 + 27 = **54** = 5040 = Optimal Number Societal Bliss and…
5 + 4 = **9** = Sun of Righteousness – "The Ninth Ray"
In Inches:
1 Layer = 45,619.2' (144 Cubed/12-edged Blocks) * 12" = 547,430.4" = 27
27 = Messiah Revealed and 2 + 7 = **9** = Sun of Righteousness
547,430.4" * 12 (12 layers) = 6,569,164.8 Linear Inches for 1728 ea. 26.4' by
26.4' by 26.4' small square blocks (cubes) =
65691648 = **45** = Arising/Second Coming of Sun of Righteousness
The 45 Days Between the 1,290 and the 1,335th Day = 45 days
4 + 5 = **9** = Sun of Righteousness (The "Ninth Ray')
456192 = **27** and 5474304 = **27** – "27" is the full Revelation of Messiah
One Layer Cubed = 27 + 12 Layers Cubed = 45 = 27 + 45 = **72**
72 = the Name of God and 7 + 2 = **9** = Sun of Righteousness

Linear Measurements by Cubing the Sun-Star's 144 Squares
(The 12 x 12 largest square – its linear perimeter)

316.8' by 316.8' by 316.8' (length, breadth, height) = 316.8' * 12 Edges **as a**
Large Cube (not as individual small squares but as the 12 by 12 square largest
perimeter square) =
316.8' * 12 Edges (cube) = 3,801.6 Linear Feet
3 + 8 + 1 + 6 = "**18**" = Fractal of the New Jerusalem's 18,000 Mile Perimeter
In Inches:
3,801.6' * 12" = 45,619.2 Linear Inches = **27** = Messiah's Full Revelation in 27
Christian Sacred Text
18 + **27** = **45** = The 45 Days of Daniel 12:11-12 – the Sun of Righteousness
Arising with Healing in His Wings – His Coming in Glory – Great Time of
Blessing for Humankind – the Reign of the Son of David
The Entire "Outward Expression" of the Peruvian Sun-Star is a Perfect
Measurement of the New Jerusalem's Dimensions – "She" is Wrought in Her
Fullness as the Bride (**18**) as Messiah (**27**) Returns (**45**) as the Sun of
Righteousness – "the Woman Clothed with the Sun" – "**9**" – (Revelation 12)
1 + 8 = **9**…2 + 7 = **9**…4 + 5 = **9**…**9** = the Sun of Righteousness

VOLUME MEASUREMENTS OF THE 144 SQUARES

Her Length, Height and Breadth
316.8' (one edge of 12 x 12) * 316.8' * 316.8' = 31,794,757.632 cubic feet = **54**
54 = Perfect Societal Harmony or 5 + 4 = **9** = Sun of Righteousness
In Inches: 31,794,757.632 cu. ft. * 1728 = 54,941,341,188.096 cu. in. = "**63**"

6 + 3 = "**9**" = Sun of Righteousness or 6 * 3 = **18** New Jerusalem Std.

54 + 63 = 117 = 1 + 1 + 7 = **9** = Sun of Righteousness

ALSO:

5040 or "**54**" is Plato's Optimal Number of Harmony and Connotes Universal Justice and Peace – Ultimately found in the New Jerusalem

5040 = Earth and Moon Radii or 3,960 mi. + 1,080 mi. = 5,040 miles

5,040 miles * 5,280 ft. = 26,611,200 ft.

26,611,200 Linear Feet = 2 + 6 + 6 + 1 + 1 + 2 = "**18**" New Jerusalem Standard

In Acres – The Largest/Perimeter Square (the 144 small squares)

316.4' x 316.4' (flat area) = 100,362.24 sq. feet ("**18**" in digits)

100,362.24 sq. feet / 43,560 sq. ft./acre = 2.304 acres (one of 6 faces of a cube)

2 + 3 + 4 = **9** = Sun of Righteousness

2.304 acres * 6 flat side/faces of a cube = 13.824 acres

13.824 = 1 + 3 + 8 + 2 + 4 = "**18**" New Jerusalem Standard of Measurement

2 + 3 + 4 = **9** = Sun of Righteousness as does 1 + 8 = **9**
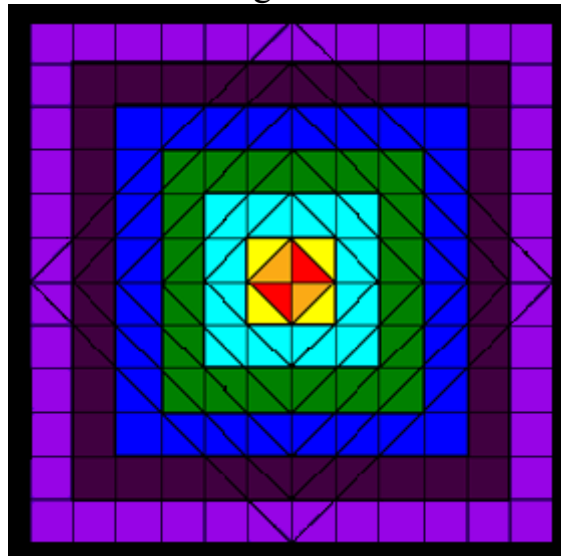

SQUARE #2 – SECOND FROM THE PERIMETER SQUARE
Fifth Largest of the Six Squares in Measurements - Indigo

Second Largest of Six Squares = 36 Squares of the 144 on its Perimeter

36 = the Eternal God as in 360° in a Circle – Without Beginning or Ending

3 + 6 = **9** Amplifies the "Ninth Ray" or the Sun of Righteousness

Total Squares with the 2nd Largest Square = 100

NOTE: 32 Triangles are created upon the Rhombi by the Second Largest Sq.

32 * 180° = 5,760° = **18** = New Jerusalem Standard

PERIMETER

36 Small Squares make up the Second Largest Square

10 Small Squares on each edge of the 2nd Largest Square
10 * 36 = **36**0 = Eternal God
One Edge = 26.4' * 10 = 264' = "**12**"
In Inches (edge) = 264' * 12" = 3,168"
3 + 1 + 6 + 8 = **18** New Jerusalem Standard
3168 = the 3168 of the New Jerusalem's 4-square base
(7,920,000' * 4 or 792 * 4 = 3168)
Perimeter (4 edges) = 264' * 4 = 1056' = **12**
Perimeter in Inches = 1056' * 12" = 12,672 Linear Inches = **18**
1 + 2 + 6 + 7 + 2 = 18 New Jerusalem Standard of Measurement
Perimeter if Cubed = 1056' * 3 (12 edges) = 3,168' = **18** New Jerusalem
3168 = the 3168 of the New Jerusalem's 4-square base
Perimeter if Cubed in Inches = 3,168' * 12" = 38,016 = **18** New Jerusalem Std.

