### 11) *WordPower140 Scan & Touch*

- designed with switch scanners in mind, though direct selectors with good vision and motor skills are also appropriate. The large number of cells makes communication fast and easy, with less page navigation required. The keyboard and word prediction cells are available on the main page for easy access. Common core words are embedded within the category pages to assist with bridging the gap between core and fringe vocabulary. Suggested SCAN SETTINGS are outlined on the GROUPS page.

### 12) *WordPower48- Español*

- meets the communication needs of a wide group of individuals in Spanish speaking cultures. The vocabulary includes easy to access basic communication for beginning communicators, as well as sophisticated language and grammar for individuals with advanced cognitive and linguistic abilities.

### 13) *WordPower48- Español Básico*

- designed with early language learners in mind, this vocabulary provides ample picture support and novel structures to facilitate expressive language development. Core vocabulary is embedded within the category and activity pages, allowing easy generation of language from the main core page as well as within topic-based pages. Core words remain consistent in terms of placement and access, providing a natural bridge between core and fringe words.

### 14) *WordPower60- Español Básico*

- vocabulary that is comparable in terms of content and design to English WordPower60 Basic vocabulary. It was designed with early language learners in mind, providing ample picture support and novel structures to facilitate expressive language development. Core vocabulary is embedded within the category and activity pages, allowing easy generation of language from the main core page as well as within topic-based pages. Core words remain consistent in terms of placement and access, providing a natural bridge between core and fringe words. Early literacy is enhanced through the use of pages designed around several popular children's books. A low-tech communication board is included within the vocabulary file that can be printed as an alternative communication support.

## What is WordPower?

*WordPower* software is an AAC vocabulary design for an augmentative/alternative communication device. *WordPower* combines the features of core vocabulary, spelling and word prediction. The system takes advantage of the fact that while we may have a normal speaking vocabulary of between 10,000 and 40,000 words, a core of just 100 words accounts for approximately 50 percent of words spoken. Kucera and Francis' 1967 study, which analyzed written language samples for word frequency, revealed the following:

- The top 10 words account for 24 percent of written text
- The top 50 words account for 41.2 percent of written text
- The top 100 words account for 48.1 percent of written text

The following is a sample of those frequently occurring words:

I	to	you	the	that	have
a	it	my	and	of	will
in	is	me	on	do	was

Words such as these are repeated over and over throughout our language. *WordPower* uses these 100+ core words in conjunction with spelling and word prediction. Word prediction systems have provided more and more advantages in the last few years including features such as grammatical prediction, frequency, recency, and the ability to easily add words.

*WordPower* was originally designed for an individual in need of an augmentative communication device based on words. A vocabulary based on pre-stored sentences would not meet his communication needs. Though he could see the advantage of a picture-based system with symbol sequencing, he did not want to learn the complex language coding system. At the same time, he wanted more than a system based on spelling and word prediction. *WordPower* provided him a fast and efficient language, with minimal time and effort required for learning the system.

The core words of *WordPower* are categorized, color-coded and alphabetized for easy access. The main semantic categories include:

Questions	Interjections	Pronouns
Negatives	Helping verbs	Verbs
Articles	Prepositions & conjunctions	Describing words
Indefinite pronouns	Time words	

## *WordPower Overlay Design*

*WordPower* was originally inspired by a man communicating with the green “Talking Board,” a word and letter based low-tech board (Ghora Khan Groto, Incorporated, 1988). This is a communication board consisting of high frequency words and spelling. The arrangement of the board is consistent with the Fitzgerald Key format and is laid out as follows:

Pronouns/ Articles/ Questions	Verbs	Prepositions/ Conjunctions
Alphabet		Adjectives/ Adverbs

The design of *WordPower* also used the Fitzgerald Key arrangement. The Fitzgerald format follows a left to right linguistic order. Question words and pronouns are positioned on the left of the display, followed by action words, and then descriptors (Fitzgerald, 1954).

