PROLOGUE

About Vidya Prasarak Mandal, Thane

// Prajwalito Dnyanamayaha Pradipaha //

VPM Thane is an Educational Trust established in the year 1935, to encourage and give full scope of education in Thane and surrounding region for which there was limited facility during sixties. The Mandal started its first college in 1968-69 on a 13.5 acres marshy creek land gifted by the Government of Maharashtra for educational purposes. The Institutes of the Campus, enthusiastically and zealously cater annually to the basic needs of education of nearly 16,000 students from K.G to P.G through its Marathi and English Medium Schools, Arts, Commerce, Science, Law, Polytechnic, Management Studies, Information Technology Centre, Advanced Study Centre. The Campus provides State-Of-The-Art facilities to the students with the latest technologies to make them competent for the future career opportunities.

In the year 2012, VPM started an Engineering College at Velneshwar Village in Ratnagiri District for catering to the needs of rural population.

About the Polytechnic

Vidya Prasarak Mandal's Polytechnic Thane, the Self-financed Institute, was started by the Management in the year 1983. Polytechnic so far has trained over 9000+ diploma holders, 1000+ Advance Diploma Students, 5000+ Certificate course students. Important features include quality academic activities implementation, extensive co-curricular activities, National Conferences, Industrial visits, In-plant Training and Value Addition Programmes. Polytechnic, its students and staff have won awards at State and National level regularly. Institute is a trust worthy partner of Affiliating body Maharashtra State Board of Technical Education, Mumbai as a Project Institute for Curriculum Revision, Faculty Training lab Manual Development, Conduct of Semester Exams, Academic Monitoring, Career Fair and

other activities. Institute has upgraded its Infrastructure, Faculty, Equipment's, and Teaching Learning process from time to time to meet changing technology needs and industry expectations.

Polytechnic Journey so far.....

- **Year of Accreditation** : 2004
- **Best ISTE Chapter Award** : 2009
- **Year of Best Polytechnic Award** : 2009, 2015

Major Achievements

Year	Activity
1983	Polytechnic started with four Diploma Programmes – Chemical Engineering, Electrical Power Systems, Industrial Electronics and Instrumentation.
1987	Inauguration of First Computer Centre by Mr. M.G. Nayak, IAS, Deputy Secretary, Technical & Higher Education Dept., Govt. of Maharashtra.
1987	First Edition Polytechnic Magazine – Polyzine - Published.
1987	Foundation Stone laid for Polytechnic Buildings.
1987	Basic Training Centre for Trade Apprentices from Chemical Industries- NOCIL, BAYER,PIL, Herdillia, Chemicals, NRC, Savita Chemicals, Gharda Chemicals Ltd. (AOCP & MMCP) approved by Board of Vocational Education, Maharashtra.
1989	Visit of State Government Team for Polytechnic Gradation. Received ' A ' Grade.
1989	Student Chapter of Instrument Society of America with 33 Student Members. First ISA student Chapter in India.
1990	First Two days Seminar on Process Control Instrumentation Chief guest-Mr. C.S. Joshi (M.D)Ornate Chemicals Ltd.
1990	Started Advance Diploma in Computer Software System Analysis and Applications Course affiliated to MSBTE and Certificate Course in Computer Operation Affiliated to DVET.
1991	Felicitation of Mr. P.S. Deodhar- President of APLAB Ltd. for receiving the prestigious US Award Engineering Manager from Management Society of America.
1992	Inauguration of Indian Society of Technical Education Chapter. Chief guest – Prof. B.B. Chopane – Director, Technical Education, Maharashtra State.
2000	Millennium Information Technology Exhibition inaugurated by Hon'ble Union Minister Information Technology & Parliamentary affairs Mr. Pramod Mahajan.
2001	Start of Diploma in Information Technology.
2002	Start of Diploma in Computer Engineering, Advance Diploma in Industrial Safety
2003	Polytechnic Principal Prof. S.S. Mujumdar nominated as Member of Board of

Year	Activity
	MSBTE, Mumbai.
2004	First NBA Accreditation of four Programmes, w.e.f 17/3/2004 for the period of 3 years.
2004	One-day National Seminar on Pollution of Water Bodies in Urban Area on 8 th August 2004 supported by AICTE, New Delhi.
2004	Start of Diploma in Medical Electronics.
2005	Visit of Infosys founder Mr. N.R. Narayanamurthy as a Key Note Speaker at the Conference Challenges to Indian Multinationals.
2005	Received AICTE Grant of Rs. 5,00,000/- AICTE MODROBS Grant to Electrical Power System Department
2006	Prof. D.K. Nayak, Principal nominated as Member of Governing Council, Board of Apprenticeship Training Western Region, Mumbai.
2006	ISTE Best Project Award to Mr. Ramiz Pojee and team for Project on Biometrix OS Defense Shell guided by Dr. Mrs. Usha Raghavan.
2006	Installation of Automatic Weather Stations (AWS) , developed and maintained by India Meteorological Department (IMD) Government of India.
2009	ISTE-Narsee Monjee Award for Polytechnics in Maharashtra State for the year 2009, for Best overall performance.
2009	V.P.M.'s Polytechnic, Thane received Best ISTE-Chapter in Maharashtra-Goa for the year 2009.
2009	District Level Energy Park developed with the partial grant of Rs.4.75 lakhs from Ministry of New and Renewable Energy, New Delhi.
2009	Prof. D.K. Nayak, Principal received Fulbright-Hays Federal Assistance Award of U.S. Department of State at Salzburg Seminar Session 463 on Greening the Minds: Universities, Climate Leadership, and Sustainable Futures, Salzburg, Austria for the paper title Renewable Energy Efforts - Special Focus on reduction of Global Warming.
2009	Start of Advance Diploma in Energy Management & Audit
2011	Start of Entrepreneurship Development Cell.
2012 & 2013	MSBTE Letter of Appreciation for Excellent Academic Performance in all the Diploma and Two Advance Diploma Programmes.

Year	Activity
2013	IOSH, UK Graduate Membership Accreditation for Advance Diploma in Industrial Safety Programme.

2015	Received ISTE Narsee Monjee Student Project Award by Ms. Sharaddha Kamble, Mr. Vishal Raut, Mr. Mohak Bengale, Mr. Divyesh Jain students of Third year Instrumentation department for the project Thermostat Life Testing .
2015	ISTE-Narsee Monjee Award for Polytechnics in Maharashtra State for the year 2015, for Best overall performance.
2015	Received MSBTE Best Laboratory Award to Polytechnic Electrical Power System department .
2015	MSBTE Letter of Appreciation for Excellent Academic Performance .
2016	Mr. Soham Kulkarni of Final year Industrial Electronics represented Polytechnic for International Competition Mostratec, an International Science and Technology Fair held in Brazil for his project Smart Building Automatic Controller . He also won the ISTE Narsee Monjee National Award for Best Project done by the Polytechnic students.
2016	Dr. (Mrs.) G. S. Ingawale, Sr. Lecturer received Indian Patent for her Invention in Measurement of Potential & Chemical Kinetics of Lantadene by using immobilized Enzyme .

ISTE Staff Awards

Year	Activity
2006	Mrs. S.S. Kulkarni received ISTE L&T National Award Best M. Tech. Thesis in Electrical and Electronics Engineering.
2008	Prof. D.K. Nayak, Principal received Rajarambapu Patil National Award for Promising Engineering Teacher (below 50 years of age) for creative work done in Technical Education (Polytechnics) from Indian Society for Technical Education (ISTE), New Delhi
2013	Dr. Usha Raghavan, Head of Information Technology Department has been conferred ISTE U.P. Government National Award for an outstanding work done in specified areas of Engineering and Technology for the year 2013 at 43rd ISTE National Annual Convention held at T.K.I.E.T. Warananagar, Kolhapur, Dist-Maharashtra.
2014	Dr. Mrs. G S. Ingawale, Sr. Lecturer , honoured with ISTE Best Polytechnic Teacher Award for the year 2014 for Maharashtra and Goa States in the 44 th ISTE National Annual convention.
2014	Mrs. Sujata M. Gupte, Controller of Examination placed Second Position in Zonal level ISTE Srinivasa Ramanujan Mathematics Competition 2014-2015 and placed Third Prize in National level.
	Ms. Amisha Mestry, Lecturer in Industrial Electronics Department placed Second Position in Zonal level ISTE Srinivasa Ramanujan Mathematics Competition 2014-2015.
	Ms. Rizvi Fatima Ismat, Lecturer in Mathematics placed First Position in Zonal level ISTE Srinivasa Ramanujan Mathematics Competition 2014-2015 and placed Fourth Prize in National level.
2015	Mrs. Santhi M. Laguduva. Lecturer, Industrial Electronics Department received ISTE – L & T National Award for Best M. Tech Thesis in Electrical & Electronics Engineering 2015.

Staff Paper Presentation Awards

Year	Activity
2006	Prof. D.K. Nayak, Principal presented paper Socio-economic aspects of Hydrogen Energy-Indian Perspective at the Plenary session of International Forum Hydrogen Technologies for Energy Production at Moscow, Russia Supported by AICTE, New Delhi.
2011	Prof. D.K. Nayak, Principal received Best Paper Award for the paper title Renewable Hydrogen Fuel for automobiles at National level Conference on Emerging trends in Technology at BVIT-Navi Mumbai.

Year	Activity
2011	Mrs. K.S. Agashe, Head of Industrial Electronics Department received Best Paper Award for the paper title Future Non-volatile Memory option in VLSI: Memristor at Agnel Polytechnic, Vashi.
2013	Mrs. Radhika Kamath, Lecturer, Information Technology Department received 1st Prize for the paper title Grid & Distributed Networks to handle Mammoth Tasks at National Conference on Emerging Trends in Technology.
2014	Mrs. K.S. Agashe, Head of Industrial Electronics Department received Second Prize for the paper title Simulated Resistive switching behavior of Memristor at BVIT, Kharghar, Navi Mumbai.
2015	Ms. Latasha Keshwani, Lecturer, Industrial Electronics Department received Best Paper Award for the paper title Face Recognition using Radial Curves & Back Propagation Neural Network at International Conference on Advances in Science and Technology. (ICAST-2015) organized by Saraswati College of Engineering, Kharghar
2015	Mrs. S.D. Khandagale, Lecturer in Instrumentation received First Prize for the papertitle Intelligent Approach for Motor Control at National Conference-Vision - 2015 at BVIT, Kharghar, Navi Mumbai.