AREA
Flat (one face) = 264' * 264' = 69,696 sq. ft. = **36** Eternal God
Cubed/6 faces = 69,696 sq. ft. * 6 = 418,176 sq. ft. = **27** Messiah Revealed
Acres: 481,176 sq. ft./43,560 sf. = 9.6 Acres = 9 + 6 = **15** = One Edge of the New
Jerusalem (one edge in NJ = 1,500 miles or 15)
Flat (one face) in inches = 69,696 sq. ft. * 144 = 10,036,224 = **18**
18 = New Jerusalem Standard of Measurement
Cubed/6 faces in inches = 10,036,224 * 6 = 60,217,344 sq. inches = **27**
27 = Messiah Revealed in Christian Sacred Text, 27 Volumes

VOLUME/CAPACITY
264' * 264' * 264' = 18,399,744 Cubic Feet = **54**
1 + 8 + 3 + 9 + 9 + 7 + 4 + 4 = 54 Perfect Harmony in Society
18,399,744 Cubic Sq. Feet * 1728 Cubic Inches (1 sq. ft.) =
31,794,757,632 Cubic Inches = **54**
54 = Perfect Societal Harmony
5 + 4 = **9** = Ninth Ray = Sun of Righteousness
54 + 54 = 108 = **18** New Jerusalem Standard of Measurement

DIAGONALS
One Diagonal (flat) 10 * 37.224' = 372.24' = 18 = New Jerusalem Standard
Crisscrossed: 372.24' * 2 = 744.48' = 27 = Messiah Revealed or 2 + 7 = 9 = Sun
of Righteousness
In Inches: 372.24' * 12 = 4,466.88" = 36 = the Eternal God or 3 + 6 = 9 Sun of
Righteousness
Crisscrossed in Inches: 744.48' * 12 = 8,933.76" = 36 = the Eternal God & 9
Cubed Diagonals = 744.48' * 2 = 1,488.96' = 36 the Eternal God & 9
Cubed Diagonals in Inches = 8,933.76" * 2 = 17,867.52" = 36 = the Eternal God/9

9, 12, 18, 27, 36, 54 and 3168 Dominate the 2nd Largest Square
9 = the Ninth Ray/Sun of Righteousness/Center of the Solar System
12 = Duodecimal System of Measurement and 12 is the Dominant Number of New
Jerusalem…18 = Standard of the New Jerusalem…27 = Messiah Revealed
36 = the Eternal God…54 = Perfect Harmony in Society
3168 Mirrors the "4-square base" of the New Jerusalem 3168
(New Jerusalem = 7,920,000' one edge * 4 = 31,680,000' or 3168)
The Second Largest Square of the Sun-Star is wholly given over to Messiah's
Quest as the Sun of Righteousness for His Bride: The New Jerusalem
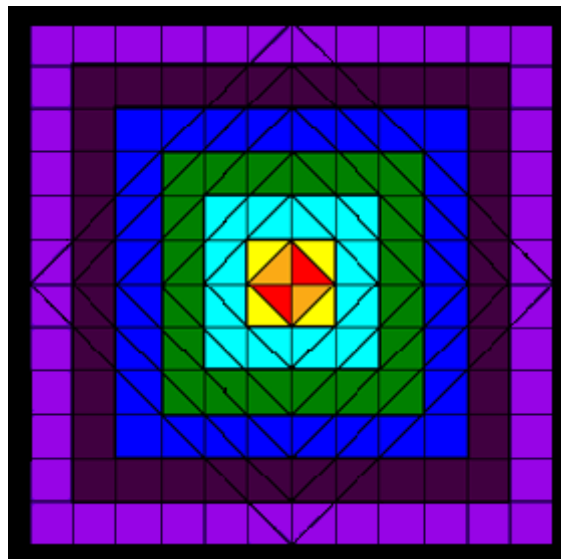

SQUARE #3 – THIRD SQUARE FROM THE PERIMETER SQUARE
Fourth Largest of the Six Squares in Measurements – Blue
(Visible on the Earth by the Naked Eye: THE 8 x 8 SQUARE)

The 8 x 8 Square Sets atop the Largest of the Six Rhombi
Forming the Visible Octagon Shape of the Sun-Star

Now, moving on from the 10 x 10 "Second Square" we move on to the 8 by 8
square and the rhombus in its "background."

Each of the 144 squares forms a backdrop (from point to point) for the two larger
squares overlaid on each other which form an octagon (i.e., there is an 8 x 8 square
with three squares in each of its four corners which are "crisscrossed" and then it
appears to "overlay" a rhombus whose points (4 points) are at 45° and extend in all
four directions two full squares beyond the large square with crisscrossed squares
(3 each) at its corners (the 8 by 8 square).

Sun-Star's Crisscrossed Squares are separated from each other by one diagonal at their corners - 37.224' - eight such connectors are shown in black at their cloest points.

It is critical to note that the smaller squares – due to the crisscrossed squares, both surrounding the innermost square – the Throne Room – and the crisscrossed squares at all four corners of the 8 x 8 square – "proportionately" provide us a wealth of information on the 144 square backdrop of the Sun Star. Because their measurements provide outstanding "fill in" where the other squares and circles, etc., are formed because the crisscrossed squares are so accurately laid out that one can clearly see the formation of other circles, larger squares, rhombi, etc. – for example, one can readily see that between the 8 crisscrossed squares surrounding the Throne Room and the 12 corner squares which are crisscrossed at the corners of the 8 x 8 third large square from the perimeter which sets over the sixth and largest rhombus, that a length of one diagonal separates the crisscrossed squares from each other – i.e., a distance of 37.224 separates the corners of the closest crisscross square in the 8 x 8 corners from the interior 8 crisscrossed squares. This means that additional larger squares, rhombi and circles can easily be drawn or were there at one time.

Also, we come up with another interesting calculation:

8 Diagonal Lengths between the Corner Crisscrossed Squares of the 8 x 8 Square
Separate the Corner Crisscrossed Squares from the 8 Crisscrossed Squares
surrounding the Throne Room – therefore:

8 * 37.224' = 297.792 Linear Feet = **36** = Eternal God
3 + 6 = **9** = Sun of Righteousness
In Inches
8 * 297.792' * 12+ = 3,573.504 Linear Inches = **27** = Messiah Revealed
2 + 7 = **9** = Sun of Righteousness
36 + 27 = **63** = 6 + 3 = **9** = Sun of Righteousness
9 (in feet) + 9 (in inches) = **18** = New Jerusalem Standard of Measurement
NOTE: Repeatedly we are able to see the Sun of Righteousness throughout
The Incredible Peruvian Sun-Star!