The *WordPower* overlay was color coded according to the general guidelines set forth in the Picture Communication Symbols Book that indicated that people and personal pronouns should be coded with yellow, and verbs should be coded in green (Roxanna Mayer-Johnson, 1989).

*WordPower* is a word-based vocabulary program. Bruce Baker’s innovative work in the 1980’s demonstrated the effectiveness of word-based core vocabulary using grammatical and semantic codes (Bruce Baker, Words Strategy 1988). Baker showed that a generative and fluent language system was possible for the augmented communicator through the encoding of single words and phrases.

The word list used to construct the *WordPower* overlay was derived from a study completed in 1984 which looked at the five hundred most frequently occurring words in the language as produced by five adult AAC users (Beukelman, D., Yorkston, K., Poblete, M., and Naranjo, C. 1984).

With these practices in mind, the *WordPower* overlay was designed. The QWERTY keyboard was positioned at the top of the board so as to provide close proximity between the spelling board and the word prediction keys. The *WordPower* word list was then categorized, color-coded and alphabetized in order to facilitate efficiency and ease in locating the items.

### 3. Easy Access to Noun Categories in GRUPOS (word categories):

Mi bicicleta es azul. “My bicycle is blue.”	hint: Find “bicicleta” in VEHÍCULOS or JUGUETES, and from that page COLORES for “es azul.”
Quisiera ir a Hawaii. “I would like to go to Hawaii.”	hint: Choose “quiero” and then you’ll see “quisiera.” Find “Hawaii” in GEOGRAFÍA/EE.UU.
Mi mejor amigo es mi perro. “My best friend is my dog.”	hint: Choose “mejor” from DESCRIPCIONES, “amigo” from GENTE, and “perro” from ANIMALES.

### 4. Verb forms automatically agree with Pronouns selected:

**Example a) Main page verb “comer” (“to eat”)**

Yo como. “I eat.”
Tú comes. (tú is the informal form of “you”) “You eat.”
Usted come. (usted is the formal form of “you”) “You eat.” (hint: find <u>usted</u> in GENTE)
Él come. “He eats.” (hint: find <u>él</u> in GENTE)
Nosotros comemos. “We eat.” (hint: find <u>nosotros</u> in GENTE)
Ellos comen. “They eat.” (hint: find <u>ellos</u> in GENTE)

Vosotros coméis. (vosotros is an informal form of plural “you,” primarily used in Spain)  
“You eat.” (hint: find vosotros in GENTE)

Note: \*\*When you select ACCIONES and ACCIONES A-Z from the main page, the verb forms appear in the “present indicative” form (agrees with the él/ella/usted pronoun forms).

**Example b) First page of ACCIONES “hablar” (“to speak”)**

Yo hablo.  
“I speak.”

Tú hablas.  
“You speak.”

Él habla inglés.  
“He speaks English.”

Nosotros hablamos español.  
“We speak Spanish.”

Ellos hablan inglés y español.  
“They speak English and Spanish.”

**Example c) Second page of ACCIONES “bailar” (“to dance”)**  
(hint: navigate using the arrow in bottom right of screen)

Yo bailo.  
“I dance.”

Tú bailas.  
“You dance.”

Él baila.  
“He dances.”

Nosotros bailamos.  
“We dance.”

Ellos bailan.  
“They dance.”

**Example d) ACCIONES A-Z** (hint: select the pronoun and then the “ACCIONES A-Z” link)

Yo conduzco.  
“I drive.”

Tú gastas un poco de dinero. (hint: find “dinero” in GRUPOS>DINERO)  
“You spend a lot of money.”

Nosotros peleamos.  
“We fight.”

Ellos disfrutan.  
“They enjoy.”