CRITERION 1	Vision, Mission and Program Educational Objectives	50
--------------------	---	-----------

1.1 State the Vision and Mission of the Institution and Department (5)

Vision and Mission of the Institute

In line with the Vision and Mission of MSBTE, V.P.M's Polytechnic has always strived for academic excellence and scientific temper. The vision and Mission of the institute are as under:

Vision and Mission of the Institute

VISION: Ensuring skill development through quality technical education.

MISSION: Imparting creative learning by Innovative Methodologies to expose the talents by the way of MSBTE Curriculum.

Mission objectives are,

M-1: Develop Technical Skills and Professional Ethics with Entrepreneurial spirit through conducive environment.

M-2: Cultivate lifelong learning skills to face challenges with Innovation.

Vision and Mission of the Department

VISION: Produce comprehensively trained socially responsible, innovative computer engineers of highest quality to contribute to the Nation's development.

MISSION: Provide students ambience for professional growth and lifelong learning with emphasis on sound technical knowledge and ethics.

Mission objectives are,

M-1: Provide sound technical foundation in Computer Engineering through comprehensive curriculum and application oriented learning.

M-2: Provide ambience for professional growth and lifelong learning for adapting to challenges in rapidly changing technology.

M-3: Inculcate social and ethical values.

M-4: Nurture interpersonal and entrepreneurial skills so as to develop leadership qualities in information industry's diverse culture.

1.2 State the Program Education Objectives (PEOs) (5)

PEO1 - Develop a positive attitude towards lifelong learning and succeed in industry or higher education.

PEO2 - Apply the principles of Computer Engineering to identify and solve real world problems.

PEO3 - Excel in professional career, exhibit leadership qualities with ethics and soft skills.

PEO4 - Pursue higher education, research or entrepreneurship.

PEO5 -.Engage in professional development and adapt to emerging technologies.

1.3 Indicate where and how the Vision, Mission and PEOs are published and disseminated among the stakeholders (10)

Vision and Mission are published and disseminated among the stakeholders through

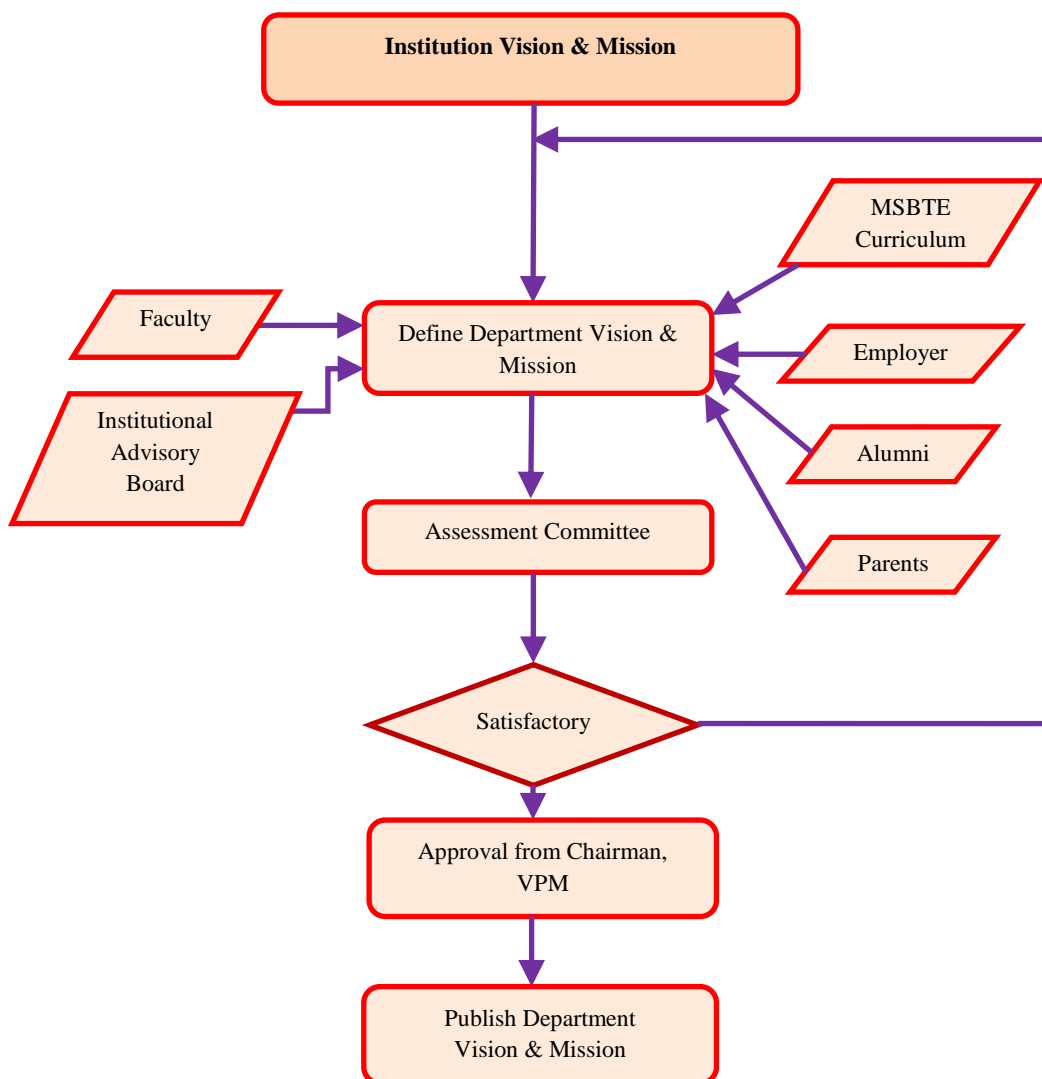

- **Institute website:** <http://www.vpmthane.org/polywebnew/index.html>
- On the college and departmental pages
- Displayed on the departmental and library notice boards
- Displayed on the Departmental files/Term Works/ E-mails/ Project Reports/Newsletters
- Published in the departmental proceedings of seminars/ symposiums

1.4 State the process for defining the Vision and Mission of the Department and PEOs of the program. (15)

- The Principal along with HOD and with the active participation of core faculty members develop the vision and mission statement of the department in alignment with Vision and Mission of the Institute.
- These statements are discussed further among faculty members before finalization.

- The expectations of MSBTE are taken into consideration .The MSBTE, while framing the curriculum, takes the expectations of Industry & Academia to match the global needs. Accordingly the Vision, Mission & PEOs are formulated.
- These suggestions are then approved in the Polytechnic committee meeting by the chairman of Vidya Prasarak Mandal, Thane.
- The final Vision and Mission are displayed.

Process for defining Department Vision and Mission

Process involved in defining the PEOs:

The Programme Educational Objectives (PEOs) are actually the broad statements of the objectives for which the programme is run. In the first place, these objectives should help in fulfilling the mission of the department. Secondly, the students graduating from the programme are expected to lead a fruitful and meaningful life in the society by being useful in its progressive development. Thus it is necessary that these objectives should be in consonance, to the extent possible, with the current research scenario in the relevant field of engineering and with the needs of the relevant industry. The research scenario is best judged by the faculty members through research publications. The industry needs are gauged through the feedback, mostly verbal, received when the students go for industrial training. The alumni who have gone to industry or to institutes of high reputation are able to reflect whether the objectives are adequate.

STEP-1: The needs of the Nation and society are identified through scientific publications, industry interaction and media.