Linear Measurements of the 8 by 8 Square (4 square)
28 Small Squares make up the Third Largest & Visible Square – the 8 x 8 Square
8 Small Squares on each edge of this the Third Largest Square
8 * 28 = 224 = 2 + 2 + 4 = "**8**"
8 = New Beginning and the "Essence of the Octagon" – Life – Resurrection
(Also: **There are 8 planets of the solar system + the Sun = "9"**)
8 * 12 Edges (if cubed) = 96 = 9 + 6 = "**15**" – Edge of the New Jerusalem
211.2 ft. * 4 (base edges) = 844.8' = **24** = Divine Governance
8 + 4 + 4 + 8 = 24
12 + 12 = 24 (24 Elders of the New Jerusalem)
Cubed = 844.8' * 3 (12 edges) = 2,534.4 Linear Feet = 18 = New Jerusalem
Standard of Measurement as in 2 + 5 + 3 + 4 + 4 = **18**
In Inches
One Edge of Third Largest Square = 211.2' * 12" = 2,534.4" = **18**
2 + 5 + 3 + 4 + 4 = 18 = New Jerusalem Standard of Measurement
1 + 8 = **9** = Sun of Righteousness
18 * 4 Edges = **72** = the Name of God and 7 + 2 = "9" Sun of Righteousness
NOTE: (Thought: Could Edgar Rice Burroughs have embedded the 7 colors into
the 9 rays of the Sun and kept the "2" colors ambiguous on purpose, thereby
arriving at the 72…the Eighth the Octagon, then the Ninth Ray? – See: John
Carter)
844.8' (4 base edges) * 12" = 10,137.6" = "**18**" = New Jerusalem Standard
Cubed = 10,137.6" * 3 (12 edges) = 3,412.8 Linear Inches = **18** = New Jerusalem
Standard of Measurement and 1 + 8 = **9** Sun of Righteousness

Area of the 8 x 8 Square

(Base or one face) = 211.2' * 211.2' = 44,605.44 sq. ft. = **27** = Messiah Revealed
2 + 7 = **9** = Sun of Righteousness
44,605.44 sq. ft. * 6 (cubed) = 267,632.64 sq. ft. = **36** = the Eternal God
3 + 6 = 9 = Sun of Righteousness
27 + 36 = 63 = 6 + 3 = **9** = Sun of Righteousness
27 * 36 = **972** = 9 + 7 + 2 = "**18**" New Jerusalem Standard of Measurement

972 = 9072' = 972 or the Cubed 12-Edged Perimeter of the Great Pyramid of Giza
(756' (GPG base x 12 edges = 9,072 Linear Feet)
In Inches
One face of cube in inches: 44,605.44 sq. ft. * 144 = 6,423,183.36 sq. in. = **36** =
the Eternal God as in 360° Circle without Beginning or Ending
3 + 6 = **9** = Sun of Righteousness – the NINTH RAY
Note: When you see the Lamb on the Throne you see God on the Throne – 36 = 9
Both are Distinct but They are ONE
6,423,183.36 sq. in. * 6 (6 faces of a cube) = 38,539,100.16 sq. in. = **36** = Eternal
God and 3 + 6 = **9** = Sun of Righteousness
(Note: 36 + 9 = **45** = Sun of Righteousness ARISING – 2nd Coming of Messiah)

Acreage in the 8 x 8 Square

267,632.64 sq. feet (6 faces) / 43,560 sq. ft. = 6.144 acres
6 and **144** = Man (6) built into the Wall of the New Jerusalem (144)
6 + 1 + 4 + 4 = **15** and "15" equals one edge/wall of the New Jerusalem
New Jerusalem Wall = 12,000 furlongs * 660' = 7,920,000 linear feet
7,920,000 linear feet / 5,280' (one mile) = 1,500 miles = 15
"15" = the Wall of the New Jerusalem – One Edge
26763264 = "**36**" – The Eternal God as in a 360° with No Beginning or ending
(Note: First "Visible" Circle of the Sun-Star enclosed in this 8 x 8 Square)

Cubic Measurements/Volume/Capacity of 8 x 8 Square

211.2' * 211.2' * 211.2' = 9,420,668.928 cubic feet = **54**
9 + 4 + 2 + 6 + 6 + 8 + 9 + 2 + 8 = 54 = Perfect Societal Harmony
5 + 4 = **9** = "Through" the Sun of Righteousness
9,420,668.928 Cu. Ft. * 1,728 sq. inches (1 sq. ft.) = 16,278,915,907.584 cu. in.
16,278,915,907.584 Cubic Inches = "**72**" = the Name of God
7 + 2 = **9** = The Sun of Righteousness
54 + 72 = 126 = 1 + 2 + 6 = **9** = Sun of Righteousness
"126" = 6 * 6 * 6 = **126** = a "perfect hexagon number"

Diagonals Measurements of the 8 x 8 Square
There are 8 Diagonals within the 26.4' Squares Across the 8 x 8 – therefore:
8 * 37.224' = 297.792' = **36** Eternal God
Also: Two Sets of "18" as in 297 = 18 and 792 = **18**
18 = New Jerusalem Standard of Measurement or 1 + 8 = 9 and 1 + 8 = 9 or 9 * 9
= 81 or 9 + 9 = 18 = All Measurement Combinations point to the New Jerusalem
And to the Sun of Righteousness (**9**)
Crisscrossed Diagonals in the 8 x 8 Square = 297.792' * 2 = 595.584' = **36** = the
Eternal God or 3 + 6 = 9 = Sun of Righteousness

Cubed Diagonals (4 each) = 595.585' * 2 = 1,191.168' = **27** = Messiah Revealed
Or 2 + 7 = **9** = Sun of Righteousness
In Inches: 297.792' * 12 = 3,573,504" = **27** = Messiah Revealed
2 + 7 = **9** = Sun of Righteousness
Crisscrossed Diagonals for the 5 x 5 Square in Inches = 3,573,504" * 2 =
7,147,008" = **27** = Messiah Revealed or 2 + 7 = **9** = Sun of Righteousness
Cubed in Inches: 7,147,008" * 2 = 14,294,016" = **27** = Messiah Revealed or
2 + 7 = **9** = Sun of Righteousness

One more glaring profundity of the 8 x 8 Square…All of the immediately-above calculations can be calculated as "small squares" as in:

The 8 by 8 Squares Only – Measurement of 64 Squares Only

8 x 8 squares (visible square – crisscrossed corners) = 64
64 * 6 (faces of a cube) = 384 "small squares" (area of larger/visible square)
384 = "**15**" (Wall of the New Jerusalem as in 3 + 8 + 4 = 15

Third Largest of Six Squares (Visible) = 28 Squares of the 144 on its Perimeter
Total Squares Within 3rd Largest Square = 8 * 8 = 64 Squares
64 = 25% of the 144 squares
NOTE: 48 Triangles are created by Third Largest Square over Rhombi
48 * 180° = **8640°** = **18** = New Jerusalem Standard of Measurement
864,000 Miles is the Diameter of the Sun
864 = Sun of Righteousness
NOTE: It is the 8 x 8 Square that Bears the 864 –
Note: In "864" is "8" and "64" – or this 8 x 8 bears 64 or 864
The Sun of Righteousness (864) ARISES in "Newness of Life" (**8**)