**Notice there is an additional option with ACCIONES A-Z. In addition to choosing the pronoun on the main page and navigating to ACCIONES A-Z, once inside ACCIONES A-Z page you may select the pronoun on the left in yellow, and the verb forms change accordingly.**

In your practice so far, you have probably noticed that the pronouns are not spoken when selected. In Spanish, subject pronouns typically are not necessary and are therefore often not spoken, as the verb form itself conveys the pronoun information. For example:

**Hablo español.** (Yo is not necessary.)

*I speak Spanish.*

**Comemos carne.** (Nosotros is not necessary.)

*We eat meat.*

**Vives en México.** (Tú is not necessary.)

*You live in Mexico.*

\*\*Using “**WordPower48 Español,**” you can speak the pronoun for emphasis or clarity by selecting the underlined version of the pronoun that appears after the pronoun is selected.

## Verb forms included in WordPower48 Español:

Present tense

Preterite (past tense)

Imperfect (was verbing)

Conditional (would verb)

Future (will verb)

Infinitive (to + verb)

Present participle (-ing)

Present/past perfect (passive)

### 6. Verb forms appear in correct format automatically by context:

#### Example a) quiero ("I want") + infinitives

Quiero comer. "I want to eat."	Quiero trabajar. "I want to work."	Quiero ayudar. "I want to help."
-----------------------------------	---------------------------------------	-------------------------------------

#### Example b) Yo estoy ("I am") + present participle

(yo) Estoy tomando. "I'm drinking."	(yo) Estoy jugando. "I'm playing."	(yo) Estoy esperando. "I'm waiting."
--	---------------------------------------	---

#### Example c) Yo voy a ("I am going") + infinitives

(yo) Voy a (ACCIONES) leer. "I'm going to read."	(yo) Voy a jugar. "I'm going to play."	(yo) Voy a comer. "I'm going to eat."
---	---	--

(yo) Voy a (ACCIONES) comprarlo. (comprar + lo + ←lo). "I'm going to buy it."
--

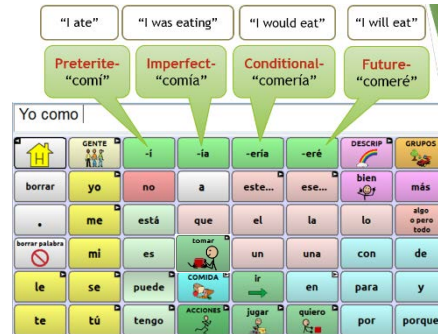

#### Example d) Yo he ("I have") + passive verb

(yo) He visto eso. "I have seen that."	*Note the words found after selecting buttons "este. . ." and "ese. . ." correspond to "this," "that," "these" and "those."
---	---

(yo) He regresado. "I have returned."	(yo) He terminado. "I have finished."	(yo) He ayudado "I have helped."
--	--	-------------------------------------

7. To access other verb tenses, select the pronoun and present tense of the verb. The preterite, imperfect, conditional and future tense forms appear on the top row.

a) Preterite (“past tense”)

Tú trabajaste bien. (hint: trabajas + -aste = trabajaste)  
 “You worked well.”

(GENTE) Ustedes me ayudaron mucho. (hint: ayudan + -aran = ayudaron; look for mucho in DESCRIP)  
 “You (plural) helped me a lot.”

b) Imperfect Tense (“was verbing”)

Él llevaba una camisa roja. (hint: lleva + -aba = llevaba; look for camisa roja in ROPA)  
 “He was wearing a red shirt.”

Ella necesitaba más dinero. (hint: necesita + -aba = necesitaba)  
 “She was needing more money.”

c) Conditional Tense (“would verb”)

Yo iría contigo (con + -tigo). (hint: voy + iría = iría)  
 “I would go with you.”

Tú comprarías un auto blanco (hint: compras + -arías = comprarías; find auto blanco in VEHÍCULOS)  
 “You would buy a white car.”

d) Future Tense (“will verb”)

(GENTE) Nosotros trabajaremos (TIEMPO) mañana. (hint: trabajamos + -aremos = trabajaremos)  
 “We will work tomorrow.”