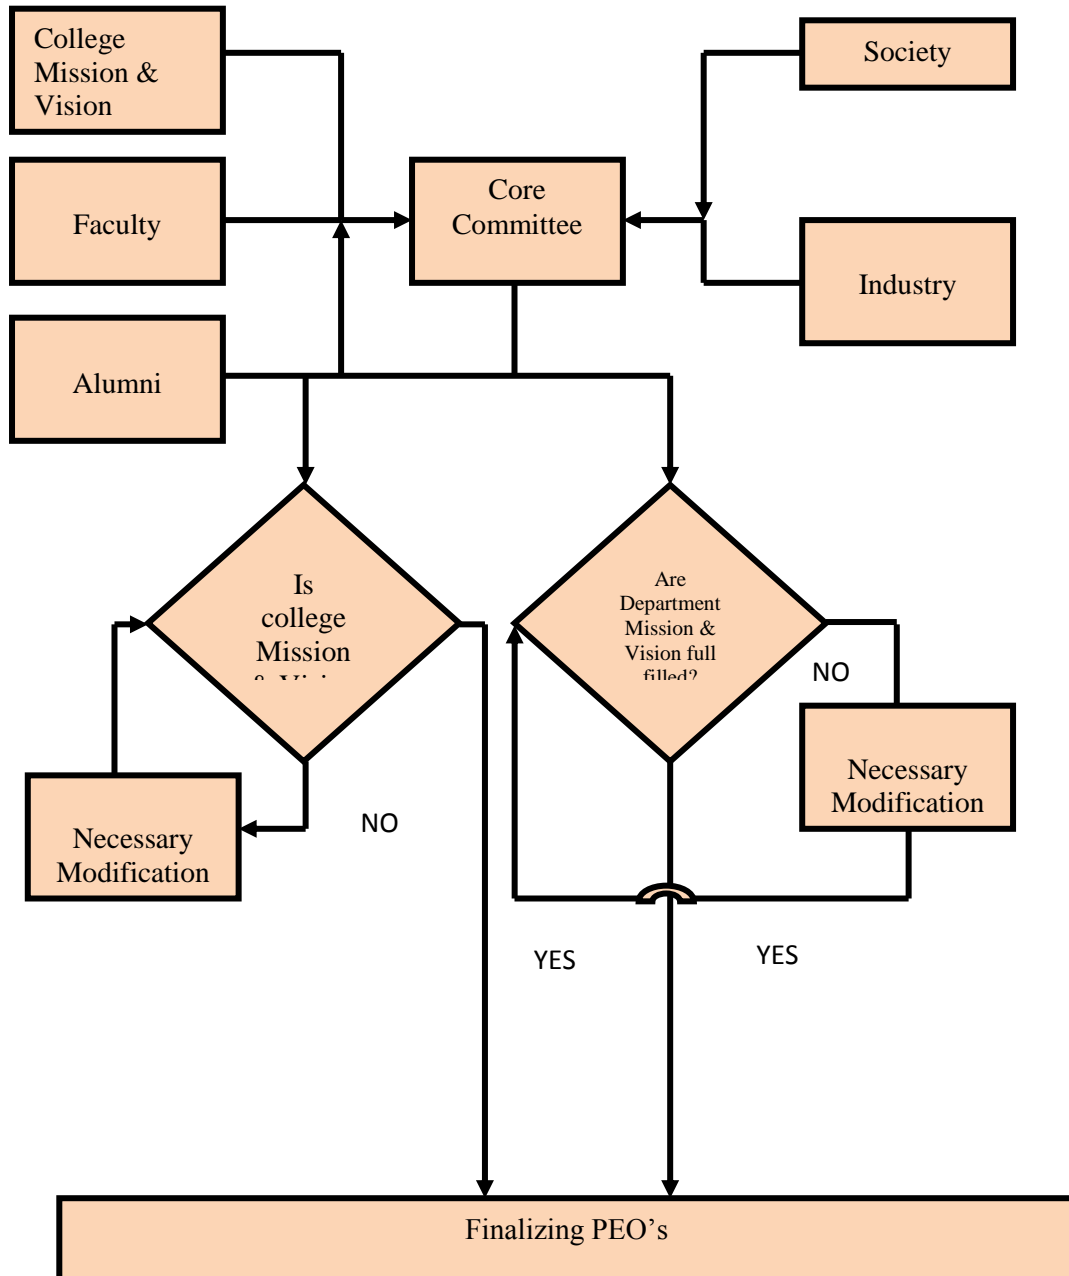

STEP-2: Taking the above into consideration, the PEOs are established by the Core Committee of the department.

STEP-3: The PEOs are communicated to the alumni and their suggestions are obtained.

STEP-4: The PEOs are communicated to all the faculty members of the department and their feedback is obtained.

STEP-5: The PEOs are then put to the Board of Studies of the department for final approval.

Process for establishing and revising Program Educational Objectives (PEOs)

1.5 Establish consistency of PEOs with Mission of the Department.(15)

The table below shows the correlation of PEOs with the departmental Mission.

PEO/M	M1: Sound technical foundation in Computer Engineering.	M2: Ambience for professional growth and lifelong learning.	M3: Inculcate social and ethical values.	M4: Nurture interpersonal and entrepreneurial skills.
PEO1: Develop a positive attitude towards lifelong learning and succeed in industry or higher education.	3	2	2	3
PEO2: Apply the principles of Computer Engineering to identify and solve real world problems.	3	3	3	3
PEO3: Excel in professional career, exhibit leadership qualities with ethics and soft skills.	2	2	3	3
PEO4: Pursue higher education, research or entrepreneurship.	3	3	2	2
PEO5: Engage in professional development and adapt to emerging technologies.	3	3	3	2

CRITERION 2	Program Curriculum and Teaching – Learning Processes	200
--------------------	---	------------

2.1 Program Curriculum (50)

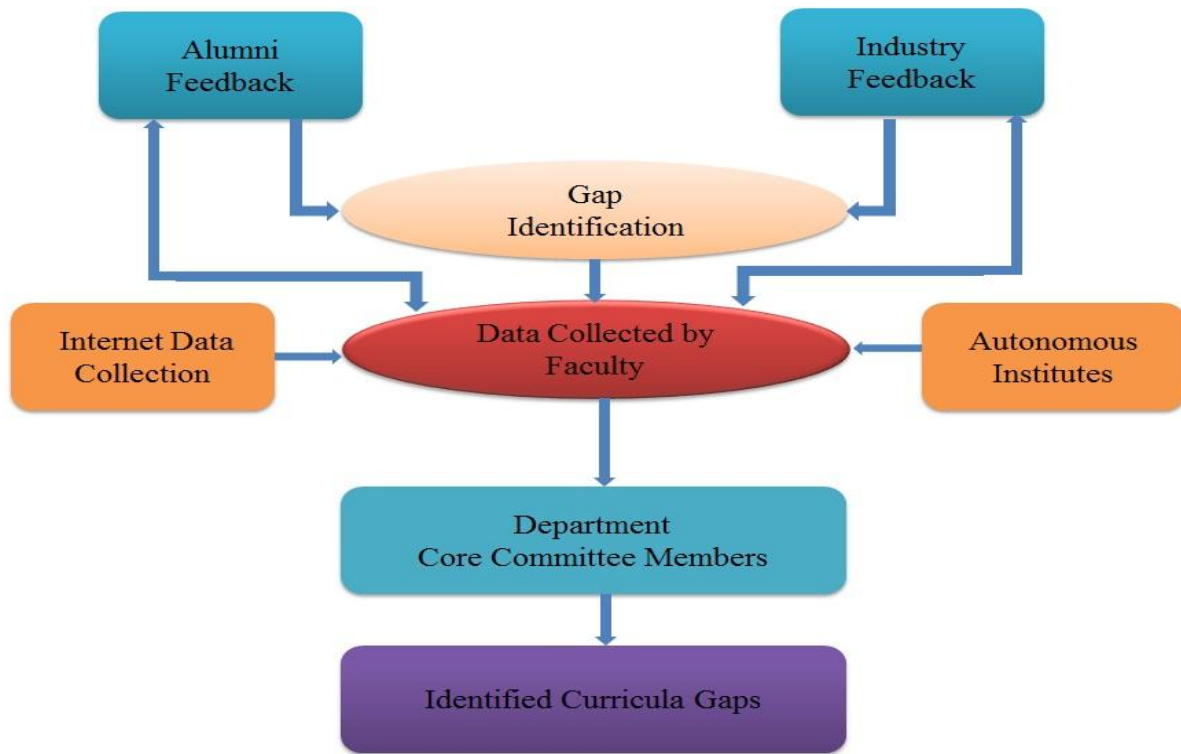

2.1.1 State the process used to identify extent of compliance of the Board curriculum for attaining the Program Outcomes (POs) and Program Specific Outcomes (PSOs) as mentioned in Annexure I. Also mention the identified curricula gaps, if any (30)

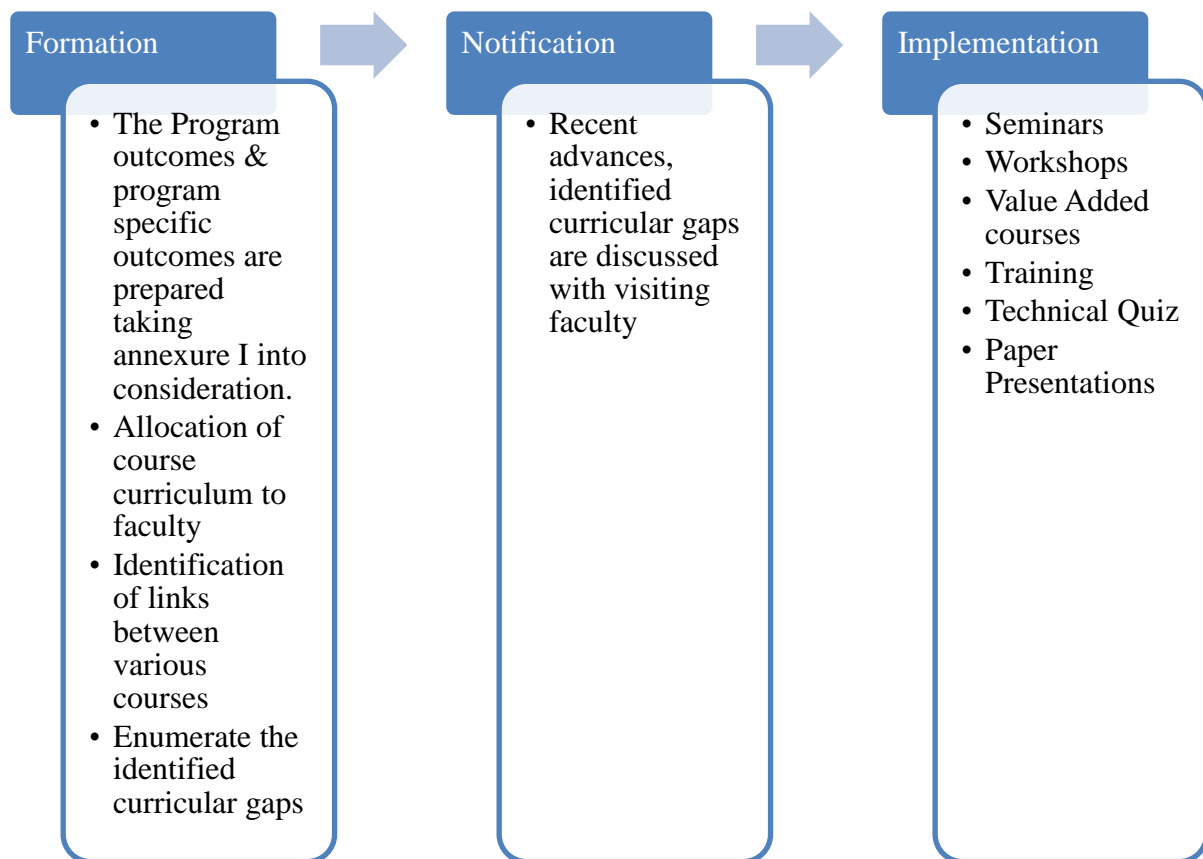

The curriculum given by Maharashtra State Board of Technical Education is revised every 5 years taking feedback from all the stakeholders like Industry, Alumni, Institutes, Subject experts etc. It is based on System's approach. This takes care of the curricular gaps present in the previous curriculum & thus minimizes the gaps.