CONCLUSION
Note: Most capacities replicate the "9"
(5 + 4 = 9; 7 + 2 = 9; 3 + 6 = 9; 1 + 8 = 9; 2 + 7 = 9; 4 + 5 = 9; 6 + 3 = 9)
The 8 x 8 Square amplifies this mathematical reality!
The "48" Triangles created by the rhombi over this 8 x 8 square = 180° * 48 =
8640° = Fractal of the Sun's 864,000 mile diameter = **864**
8 + 6 + 4 = **18** = Standard of the New Jerusalem Measurement
Likewise: The 48 Triangles created at the corners of the 8 x 8 square DOUBLE
this reality (though the rhombi "duplicate" some – however, standing alone…)
Together: 48 (rhombus triangles) + 48 (crisscross corner triangles) = 96 Triangles
96 * 180° = 17,280° = 1728 = 1 + 7 + 2 + 8 = "**18**" = New Jerusalem Standard
1728 = Number of Cubic Inches in 1 Cubic Foot
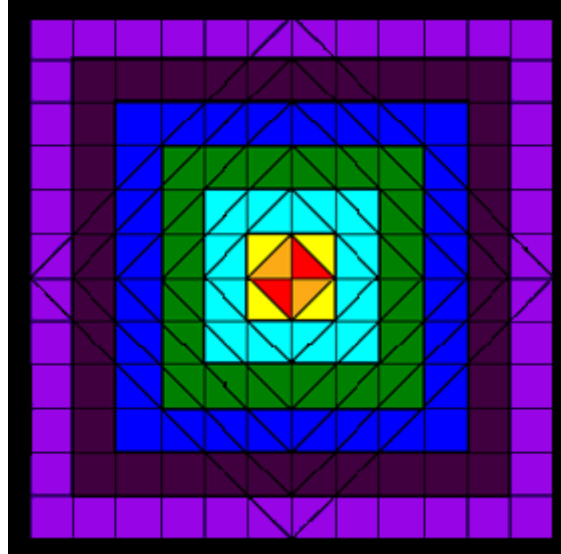

SQUARE #4 – FOURTH SQUARE FROM THE PERIMETER SQUARE
Third Largest of the Six Squares in Measurements – Green
(Visible on the Earth by the Naked Eye – The 6 x 6 Square)

20 Small Squares make up the Third Largest & Visible Square
6 Small Squares on each edge of the 4th Largest Square
6 * 20 = **120 = "12"** =
Duodecimal Dominance of the Sun-Star & New Jerusalem
"5 x 5 Square" has 40 Triangles created by Rhombi @ 180° = 7,200° = **72** = "**9**" =
The Name of God & Sun of Righteousness
72 = 1 Degree of Great Precessional in Years
"120" = the 120 of the Great Sanhedrin and the 120 in the "Upper Room"
12 + 12 = **24** Elders of the New Jerusalem

PERIMETER/LINEAR MEASUREMENTS – the 6 x 6 Square
(Third Largest/Fourth from Perimeter Square)
20 Small Squares make up the Third Largest and Visible Square
6 Small Squares on each edge of the 4th Largest Square
6 * 20 = 120 = "**12**" (See above intro. to this Square)
"Feet"
One Edge = 26.4' * 6 = 158.4' = "**18**" = New Jerusalem Standard
Perimeter (4 edges) of Fourth Largest Square = 18 * 4 = **72** =
Name of God (72) or 7 + 2 = **9** = Sun of Righteousness
If Cubed 18 * 12 (12 edges) = **216** = the Triune God/Name of God…or
2 + 1 + 6 = "**9**" The Sun of Righteousness
Perimeter in Feet = 158.4' * 4 (4 Base Edges) = 633.6' = **18**
6 + 3 + 3 + 6 = 18 = New Jerusalem Standard or
1 + 8 = "**9**" = Sun of Righteousness
If Cubed in Feet: 633.6' * 3 (12 edges) = 1,900.8 Linear Feet
1 + 9 + 8 = **18** = New Jerusalem Standard of Measurement

1 + 8 = "**9**" Sun of Righteousness
One Edge in Inches = 158.4' * 12" = 1,900.8" = **18** New Jerusalem
1 + 8 = **9** = Sun of Righteousness
Perimeter in Inches (4 base edges) = 1,900.8" * 4 = 7,603.2" =
7 + 6 + 3 + 2 = **18** = New Jerusalem Standard of Measurement
1 + 8 = **9** = Sun of Righteousness
Cubed Perimeter in Inches (12 edges) = 7,603.2" * 3 = 22,809.6 Linear Inches
2 + 2 + 8 + 9 + 6 = **27** = Messiah Revealed
2 + 7 = **9** = Sun of Righteousness

AREA

Flat (one face) = 158.4' * 158.4' = 25,090.56 sq. ft. = **27** = Messiah Revealed
Cubed/6 faces = 25,090.56 * 6 = 150,543.36 sq. feet = **27** = Messiah Revealed
(Both = 2 + 7 = 9 = Sun of Righteousness and 27 + 27 = **54** = 5040 =
Societal Harmony through 5 + 4 = **9** = Sun of Righteousness
Flat (one face) in inches = 25,090.56 sq. ft. * 144 = 3,613,040.64 sq. inches =
3 + 6 + 1 + 3 + 4 + 6 + 4 = **18** = New Jerusalem Standard of Measurement
18 * 6 (faces/cubed) = 108 = **18** New Jerusalem Standard + 1 + 8 =
Sun of Righteousness = **9**
Cubed/6 faces in Inches = 3,613,040.64 sq. inches * 6 (faces) =
21,678,243.84 square inches
2 + 1 + 6 + 7 + 8 + 2 + 4 + 3 + 8 + 4 = **45** = Second Coming of Messiah
4 + 5 = Sun of Righteousness Arising on the Great Day of God
45 + 9 = **54** = 5040 Perfect Societal Harmony and 5 + 4 = **9** Sun of Righteousness
Acres/6 Faces/in Feet = 150,543.36 sq. feet/43,560 sq. ft. (1 acre) = 3.456 Acres =
3 + 4 + 5 + 6 = 18 = New Jerusalem Standard of Measurement

VOLUME/CAPACITY

158.4' * 158.4' * 158.4' = 3,974,344.704 Cubic Feet = **45**
45 = Second Coming of Messiah in Glory – Sun of Righteousness Arising
4 + 5 = **9** = Sun of Righteousness
3,974,344.704 Cu. Ft. * 1728 (Cubic In. in 1 sq. ft.) =
6,867,667,648.512 Cubic Inches = **72** = Name of God
72 years = 1° of Great Precessional's 25,920 Year Cycle
7 + 2 = **9** = Sun of Righteousness

DIAGONAL MEASUREMENTS OF 6 x 6 SQUARE

6 Diagonals within the small 26.4' Sqs. = 6 * 37.224' = 223.344' = **18** = New
Jerusalem Standard of Measurement or 1 + 8 = "**9**" = Sun of Righteousness
Crisscross Diagonals 223.344' * 2 = 446.688' = **36** = the Eternal God
3 + 6 = 9 = Sun of Righteousness
Cubed Diagonals of the 6 x 6 Square: 446.688' * 2 = 893.376' = **36** the Eternal
God or 3 + 6 = **9** = Sun of Righteousness