Yo compraré un iPad. (hint: compro + -aré = compraré)  
 “I will buy an iPad.”

## 8. Masculine/feminine nouns agree with Adjectives:

In Spanish, adjectives must match the noun in terms of number and gender. This is done automatically when choosing a color to modify a noun in categories such as ANIMALES (*animals*), VEHÍCULOS (*vehicles*), and ROPA (*clothes*). \*\*Notice that the gender and number of the color changes automatically to agree with the nouns, and that the noun is positioned before the adjective.

El caballo negro "The black horse"	La gata negra "The black cat"	(ANIMALES)
La blusa roja "The red blouse"	El abrigo rojo "The red coat"	(ROPA)
Un avión amarillo "A yellow plane"	Una camioneta amarilla "A yellow truck"	(VEHÍCULOS)
Las gatas blancas "The white cats"	Los pájaros blancos "The white birds"	(ANIMALES)

## 9. Plural fun!

In Spanish as in English, plural markers can be final –s or final –es depending upon the final letter of the noun. With two or three word noun concepts, the plural marker is typically on the first word.

For example:

conductor de autobus ("bus driver") → conductores de autobuses;  
cuidador del zoológico ("zoo keeper") → cuidadores del zoológico  
programador de computadores ("computer programmer") → programador de computadores

Me gusta mi <u>s</u> conductores de autobuses. "I like my bus drivers." Hint: mi → mis	Yo trabajo con mi <u>s</u> terapeutas ocupacionales. "I work with my occupational therapists." Hint: mi → mis
--	---

## 10. Logical Next Words:

(yo) estoy <u>listo</u> . (masc) "I am ready."	(yo) estoy <u>lista</u> . (fem) "I am ready."	(yo) no estoy <u>listo</u> . (m) "I am not ready."	(yo) no estoy <u>lista</u> . (f) "I am not ready."
Yo necesito <u>ayuda</u> . "I need help."	Yo necesito un poco de <u>dinero</u> . "I need a little money."	**Note logical next words in yellow

No <u>hay</u> . "There is none."	No <u>hay nada</u> . "There is nothing."		
Mi <u>turno</u> . "My turn."	Su <u>turno</u> . "Your turn."		

## 11. Preguntas (Questions):

In Spanish, the proper punctuation for questions is an upside down question mark (¿) at the beginning of the sentence and a regular question mark (?) at the end. The blue (¿) capitalizes words such as *que* (*what*), *dónde* (*where*), *por qué* (*why*), *cuánto* (*how much*), etc., and the PREGUNTAS page remains **open**.

¿Qué vamos a comer? "What are we going to eat?"	¿De dónde es usted? "Where are you from?" (literally – From where are you?)
¿Quiénes van? "Who (plural) is going?"	¿Adónde fue mamá? "Where did Mom go?"

## 9. Masculine/feminine nouns agree with Adjectives:

In Spanish, adjectives must match the noun in terms of number and gender. This is done automatically when choosing a color to modify a noun in categories such as ANIMALES (*animals*), VEHÍCULOS (*vehicles*), and ROPA (*clothes*). \*\*Notice that the gender and number of the color changes automatically to agree with the nouns, and that the noun is positioned before the adjective.

El perro negro "The black dog"	La gata negra "The black cat"	(ANIMALES - MASCOTAS)
Las gatas blancas "The white cats"	Los pájaros blancos "The white birds"	
La blusa roja "The red blouse"	El calzoncillo rojo "The red underwear"	(ROPA)
Un avión amarillo "A yellow plane"	Una camioneta amarilla "A yellow truck"	(VEHÍCULOS)

## 10. Plural fun!

In Spanish as in English, plural markers can be final -s or final -es depending upon the final letter of the noun. \*\*\*After selecting a noun, look for "-s" in the left column.