However, with growing technology, it is very difficult to satisfy all the needs of the industry through curriculum. To identify these gaps following approach is used.

- A subject teacher does a thorough study of the curriculum. After discussion with other subject teachers a common platform is created wherein the link between various subjects is discussed. The curricular and knowledge gaps are identified and the strategy to overcome these gaps is arrived at.
- Recent advances in the industry are identified with discussion between visiting faculties and departmental staff. The discussion also highlights the need for students to have knowledge of these advancements. Accordingly, symposiums, Seminars, Workshops, Training programmes are arranged.
- A review of curriculums offered by autonomous institutes is taken into consideration and the necessary contents are added in the seminars.

Process used for identifying curricular gaps

Identified Curricular Gaps

- A. Certain gaps like knowledge of Op-amps which is not covered in the curriculum but are required for further curriculum. They are taught in the regular class by allocating additional hours.
- B. Personality is the most important virtue of the engineer. Though some aspects of personality development are covered in subjects such as Professional practices, Behavioral sciences, other essential skills such as stress management, interview techniques, importance of team work etc. are covered by inviting experts in respective fields.
- C. Integrated Development Environment such as NetBeans or eclipse, needed for final year project are taught by conducting extra sessions.

D. Latest Developments in Computer engineering fields such as Cloud Computing, Android are covered by conducting extra sessions

2.2 Teaching Learning Process (150)

2.2.1. Describe Processes followed to ensure/improve quality of Teaching & Learning

(25)

Processes implemented to ensure/improve quality of Teaching & Learning

- Academic Calendar of MSBTE is followed by preparing a time table. Teaching/Laboratory plan is prepared for each subject theory as well as practical.
- MSBTE provides lab manuals to ensure quality of practical training. All the students are given MCQs to solve which are based on each experiment.

- To get real world problem experience, the MSBTE curriculum includes mini projects in various subjects in second year and project in Third year.
- Presentations based on various topics are prepared by faculty members and are used for better concept understanding.
- Students prepare models and charts under faculty guidance.
- Subjects like Development of life skills include role play activities.
- Value added courses like .Net, Android and Microcontroller Programming (Arduino), SAP are conducted by professionals which helps the students in their final year project.
- Free book bank facility is provided for toppers and similar facility is extended to other students for nominal fees.
- Spoken tutorials, a project Of Ministry of Human Resource Development in collaboration with IIT Bombay & MSBTE are provided for better understanding of the curriculum based knowledge and the students are certified.
- Students are encouraged to participate in competitions like Technical Paper Presentation, Poster Presentation, Power Point, Quiz.
- Interested students are selected for Entrepreneurship Development Cell to give opportunity for the development of Entrepreneurial skills.
- Remedial classes/ Problem solving sessions are conducted for weak students. Counseling and mentoring through various sessions are organized to motivate the students.

Course Delivery Methods

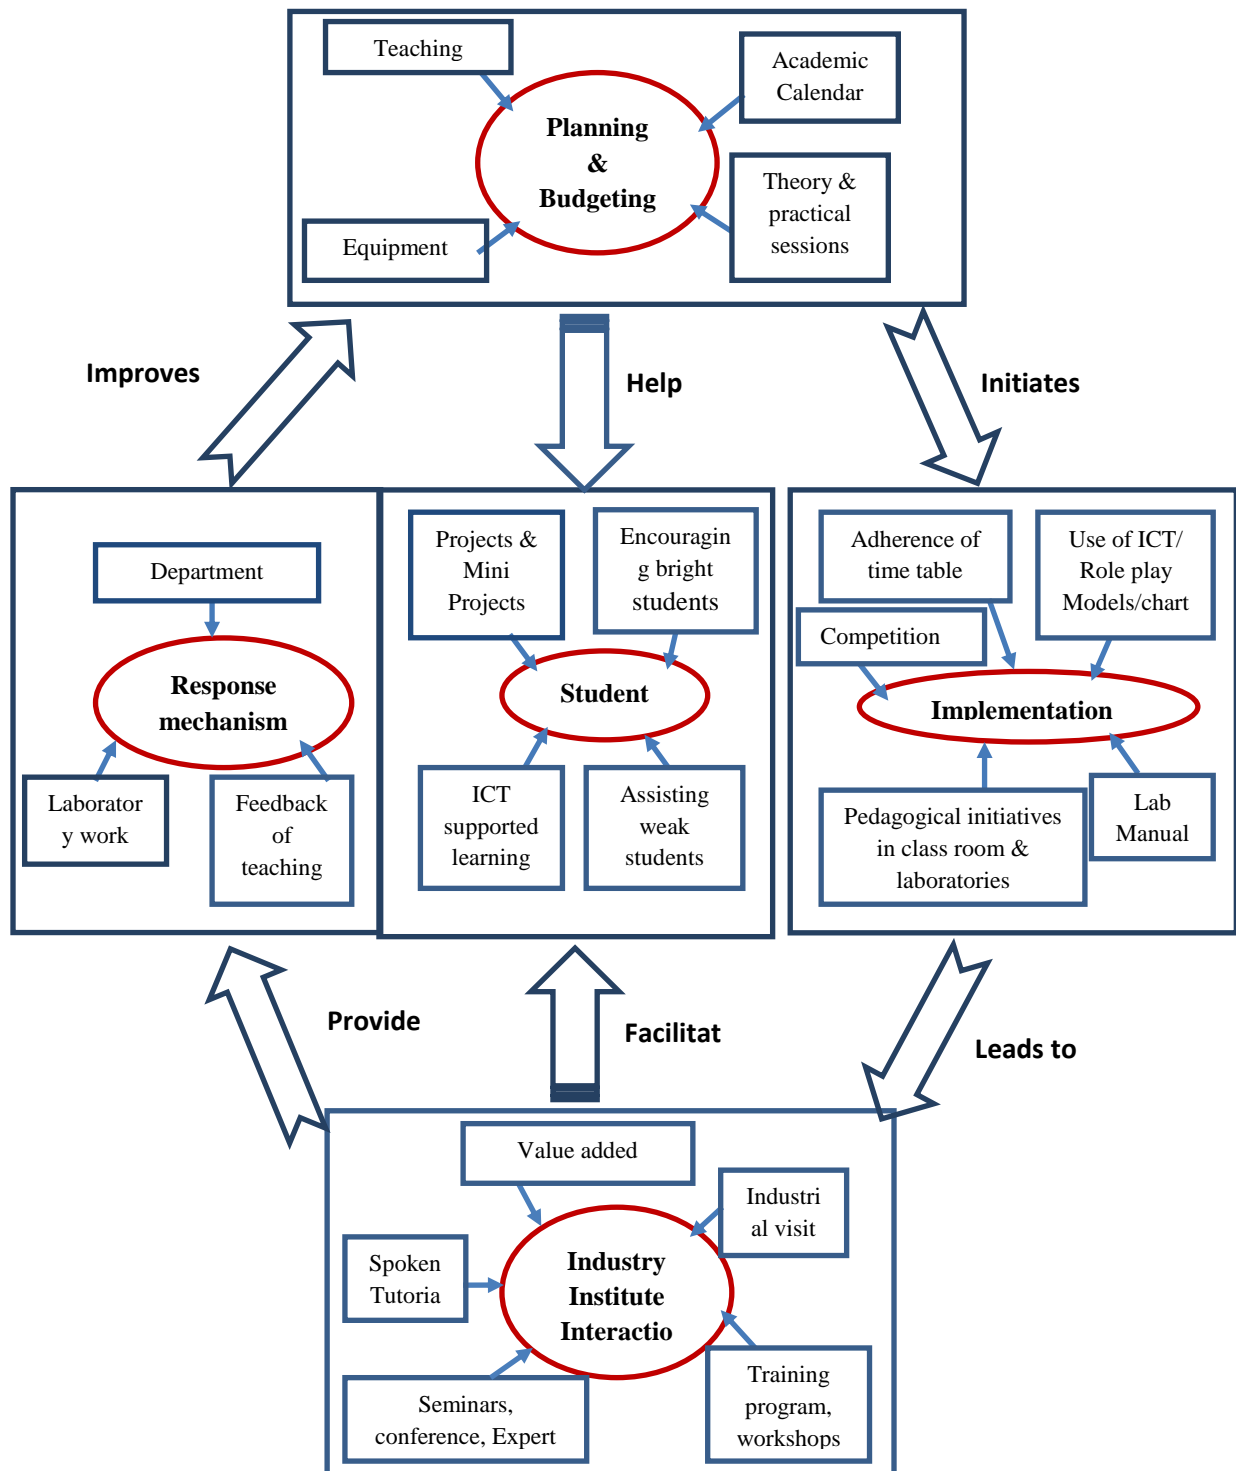

- **Class room Lectures** - The main delivery method for the courses is lecture interspersed with discussion. This helps in the obtaining a sound understanding of the course fundamentals, design and implementation issues, etc.
- **Presentations-** The abstract concepts difficult to imagine are presented through power point presentations and animation tools to impart insight into the subject. Presentations also illustrate ideas and concepts in graphics form. Video presentations effectively communicate the working of actual engineering solutions and their impact.
- **Laboratory session-** Laboratory work demonstrates how theory can be verified by experiments through interpretation of results. Experiments are normally done in groups so students learn to work in teams.
- **Simulations or demo** - In some courses, the design and experimentation issues are also discussed in the form of demo or simulations. The students are thus exposed to different tools for implementation and experimentation.
- **Assignments-** Writing assignments deepens thinking and increases students' engagement with course material. Good writing assignments prompt students to think more deeply about what they are learning. Some assignments carry a bigger problem nearer to reality that cannot be done in the classroom. Group assignments help them to work effectively in a team.
- **Project** - Micro projects, Mini projects and Final year projects are carried out by a group of students under the guidance of faculty wherein students apply the knowledge of all related courses in providing hardware/software solutions and present demonstrable product to a panel of supervisors.
- **Comprehensive Viva Voce** - The Viva Voce is an important mode of assessment, providing an opportunity for students to demonstrate their knowledge, approach and understandings with the examiners. They are not just an assessment of the student's

performance but usually an opportunity for the external examiner to get feedback from the students on the performance of the department.