5 x 5 Square Diagonal Measurements in Inches:
223.344' * 12 = 2,680.128" = **27** = Messiah Revealed or 2 + 7 = **9** = Sun of
Righteousness
Crisscrossed Diagonals in 5 x 5 Square in Inches: 2,680.128" * 2 = 5,360.256" =
27 = Messiah Revealed or 2 + 7 = **9** = Sun of Righteousness
Cubed Diagonals in 5 x 5 Square in Inches: 5,360.256" * 2 = 10,720.512" = **18** =
New Jerusalem Standard of Measurement or 1 + 8 = **9** = Sun of Righteousness

CONCLUSION
The Fourth Largest Square (Visible upon the Earth) Displays EIGHT
Prominent Number Sets: 9, 12, 18, 27, 45, 54, 72, and 216 and together their sum
is equal to 453 = "12" – here again the "7" and "12" of the New Jerusalem are
prominently display and bespeak of perfection and the duodecimal system
designed for true Sacred Geometry is at its maximum capacity when used in these
Sun-Star calculations
The DOMINANCE of the Sun-Star is the Sun of Righteousness and His New
Jerusalem – the Overwhelming SUMMATION to "9" Staggers the Geometer!

May I briefly interject – I am wholly cognizant of the fact that I will take a whole
lot of flack by associating the Sun-Star with the film entitled "John Carter" and its
"Ninth Ray" and the Sun of Righteousness all in one breath – but, be that as it may,
such are the vicissitudes of the prophetic. The glaring fact of "eight beams"
connected to the eight squares – as we come to the 4 x 4 Square (second to the
innermost square) - in such an overt manner – displaying both the "eight primary
colors" and displaying the Sun's association with the eight solar planets – upon the
Sun Star of Peru and linking them to the mysterious and yet undisclosed reasoning
behind Edgar Rice Burroughs's John Carter and the "Ninth Ray" whose oxygen
gives life to the other colors (with the eighth color being somewhat ambiguous and
yet undisclosed in hue)…places my writings either into orbit or beyond the pale of
theological sobriety – I mean, after all, aren't you carrying these metaphors a bit
too far?

Hogwash! The Almighty is doing everything possible to transmit to these
"earthlings" – whose quest for worldly habitat seems inexhaustible – that reality of
Life worth living by all means – including the Sun Star of Peru and even its strange
counterpart in John Carter of the Ninth Ray. When you're missing the "9" you're
missing it all! Let the "Sun of Righteousness" now shine upon and into you for…

THE "NINTH RAY" OR "9" IN THE EDGAR RICE BURROUGHS' FILM "JOHN CARTER" HAS A STRIKING "SPOKE" SIMILARITY TO THE SUN-STAR OF PERU'S EIGHT + ONE = 9 SUN STAR BEAMS - WE'VE CAPTURED THE EIGHT SPOKES/PRIMARY COLORS AND AFFIRM THEY ARE THE EIGHT PLANETS OF THE SOLAR SYSTEM WITH THE "SUN OF RIGHTEOUSNESS" AS THE "NINTH RAY" OR THE CENTRAL FOCUS OF THE SUN STAR OF PERU (Note the 8 beams come from the center with the "Ninth Ray" center "in the midst" of the eight rays - is the mystery solved? "The Sun of Righteousness shall arise with healing in His wrings" (Malachi 4:2)

". . . He was transfigured before them. His face shone like the SUN, and His clothes became as white as the light…But if our gospel is veiled, it is veiled to those who are perishing, whose minds the god of this age has blinded, who do not believe, lest the light of the gospel of the glory of Christ, who is the image of God, should shine on them…for it is the God who commanded light to shine out of darkness, who has shone in our hearts to give the light of the knowledge of the glory of God in the face of Jesus Christ" (Matthew 17:2; II Corinthians 4:3-4, 6)

I'm not sorry to vent my frustrations upon those whose imagination lacks the Creator's desire to communicate His longing for the Sun of Righteousness – that God and Man may be eternally wed through the Bridegroom – the Son – with His Bride, the New Jerusalem. THESE are the dimensions of Paradise to which all other measurements, solar system, and primary colors point – everything else is peripheral to the matter at hand – for without the Ninth Ray there is NO LIFE – without the Sun of Righteousness the Sun-Star puzzle remains in utter ambiguity

and meaningless – but with the Ninth Ray, the eight spokes connected to the center of the Sun-Star, making it the Ninth – the whole world comes alive! Now, on to the 4 x 4 square surrounding the innermost square….

SQUARE #5 - FIFTH SQUARE FROM THE PERIMETER SQUARE
The 4 x 4 Square

12 Small Squares make up the Perimeter 4 x 4 Square – Second Square from the Innermost Square
4 Squares on Each Edge of the 4 x 4 Square
$4 * 12 = 48 = 4 + 8 +$ "**12**" Dominant Number of the New Jerusalem
Triangles Created by the 4 x 4 Square = **24**
24 = Divine Governance
$24 * 180° = 4,320° = 4 + 3 + 2 =$ "**9**" = Sun of Righteousness

PERIMETER
"Feet"
One Edge = 26.4' * 4 = 105.6' = "**12**" = Dominant Number of New Jerusalem
Perimeter (4 edges) of Fifth Square from Perimeter to Center = 105.6' * 4 = 422.4'
422.4' = "**12**" = Dominant Number of New Jerusalem
12 (edge) + 12 (4 edges) = **24** = Divine Governance
If Cubed: 105.6' * 12 (edges) = 1,267.2 Linear Feet = **18** = New Jerusalem Std.
1 + 2 + 6 + 7 + 2 = 18 = New Jerusalem Standard of Measurement
"Inches"
One Edge of the Fifth Square/Second to Center = 105.6' * 12" = 1,267.2" =
1 + 2 + 6 + 7 + 2 = **18** = New Jerusalem Standard of Measure
1 + 8 = **9** = Sun of Righteousness

Perimeter (4 edges) of Fifth Square from Perimeter to Center – 1,267.2" * 4 =
5,068.8 Linear Inch Base = 5 + 6 + 8 + 8 = **27** = Messiah Revealed
2 + 7 = **9** = Sun of Righteousness
Cubed Perimeter in Inches: 5,068.8 Linear Inches * 3 (12 Edges) = 15,206.4 In.
1 + 5 + 2 + 6 + 4 = **18** = New Jerusalem Standard of Measurement
1 + 8 = **9** = Sun of Righteousness