- Try pluralizing these words: "pez" (*fish*), "libro" (*book*), "dólar" (*dollar*)

With two or three word noun concepts, the plural marker is typically on the first word. Choose the **TRABAJOS** category for the following examples:

colector de basura ("trash collector") → colectores de basura;  
cuidador del zoológico ("zoo keeper") → cuidadores del zoológico;  
programador de computadoras ("computer programmer") → programadores de computadoras.

Me gusta jugadores de béisbol.	"I like baseball players."
--------------------------------	----------------------------

## 11. Logical Next Words:

Yo estoy <u>listo</u> . (masc) "I am ready."	Yo estoy <u>lista</u> . (fem) "I am ready."	Yo no estoy <u>listo</u> . (m) "I am not ready."	Yo no estoy <u>lista</u> . (f) "I am not ready."

## 12. PREGUNTAS (Questions):

¿Qué vamos a comer? "What are we going to eat?"	¿De dónde es usted? "Where are you from?" (literally – From where are you?)

## Selection of verbs that appear on the main page

Why do the core verbs on the main page appear in different forms (i.e. infinitives, imperatives, and first person) on the **WordPower-60 Básico Español** file? These high frequency verb forms were selected because of their usefulness as *sentence starters*. For example:

- 1) **(vámonos)** means “let’s go,” a high frequency Spanish word. If another form of the word “go” is needed, one chooses a pronoun, and the proper form of the verb will be generated automatically.

For example:

- a. “Yo voy” (I go)
- b. “Ella va” (She goes)
- c. “Ellos van” (They go)
- d. etc.

- 2) **(tengo)** means “I have.” When this word is selected, logical next words appear that allow the user to say the English equivalents of “I’m hungry,” (literally, I have hunger), “I’m thirsty,” “I’m cold,” “I’m scared,” etc.

- 3) **(ayuda)** means “help.” The imperative mood was chosen to make it easy for the user to ask someone for help. The user can select “ayuda” followed by “me” to generate the phrase “ayúdame” - (help me).

- 4) **(quiero)** means “I want.” After selecting this word, all verbs on the page automatically convert to the infinitive form, so that one can easily say the equivalent of, “I want to eat...,” “I want to take...,” “I want to come...,” etc.

## Why does the word “ya” appear on the main page?

“Ya” is a high frequency word in spoken Spanish dialogue. When you first learn about “ya” it’s pretty straightforward. It means “already,” as in:

I already ate breakfast.      Ya comí desayuno.

But “ya” also shows up in a number of other contexts where “already” just doesn’t fit well ...

## Here are some examples to demonstrate the many uses for the word “ya:”

Ya está listo.	It’s ready.
(Yo) vengo ya.	I’m coming right now.
¡Ya!	Enough!
	(You can use ¡Ya! when people are bothering you, or as a way to indicate “enough” when someone is pouring you a drink.)

- **Expression of frustration or exclamation**

(FRASES) ¡Basta ya!	Enough already!
¡Ya está!	That’s it!
¡Ya está bien!	That’s plenty!

- **Now; right now**

Ya está aquí.	He/she is here now.
Vente ya.	Come now.
Lo quiero ya.	I want it right now.

- **Anymore**

Ya no tengo frío.	I’m not cold anymore.
Ya no me duele.	It doesn’t hurt anymore

- **Added emphasis**

Ya puedo ver <u>lo</u> .	I can see it now.
Ya lo sé.	I know!

- **Yet**

Ya está listo?	Is he ready yet?

**GROUPS page English**

Core vocabulary is incorporated into the category pages in order to facilitate easy generation of language.

**GRUPOS page Español**

Now, users can generate simple sentences and questions beginning with the main page, or from within a category. Motor patterns remain consistent between the main pages and the categories.

Students benefit from core language availability within categories because there is less navigation required and fewer keystrokes needed to generate language. Clinicians and families also benefit.