- **Seminar** - The students collect knowledge related to a topic and present it in a technical report and oral lecture comprehensively.
- **Industrial Visits** - Industrial visits are arranged to get the students acquainted with industrial environment and work ethics.
- **E- Learning Resources**- Videos and E-learning material are used for giving exposure to domain expertise of the faculties from various reputed institutes like NPTEL, Spoken Tutorial.

2.2.3. Quality of Experiments (15)

I. The laboratory manuals are learning resources prepared by subject experts from various institutes affiliated to MSBTE under the guidance of educational consultants. They include

- Student activities
- Questions for confirmation of learning
- Conclusion
- Application of each experiment

These attributes are relevant to curriculum objectives

- I. Similar methods/procedures are followed for the subjects for which laboratory manuals are not provided by MSBTE.

2.2.4. Quality of Students Projects and Report Writing (25)

- Every final year student undertakes project which is spread over a period of two semesters.
- A group of 4-5 students is formed in the 5th semester and a faculty is allotted as a guide to these groups.
- Groups select multiple topics in their area of interest and considering latest trends/demand in the industry or benefit for the society.
- Under the guidance of faculty, the group finalizes the project topic.
- Session on Technical Writing is conducted for the students.
- The student performs literature survey and maintains a diary showing the weekly updates on the project.
- Project Synopsis is prepared and submitted at the end of the Semester.
- The logical and physical design of the project is done in the sixth semester during the allotted hours in the time table with the guidance of respective guides, faculty.
- The students are guided on the principles of software testing to get industrial quality project.
- An exhibition of the projects developed is organized in the last week of February and best projects are recognized and sent for various other inter collegiate competitions.
- A final project report is prepared with proper documentation in design and installation procedures.

2.2.6. Information Access Facilities and Student Centric Learning Initiatives (15)

- **Department Library:** The department has books on all the subjects related to the curriculum and also some books which will help them gain extra knowledge. These books are issued to the students.
- **Book Bank:** The College has book bank facility. The books are issued to the students at a nominal cost in each semester.

- **Access to other Libraries in Campus:** The students also have access to libraries from other college in the campus.
- **Videos:** Multimedia has many kinds of data such as text, audio, images, animation, video and interactive content. These make the learning complementary with the existing tools. With video, the students has more control over the information they receives and it provides additional opportunity for deeper learning by being able to stop, rewind, fast-forward, and replay content as many times as needed.
- **PPTs:** PPT can help teachers to teach a subject point wise so as to make the learning more efficient. Power Point has become very popular because it's easy to learn, widely available, easy to understand the subject.
- **CDS/DVDS:** CD/DVDs contain large amount of data in the form of video, documents and -audio. Students can take back up from computer and store it in DVD.
- **Transparencies:** Transparencies are mainly used for drawing figures which are then placed on an overhead projector for display.
- **E-Notes:** e Notes helps students to complete assignments and study for exams. E notes are sent to the students by emails.
- **Spoken tutorials (MOOCs):** It is MHRD project under IIT-B which helps the students to get certified in various programming subjects through tutorials and videos.
- **Website-Notes:** Websites includes educational video tutorials, instructional lectures, do-it yourself guides, self-help tutorials, interactive presentations, animated explanations and many more. It helps students to develop learning skills. Many websites are suggested by MSBTE in Curriculum.

2.2.7. New Initiatives for embedding Professional Skills (15)

For developing specialized skill development including communication, professional and core employability skills classes on Professional Practices, Development of Life Skills & Entrepreneurship Development are conducted.

Professional Practice and Entrepreneurship Development are trans-disciplinary academic department focused on flexible work-related learning within higher education.

Professional Practice subject provides a platform to students to undergo activities which will enable them to develop self-confidence. In this subject a student is needs to use the knowledge and skills within a practical environment. Practicing in a professional manner requires that individuals have skills, knowledge, values and attitudes appropriate to their role and responsibility within the setting. In addition, it requires regular reflection upon practice and engagement in supported, ongoing professional development.

Professional Practice is enhanced in several fields-

- **Effective communication** is more than just exchanging information with others. It involves teamwork, decision making, and problem solving. It enables the students to communicate even negative or difficult messages without creating conflict or destroying trust.

It is achieved in several ways-

- Interacting with peers to share thoughts
- Prepare notes on given topic.
- Conducting Seminars
- Conducting Group Discussions
- Guest lectures on Communication Skills
- Preparing report on industrial visits, expert lectures
- Organizing Paper Presentations

- **Industrial training** provided to the students after 4th and 6th Semester helps the students in gaining knowledge. It also allows them to work on real world problem and develops confidence in them.
- **Personality development** means enhancing and grooming one's outer and inner self to bring about a positive change to your life. Each individual has a distinct persona that can be developed, polished and refined. This process includes boosting one's confidence, improving communication and language speaking abilities, widening ones scope of knowledge, developing certain hobbies or skills, learning manners.

It is achieved in several ways-

1. Conducting guest lectures on **Personality development**
 2. Organizing Seminars
 3. Guest lectures on **Stress Management**
- **Information search**-Everybody can become more effective when it comes to searching of information. Research suggests that metacognitive strategies including planning, monitoring and self-regulating actions could enhance individual search in research database. Students are provided with different topics related to different fields of study.
 - **Industrial visits** -Industrial visit has its own importance in a career of a student who is pursuing a professional degree. It is considered as a part of college curriculum.

Industrial visits provide students an insight regarding internal working of companies. We know theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visit provides student a practical perspective on the world of work. It provides students with an opportunity to learn practically through interaction, working methods and employment practices.

- **Workshops** –Several workshops are conducted to improvise students in different aspects such as

1. Workshops on Entrepreneurship development skills (RYLA)
 2. Workshops on recent ongoing Computer Engineering related topics.
- **Mentoring** --Mentoring is to support and encourage people to manage their own learning in order that they may maximize their potential, develop their skills, improve their performance and become the person they want to be. Mentoring is a powerful personal development and empowerment tool. It is an effective way of helping people to progress in their careers and is becoming increasingly popular as its potential is realized.
 - **Counseling** is about talking to someone who understands what depression is and what can help. Counselors are professionally trained to work with people on their personal and emotional issues, including depression and suicide. Counseling offers an opportunity to talk confidentially to someone impartial, so students are free to explore your true feelings and be supported without judgment.

CRITERION 3	Course Outcomes and Program Outcomes	100
--------------------	---	------------

3.1. Establish the correlation between the courses and the POs & PSOs (20)

3.1.1 Course Outcomes (SAR should include course outcomes of one course from each semester of study, however prepared for all courses) (05)

Semester I - Subject & Sub Code: Basic Science -Physics(17102)

Course	Statement
C102.1	Select appropriate grammatical rules to form correct sentences
C102.2	Assess the provided text, identify new words and increase vocabulary
C102.3	Demonstrate language skills
C102.4	Comprehend and provide answers on given passages
C102.5	Deduce correct words in given situation by developing vocabulary
C102.6	Integrate all of the above in achieving in good communication

Semester II - Subject & Sub Code: Programming in C (17212)

Course	Statement
C204.1	Develop C programs with formatted input and output variables using constants and operators
C204.2	Develop C programs using decision making, branching and looping statements .
C204.3	Develop C programs using array and strings
C204.4	Demonstrate use of functions and structures
C204.5	Create pointers to write simple programs.
C204.6	Develop mini project

Semester III - Subject & Sub Code: Data Structure(17330)

Course	Statement
C302.1	Compare complexity of algorithms
C302.2	Demonstrate skills to use searching and sorting algorithms for given data
C302.3	Develop programs using concept of stack
C302.4	Develop programs using concept of queue
C302.5	Develop programs using concept of \linked List and Tree
C302.6	Develop programs using concept of Graph and Hashing functions

Semester IV - Subject & Sub Code: Computer Hardware and Maintenance (17428)

Course	Statement
C402.1	Identify the components of the motherboard, peripheral devices, interfacing ports of a PC & state know their functions and features
C402.2	Describe the various storage devices, their working, interfacing with the computer and various recording techniques.
C402.3	Describe the construction and working of various display devices like CRT, LCD monitor, Touch screen, Plasma display
C402.4	Identify the different input/ output devices, describe their construction and working principle
C402.5	Connect the power supply to the computer and check whether proper voltages are applied to various parts and peripherals of the computer and protect the system from power problems
C402.6	Use PC software and hardware diagnostic tools for troubleshooting.

Semester V - Subject & Sub Code: Computer Security(17514)

Course	Statement
C503.1	Identify need of computer security, threats, and attacks to identify them.
C503.2	Recall identification, authentication and use biometrics, password management to get operational security.
C503.3	Recall various cryptographic techniques and use them to obtain encrypted text.
C503.4	Recall the techniques used in intrusion detection.
C503.5	Recall and use cyber laws and IT acts, network authentication protocols.
C503.6	Recall and use application and web security.