AREA
Flat (one face) = 105.6' * 105.6' = 11,151.36 sq. ft. = **18** = New Jerusalem Std.
Cubed/6 faces = 11,151.36 sq. ft. * 6 (faces) = 66,908.16 sq. ft. = **36** = Eternal God
3 + 6 = 9 and 1 + 8 = 9 and both equal the Sun of Righteousness
Flat (one face in sq. inches) = 11,151.36 sq. ft. * 144 = 1,605,795.84 sq. in. = **45**
45 = Second Coming of Messiah as Sun of Righteousness = 4 + 5 = **9**
9 = Sun of Righteousness Arising in "45" in the Last Days
His Persistence is Noted: 45 * 9 = 405 = 4 + 5 = 9 and 45
Cubed/6 faces in inches = 1,605,795.84 sq. in. * 6 (faces) = 9,634,775.04 sq. in.
9 + 6 + 3 + 4 + 7 + 7 + 5 + 4 = **45** = Second Coming of Messiah as
Sun of Righteousness = 4 + 5 = 9 and **9** = Sun of Righteousness

VOLUME/CAPACITY
105.6' * 105.6' * 105.6' = 1,177,583.616 cubic feet = **45** = Sun of Righteousness
Arising with Healing in His Wings = 4 + 5 = **9** = Sun of Righteousness at His
Coming in Glory = "Blessed is he who waits until the 1,335[th] Day" which is
45 Days beyond the end of the 1,290 days of Desolation = 1335 – 1290 = 45
Cubic Inches = 1,177,583.616 cu. ft. * 1728 (cu. in. 1 ft.) =
2,034,864,488.448 cubic inches = **63** = 6 + 3 = **9** = Sun of Righteousness
The NINTH RAY = With Healing in His Wings

DIAGONALS OF THE 4 x 4 SQUARE
Firstly – the peculiar "crisscross squares" – 2 ea. on North – East – South and West
of the Innermost Square Sides
Each Crisscross Square = 4 Triangles * 8 Crisscross Squares = 32 Triangles * 180°
= 5,760° = 5 + 7 + 6 = **18** = New Jerusalem Standard of Measurement and
1 + 8 = **9** = Sun of Righteousness
Length of all these Crisscrosses = 2 each small 26.4' x 26.4' square =
37.224' * 2 = 74.448' = **27** = Messiah Revealed or 2 + 7 = **9** = Sun of
Righteousness
74.448' * 8 (such squares on the 4 x 4 Square) = 595.584' = **36** = the Eternal God
or 3 + 6 = **9** = Sun of Righteousness
In Inches: One Crisscross Square = 74.448' * 12 = 893.376" = **36** = the Eternal
God or 3 + 6 = **9** = sun of Righteousness
In Inches all 8 such Crisscrossed Squares: 893.376" * 8 = 7,147.008" = **27** =
Messiah Revealed or 2 + 7 = **9** = Sun of Righteousness

Diagonals of the 4 x 4 Square

Diagonals of the 4 x 4 Square = 4 * 37.224' = 148.896' = **36** = Eternal God or 3 + 6 = **9** = Sun of Righteousness

Crisscrossed = 148.896' * 2 = 297.792' = Two Sets of "**18**" or **36** = Eternal God or 3 + 6 = **9** = Sun of Righteousness (297 = 18 and 792 = 18)

Cubed: 297.792' * 2 = 595.584' = **36** = the Eternal God or 3 + 6 = **9** = Sun of Righteousness

In Inches: 148.896' * 12 = 1,786.752" = **36** = the Eternal God or 3 + 6 = Sun of Righteousness

Crisscrossed in Inches for 4 x 4 Square = 1,786.752" * 2 = 3,573.504" = **27** = Messiah Revealed or 2 + 7 = **9** = Sun of Righteousness

Cubed in Inches of 4 x 4 Square = 3,573.504" * 2 = 7,147.008 = **27** = Messiah Revealed or 2 + 7 = **9** = Sun of Righteousness

CONCLUSION

The persistency of these number sets overwhelms – their precision – based on the duodecimal system (purposefully so) and their unyielding configurations to attest to the Sun of Righteousness in His Messianic Deliverance for Humanity is stunning – "boring" is not what's happening here but glorious redundancy which is so appealing, so attractive and so very absolute that it is breathtaking to the uttermost – yet, foolishness to the darkened mind fearful that the Light of the World should shine unto him/her . . .

"In Him was life ("8") and the life was the light ("9") of men. And the light shines in the darkness, and the darkness did not overcome/comprehend it…there was a man sent from God, whose name was John…this man came for a witness, to bear witness of the Light, that all through him might believe. He was not that Light, but was sent to bear witness of that Light…That was the true Light which gives light to every man coming into the world" (John 1:4-9)

SQUARE #6 - SIXTH SQUARE FROM THE PERIMETER SQUARE
Smallest of the Six Squares in Measurement - Yellow/Gold/Red

THE THRONE ROOM OF GOD & THE LAMB

The "Innermost Square" is surrounded by a Rhombus – the fifth – and within this square a circle can be designed which you see above in gold, along with the final and sixth Rhombus (also in burnished red) which can be placed with the final and innermost square. Therefore, the innermost square can contain a rhombus and a Circle contained within the Square – so what is seen is the Sixth Square, the Sixth Rhombus and the Sixth Circle – or, if you would: 666 which is converted to the "18" of the New Jerusalem Standard of Measurement as in 6 + 6 + 6 = "18". Furthermore, the innermost square, being the sixth and smallest of the six squares, is, nevertheless, the most "compact" in that all elements are easily seen within its boundaries, while its "beams" or "spokes" (8 in all) are reaching out from its center to eight squares, two on its north, south, east and west sides.

There are within the four squares which constitute its interior, and due to the proliferation of its eight beams some 16 triangles within this "2 x 2 square" or 16 * 180 degrees = 2880 degrees which is the same number of triangles and degrees as is the outermost square, having the same 16 triangles and 2880 degrees. These triangles are caused by the "beams" which like spokes in a wheel spinning out from the center (we have placed both an additional circle and rhombus in its midst to demonstrate its capabilities; therefore, the triangles are in the original … perhaps a faint circle can be noticed within the four squares but it is not pronounced).

Naturally, this 2 + 8 + 8 = "18" which is the New Jerusalem Standard, as well as 1 + 8 = 9 = the Sun of Righteousness.

The grand total of all the squares triangles which have been created is given below in the chart – the results are truly impressive:

| SUN-STAR'S TRIANGLES CAUSED BY ITS SQUARES IN COLLABORATION WITH ITS SIX RHOMBI			
Square Number Largest Sq. to Smallest Square	Number of Triangles	Number of Degrees 180° * x	Digit Tally
#1	16	2880°	18
#2	32	5760°	18
#3	48	8640°	18
#4	40	7200°	9
#5	24	4320°	9
#6	16	2880°	18
TOTALS	176	31,680°	90

What is immediately obvious are two distinct number sets – the 3168 and the 9 – not because, though it is significant, the 3168 is equal to 18 as in 3 + 1 + 6 + 8 = "18" which is the Standard of the New Jerusalem and bears profound witness to the Bide of Messiah and the Sun of Righteousness (9) Who follows His Bride – i.e., the Bridegroom and the Bride are utterly integral to the Purpose of the Almighty for all eternity… but that the 3168 is so incredibly distinctive as part and parcel of the New Jerusalem's dimensions as given in the Apocalypse in that the length, height, and width of the Holy City is given as 12,000 furlongs – and, whereas 1 furlong is equal to 660 feet; therefore, 12,000 * 660 feet = 7,920,000 feet or, dropping the zeroes, we arrive at 792 * 4 base edges of the New Jerusalem and we have: 792 * 4 = 3168, which in turn is equal to "18" which is the New Jerusalem Standard of Measurement and 3 of such measurements of 3168 * 3 = 9,504 (which is also "18") but which is a fractal of the distance from Earth to the Sun – which distance at apogee is 95,040,000 miles.

Likewise – if one were to add all the triangles created by the "crisscrossed squares" – those within the 4 x 4 (32 triangles) Square and those within the 8 x 8 square (48 triangles), there would be 32 + 48 = 80 Triangles (as there are 80 dots within each one of them) or 80 * 180° = 14,400° which is commensurate with the 144 Wall of the New Jerusalem as well as the 144,000 of the 12 Tribes of Israel in Revelation 7 and the 144,000 of the Church on the Heavenly Mt. Zion.

The FINAL DOT within the very center of the Sun Star makes the number of dots equal to 81 – i.e., 80 Dots + 1 = 81 and that is the NINTH as in 8 + 1 = 9 or 9 * 9 = 81 – thus is the Sun of Righteousness so revealed at the very center of the Sun-Star!

The 16 Triangles created by the "beams" of the Sun – when added to the 80 Triangles created in the Crisscross Squares = 96 as in 16 + 80 = 96 and 96 * 180° =

17,280° = 1 + 7 + 2 + 8 = 18 New Jerusalem Standard of Measurement or 1 + 8 = 9 = Sun of Righteousness. Likewise, 1728 is the number of Cubic Inches in 1 Cubic Foot!
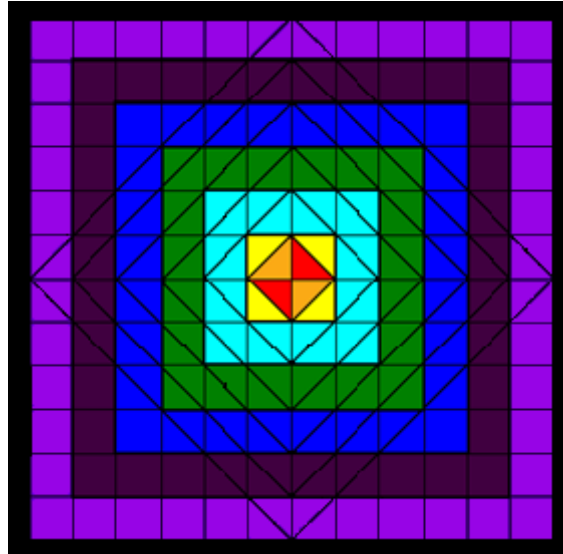

These 96 Triangles found within the innermost square's beams and the special crisscrossed squares found in the 8 x 8 Square and the 4 x 4 Square may be added to the total number of Triangles created by the rhombi – which we have discovered are 176 Triangles; therefore 96 + 176 = 272 Triangles * 180° = 48,960° = 4 + 8 + 9 + 6 = 27 = Messiah Revealed and 2 + 7 = 9 = the Sun of Righteousness.

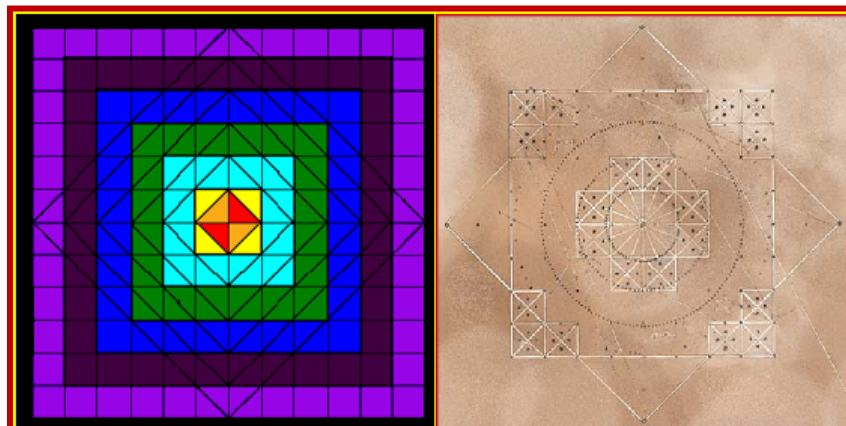

Triangles created in the Sun-Star are: 16 created by the "beams" of the Sun in the Innermost Square + 80 created in the 20 "crisscrossed" squares (4 in each such square) + 176 triangles created by the rhombi upon the 6 larger squares surrounding the innermost square or 16 + 80 + 176 = 272 triangles * 180 degrees = 48,960 degrees = 4 + 8 + 9 + 6 = "27" = the Revelation of Messiah in the 27 texts of the Christian Sacred Text or 2 + 7 = 9 = the Prime Number - the NINTH RAY - the Sun of Righteousness.

Without the final calculation of the 16 triangles (in the 172 triangles within squares) within the innermost square – the "3168" could not have been realized – the tally of all other triangles outside the innermost square made the total 28,800 degrees but the final 16 triangles of the Innermost Square provided an additional 2,880 degrees for a grand total of 31,680 degrees – it is the BRILLIANCE of the Sun of Righteousness shining forth that becomes the Light of the Holy City, New Jerusalem…

The fact that all these 31,680 degrees and their individual digits per square (i.e., **DIGIT TALLY**) of triangles sums to "90" or "9" bears glorious witness to the NINTH RAY – the Sun of Righteousness who on that day shall arise with Healing in His Wings! Indeed, 3168 * 9 = 28,512 = 2 + 8 + 5 + 1 + 2 = "18" New Jerusalem Standard and 9 * 176 (the number of triangles) = 1,584 = 1 + 5 + 8 + 4 = "18" New Jerusalem Standard of Measurement.

Furthermore, the Earth's diameter is 7920 miles; therefore, when the "circle of the earth" – her entire sphere – is placed within a square whose four-square dimensions on each of its four sides measure the diameter of the Earth itself – then 792 * 4 = 3168 takes place again. The Sun-Star, the Earth and the New Jerusalem – all bear witness to the Eternal God's Plan and Purpose for the Ages: the Holy City, the Woman, the Bride of Messiah, and the Sun of Righteousness!