Semester VI - Subject & Sub Code: Advanced Java Programming (17625)

Course	Statement
C603.1	Design & develop Graphical user interface (GUI) programs using AWT and swing component and using different layout managers Statement
C603.2	Write event driven programs using the delegation event model & using adapter classes
C603.3	Write program to demonstrate connectivity through software SOCKETS, TCP, ISP, URL using java.net package

C603.4	Create database driven business applications using the java.Sql package
C603.5	Write web based applications using servlets, JSP, Java Beans, cookies and session tracking.
C603.6	Implement these concepts in programming as well as in project.

3.2. Attainment of Course Outcomes (40)

3.2.1. Describe the assessment processes used to gather the data upon which the evaluation of Course Outcome is based (10)

Following processes have been undertaken to find the attainment of course outcomes. For direct attainment the progressive test result, MSBTE result is taken into consideration.

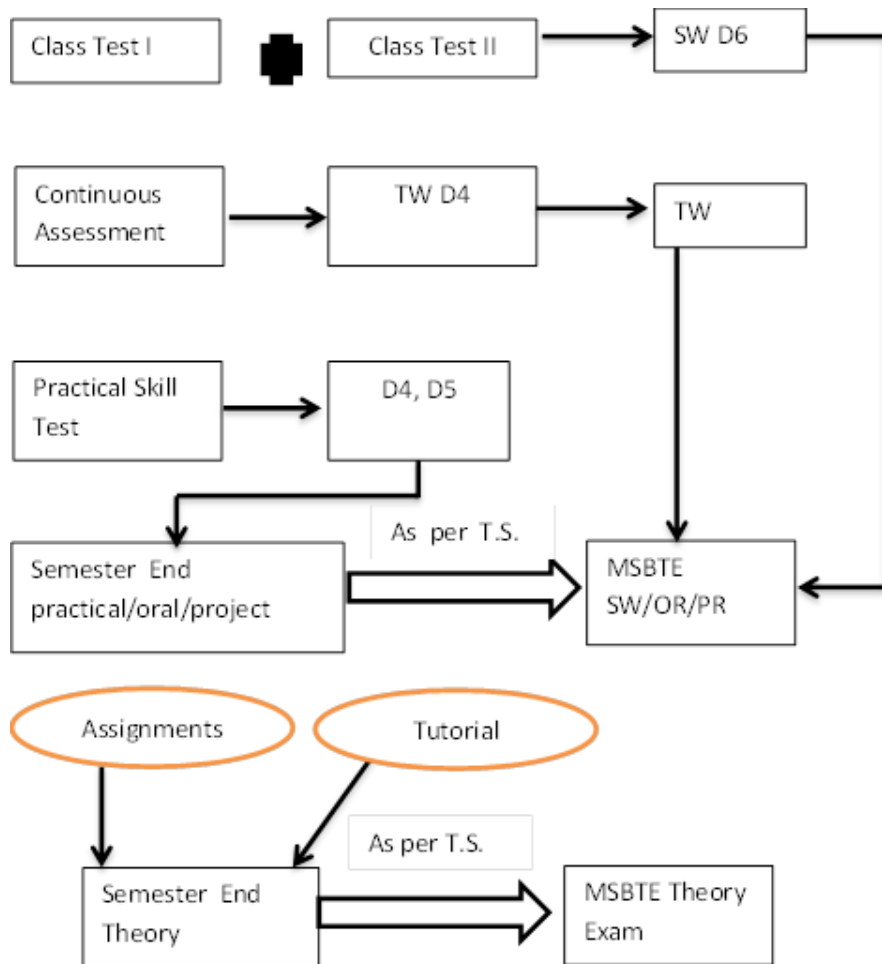

Progressive Tests

- Two progressive tests are conducted in each semester – one in the mid-semester and the other at the end of semester.
- MSBTE provides Teacher's guide for all subjects. It includes lecture wise topics to be covered and the portion to be completed before each progressive test. Teacher's guide is strictly followed.
- Teacher's guide also includes sample question papers as guide lines for setting question paper for progressive tests.
- Course outcome of the subject are taken into consideration while setting up the question paper.
- After paper assessment the attainment of course outcome is found by determining the number of students having met the set standard in the said subject.
- Based on the above calculation the attainment level is found.

MSBTE Exam

- MSBTE provides teaching scheme for every semester, which includes the components viz., Theory Exam, Practical/Oral exam and term work along with the maximum marks allotted for each component.
- The marks of the applicable components are added and attainment of course outcome is found by determining the number of students who have met the set standard in the said subject.

The direct attainment is calculated by taking into consideration the 20% of allotment level for class test and 80% of allotment for MSBTE exam.

3.2.2. Record the attainment of Course Outcomes of all courses with respect to set attainment levels (30)

Average marks selected by the Program = 40% of total mark to assess a course.

Justification: Program has set course outcome attainment level for all courses. To measure course outcome attained through board examination target level is stated as percentage of students getting more than the level selected by program. Program has continued to consider common average mark for academic years 2013-2014 and 2014-2015.

For the following table calculation of attainment level for three years has been done. It was observed that with the set standard of 40% the achieved level was higher than the target level.

Hence for the year 2015-16 the set standard was raised to 50%. With this standard, the target and achieved levels match.

Program defined attainment levels vs. target for Internal and Board Exams are,

Attainment Level	Target Level
Attainment Level 1	up to 50% students scoring more than average percentage marks
Attainment Level 2	51% to 60% students scoring more than average percentage marks
Attainment Level 3	61% to 70% students scoring more than average percentage marks
Attainment Level 4	71% 80% students scoring more than average percentage marks
Attainment Level 5	above 80% students scoring more than average percentage marks

3.3. Attainment of Program Outcomes & Program Specific Outcomes (40)

3.3.1. Describe assessment tools and processes used for assessing the attainment of each POs and PSOs as mentioned in Annexure 1 (10)

Assessment Tools

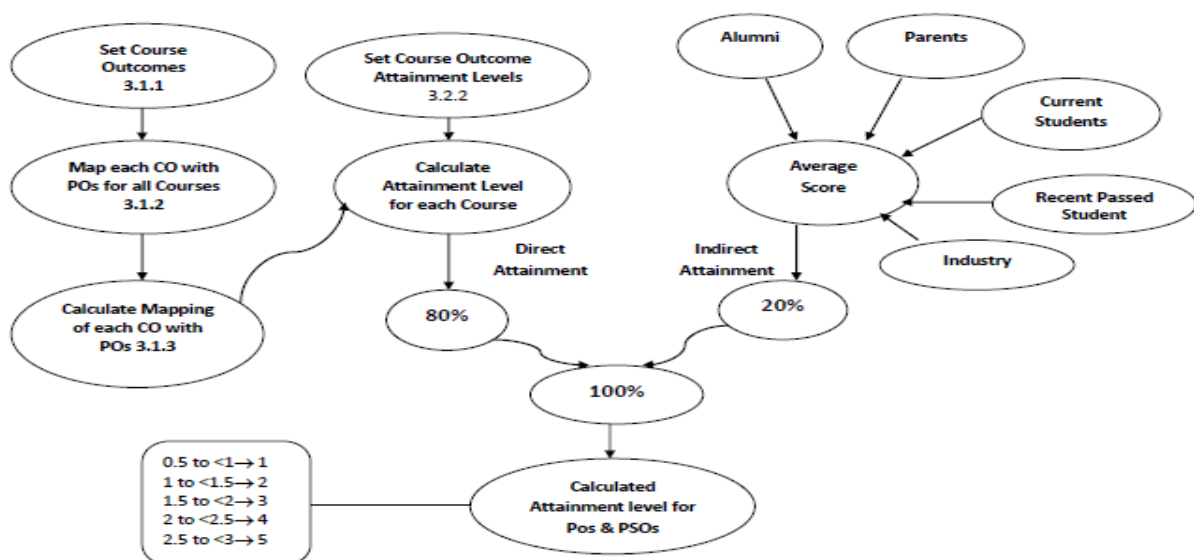

- The input to polytechnic education system is the students having 10+ qualifications.
- The MSBTE curriculum is revised every five years and is prepared taking the industry needs into consideration.
- An Industry survey is conducted on state level and feedback received is taken into consideration along with suggestions received from subject experts.
- Subject experts from various institutes are invited to prepare the content detailing of Theory and Laboratory work.
- Bloom's Revised Taxonomy is used while implementing the curriculum.
- MSBTE provides training to the faculty across the state of Maharashtra.
- The subject teacher identifies 5-6 course outcomes as given in Table 3.1.1 in the SAR.
- Course Outcomes are then mapped with the Program Outcomes & Program Specific Outcomes. Correlation levels are entered and the overall Course Outcome is calculated.

- All the Outcomes of various Courses are mapped with the POs and PSOs & correlation levels are entered in CO-PO/ CO-PSO Matrix.
- The Course Outcomes are measured for Progressive tests as well as MSBTE Board Examinations by setting standards and calculating the number of students scoring above the set standard. The Progressive tests and MSBTE Exam give Direct Attainment Level.
- 80% of the Direct Attainment levels are calculated.
- For Indirect Attainment, the average scores of the feedback taken from various stakeholders is taken.
- 20% of the score is considered for calculation of Attainment Levels.
- The Direct & Indirect attainment levels of POs& PSOs are added and Attainment Levels are calculated.

4.7. Professional Activities (20)

4.7.1. Professional societies / student chapters and organizing technical events (15)

ISTE Student Chapter:

The Indian Society for Technical Education is a national, professional, non-profit making Society registered under the Societies Registration Act 1860. In the year 1995, ISTE student and staff chapter of V.P.M.'s Polytechnic was incepted. Students become member of this chapter since their entry in institute. ISTE chapter is that umbrella of institute which shelters, cares for and motivates the students to use their creative minds and their boundless imagination in the best possible way. The young, energetic, enthusiastic ISTE-members have always made their mark wherever they set their foot. And the result is ISTE-ITNU has been awarded the "Best Students' Chapter Award" Six times.

5.6 Faculty Performance Appraisal and Development System (FPADS)**5.6.1 A well-defined system implemented for all the assessment years**

Polytechnic is following Performance Appraisal Development System with the following objectives

- Effective Teaching – Learning mechanism for each Course Theory and Practical.
- Ensure regular Teaching, Co-curricular and Extra-curricular activities.
- Faculty involvement for Guest lectures, Quiz, Technical Paper presentation, Project competitions and other Co-Curricular activities.
- Induction Training
- Content Updating Workshops
- Industrial Trainings
- Presenting Technical / Research papers in National and International Conferences.
- Publication of Journal Papers
- Guidance for Innovative, Application based projects
- Patents
- Specific Individual achievements

5.6.2 FPADS Implementation and Effectiveness

5.6.2.1 The Activity Flow Chart

5.6.2.1 Key Performance Indicators in the Self-Appraisal

- Teaching and practical load details of Curricular, Co-curricular responsibilities
- Course Result Analysis
- Trainings / Workshops Organized/attended
- Conferences / Guest lectures Organized/ attended
- Conference Papers presented
- Journal Papers/ Books published
- Membership of Professional bodies
- Awards, Innovative Projects
- Skill Upgrades
- Student feedback

The Appraisals are evaluated on 100 point scale and observations are conveyed to the respective staff members.

5.6.2.2 FPADS implementation and its Effectiveness:

The Self-Appraisal forms submitted by Individual staff members includes Academic and Personal contributions of the academic year. The system helps in faculty accountability and the effect is visible in the below listed aspects.

Faculty:

- Staff are made aware of their Role and Responsibilities.
- Teaching Plan with learning resources ready with every Teacher at the start of term.
- Inculcates Outcome Based Teaching Learning process culture.
- Motivation to participate in Content Updating as well as Industrial Training Activities.
- Facilitates participation of Teachers in Peer Reviewed Conferences.
- Encourages publication of Journal Papers.
- Participation of staff in MSBTE Curriculum Revision, Career Fair and other initiatives.
- Innovative practices in Teaching/learning, Use of ICT tools
- Motivating students for Co-curricular activities.

Institution:

- Better equipped and motivated human resource.
- Competent and Peer recognized faculty.
- Establishing credibility within the Student community and Society.
- Helps in achieving goals of the Organization.
- Establish State-Of-The-Art facilities.
- Ability to deal with the futuristic needs.

5.6.3 Qualification up-gradation of faculty:

For enriching academic performance and effectiveness Teaching and Support staff are regularly deputed to attend Certificate courses, Workshops, Content Updating Training Programme (CUTP), Industrial Trainings, Industrial Visits, Industry Sponsored Exhibitions and Conferences. Such events help the staff to remain updated for Curriculum Implementation.

- The **Institute ISTE Chapter** is very active and organizes many programmes for staff and students. The **V.P.M's Polytechnic ISTE Chapter** received **Best Chapter Award among Maharashtra and Goa Section during the Year 2009.**

- **National Conferences organized by V.P.M's Polytechnic, Thane**

In view of inviting Industrial experts and give opportunity for publication of Conference papers, the institute organizes National Conferences every year. The event is announced a year in advance and Proceedings of the same are published during the Conference. The event receives adequate sponsorship and participation support from external delegates and students.

The list of Conferences conducted in the last 3 years are as under.

5.7 Implementation of Career Advancement Scheme

The Career Advancement Scheme is implemented by following AICTE guidelines and individual performance, academic results, Publications and other KPI (5.6.2.1).

The Polytechnic encourages all the staff members to take part in Career Advancement to upgrade qualifications. This will enable them to improve the Classroom / Laboratory performance as well as competency levels. The staff members including support staff approach the HOD / Principal at the start of academic year with their interest for enrolment to

the PG / Advance Diploma programmes. The Academic load of such staff is adjusted to suit to their commitments. The list of faculty members who upgraded their qualification in the last 3 years is included in the table.

6.5. Laboratories: Maintenance and overall ambiance (10)

Computer Engineering Department Usage Policy

For use of computing facilities at Polytechnic Labs, student should strictly follow the following guidelines

- No Student should try to install any software on any machines within institute
- Access of face book, You Tube, Twitter and prohibited in punishable
- The institute machine is public machine and using it for confidential online transaction is an offence.
- Use of pen drives that may tamper important data in machine is an offence
- Only safe, secure, authentic & trusted web sites should be accessed

(Self-Explanatory)

- Maintaining record of utilization of resources.
- Timely update and upgrade software and hardware.
- Maintaining record of scrap.
- One Teaching faculty and lab assistant are in-charge of the overall maintenance of lab.
- Maintain student entry register.
- A dead stock register is maintained with all equipment details recorded timely.

- Issue register is maintained to record the issue details of equipment's/facilities in and out of the laboratories
- As per requirement minor repairs are carried out by the lab assistants and faculty members.

CRITERION 7	Continuous Improvements	75
--------------------	--------------------------------	-----------

7.1. Actions taken based on the results of evaluation of each of the POs & PSOs (25)

PO

POs	Target Level	Attainment Level	Observations
• PO1: Demonstrate the knowledge of mathematics, science and engineering.			
PO1	4	3	Students are weak in Mathematics. It is observed that they do not attempt complete question paper.
<p>Action1: Every weak additional lectureare allotted to solve problems in mathematics.</p> <p>Action2: Students are asked to write formulae repeatedly.</p> <p>Action3: For weak students remedial lectures are arranged after completion of syllabus.</p>			
• PO2: Demonstrate the ability to apply computer engineering – specific knowledge to solve core and applied engineering problems.			
PO2	5	4	It is found that students find it difficult to correlate theory with practical and interpret the results in hardware based subjects like Basic Electronics & Digital Techniques.
<p>Action 1: Subject teacher explains the students the relation between theory and practical.</p> <p>Action 2: For simple topics and experiments, the students are encouraged to explain the relation.</p>			
• PO3: Demonstrate the ability to design and conduct experiments, interpret and analyze data and report results.			
PO3	5	4	<p>The students are not able to link the connection between the software learnt with the needs of a live problem.</p> <p>It is also found that the students do not have domain knowledge of the problem.</p>
<p>Action: Students are given more exposure to live projects through the use of various applications and developing the code.</p>			

POs	Target Level	Attainment Level	Observations
PO4: Demonstrate the ability to model a live problem or a project that meets desired specifications and requirements using appropriate tools			
PO4	5	4	The students are not able to identify a tool that they can choose in a particular situation. They are not able to develop /debug the source code.
Action1: Students are made aware of different hardware and software tools that can be used. Action2: They are taught techniques available to test the codes.			
• PO5: Demonstrate the ability to understand the impact of engineering on society, health, safety and legal issues and incorporate them in engineering solutions.			
PO5	4	3	It is observed that students feel they are overburdened in diploma education as they are not able to manage resources effectively.
Action1: Guest Lectures are conducted on topics such as time / stress management. Action2: Different techniques are taught to students to effectively manage their time and studies. Action3: A well planned semester makes it easier for the students to complete their tasks in the given time.			
• PO6: Demonstrate the ability to judge the impact of engineering solutions on the environment to achieve sustainable development.			
PO6	5	4	New developments are taking place in the field of engineering, having great impact on environment.
Action 1: Students are made aware of various aspects of environmental damage that can happen as an impact of engineering solutions. Action 2: Students are also made aware of health hazards. Action 3: Students are encouraged to use recycling techniques and are taught composting techniques.			
• PO7: Demonstrate an understanding of their professional and ethical responsibilities in engineering field.			
PO7	4	3	Students tend to use materials created by others

POs	Target Level	Attainment Level	Observations
<p>Action 1: Students are encouraged to complete one month internship after completion of second and third year so as to make them understand their professional and ethical responsibilities.</p>			
<p>• PO8: Demonstrate the ability to function in multidisciplinary or diverse environment as a member or leader of the team.</p>			
PO8	4	3	Students get confused in multidisciplinary environment.
<p>Action 1: Students get to work in different environments such as Windows, Ubuntu/ Linux etc.</p> <p>Action 2: Students are taught about diverse environments in the curriculum.</p>			
<p>• PO9: Develop the ability to communicate effectively with both verbal and written fluency.</p>			
PO9	4	3	Majority of the students are from vernacular media. They are weak in communication.
<p>Action 1: Importance is given on improving the communication skills.</p> <p>Action 2: Activities such as group discussion, role play, Extempore etc. are conducted.</p> <p>Action 3: Students are encouraged to participate in activities such as technical paper presentation, group discussion etc.</p>			
<p>PO10: Develop the ability to engage in independent and lifelong learning to adapt technological change.</p>			
PO10	5	4	The field of Computer Engineering is forever changing field. For better career prospects, students need to keep learning about the latest developments.
<p>Action 1: Students are introduced to the latest developments in the Computer Engineering field.</p> <p>Action 2: Activities such as Spoken Tutorial are introduced to make self-learning interesting.</p>			
<p>PSOs</p>			
<p>PSO1: Identify problems and find solution in programming/Networking</p>			
PSO1	5	4	Due to lack of logical thinking, students are not

POs	Target Level	Attainment Level	Observations
			able to write correct programs. They also are not able to implement solution to a problem in networking
Action1:			
PSO2:Identify and use hardware and software tools.			
PSO2	5	4	Students are not able to choose correct hardware or software tools.
Action1: Students are made aware of use of different tools. Action 2: They are taught about handling different hardware or software and testing tools.			
PSO3:Test, Debug and troubleshoot the developed solution to the problem.			
PSO3	5	4	Students are not able to write correct programs in the paper. They are not able to attempt MCQs correctly.
Action1: Practice is given to students to develop, debug and test the programs. Action2: MCQ solving sessions are conducted at the end of each laboratory session.			
PSO4:Provide assistance to identify and solve problems at client site.			
PSO4	5	4	Because of weak knowledge about fundamental and advanced skills, students are not able to solve problems at client site.
Action 1: Students are taught the importance of fundamental knowledge. Action 2: Live problems are discussed with students so as to help them in solving problems at client site.			