<p style="text-align:center;color:red;font-weight:bold">INTRICACIES OF THE SIXTH SQUARE
The Innermost Square – Smallest but Most Profound</p>
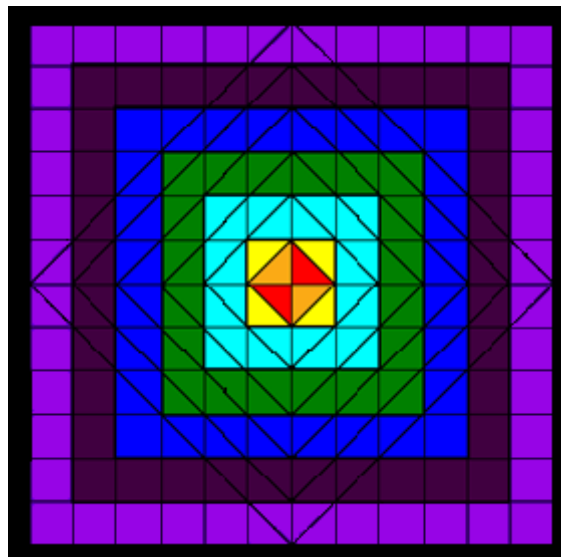

4 Small Squares make up the Sixth and Smallest Square
2 Small Squares on Each of its Sides
2 * 4 = 8 and "8" is the Basis of the Entire Octagonal Nature of the Sun-Star

8 = LIFE – NEW BEGINNING – RESURRECTION
"IN HIM WAS LIFE AND THE LIFE WAS THE LIGHT OF MEN"
The Sun-Star BURSTS FORTH WITH LIFE AND LIGHT!

PERIMETER/LINEAR MEASUREMENTS
"Feet"
One Edge = 26.4' * 2 (width/length of innermost square) = 52.8' = "**15**"
15 = the 1,500 Mile Edge of the New Jerusalem
4 * 52.8' = 211.2' = "**6**" = Man Created on the Sixth Day
Cubed (12 Edges) = 211.2' * 3 (12 edges) = 633.6 = "**18**" New Jerusalem Std.
Note: 6 – 33 – 6
Here it appears as "666" but the "**33**" transforms the "666" into "18"
The "33" is the Son of Man – Messiah "Cut Off" … "but not for Himself"
He gave Himself for mankind (age 33) – as the Son of Man (33) to prepare them
for His Bride – the Holy City, New Jerusalem (18)
Indeed: 33 * 18 = 594 = 5 + 9 + 4 = **18** = New Jerusalem
33 + 18 = **51** = the Full Revelation of God and Messiah in Holy Writ
24 Books of the Hebrew Scripture + 27 Books of the Christian Sacred Text = 51
(Note: Protestant Versions = 66 Books of the Bible but Jewish Texts are
Consolidated from 39 to 24 Sacred Text)
"Inches"
One Edge = 52.8' * 12" = 633.6" = "**18**" New Jerusalem Standard
(Same as above regarding the 6 – 33 – 6)
Four Edges = 4 * 663.6" = 2,534.4" = **18** = New Jerusalem Standard of Measure.
1 + 8 = **9** = Sun of Righteousness
Cubed (12 Edges) in inches: 2,534.4" * 3 = 7,603.2" = **18** = New Jerusalem Std.

AREA
Flat (one face) = 52.8' * 52.8' = 2,787.84 sq. ft. = **36** = The Eternal God
Cubed/6 faces = 16,727.04 sq. ft. = **27** = Messiah Revealed
Flat (one face in inches) = 2,787.84 sq. ft. * 144 = 401,448.96 sq. inches = **36**
36 = The Eternal God as a Circle of 360° without Beginning or Ending
3 + 6 = **9** = Sun of Righteousness
Cubed/6 faces in inches = 16,727.04 sq. ft. * 144 = 2,408,693.76 sq. in.
2 + 4 + 8 + 6 + 9 + 3 + 7 + 6 = **45** = Sun of Righteousness Arising on the
Great Day of God (Malachi 4:1-2)
4 + 5 = **9** = Sun of Righteousness – The NINTH RAY

VOLUME/CAPACITY
52.8' * 52.8' * 52.8' = 147,197.952 Cubic Feet = **45** =
Sun of Righteousness Arising on the Great Day of God
4 + 5 = **9** = Ninth Ray = Sun of Righteousness
Cubic Inches

147,197.952 Cu. Ft. * 1728 (cu. in. in 1 ft.) = 254,358,061.056 Cubic Inches =
2 + 5 + 4 + 3 + 5 + 8 + 6 + 1 + 5 + 6 = **45** = Sun of Righteousness Arising
Time of Blessedness – Blessed are they who are invited to the Marriage Feast
Of the Lamb – Blessed is He that Comes in the Name of the Lord
Blessed is he who waits and comes to the 1,335[th] Day
45 + 45 = 90 = **9** = Sun of Righteousness/The Ninth Ray

DIAGONAL MEASUREMENT OF THE INNERMOST SQUARE

Diagonals 2 ea. @ 37.224' Across the Innermost Square = 74.448' = **27** = Messiah
Revealed or 2 + 7 = **9** = Sun of Righteousness
Crisscrossed in Feet: 74.448' * 2 = 148.896' = **36** = Eternal God = 3 + 6 = **9** = Sun
of Righteousness
Cubed: 148.896' * 2 = 297.792' = Two Sets of "**18**" or **36** = the Eternal God or 3
+ 6 = the Sun of Righteousness or 18 and 18 = 9 + 9 = 18 = 1 + 8 = **9**
In Inches: 74.448' * 12 = 893.376" = 36 = the Eternal God or 3 + 6 = 9 = Sun of
Righteousness
Crisscrossed in Inches: 893.376" * 2 = 1,786.752" = **36** (see above)
Cubed in Inches the 2 x 2 Innermost Square: 1,786.752" * 2 = 3,573.504" = **27** =
Messiah Revealed or 2 + 7 = **9** = the Sun of Righteousness

CONCLUSION

The proliferation of 6, 9, 15, 18, 27, 33, 36, 51 abound in the Innermost Square the
New Jerusalem archetype where the Sun of Righteousnesses is displayed in all His
glory as the Ninth Ray extends His reach to embrace His Bride – the Holy City,
New Jerusalem, "Prepared as a Bride" – she is, first and foremost, the "Lamb's
Wife" – New Jerusalem.

A Final Word:

You say – these redundancies are wholly predictable – yes, a pattern most
definitely develops; however, but that's the whole point: HOW CAN WE MISS
IT? It's there – it's etched upon the Earth as the supreme example of the Divine
Geometer at work upon His Creation – and there's SO MUCH MORE!

I conclude here – but there are 4 major parts left – and we haven't covered the
circles, the rhombi and the mysterious Sun-Cross on the side of the Sun-Star.
What is it doing there? It belongs to the Sun-Star . . . . we have just begun the
journey of perhaps Earth's most glorious geometric configuration ever designed
upon its surface. You may doubt . . . but by the time we are finished, you will have
to conclude otherwise and I will repeat what sounds like utter arrogance, but it's
not, for if you keep looking into this *autostereogram* you eventually will see the
Sun of Righteousness – and if not, it's that you don't want to see it – "for the god

of this world has blinded the minds of them which believe not, lest the light of the glorious gospel of Christ should shine unto them!" (II Corinthians 4:4)