7.2 Improvement in Success Index of students without backlog (10)

Items	LPB* (2015-16)	LPBm1 (2014-15)	LPBm2(2013-14)
Success Index (From 4.2.1)	0.54	0.58	0.52

Latest Passed out batch and m1 & m2 indicate Minus one year and Minus 2 years respectively

SI

$$= \frac{\text{No. of students who have passed from the program in the stipulated period of course duration}}{\text{No. of students admitted in first year of that batch and admitted in second year via lateral entry}}$$

Assessment shall be based on improvement trends in success indices. Marks are awarded accordingly.

7.3 Improvement in placement and higher studies (10)

Assessment is based on improvement in:

- Placements: Number, quality placement, core industry, pay packages etc.
- Higher studies: admissions in premier institutes

8.1 Mentoring system to help at Individual Level (10)

Polytechnic has an established Mentoring System to take care of the students for their Academic, Personality development and to make them best suited to the professional career. The admitted students are from different strata of the society and at times go through difficulties. Class teachers keep a close watch on individual student's behavior along with other mentors to check the need for assistance. Counseling is done at the personal level, through the Counselor appointed by the Institute to get the student back in to main stream learning and overcome problems faced. Motivational lectures are regularly held to maintain learning enthusiasm amongst students. Students groups are formed for studies to improve confidence and performance levels.

Type of Mentoring: Professional guidance/career advancement/course work specific/Laboratory specific/All-round.

Number of Faculty Mentors: 9 per Department

Number of students per Mentor: 20 per mentor

Frequency of Meeting: Monthly

- Each student division has two class teachers to plan and monitor Curricular, Co-curricular and Extra-curricular activities.
- Student attendance and Progressive test records are presented during the Parents meeting (twice in the term).
- Remedial/Paper solving sessions are conducted towards the end of term for improving academic performance.

- In case of students facing Concentration or Personality related problems they are guided to the Student-Counselor appointed by the Polytechnic.
- Every effort is made for all-round personality development of students enrolled for learning.

Mentoring System: A Proctor Diary is maintained for each student with following details.

- Personal Information
- Previous Record
- Academic Performance

Professional Guidance:

The departments are well equipped with knowledgeable Human resources in the form of members of faculty who by keeping themselves of developments offer guidance to the students in addition to the classroom teaching.

Theory:

The theory subjects are taught by the respective teachers with complete preparation of the subject. This includes teaching plan, notes, PPT/Transparencies, Question Banks, Assignments and Tutorials. Faculty refer standard textbooks as well as e-learning resources to enable effective learning amongst students. Additional inputs are obtained through Training/Content Updating Programmes attended by the teachers. Regular assignments after each Chapter, helps the students to understand and remember the expected concepts for necessary skills. The latest advances in the respective subjects are preferably covered through industry expert guest lectures.

Laboratory:

Diploma programmes Curriculum designed by MSBTE has about 40 % weightage to Theory subjects and 60% to the Practical. This approach is very much useful for skill development to acquire adequate expertise.

The Laboratories are well equipped to perform the experiments including additional ones designed by the Subject Teachers.

The list of experiments as per the curriculum needs are identified at the start of the Semester and the students are introduced to the laboratory.

The introduction of cycle of practical is provided before the conduct of experiments. Experiments are performed by a group of 2-3 students. The experimental results are verified and assessed on continuous basis.

Subject teachers design additional experiments/Mini projects for beyond the Curriculum coverage and complete understanding of the subject.

All-Round Development:

The Curriculum is developed by keeping in focus the overall Personality development for acquiring necessary skills. Each course has scope for Theory sessions, Practical, Assignments, Tutorials and Presentations by students. The subjects such as Communication skills, Development of Life Skills, Professional practices help the students to participate in curricular and co-curricular activities.

8.2 Feedback analysis and reward / corrective measures taken, if any (10)

Feedback collected for all courses: YES/NO

- Feedback is collected within few weeks into the Semester to permit adequate time to ensure improvement (if necessary) in performance of teachers.
- Feedback of all subject teachers is taken to monitor student's acceptance.
- Feedback Questionnaire is given and explained to the participating students.
- Collected Feedback Questionnaire is scrutinized by the Head of department.

- The feedback is quantified.
- All the parameters mentioned in the feedback form are analyzed.
- Teaching abilities with respect to each item and comprehensive ability of the teachers is analyzed. All the comments of the students in the feedback form are communicated to the respective faculty members along with their feedback score to know strengths / weaknesses and to improve teaching skills.
- The Indices obtained and areas for improvement are informed to subject teachers by respective HOD's.
- Feedback mechanism is focused to ensure best Teaching Learning practices.

The cell is formed to ensure fair treatment to Reserve Category staff and students. Institute's overall ambience is extremely fair for all stakeholders including students from economically weaker sections. Administration helps the students to fill scholarship forms and complete other documentation to entitle their learning at concessional fees. Students are properly informed about different scholarship schemes, deadlines etc. to avail the benefit.

- The Cell basically aims to uplift the morale of deprived section of students and staff.
- Ensure equal opportunities to all the students and staff irrespective of their background.
- Encourage and motivate through counseling and personality development programmes.
- The Cell is formed to deal with incidences (if any) and to report about individuals responsible for atrocities and suppression.

9.1.4. Delegation of Financial Powers (5)

The Institute prepares and approves Budget of the next financial year during Governing Body meeting. Head of the Institute implements the decisions taken in the Governing Body with approval from Management

The department budgets for Recurring/Non-Recurring/Maintenance activities are sanctioned by the Governing Body. Each department recommends the laboratory equipment and accessories for the year with justification. The department plans the budget as per curriculum and laboratory demands. The list of equipment's to be procured/experiments to set up as per

curriculum are finalized by the departments with tentative cost within the allocated budget. The purchasing is done through the co-operative society to ensure proper price, quality, after sales service.

9.1.5. Transparency and availability of correct/ unambiguous information in public domain (5)

Academic and Administrative Transparency:

The institute website www.vpmthane.org includes exhaustive information about Polytechnic as well as other sister institutions managed by the Trust. Various notices are regularly posted including the Annual Academic Calendar.

The Academic plan is prepared by all the departments before proceeding on Summer and Winter vacations for Odd and Even Semesters. Administrative procedures are explained to new recruits in the Induction training programme at the time of joining. Every staff member as well as student is informed about academic activities and their responsibilities on regular basis through meetings.

9.3.1. Adequacy of Budget allocation (7)

The expenses under various heads are allotted in the budget by referring to the earlier year Balance Sheet and proposed activity expenses. The procurement is done by considering specific requirement and its justified use as approved by the Governing Body. The budget is finally implemented by considering the actual fees income of the admitted students and the reimbursement of fees of Reserve and Economically Backward students from the concerned Authorities. The fees collected is progressively invested in the Bank as per expected monthly expenses such as Salaries, Operational Overheads, Recurring and Non-recurring and maintenance expenses as well as miscellaneous expenses. Certain expenses are rescheduled if the finds are delayed from the Authorities.

9.3.2. Utilization of allocated funds (8)

Every department utilizes their allocated budget as per the plan and need. All the essential requirements of the department are fulfilled for proper Academic activities

9.4. Library and Internet (20)

Apart from Central Library each department is having internal departmental library which is exclusively used by the faculty members. All computer systems are connected through LAN with the Internet facility.

9.4.1. Quality of learning resources (hard/soft) (10)

Library and Information Centre has a collection of over 24000 books. The library is fully computerized with **Open Access KOHA software**.

The Library facilities include

- Reading room with issue of text/reference books.
- Home issue of 1 book per students of First & Second year and 2 Books for Third year students.
- Book Bank facility to 400 + students every Semester. Free Book Bank sets are issued to all SC/ST and three top students of each division.
- The Library has subscription of National as well as International magazines in the relevant technological and general science areas.
- Membership for external readers including candidates appearing for competitive exams. Over 100 members register annually for this facility.
- Multimedia PCs are maintained for database and other resources access.
- The database repository DSpace is hosting the majority of research publications of the VPM Campus staff.
- Conference proceedings in the Hard and Digital copy form are available for download through our website.
- The centrally air-conditioned Reading room can accommodate over 128 students and separate area for staff research references.
- **Selected students are felicitated with Best Reader Award for their effective use of library resources throughout the year.**

(A) PROGRAM OUTCOMES (POs)

The students are expected to possess the attributes listed below

PO-1: Engineering knowledge: Demonstrate the knowledge of mathematics, science and engineering.

PO-2: Discipline knowledge: Demonstrate the ability to apply computer engineering – specific knowledge to solve core and applied engineering problems.

PO-3: Experiments and practice: Demonstrate the ability to design and conduct experiments, interpret and analyze data and report results.

PO-4: Engineering tools: Demonstrate the ability to model a live problem or a project that meets desired specifications and requirements using appropriate tools.

PO-5: The engineer and society: Demonstrate the ability to understand the impact of engineering on society, health, safety and legal issues and incorporate them in engineering solutions.

PO-6: Environment and sustainability: Demonstrate the ability to judge the impact of engineering solutions on the environment to achieve sustainable development.

PO-7: Ethics: Demonstrate an understanding of their professional and ethical responsibilities in engineering field.

PO-8: Individual and team work: Demonstrate the ability to function in multidisciplinary or diverse environment as a member or leader of the team.

PO-9: Communication: Develop the ability to communicate effectively with both verbal and written fluency.

PO-10: Life-long learning: Develop the ability to engage in independent and lifelong learning to adapt technological change.

(B) Programme Specific Outcomes (PSOs)

Computer Engineering Diploma holders will

PSO-1: Identify/analyze computer problems and find solution in programming &/or networking.

PSO-2: Select appropriate hardware and software tools to develop circuits/code/ programs.

PSO-3: Test, debug and troubleshoot the developed solution to the problem.

PSO-4: Provide assistance to identify and solve problems at client site.
